Statement Showing the Prosecutions Instituted Against Illicit Dealers in Imitations of Butter and Other Adulterations of Food in Pennsylvania Since the Appointment of

the New Commissioner.

(Special Correspondence.) Harrisburg, July 31.-Governor William A. Stone has publicly congratu-lated "Farmer" Cope, whom he recent-ly appointed food and dairy commissioner, upon the eminent success which has followed his efforts in the brief period that he has been at work in his department.

A marvelous exhibition of energy. determination of purpose and practical methods have been given by Farmer Cope since he left his Chester county farm to aid Governor Stone in the enforcement of the laws against the adulteration of food and the illicit sale of oleomargarine.

The wisdom of the selection of a practical farmer and dairyman for this position has been demonstrated conclusively, and the political enemies of Governor Stone and the Republican organization with which he stands have been disconcerted by the aggressive campaign that Farmer Cope has waged against the violators of the law. remarkable in the history of the city, and 20,000 people, soldiers, policemen and citizens were gathered around the square in which Charles was finally put to death. Tremendous excitement reigned in New Orleans as the battle went on between the police and citi-zens and the negro with his Winchester. After the tragedy was over and Charles was dragged from the mud and slush into which he had fallen, with the mob howling for the burning of his body, statements were made that the man killed was not really the despera-

do who had killed Day and Lamb, but papers found on his person and the fact that he had fought so desperately for his life and shot so accurately seem to leave little doubt that the right man was put to death. Sergeant Gabe Porteus, one of the

best known officers on the force, and Sergeant John F. Lally, who has a fine record for bravery, were informed dur-ing the day by a negro that Charles was in hiding in a house on Clio street near Saratoga street. Determining to take him alive, if possible, the of-ficers summoned a number of patrol men to their assistance and went to the house where Charles was supposed to be in concealment. The negro inform ant of the policemen accompanied the officers. They entered the side alley of the house and were surprised in **Snag Proof** practically the same way as were Day

and Lamb. Before the officers were aware of their danger Charles, who was hidden behind a screen on the second floor of the building, raised his Winchester and begun a furious but accurate fire. Lally fell with a bullet in the side of the ab domen. Porteus was shot through the head and dropped dead across the body of Lally. The other officers and the negro fied from the scene. The reports of Charles' Winchester, and the fact that two officers lay bleeding in the yard raised tremendous excitement, and as fast as possible armed help was rushed to the scene. In a little while

there was an immense armed crowd encircling the square in which Charles was located. In the meantime Father Fitzgerald. of St. John's church, was summoned to administer extreme unction to the police officers who were lying in the al-ley. The priest was annointing the body of Porteus, with Alfred J. Bloomfield, a young boy, standing by his side, when Charles again appeared at the window. The lad saw him at once and begged the desperado not to shoot him. Charles immediately fired his Winches-ter again and Bloomfield fell dead. The priest, unhurt, left the scene after pluckily performing the last offices for the dead officer. At this time the am-

Food Commissioner Cope since he took his office is the best evidence in the world that the illegal sale of oleomargarine is to be stopped. The co-operation of the district attorney's office in Philadelphia, which Commissioner Cope tells me he has secured, will enable the dairy and food department's agents in that city to begin work with a degree of certainty as to speedy trials of the cases they bring that certainly ought to spur them on, and I look for the crusade the have the effect of driving all of the bogus butter men out of the busi-ness. The crusade in other parts of the state is to be conducted on the same vigorous lines by the state dairy and food commissioner as in Philadelphia, and if the illegal dealers in oleomargarine fail to profit by the events of the past four or five weeks and quit before the law reaches them it will be their own fault. And the law will reach them speedily, too. Bogus butter has no place as an article of food in Pennsylvania, and the bogus butter men are being made, and will continue to be rapidly made to realize it."

The agents of the commissioner worked night and day carrying out his instructions.
