**DR. J. W. McKEON**  
SURGEON DENTIST  
OPERATIVE AND MECHANICAL DENTISTRY CAREFULLY PERFORMED. Teeth positively extracted without pain. X-ray and Roentgenium Treatment and Filling Teeth Scientifically.

**W. H. KANE WENT**  
ATTORNEY-AT-LAW  
Office over Paul's Drug Store  
MONTGOMERY BUILDING,  
HILL STREET, DANVILLE, PA.

**J. J. BROWN**  
THE EYE A SPECIALTY.  
Eyes tested, treated, fitted with glasses and artificial eyes supplied.  
311 Market Street, Bloomsburg, Pa.  
Hours—10 a. m. to 5 p. m.  
Telephone 1436.

**FATAL MINNESOTA CYCLONE**  
Earn Crashed Through a Saloon and Eight People Killed.  
Faribault, Minn., Sept. 25.—Mayor details have reached here of a terrible catastrophe which visited the village of Morrilton, ten miles west of here, shortly before 6 o'clock last evening. The village was struck by a cyclone, and a barn was raised in the air and dropped directly on top of Paul Gatzke's saloon, where 16 people had taken refuge from the storm. The saloon collapsed, and all the occupants were buried in the debris. It is said that eight dead bodies and three injured persons were taken from the ruins.

**The Dead: Jake Miller, Jake Weaver, Jr., Otto Gatzke, John Rohrer, Jr., Elmer Brodzki, H. S. Wait and Frank Wilder of Morrilton and Frank Pittman of Waterloo.**  
The injured: Paul Gatzke, Porter White and Lewis Pittman, Jr.  
The storm came without warning upon the citizens of Morrilton from a southeasterly direction, passing over the village at 5:45 p. m. The length of its path in the village was less than half a mile. The storm made jumps of one block, but whenever it came down everything was crumpled by the power of the wind.

The barn, belonging to Dr. Dargabel, was picked up and carried a block, leaving the floor unharmed, with two horses standing on it. It is reported that the Gatzke saloon there is a two story building, which was left untouched.  
All of the people killed and injured in Morrilton had hurriedly taken refuge in the saloon when the storm was seen on the outskirts of the village. Before the building fell three people managed to escape, but the other 13 were crushed.

After leaving the saloon the storm crossed the street and destroyed the barn of J. P. Temple and took the roof from the barn of W. M. Bigolin. It then crossed the street and destroyed the barn of Adam Snyder, killing several boys.  
The first family occurred before the village was reached. At the corner of Main Street his hired man, Peterson, was killed.

**Spanish War Veterans in Convention**  
Washington, Sept. 25.—The National Association of Spanish War Veterans met in annual convention here this morning. Sessions will continue for three days. Gen. J. Warren Kiefer, the commander-in-chief, announces that he will not be a candidate for re-election. One important question to come before the convention is the status of troops in the campaign for the Philippines. The constitution and by-laws restrict membership to regular and volunteer members of the army and navy and the marine corps who participated in the Spanish war or the instructions incident thereto. As many of those who were ordered to China also operated in the Philippines or elsewhere it is not unlikely that the majority of the Chinese campaign will be admitted.

**A Hundred Square Miles by Flame**  
Santa Rosa, Cal., Sept. 25.—A forest and grass fire which has been burning in the vicinity of Occidental the past three days yesterday assumed vast proportions. The fire has covered a space of about 100 square miles, and is expected to have done more damage of a million dollars' damage. Only by hard work was the town of Occidental saved. The fire is now traveling south. Three county bridges are in ruins and about 18 farms have been swept clean of their buildings and crops. The towns of Free State, Bodega and Sebastopol are in immediate danger. Nearly a thousand people are fighting the fire.

**Iron Workers on Strike**  
Lancaster, Pa., Sept. 25.—According to the sentiment expressed this morning there will be no break in the ranks of the striking iron workers at Columbia, who yesterday quit work upon the attempted enforcement of a reduction of 25 per cent in wages, cutting production from \$4 to \$3 per ton. The strike affects about a thousand men employed in the iron works of the Susquehanna Iron and Steel company at Columbia, and 600 or 700 more employed at the Aurora factory, at Wrightsville. The best means of settling the matter is the board of trustees and they will take whatever action they think will be wise relative to the points in question. It seems as if the college corporation might get things of this kind patented nowadays to ensure their safeguard.

