Checks in Gaelic.

A little plaint from a bank clerk. Lately, he says, there have been checks circulating in this country printed in Gaelic script. Naturally, they are Irish ones, and probably drawn by enthusiastic Sinn Féiners. But what can be the object of introducing another terror to the already worried and overworked bank clerk upon whom falls the task of obtaining a translation? And the Irish check is not the only sinner in this respect. For a long time the Esperantists wrote the amount of their checks in Esperanto and became a nuisance to the banks.—London Chronicle.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should see that even the worst freckles have begun to disappear, while the lighter ones have vanished as if by magic. It is so simple that even a child can be taught to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Pen Extractor.

A pen extractor installed in an office will save all members of the force the tucky operation of removing an old pen from the holder with the fingers. The device consists of a metal loop which can be pressed down upon the pen so firmly that the pen is removed by a pull on the holder.

INCREASE IN WESTERN CANADA LAND VALUES

But Forty and Fifty Bushels of Wheat to the Acre.

During the past year there has been a greater demand for farm lands in Western Canada than for a number of years past. The demand is for good farm lands improved or unimproved. And at an increase of from ten to fifteen dollars an acre more than the same lands could be had for a couple of years ago.

The rise in the price of every kind of produce grown on these Western lands, in some cases to double and in others to treble the price prevailing before 1914, have attracted and are attracting in ever-increasing proportions the men who are anxious to invest their money, and apply their energies in the production of wheat for which the allied nations are calling with voices which grow louder and more anxious as the months roll on, and the end of the war still seems distant. Beef, and more especially bacon, are required in ever greater quantities, and the price of all these things has soared, until it is not a question of what shall we produce, but how much can we produce. Even should this world calamity be brought to a close in six months from now, it will be years before normal pre-war prices prevail, and meantime self-interest if not patriotism is turning the minds of thousands back to the land. The inevitable consequence has been the rise in value of land, especially wheat land.

The Calgary Herald, commenting on these conditions says: "From inquiries made from leading dealers in farming and ranching properties, and from the information gathered in other ways, it is known that the value of all land—wheat land, mixed farming properties and even good grazing land—has risen in the last two years 40 per cent. Wheat lands in some districts have practically doubled in price. One dealer in farm lands recently sold three sections for \$70 an acre, one extra good quarter went as high as \$90, and another brought \$100. These are, of course, large prices, but that they will be equalled or even surpassed in the near future is beyond question. There is a feature about this rush to the land from which the most solid hope can be drawn for the success of the movement. The proper tillage of land, to produce large crops in a climate like ours is now understood and practiced as it never was in the early days of the province. It would seem too that with the increase of land under cultivation, the seasons are changing and the rainfall becoming greater and more regular.

"Crops are being harvested, especially in Southern Alberta, which would have seemed impossible to the old-time farmer, with his old-fashioned ideas of breaking and seeding. And at the price now set by the government for wheat and which possibly may be increased during the coming season, the return to the practical skilled agriculturist must necessarily be very large. "What matters \$10 or even \$20 an acre extra on wheat land when a return as high as 50 bushels and even more may be taken from every acre sown? With hogs bringing \$20 a hundred pounds; beef on the hoof at \$12, and mutton \$16, while wool under the new government arranged system of handling and sale brings 65 cents a pound (and these values cannot fall to any great extent for some years) the demand for land will continue and values increase in a corresponding degree.

"There has never been in the history of Canada, a time so favorable for the farmer as the present; self-interest, the inspiration of patriotic feeling, the aid freely extended by the government, who are permitting the import of certain agricultural implements free, all these tend to still further raise the price of Alberta land."—Advertisement.

HIGHER PAY TO RAILROAD MEN

Nearly Two Million Employees Are Affected by Ruling of Director General

BACK WAGES COMING TO ALL

Increases Effective At Once, and Cover Time From Beginning of the Year—Basic Eight Hour Day Is Recognized.

Washington, D. C.—General pay increases for nearly two million railroad employees were announced by Director General McAdoo, effective Saturday and retroactive to last January 1, carrying out substantially recommendations of the railroad wage commission. The aggregate of the increases probably will be more than \$300,000,000 a year, half of which will be distributed within a few weeks as back pay in lump sums ranging from about \$100 to nearly \$200 each.

The director general departed from the wage commission's recommendations in some particulars.

The principle of the basic eight-hour day is recognized, but owing to exigencies of the war situation, hours of employment are not actually reduced and overtime is to be paid pro rata; future adjustments of pay are to be made on the basis of eight hours. In addition to the ordinary scale of increase, day laborers, employed mainly on track work, are to get at least 2½ cents an hour more than they received last December 31.

A minimum of 55 cents an hour is established for the shop trades, including machinists, boilermakers and blacksmiths.

Women are to receive the same pay as men for the same work, and Negroes are to get the same as white men for similar employment.

