

Country Valley Notes

Church services that were held in the Reformed Church last week were well attended in spite of the bad weather and bad roads. We hope that services held in other churches may also be well attended.

Mrs. G. H. Cook and son, Harry, with his son, Junior, were visiting relatives in Johnstown, over the week end. Mrs. Homer Knisley is still visiting relatives in this place.

Mrs. Cora Leydig and son, Carl, of Cumberland, visited in this place a few days.

Mrs. Alfred Wilmoth and children, Anna Mary, Jack and Henry, were visiting Mrs. Wilmoth's mother, Mrs. Anna Webreck, for a few days. Mrs. Wilmoth is preparing to move to Texas, where her husband is employed.

Lloyd Cook who is employed at Cumberland, visited at his home, Sunday.

Mrs. J. K. Kessler, Friday, April 12, she was the sister of Chase, B. and Samuel Bittner, of Glencoe. Mrs. Clyde Cook, Mrs. Francis Smith, of Johnstown, Mrs. Alice Engle, of Meyersdale, and Mrs. Tillie Nuffire, also Miss Ida Bittner, of Johnstown. She was liked by every one who knew her. She was subject to asthma.

F. M. Raupach went to Meyersdale last week and brought home a new Whippet. We'll all hang around now for a ride.

School will soon be passed, only one more week. Then you can hear the whoops and yells that the kids are free again.

Communion services Sunday, were quite well attended.

Sunday School next Sunday, at 10:00 o'clock.

House cleaning time is here. When you and I have seen, That it is almost near The time to start to clean.

BOSWELL NEWS

The second serious accident to occur within a month on the State highway between Boswell and Ferrellton happened Sunday evening when a pedestrian was struck by a car and fatally injured. Just about four weeks ago another pedestrian was struck and seriously injured. The local Chamber of Commerce recently requested the authorities to make some provision for a shale walk at the side of this dangerous and much used section of road, there being no space for pedestrians to use other than to walk on the improved portion at most points along this road. Such a step would be in the interest of public safety and would greatly add to the convenience of the hundreds who walk between here and Ferrellton daily.

J. C. Oswalt, Bill Williams and Sam Watkins were Thursday evening visitors to Rockwood.

C. R. Sprowls and family motored to Cumberland Sunday.

D. J. Williams and family recently visited relatives in Berlin.

R. F. Landis and family visited Meyersdale relatives and friends Sunday.

R. R. Straub and family visited in Somerset Sunday.

Mr. and Mrs. Thomas Kirby, of Johnstown, visited in Boswell Sunday.

E. C. Arisman and family were Sunday visitors to Acosta.

Mrs. A. W. Hoffert received a bad injury to her right arm when she was attacked by a vicious dog recently. The injured member is yielding nicely to medical treatment and will no doubt be soon in normal condition again.

Peter Adams and family motored to Latrobe Sunday.

J. J. Hemminger, of Johnstown, was a recent visitor at his home here.

F. L. Ferrell was a recent business visitor to Johnstown.

L. L. Ober, of Latrobe, was visiting his family here Sunday.

C. F. Enoch and family, of Meyersdale, visited in Boswell Sunday.

John Martin and Comfrey Ickes were business callers to Somerset Tuesday.

The advance sale of tickets for the annual Odd Fellows banquet to be held April 26th at the White Star Hotel indicate a record attendance.

Squire John Kircher was a business caller in Somerset Friday.

Herbert Volk and Howard Dear-dorff report a nice catch the first day of trout season which they spent near Somerfield.

VIM

Mr. and Mrs. John Schrader and children, of Somerset, spent last Sunday at the home of the former's parents, Mr. and Mrs. Charles Schrader.

Mrs. M. A. Fike and daughter, Lucille, accompanied Mr. and Mrs. Rufus Dressler to Scalp Level last Sunday, to visit

the former's daughters, Misses Grace and Margaret Fike.

Mrs. Frank Lowery and Mrs. Harry Rosenberger, of Meyersdale, spent last Sunday afternoon at the home of Mrs. Emma Walker.

Ray Fike who is employed at Samuel Saylor's, north of Meyersdale, spent last Sunday at the home of his parents, Mr. and Mrs. Bruce Fike.

Mrs. Wilson Ringler entertained a quilting party at her home last Wednesday.

John Wagner, of Akron, Ohio, spent last Sunday at the home of Mr. and Mrs. William Engle.

Richard Nicholson, of Pleasant Hill, spent last Thursday afternoon at the home of his brother, W. W. Nicholson.

Two of our school rooms, viz: Frank Fike's and Miss Amanda Miller's rooms closed on Wednesday of this week.

Miss Emma Meyers spent last Sunday at Rockwood.

John Suder and son, Pete, left Tuesday of last week, for New York, to seek employment.

WEEKLY HEALTH TALK

"It is quite true and equally as true that familiarity breeds contempt. However, when contempt takes a toll of 40,000 lives annually

in the United States, when it results in many tubercular infections and when it causes thousands of infant deaths from diarrhea it is time to consider the wisdom of such an attitude," said Dr. Theodore B. Appel, Secretary of Health, today.

"Because it has always been around and because it does not sting are no good reasons for tolerating the fly. Yet one's familiarity with this pest is the biggest reason for the general attitude of indifference exhibited toward it.