**Princeton Will Protect the Seal**  
Princeton, N. J., Sept. 25.—President Patton, yesterday referring to the reports that a Philadelphia brewer had secured the patent right to use the university seal of a whisky label, with a view to furnishing university brands of liquors, said: "I am sorry that the college seal is to be used in this way. The matter will doubtless be brought up for consideration of the board of trustees and they will take whatever action they think will be wise relative to the points in question. It seems as if the college corporation might get things of this kind patented nowadays to ensure their safeguard."

**A Shocking Calamity**  
Yesterday befell a railroad laborer, as follows: Dr. A. Kollet, a whisky lord, died. His foot was badly crushed, but Dr. A. Kollet's Salve quickly cured him. It is simply wonderful for Burns, Pain, Itch and skin eruptions. It's the world's champion healer. Cure guaranteed. 25c. Sold by Paul's & Co.

## THE INSURGENTS REFUSED TO LAY DOWN THEIR ARMS.

### American Casualties Growing. The Dead, Wounded and Missing in Ten Days Approach a Hundred. Aguinaldo Declines Peace Proposals—Urged by Senator Buchanan.

Manila, Sept. 24.—The amnesty expired Sept. 21, and the conditions that existed previously have been resumed. The insurgent demonstrations last week prove to have been more extended than was at first reported. From Cagayan and Isabela provinces and the northwestern districts of Luzon come accounts of insurgent operations and American precautionary measures. Merchants in the province of Albay are getting their hemp in Manila as rapidly as possible, fearing that otherwise it will be burned by the insurgents.

At Iloilo there was considerable anxiety lest an uprising should occur, but the insurgents there are ceasing their operations and returning in white clothing to the garrisoned towns of the district. As a resumption of insurgent operations is considered quite probable, the Americans there are taking the necessary steps.

The American casualties in killed, wounded or missing during the last ten days approach 100, including those at Sinaloa, at the east of Laguna de Bay, where the insurgents, after the engagement, delivered ten bodies of our dead.

An insurgent proclamation, signed last month by Aguinaldo, directing that American prisoners be set at liberty, that good treatment be accorded to captives, and that \$40 be paid to each American surrendering, has reached Manila. Few prisoners were released under the proclamation. Two, who have just arrived from the Cailless district, report that the insurgents in that locality are displaying as bravely as they have at any time before since April.

The insurgents recently murdered ruthlessly three persons in the Lukban district. Samar is short of rice, but as the hemp supply is abundant the people are shipping hemp to Bulan Island and smuggling rice in exchange. General Aguinaldo has received from General MacArthur an answer regarding his peace proposals. Aguinaldo declines to consider them and declares that he is unwilling to agree to a compromise.

**LORD SALISBURY'S MANIFESTO.**  
Urges British Electors to Support the Government with Their Votes.  
London, Sept. 24.—Lord Salisbury's manifesto to the electors of the United Kingdom, in anticipation of the parliamentary general election, has been published. It emphasizes the necessity that the queen's government should be supported by a strong parliamentary majority as "the only means of convincing the inhabitants of the world that the British government has no intention of diverting the government from their policy by persistent resistance or agitation."

After remarking that "all the recent troubles in South Africa have been due to a shift of parliamentary opinion at a critical moment," the prime minister goes on to say:  
"It will depend upon the disposition and conduct of the Boers how long an interval is to elapse before their full position as a British colony is attained. The brilliant success of Lord Roberts' army must not blind us to the imperfections disclosed in our own defensive armor, imperfections which, but for the war, might have remained unnoticed. It will be our duty to remove the defects, a duty which certainly could not be discharged by a ministry depending upon a broken party."

**Fatal Cloudburst in Texas.**  
San Antonio, Tex., Sept. 24.—A cloudburst in the valley of the San Antonio river, which has been reported here, has resulted in loss of life and property. The rains fell in two hours, time and broke telegraph communication. A number of ranches were inundated and one English sheepman, Eichelbert McDonald, together with some Mexican sheep herders, are reported to have lost their lives on a ranch in the mountains near Brackett. From reports of a colony of Nomadic Italians it is thought that two lost their lives in the flood that went down the Neucas.