HEAVY RETURNS FOR RED CROSS

Second Call for Mercy Fund Meets Hearty Response.

Washington.—With the American Red Cross second \$100,000,000 war mercy fund already over-subscribed by \$12,097,304, officials Saturday were getting no limit to the outpouring of dollars on the closing day of the drive. That the daily average of something more than \$18,000,000 would be far exceeded, they had no doubt.

On the face of returns at headquarters here, 11 of the 14 divisions had over-subscribed, with the gulf leading the home divisions in percentage with 210, but the foreign topping them all with 300. The three divisions which had not attained their quotas were expected to go over the top.

Peruvian Ships Released.

Lima, Peru.—The government has authorized the sailing of Peruvian vessels to foreign ports. On May 11 the government prohibited the sailing of Peruvian merchant ships outside of North, Central or South American water without special permits.

Kerensky Not On Ship.

An Atlantic Port.—Reports that Alexander F. Kerensky, former premier of Russia, was on his way to the United States on a Danish steamer, which sailed from Christiania recently, were proven groundless when the ship arrived here.

Prominent Woman Dies.

Pittsburgh, Pa.—Mrs. Elizabeth McCullough Darlington, prominent society leader and charitable worker of Pittsburgh and widow of Harry Darlington, who died in 1914, died at her home, Irwin avenue, North Side. Though Mrs. Darlington had been in failing health for several months, her death was entirely unexpected. Her only living child, Harry Darlington, Jr., a second lieutenant in the Thirty-fifth Engineers, is with Pershing's forces in France.

Excels All Armies of Past.

Washington.—No army ever before assembled in history has had more painstaking thought given to the protection and stimulation of its mental, moral and physical manhood than the new American army, President Wilson declared in a statement made public here by the commission on training camp activities.

Packers Blamed for Bad Meat.

Washington.—Two big packing concerns, Morris & Company and Wilson & Company, have been served with complaints by the federal trade commission, calling upon them to answer charges that their representatives "sold and offered to sell" meat and other food products "unfit for human consumption" to the government for use of the soldiers at Camp Travis, Texas.

Congress to Stay at Work.

Washington.—Dissatisfied but resigned, Congress is prepared to revise its legislative program and abandon plans for adjournment in July. President Wilson is expected to state formally in a few days why revenue legislation before the December session is regarded as imperative. Since the Democratic and Republican leaders failed to agree on plans proposed by the President for a special session the work of forming a new tax bill will proceed at once unless there is some unexpected development.

A Word of Precaution.

JUST wherein lies the reason for the use of vegetable preparations for infants and children?

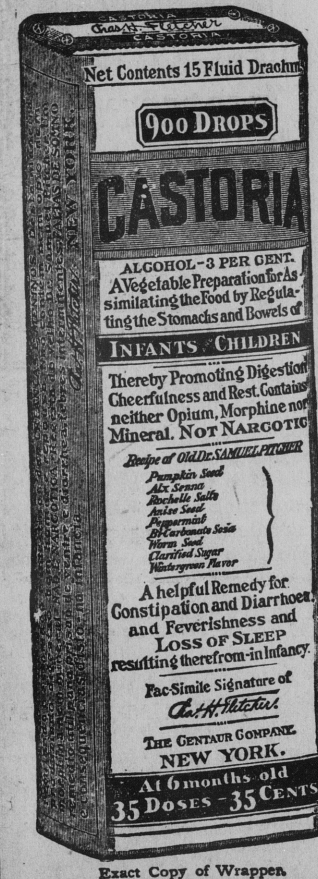

Why are any but vegetable preparations unsafe for infants and children?

Why are Syrups, Cordials and Drops condemned by all Physicians and most laymen?

Why has the Government placed a ban on all preparations containing, among other poisonous drugs, Opium in its variously prepared forms and pleasing tastes, and under its innumerable names?

These are questions that every Mother will do well to inquire about.

Any Physician will recommend the keeping of Fletcher's Castoria in the house for the common ailments of infants and children.

Children Cry For Fletcher's CASTORIA

Letters from Prominent Druggists addressed to Chas. H. Fletcher.

S. J. Briggs & Co., of Providence, R. I., say: "We have sold Fletcher's Castoria in our three stores for the past twenty years and consider it one of the best preparations on the market."

Mansur Drug Co., of St. Paul, Minn., says: "We are not in the habit of recommending proprietary medicines, but we never hesitate to say a good word for Castoria. It is a medical success."

Hegeman & Co., of New York City, N. Y., say: "We can say for your Castoria that it is one of the best selling preparations in our stores. That is conclusive evidence that it is satisfactory to the users."

W. H. Chapman, of Montreal, Que., says: "I have sold Fletcher's Castoria for many years and have yet to hear of one word other than praise of its virtues. I look upon your preparation as one of the few so called patent medicines having merit and unhesitatingly recommend it as a safe household remedy."
