Driving It Home!

Let us drive home to you the fact that no washwoman can wash clothes in as sanitary a manner as that in which the work is done at our laundry. We use much more water, change the water many more times, use purer and more costly soap, and keep all the clothes in constant motion during the entire process.

It is simply a matter of having proper facilities.

Blackfield 7, South Side 9.

South Side won an interesting game from Blackfield, Friday evening by the score of 9 to 7. The game was marked by heavy slugfests, and South Side had to use two pitchers to turn the trick on their aggressive opponents. In the last half of the ninth the score stood tie at 7 to 7, when the South Side boys came to bat. Zimmerman was first up, and he got to first on an error. Edwards sacrificed, advancing "Zimmerman" to second. C. Boden then made a safe bingle for one base, and advanced the man on second down to third. He stole second on the first pitch of Miller to Watkins. One man was down, and two on bases; then came Lohr's clean hit over second, scoring Zimmerman with the deciding run, and as Blackfield threw down their gloves and the game was over, Boden also scored. His score was not necessary, but is counted in the following score of the contest:

Blackfield	A.B.	R.	H.
J. Walters, lf	6	2	2
Rubright, cf	6	1	4
Crosby, 3b	6	1	4
L. Miller, p	6	0	1

Standing of the Clubs.

With Ajax dropped from the League and Blackfield, which team took their place in the race, refusing to take their percentage, a little change in the percentage of other clubs which had games with Ajax has resulted. The South Side club, which had won a game from Ajax, is credited with one less game won than they actually have won, while Enterprise, which Ajax had defeated in the opening game of the season, is credited with losing one game less than they actually have lost. This may not be a deciding factor in the standing of the clubs at the close of the season but if it should be there is evidently going to be an interesting debate result. The Commercial correspondent is supplying the information of the standing of the clubs just as it is furnished by representatives of the League, and in a perfectly disinterested manner. It is as follows:

	W.	L.	Pct.
Southside	3	1	.750
Ponfeigh	2	1	.667
Enterprise	1	2	.333
Blackfield	0	2	.000

JOHNSTOWN

Sells the Champion Cream Saver

THE NEW DE LAVAL

THE worth of a separator depends very largely upon its bowl. A separator bowl must be scientifically designed, properly constructed and perfectly balanced or it will not only lose some cream to begin with, but will soon get out of balance and lose a great deal more cream, besides wearing out the bearings and gears in a short time. That is why the average life of a cheap separator is only two or three years.

The bowl of the NEW De Laval is self-centering

The new De Laval bowl is so constructed and so balanced upon its detached spindle that it will run true and do perfect work even after the machine has been in use for a long time.

The De Laval bowl has always been noted for its close skimming under all conditions, but the new De Laval patented milk-distributing device, together with the larger discs, makes the new De Laval bowl an even closer skimmer than the old one and gives considerably greater capacity into the bargain.

The new De Laval bowl has been called by people who ought to know, "the greatest improvement in cream separator construction in the last thirty years."

Come in and see one of the new machines. We'll be glad to explain it to you in all its details, and we know you will be interested in examining the new bowl, the bell speed-indicator, and many other improvements.