**"Pinney" Pierce Free.**  
Media, Pa., Sept. 24.—Amos Pierce, better known as "Pinney," is a free man. He was charged with being an accomplice to the murder of the late Chester gunner, George B. Eyre, who was murdered on the Delaware river, and sent to the bottom of the river. District Attorney Smith had no evidence to present against "Pinney," and the ending of one of the most sensational cases of the year. This section was to formally take a verdict of not guilty when court convened this morning.

**A Remarkable Gas Well.**  
Dubois, Pa., Sept. 24.—A gas well gusher was struck at Lane's Mills, six miles from this city, yesterday, at a depth of 2,000 feet. The gas came to the surface with terrific force, blowing tons and rocks over a hundred feet in the air. It is estimated by experts that the well is good for 3,000,000 feet of gas. The well is in an entirely new territory, and will come into direct competition with the Standard Oil company, whose wells supply this city and neighboring towns, and are located 25 miles from here.

**Government Steamer Abandoned.**  
Halifax, N. S., Sept. 24.—The Dominion government steamer Newfoundland, which was bound for White Cove, Digby Gut, on the Bay of Fundy. The captain decided to abandon the steamer Saturday. The Newfoundland was en route in the light-house area, when ashore on Saturday during a dense fog and firmly wedged herself between two huge boulders.

**Growth of the Carpenters' Union.**  
Scranton, Pa., Sept. 24.—At yesterday's session of the biennial convention of carpenters and joiners, now entering upon its second week, Secretary-Treasurer P. J. McGuire, of Philadelphia, presented his annual report. He showed a marked increase in membership in two years; the number of local unions increasing from 428 to 718 and from 31,508 members to 63,413. The finances of the union are in splendid condition. July 1, 1900, there being a balance of \$30,268.69 on hand. It was decided yesterday to hold the next convention at Atlanta, Ga.

We noted something which pleased us recently in a trip through one of the western states, and that was that there were three times as many butter tubs piled up on the depot platforms as there were beehives. Whenever a community gets around to swapping the beehive for the butter tub, it is on the straight road to prosperity.

Detectives who have been guarding the legation at Washington have been withdrawn.  
Dr. Nansen and the Duke of Abruzzi have agreed to undertake a joint expedition into North Polar regions.  
At Geneva, N. Y., Dr. William R. Brooks has succeeded in photographing objects solely by the light from the planet Venus.

## TENNESSEE RISING RIVERS.

### Another Terror Faces the Residents of the Stricken State. Sixty Thousand Iron and Steel Workers Resume After Three Months Idleness.

At Goldwater the People Escaped to the Highlands, and Their Homes Have Been Destroyed—The Property Loss Reaches Thousands.  
Houston, Tex., Sept. 25.—The town of Brownwood has not been seriously damaged by the overflow of Pecan Bayou, nor have any lives been lost. The water flooded the town and some damage resulted from this cause. The rise in the Trinity has not yet reached the lower river, and the people in the vicinity of Brownwood are very nervous. There are few telegraph stations along the course of the Trinity, and it is difficult to get reliable information of the damage done. The rise in the Brazos has reached Fearce, and people in the bottoms have been warned that an overflow is possible, but not probable. The greatest damage has been done to the property of the respondents at all points in north Texas report this loss as heavy. The reports from west Texas are meager as to damage done by the Nevers river. The country is sparsely settled, and information is obtainable. The loss of life reported from San Antonio is so far all that has been reported. A speech from Goldwater says there has been no loss of life, but that the rise in the Colorado has swept all bridges away and destroyed cattle and crops. Many houses have been destroyed and a hundred families are homeless, though they escaped to the highlands. A special from Llano says the Llano river, a tributary of the Colorado, is 17 feet above normal, and has done much damage in the valleys. Reports from various points in west and north Texas are to the effect that all the streams are greatly swollen and are sending a large volume of water into the larger streams.