"True, much progress has been made against this disease breeding insect. Screening the house, and a sanitary consciousness particularly in urban sections, as well as swat-the-fly campaigns have done much to limit the fly's disease and death dealing power. However, one has but to step out doors, even in the cities, to realize that this general enemy of mankind is far from being subdued.

"Exposed garbage and filth in general represent the most potent fly breeding spots. And in this connection it is a shame that, owing to individual carelessness, uncountable flies are each year bred to spread their damage among humans.

"There is little if any excuse for individuals to permit the existence of

fly-breeding conditions, especially in cities and towns. And with additional care and thought much of the illness and many of the deaths now directly attributable to the fly could be eliminated, so far as communities are concerned!

"Moreover, water tight floors of concrete in stables and fly tight manure pits will immeasurably aid in reducing the fly menace on farms.

"No effort is too great to make where the destruction of the fly is concerned. Swat the fly by all means, but better far better, swat the fly's breeding places."

Somerset County Miners Take Examinations At Somerset Tuesday

The annual examinations for State certificates for mine foremen and fire bosses were opened in Somerset, Tuesday morning in the basement of the Methodist Episcopal Church. The Examining Board is composed of State Mine Inspector Fletcher W. Cunningham, of Somerset; Superintendent Samuel Halverson, of Hooversville, and R. E. Price, of Acosta, representing the miners.

The list of applicants taking the mine foreman examination is as follows: Samuel H. Wetmiller and J. Thomas Golby, of Berlin; Ormond C. Foltz, Harvey L. McCann, Robert Mull, Harry H. Stahl, John F. Smith, George P. Foreman and Frank A. Fraley, of Jerome; William J. Smith, of Davidsville; Ralph Watkins, Thomas L. Morley and Lewis Cornell, of Boswell; Harry V. Sager, of Listic; Frank W. Bohn and William M. Kiser, of Hooversville; Mahlon E. Reich, of Acosta; Joseph Kehlsh, of Gray; James M. Kimmel and Joseph Mulick, of Stoyestown; John E. Kimmel, of Quercreek; Clement J. Mulvehill, of Jenner; George W. Cook and Jacob F. Diehl, of Somerset; Noah Ankeny, of Sipesville.

The fire boss examination will be held later.

Attractive Raincoats

Modernistic designs in raincoats made of Fairfield fabric, a new departure in rubberized fabric, in which by a special process the material is vulcanized in a solid unit of coating, which assures permanence of design and durability of color, is being shown in the smart shops of semitropical Washington. The designs are worked out in several harmoniz-

ing shades or in several tones of one color, including red, green, copper, brown, maroon, eggshell and ivory. The coats are smartly tailored according to the latest mode and they elevate the raincoat to a new sphere as an attractive garment.

SOMERSET JUDGE ORDERS AN AUDIT

The Court on Tuesday morning directed that another audit be made of the accounts of the Road Supervisors of Brothersvalley Township for the year 1928. The auditors' annual report was filed early of this year and an appeal was taken by Victor B. Glessner, whereupon the Court directed a new audit because the auditors had not taken the oath of office before starting their work.

"Local patriotism" is a belief that there are more good lookers right in the Five-and-Ten on Main Street than in any so-called international congress of beauties.—Detroit News.

Somehow we can't visualize a war between England and the United States over the booze ship "Im Alone." The stuff hasn't got scarce enough yet to fight over.

BATTERY Worn Out?

When the old car spatters and then absolutely refuses to budge it's probably a case of battery trouble. But don't think you need to buy a new one. Our expert charging service puts new life into almost any battery.

It's a good plan to let us examine your battery now before it gives out at some inconvenient time.

THE TEMPERATURE WATCHMAN FULLY AUTOMATIC NO HAND CONTROL NOW NECESSARY

The Century's Greatest Advance In Household Electric Refrigeration

The Temperature Watchman

The most marvelous and most simple electric switch ever developed. So simple that a child can understand the principles involved. This new device now offered for first time to Kelvinator buyers. Ask to see it when you come to our store to see the beautiful display of 1929 Kelvinators. You will be amazed at this new simple, automatic device. Its principle is as unfailling as the law of gravity. All previous intricate mechanical automatics now eliminated.

Desserts and ice cubes frozen with extreme rapidity at all times by use of this marvelous device.

HOWEVER

Since this control depends on temperature itself, the food compartment temperature is always uniform because we do not depend on the human memory for "cold control" either in the dessert freezing compartment or in the food compartment. The TEMPERATURE WATCHMAN does this for you.

AGAIN the 1929 Kelvinator achievements lead all competitors.

A TEMPERATURE WATCHMAN—This device automatically maintains an even cold temperature in your Kelvinator. Never high enough to permit harmful bacterial growth—never low enough to freeze or spoil your food.

DAINTY FROZEN DISHES—Salads, desserts, jellies for every meal if you wish. Kelvinator's Cold Keeper—a constant reservoir of cold—prepares frozen dishes easily. Ample room to make them and all the ice you need.

SPECIAL TERMS Stop in our store and ask how to secure a Kelvinator for only 31c per day. New Silent KELVINATOR BAER & COMPANY MEYERSDALE, PA.

THERE ARE KELVINATOR ELECTRIC INSTALLATIONS FOR EVERY COMMERCIAL PURPOSE
