A Profitable Deposit.

I remember the case of an old lady at E. who usually had from \$12,000 to \$15,000 standing to her credit, and, needless to say, she did not ask for any interest thereon, none was allowed her. The manager whenever she entered the office was always most particular to step forward and inquire most tenderly concerning the state of her health, and if she replied that she was suffering from a slight cold she would expressively mention the name of the doctor who had prescribed the medicine. "What is the matter with you, my dear?" "I have some trouble with my head."

Delicate Children

They do not complain of anything in particular. They eat enough, but keep thin and pale. They appear fairly well, but have no strength. You cannot say they are really sick, and so you call them delicate.

Scott's Emulsion

Why He Read It.

"Have you read Burns' latest book, 'Boiled Brains'?"

"I thought you didn't like Burns' style."

"I don't."

"What did you read his book for?"

"Because I knew some blamed fool would be sure to use me if I had read it."

SOLID PHALANX OF HALE MINERS

Greets Leader—Strikers on Parade in Wilkesbarre Streets.

REVIEWED BY MITCHELL.

Wilkesbarre, Oct. 3.—A great, peaceable army of 12,000 striking miners paraded the streets of Wilkesbarre Tuesday. This same army increased to about 16,000, when the largest gathering of miners ever seen in the anthracite region assembled at West Side Park yesterday to hear John Mitchell, President of the United Mine Workers of America.

All interest, not only of the strikers, but of people gathered here from miles around, centered in Mitchell. He was the star attraction of the day. Crowds met him at the depot, followed him to the hotel, surrounded his carriage, collected around him wherever he happened to be, and, at every opportunity, shook hands with him. All of which went to show that this entire section of the anthracite field is enthusiastic over this man and the cause he stands for.

WHY IT SUCCEEDS.

Because it's for One Thing Only and Danville is Learning This.

Nothing can be good for everything. Doing one thing well brings success. Dan's Kidney Pills do one thing only. They're for sick kidneys.

The cure backache, every kidney ill. Here is Danville evidence to prove it: Mr. John Lewis of Mill street, says:— "I was not well for a long time. When working my back became so lame and pained me and after getting home at night I could hardly straighten. Headaches and weariness distressed me anything, and in addition I was troubled with indigestion. I read about Dan's Kidney Pills and my doctor's medicines did me so little good, I got them at once, and found most satisfactory results from their use. They are the only remedy which ever gave me permanent relief."

Shenandoah, October 3.—General Gobin last night expressed his uncertainty about the next movement of troops from here would take place.

Numerous communications have been sent to Governor Stone by residents of this locality, urging him to keep the troops here expressing the fear that their departure would be followed by lawlessness. These letters have been forwarded to General Gobin, who is making every effort to secure definite information concerning the conditions in all parts of the region before sending any more troops away.

DAY FIXED FOR HEARING.

Harrisburg, October 3.—Judge Simonton has fixed October 20 for the return of a rule granted by the court to show cause why the appointment of a receiver for the Fifth Avenue Savings and Loan Association of McKeesport, should not be vacated and the decree modified as to prevent the acceptance of the offer of James Evans and J. K. Selby to advance \$9,000 the full amount of the shortage of the association, and the resumption of the control of its affairs by the directors.

Nature "makes all things beautiful in their time." Every one of life's seasons when life moves on Nature's lines, has its own charm and beauty. Many a woman dreads that period when most experience change of life. They fear that face and form may suffer by the change, and that they may fail to please those whom they love. The value of Doctor Pierce's Favorite Prescription in this crisis of woman's life lies in the fact that it assists Nature. Its use preserves the balance and buoyancy of the mind and sustains the physical powers. Many a woman has expressed her gratitude for the help and comfort given by "Favorite Prescription" in this trying period. Its benefits are not passing but permanent and conduce to mental happiness as well as physical strength.

It will be on the basis of the propositions laid down by Secretary Hay in his note of July 3 and the subsequent notes treating of that subject. The accord of Russia with the United States is more complete than was anticipated at first, and the reports show that all of the European nations, probably, are placing themselves in position to take advantage of the opening made by the United States, and soon will be ready to begin negotiations for a settlement with the Chinese Government.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands unparalleled in its class as a cure of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents or one dollar.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional remedy. It is the only medicine that acts directly upon the blood and mucous surface of the system, thereby destroying the foundation of the habit which has to be broken by building up the constitution and assisting nature in doing the work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for list of Testimonials.

The celebrated Mamertine prison furnishes an important scene in Sienkiewicz's story, "Quo Vadis." It is located on the slope of the Capitoline, in Rome, and according to tradition, it was begun by Ancus Martius and later enlarged by Servius Tullius. Jugurtha is said to have been starved to death here, the accomplices of Catiline strangled by command of Cicero and Servius, the minister and favorite of Tiberius, executed. Church tradition has some here turned to the bird and to which she had never spoken an unkind word in her life.

One day the church organist was away, and she stopped after church to play the organ for the Sunday school. In consequence of this the dinner had to be put off an hour, and when she got home her good husband was very angry, and he spoke to her unkindly.

The things were put on, and they sat down in silence at the table, and presently the bird began to chirp at her as it always had to attract her attention.

To shame her husband for having spoken to her so unkindly, she said that she had never spoken an unkind word in her life.

Mrs. Hendricks, the wife of the late Vice President of the United States, said that she once killed a mocking bird in the same way. It annoyed her by loud singing. To stop it she spoke in a violent tone and pretended to throw something at it, and within five minutes it was dead.

English Red Tape.

At the present time, when the system of red tape is being attacked and ridiculed, the following somewhat amusing methods of dealing with matters are still adopted in one of the great government departments.

For instance, a hairbrush and comb must be purchased under the head of service "clothing," whereas a toothbrush is under "fuel" and spectacles under "medicines." A clothesbasket is "clothing," but clothes pegs are "identicals." The funniest of all, however, are guano and straw, they being purchased under "victualling."

A good instance of red tape is told in connection with the excise. An officer landed, the following day, in the inquiry column of his return: "March 13. Dog dead." This did not satisfy his superior, who told him to inquire again, which the obedient officer did, recording: "April 10. Dog still dead."—London Standard.