**GOVERNOR WANTS THE PEOPLE.**  
Most Terrible Flood in the History of the Colorado River.  
Austin, Sept. 25.—Governor Sayers wired last night to all points south of here warning notices that the most terrible flood in the history of the Colorado river, which flows by this city, is on hand. He says that the mountain gorges to the northwest of here. The warning was sent out by Governor Sayers in response to the following telegraphic warning from Hon. Phil C. Keam, date August 24: "Notifying all towns on Colorado river and have towns notify county points that river is ten feet higher than ever before in its history and is still rapidly rising. Very urgent."

The river has been rising very rapidly at Austin since 4 o'clock yesterday afternoon and reports from Goldwater, Cleburne and other points say water is still rapidly rising there. The rise at that point was reported to be 58 feet at dark. Along the Colorado watershed very heavy rains have fallen during the past few days, and the rise reported coming down now is 20 feet higher than the one that broke the Anetha dam and wrecked the city of Cleburne on August 4. All parties in the lowlands to the south of the city and all points reached by either telegraph or telephone were communicated with by the governor last night. The great flood of the Colorado is still rapidly rising.

A telephone message received here last night says that San Saba, 40 miles north of Austin, contains about 1,000 people, was partially swept away by the flood in the San Saba river, which was still rising. All bridges had been carried off.

**THE RISING TRINITY RIVER.**  
It Is Feared That the Rise Will Break All Records.  
Dallas, Tex., Sept. 25.—The Trinity river is higher than it has been since 1850, when it broke all records. The water last night lacked only six feet of reaching the 1890 mark, and the river is still rising. Owing to the heavy rains in the Elm Park, the West Fork and the Clear Fork, all of them emptying into the Trinity river above Dallas, the prospect is for the stream going past the 1890 mark. No lives have been reported lost. The stock, notably sheep and hogs, have suffered heavily. The county commissioners of Dallas county met yesterday at 8 o'clock last night and authorized the raising of a special tax on the numerous small bridges and the street damages in the county of Dallas, which will be nearly as much. The water of damage to roads, and bridges alone in the dozen or more counties affected in northern Texas will be about \$250,000.

Reports from the river here from Fowler, in Bosque county, says: "Brazos river out of its banks; higher than in 12 years, and going higher." Fowler is 50 miles north of Waco.

**GERMANY MAY DECLARE WAR.**  
And in This, It Is Said, France Will Be Involved.  
London, Sept. 25.—The news from China indicates that events are rapidly drifting in the direction of war between China and Germany. "There is the best of reason for believing," says the Shanghai correspondent of The Morning Post, "that Count Von Walderssee, on arriving at Taku, will present an ultimatum demanding the surrender of five leaders of the anti-foreign uprising. After a few hours' grace he will formally declare war, and taking advantage of Germany's position as a belligerent, he will proceed to seize everything available with the German forces and fleet. It is expected that Germany will take the Wu Sung forts and the Kiangnan arsenal, thus dominating Shanghai. It is also believed that she will attack the Kiang Win forts and endeavor to seize the Chinese fleet. The French will support Germany. This is not a rumor. It is reliable information. Prompt action is necessary to prevent a coup which will constitute a serious menace to British interests."

**The National Party Detained.**  
Boston, Sept. 22.—The National party, composed of men who feel that they cannot knowingly vote for either McKinley or Bryan, at a conference held in Young's hotel yesterday afternoon, abandoned the idea of keeping a presidential ticket in the field. This action is made necessary by Senator Caffery's declaration as a presidential candidate and the failure of the party willing to stand in his stead. Those who have had the movement at heart, however, will endeavor to save it from complete collapse by nominating one presidential elector in Massachusetts and in other states where the election laws will permit this to be done.

**The Tax on Huntington's Estate.**  
New York, Sept. 22.—The inheritance tax on Collis P. Huntington's estate will amount to \$200,000. In an estimate prepared by Comptroller Coker and submitted to State Comptroller Theodore P. Hillman yesterday it appeared that the transfer charge on specific bequests would amount to \$90,000. No appraiser has been named for the huge estate, and the real value of the enormous fortune left by Mr. Huntington will not be known possibly for 18 months. It is estimated by those familiar with the affairs of Mr. Huntington that his estate is worth \$50,000,000.

