Hazleton, Sept. 17.—With the exception of President Mitchell's arrival there was little evidence shown here yesterday that Hazleton was the storm center of the present coal war between labor and capital. Nothing occurred to disturb the serenity of the Sabbath.

Public meetings of north side, Shepton and Harwood on the west side and at Coleraine, south The largest gathering was that at Freeland, 12 miles north, where the union men are not so strong as the organizers would like to have them. This meeting was held in the open air and was addressed by National Committeeman Benjamin James and a number of other labor leaders well known in these regions. There were 2,000 persons in the crowd. When Mr. James asked all those to raise their hands who were against a strike, not an arm went up. All the meetings were held for the purpose of encouraging the men to stand firm in the present conflict and also to strengthen the union by recruiting new members.

the majority in the Hazleton district, and most of them are in favor of a strike. The English speaking workmen who are in favor of striking are not so numerous. It seems to those who are in close touch with the situation that all depends on the foreigners. The territory south of Hazleton is well organized and there is some apprhension here that disturbances might occur among the foreigners in that locality. Some of them have made threats of bodily harm against any one who attempts to work. The United Mine Workers' officials are doing their best to prevent any out-breaks. Mr. James authorized a denial with the police should arise. He also denied intent to agitate a sympathetic strike in the bituminous field. Mr. James said no steps will be taken in that direction unless the bituminous fuel is sent into the hard coal regions. In that event President Mitchell would call out the soft coal miners within

made to bring about peace between the coal operators and their men. Father Phillips, who has worked hard for a settlement of the differences between the employes and the mine workers, has again entered the field with the proposition that Archbishop Ryan, of Philadelphia, be accepted as arbitrator. John Markle, managing partner of G. B. Markle & Co., is favorable to the proposition, and declares it is now "up to the miners." Father Phillips says that if all the other operators followed this example and submitted their case to arbitration the whole trouble would be settled this week, or maybe within three days.

Mitchell Says a Hundred and Twelve Thousand Are Out.

Hazleton, Pa., Sept. 18.-The great struggle between the anthracite coal miners of Pennsylvania and their employers was formally begun yesterday. Each side is confident of winning, and neither of the contending forces show any disposition to yield. With the exception of a trivial incident at No. 3 colliery of the Lehigh Coal company, where a gang of boys compelled a mule driver to seek cover by throwing stones at him, the contest thus far has been entirely devoid of violence of any kind. President Mitchell, who arrived from the west Sunday night, was kept busy all day and evening receiving reports.

Mr. Mitchell decided an important point yesterday in the matter of arbitration. It will be remembered that last week miners employed by G. B. Markle & Co. decided not to strike until the firm passed upon a set of their own grievances, which differ somewhat from those of the United Mine Workers. The firm has an agreement with its men that if any differences fail of adjustment then the grievances shall arbitrated. John Markle, of the firm, on Sunday agreed to have Archbishop Ryan, of Philadelphia, arbitrate the differences if the mediators already decided upon by the firm and the men cannot come to a satisfactory Of 1533 Orange Street, Los Angeles, Cal. agreement. The mine employes in the neighboring towns of Lykens and Wiconisco are on strike, and threaten to compel the Williamstown men to quit work. A meeting of the Williamstown men was held last night, at which it was decided to stand firm against any attempt on the part of the strikers to force them to join the strike. Sheriff Reiff yesterday swore in 150 deputies, who will act in conjunction with a double force of watchmen on duty at the Williamstown colliery.
