The best service which can be rendered to habor is to afford it an opportunity for steady and remunerative employment, and give it every encouragement for ad-vancement. The policy that subserves this end is the true American policy. The past three years have been more satisfac-tory to American workingmen than many preceding years. Any change of the government would be disastrous to their highest interests. With prosperity at home and an increasing foreign mar-ket for American polocy, employment should continue to walt upon labor, and

ket for American products, employment should continue to wait upon labor, and with the present gold standard the work-ingman is secured against payments for his labor in a depreciated currency. For labor a short day is better than a short dollar; one will lighten the burdens; the other lessens the rewards of toll. The one will promote contentment and inde-pendence; the other penury and want. The wages of labor should be adequate to keep the home in comfort, educate the children and, with thrift and economy, lay something by for the days of in-tirmity and old age.

Gratitude to the Soldiers. The American people are profoundly grateful to the soldiers, sailors and ma-rines who have in every time of conflict fought their country's battles and de-fended its honor. The survivors and the widows and orphans of those who have fallen are justly entitled to receive the generous and considerate care of the na-tion. Few are now left of those who fought in the Mexican war, and while many of the veterans of the civil war are still spired to us, their numbers are rap-idly diminishing and age and infirmity are increasing their dependence. These, with the soldiers of the Spanish war, will not be neglected by their grateful contrymen.

The Commissioners Quoted. This commission, under date of Aug. 21, 1900, makes an interesting report from which I quote the following extracts: "Hostility against Americans originally aroused by absurd falsehoods of unscru-pulous leaders. The distribution of troops in three hundred posts has by contact largely dispelled hostility and steadily improved the temper of the people. This improvement is furthered by abuses of insurgents. The American people will not make the murderers of our solders the agents of the republic to convey the blessings of liberty and rder to the Philippines. They will not make them the builders of the new commonwealth. Such a course would be a betrayal of our sacred obligations to the peaceful Filipinos, and would place at the mercy of dangerous adventurers the lives and property of the natives and foreigners. It would make possible and easy the commission of such atrocities as were secretly planned to be executed on the 22d of February. 1889, in the city of Manila, when only the vigilance of our army prevented the attempt. No government can so certainly pre-serve the peace, restore public order, es-tablish law, justice and stable conditions as ours. Neither congress nor the ex-cutive can establish a stable government in these islands except under our right of sovereignty, our authority and out flag. And this we are doing. We could not do it as a protectorate power so com-pletely or so successfully as we are doing. not do it as a protectorate power so com-pletely or so successfully as we are doing it now. As the sovereign power we can and guide the Filipinos to self develop-ment and self government. The six-days race (one hour a night). and guide the Filipinos to self development and self government.
There were those who two years ago were rushing us on to war with Spain who are unwilling now to accept its clear consequence, as there are those among us who advocated the ratification of the treaty of peace, but now protest against its obligations. Nations which go to war must be propared to accept its resultant obligations. Nations which go to war ministration in its treatement of the Philippines are not justified. Imperialism has no place in its creed or conduct. Freedom is the rock upon which the Republican doctrine for which the pople went to war. Our opponents may distrust themselves, but they have no right to discredit the good faith and patriotism of the majority of the pople, who are opposed to them; they may fear the worst form of imperialism with the helpless Filipinos in the fathers and have lost the virility of the founders of the party which they profess to represent.

Will the ropublic stay and dispense to their inhabitants the blessings of liberty, education and free institutions, or steal away, leaving them to anarchy or im-perialism? The returns show a Republican loss of 11 per cent and a Democratic gain of 22

per cent. Perhaps one of the most notable features of the election was the Demo-cratic victory in Knox county, where, owing to labor troubles, every Republican candidate was badly knifed, and only Congressman Littlefield and Sheriff Ulmer succeeded in coming out ahead of their opponents. The Democratic candidate for governor carried the county and pulled along with him the senatorial candidate, L. H. Staples, of Washington, and the latter will have the distinction of being the only Dem-

ocrat in the upper branch of the legis-lature. The Republicans will probably be able to muster next winter 155 votes on the joint ballot for William P. Frye for United States senator.