**CONSUMPTION CAN BE CURED.**  
T. A. Slocum, M. C., the Great Chemist and Scientist, Will Send Free, of his Newly Discovered Remedies to Cure Consumption and All Lung Troubles.  
Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of New York City.

Confident that he has discovered a reliable cure for consumption and all bronchial, throat and lung diseases, general decline and weakness, loss of flesh and all conditions wasting, and to make its great merits known, he will send, free, three bottles to any reader of the AMERICAN who may be suffering.

"Already this 'new scientific course of medicine' has permanently cured thousands of apparently hopeless cases. The doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

He has proved the dreaded consumption to be a curable disease beyond any doubt, and has on file in his American experience laboratories testimonials and certificates from those benefited and cured, in all parts of the world.

Don't delay until it is too late. Consumption, uninterupted, means speedy and certain death. Address T. A. Slocum, M. C., 98 Pine street, New York, and when writing the Doctor, give express and postoffice address, and please mention reading this article in the AMERICAN. March 49.

## CONCILIATION WANTS.

### The Conference Between Representatives of Employers and Employees Reaches a Satisfactory Agreement on the Wage Scale.

Cincinnati, Sept. 24.—The conference committee of the Amalgamated Association of Iron and Steel Workers and of the manufacturers at 6:30 o'clock yesterday reached an agreement on the wage scale that will be effective until July, 1901. It is what is known as the yearly scale, which takes effect usually in July. Owing to the unusual fluctuations of market prices, the new scale had not been signed when the mills shut down June 20 and the conditions have been unfavorable ever since, so that the mills have been idle for almost three months.

As soon as the scale was signed messages were sent in every direction before the conferees breakfasted, ordering the firms at once. Some mills started this morning and all others will start as soon as possible. This decision means employment to over 60,000 workmen who have been idle since June.

In endeavoring to arrive at this agreement the wage conference committee of the Amalgamated Association of Iron and Steel Workers has had five different conferences with the manufacturers, meeting at New York, Detroit, Indianapolis and Youngstown, and here. They have been in conference since Wednesday, and determined Saturday night to sit until they got together or agreed to disagree. While neither side got what it wanted, yet both sides felt relieved when the scale was signed at an all night session, and most of the conferees left without sleep, so as to be at the mills this morning. President Schaefer, Secretary Williams and other conferees arranged some details with Commissioner Nutt, and they retired about 8 o'clock yesterday morning, but the others did their sleeping on the train en route to their homes.

The reasons for the delay in adjusting the wage scale, as well as the frequent prolonged conferences, are found in the fact that the market and the fluctuations during the last year from the highest to the lowest price. The workers wanted \$5 per ton, based on a one and four-tenths cent rate. The manufacturers offered \$4.50 per ton on a one cent rate for boiling, and the differences were in about the same proportion in other lines.

President Schaefer and Commissioner Williams decided upon the following official statement yesterday: "The rate for boiling is \$4.75 per ton, based upon a one cent rate, with the same basis running up to one and one-fourth cents for rolling. But the price for boiling for September and October shall be \$5 per ton, based on a card rate of one and four-tenths cents." "Muck rolling shall be one-seventh of the price paid for boiling."

Bushing on sand bottom shall be \$2.00 on a one cent card rate, with the same basis running up to one and two-tenths cent rate. The following scale was fixed for the finishing mills: "On bar mills the price to be paid is \$1.00 per ton, with a card rate of one and four-tenths cents graded down to a one cent card."

On guide (ten inch and hoop mills) the base and rates apply as they do on the bar mills. Among the mills ordered started are those of the American Steel Hoop company at Girard, Youngstown, Warren, Pennsylvania; the American Steel and Republic Iron and Steel company at Youngstown, Ironton, Terre Haute, Birmingham, Muncie, Franklin, Marion, Moline, New Albany, Minneapolis, Chicago, St. Louis, East St. Louis, Springfield, Ill., and Alexandria, Ind.

**Lieutenant Hobson Is Sorry.**  
Montreal, Sept. 24.—Lieut. Hobson arrived in this city last evening. He had the answer made by Admiral Dewey to the interview with the lieutenant sent out from Vancouver. He said he was deeply grieved that Admiral Dewey had not been able to carry out the way reported. He declared that he was not responsible for the statement made in the Vancouver interview. He had been approached by a reporter in Vancouver to make a statement in regard to the Spanish ships had been sunk that the Spanish ships were drawn by the Spanish. He explained that it was impossible to sink a ship by hitting it with shells.

Admiral Dewey had, however, commended the Spaniards to sink their ships, and that was just as effective as sinking them with shells.

**Corbett Returning to His Wife.**  
London, Sept. 24.—James J. Corbett, who is a passenger on the Cunard line steamer Campania, which left Liverpool yesterday for New York, is traveling under an assumed name. The Sportsman publishes an interview had with Corbett on the deck of the Campania. He said he had parted company with George V. Brown, the boxer, who had been married to a woman in a tale of the discovery of a submarine volcano on the northeast edge of the Campesha bank, at the mouth of the Gulf of Mexico. Brown, on the freighter corroborated the captain. The location by observation made by the captain was 102 miles north of Cape Tauche, the nearest point of land. The freighter was on her way to New York and the occasional boiling of the water for nearly an hour, and the disturbance was still going on as lively as ever."

**Edmiston's Challenge to Hanna.**  
Lincoln, Neb., Sept. 24.—Vice-Chairman J. H. Edmiston, of the Populist national committee, challenged the Hon. M. A. Hanna, chairman of the Republican national committee, for a public discussion. Mr. Edmiston makes his desires known in a long communication to Hanna, and asks for a public discussion of 24 questions for Mr. Hanna to answer in public debate.

**Sections Accident on Race Track.**  
Chicago, Sept. 25.—A bad spill occurred in the last race at Hawthorne yesterday. Dad Steele, ridden by Gilmore, fell as the horses were passing the back gate on the first time around, and Lady Meddisome, ridden by Kiley, up, fell over him. Kiley's collar bone was broken and Gilmore was hurt, and the horses escaped with trifling injuries.

**Lichty's Celery Nerve Compound**  
For all nervous diseases, neuritis, rheumatism, nervous debility, paralysis, biliousness, dyspepsia, constiveness, piles, liver complaints, kidney troubles and female complaints. It goes to the seat of the disease and cures thoroughly and speedily. Sold by Rossman & Son's Pharmacy. March 49.

**A Pocket Cold Cure.**  
Krause's Cold Cure is prepared in capsule form and will cure cold in the head, throat, chest or any portion of the body in 24 hours. You don't have to stop work entirely. Price 35c. Sold by Rossman & Son's Pharmacy.

**Fireless Shot Mine Watchman.**  
Knoxville, Tenn., Sept. 25.—Four hundred miners of the Coal Creek company's mines, at Coal Creek, Tenn., struck yesterday after holding a mass meeting in the evening. The contract for the year offered by the manager.

**Accidentally Killed His Cousin.**  
Gettysburg, Pa., Sept. 24.—William Hammers, aged 20 years, was shot and instantly killed last Saturday night by the accidental discharge of a revolver in the hands of his cousin, Harvey Myers. The revolver was self acting, and while replacing it in his pocket, after firing it in the air, another man, he accidentally pulled the trigger. The 35-caliber ball lodged in the right temple of young Hammers. The young man had been intimate friends with the victim, and were on their way home from a neighbor's, where they had spent the evening.

**Charged With "Larceny After Trust."**  
Washington, Sept. 24.—Richard R. Croton, 26 years old, of Atlanta, Ga., was arrested last night on a charge of "larceny after trust," preferred by S. E. Finley, president of the Finley Rubber Tire company, of Atlanta. Croton was a confidential bookkeeper for the Finley company, and it is understood that he is alleged to have taken confidential information in regard to their sales and to have sold the same to other firms. He is held in the city jail, where he was arrested last night. He is charged with the larceny of \$10,000.

**Working Night and Day.**  
The bestest and most reliable thing there ever was is the King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain fog into mental power. They do not cost more than a box of candy. Only 25c per box. Sold by Paul's & Co. Des Moines, Iowa.

**You are Invited**
