Achievements of Women Will Be Shown Side by Side With Those of Men at the Pan-American-Hand-

some Building For Headquarters. With a view to having the scope of the Pan-American Exposition as broad as possible and to interest the thousands of women in the Americas in the enterprise a Board of Women Managers was appointed, consisting of 25 representative women of Buffalo.

In addition to this the governors of womanly diseases

the states and territories were asked to nominate two women each to act as honorary members of the Women's Board, these nominations to be ratified by the Board of Directors of the Error. by the Board of Directors of the Expo-sition. The same request was made of lishes regularity, the other Pan-American countries.

As a result of this request from the Exposition more than 30 states have Exposition more than 30 states have honorary members of the Women's ulceration and cures female weak-Board, and several Pan-American countries are also represented. The work of the honorary members supplements | weak women strong and sick that of the local Board, which has been | women well. divided into committees and is now doing effective work for the Exposition. A distinctive point in the plan of the Exposition is that the various industries conducted by women are to be represented by exhibits in the different buildings where they may properly be placed, so that the achievements of women will be shown side by side with those of men. This is the first Exposi-

tion in this country where such a plan has been followed and second, it is said, in the world. The same arrangement was followed most successfully at the Paris Exposition.

It is in co-operation with the various divisions of the Exposition and with the committees of the Men's Board of Directors that the Board of Women Managers of the Pan-American Exposi-tion is, to a large extent, to work. The following committees have been appointed: Executive, Entertainments and Ceremonies, Fine Arts, Education, Clubs and Organizations, Publicity and Promotion and Applied Arts. The majority of the members of each commitbelong to the Board of Women Managers, but in a few instances appointments have been made outside, taking in those especially adapted to carrying out the work of the Wemen's Board. To the committee on Entertainments and Ceremonies falls the pleasant task of looking after the social affairs of the Women's Board previous to and during the Pan-American Exposition, arranging entertainments of various kinds for the honorary members of the Board who visit Buffalo, and also entertaining many prominent women who are to be in the city during the Exposition months. A large number of conventions of women are to be held in Buffalo during the Exposition, but the Women's Board will not in any way be connected with the conventions, although the committee on Entertainments and Ceremonies will doubtless entertain many of the officers and other distinguished members of the various organizations meeting in the city Pan-American year. The women of Buffalo bave in several instances extended invitations to leading women's organizations to hold their conventions in Buffalo during the Exposition, and, with the desire to offer every courtesy possible, the com- good for the bill. mittee on Entertainments and Cere-

ARTISTS WHO DEVOTE THEIR TAL-ENT TO ADVERTISING PURPOSES.

Some of Them Have Had Years of Training In Drawing and Color Work, and Some Have Studied In Famous Old World Ateliers.

Although the vivid advertisements of the excellences of foods, ointments, clothing, all mechanical appliances known to man and a thousand other things never dreamed of in the philosophy of a hundred years ago are continnally catching the eye and possibly shocking the artistic sensibilities of the beholder, few of the ordinary observers give a moment's question to the makers of advertisements. The advertising craze has grown of late to such uge and unlovely proportions that any brief account fails to explain its worklngs. The office of a large advertising concern is one of the busiest places in town. Artists are constantly appearing with designs for the firm, a small army of men with paint pots and brushes are hovering about waiting to be

'heroic' pictures one sees on unused price. walls and lofty fences?" asked a reporter of one of the men who keeps these subordinates busy.

"They are not the people you think them, I fancy," was the answer. "Instead of being daubers, with about the bility necessary to wield a whitewash ush, our best men are real artists. By this I mean that many of them ave had years of training in drawing and color work. Several of them have tudied abroad in the ateliers of well snown men. A man whom I saw paintng a head on a wall yesterday is a night instructor in a Brooklyn art of the Women's Board will also be on the main floor, and there will be a ed on a large wall the biggest portrait ever attempted. He had studied five

"Why do they take up this work?" "The other doesn't pay. It's a case of 'commercialism in art.' They find that they can't make the real thing pay, so they come to this common calling. There's money in it. Why, our star painters get \$50 a week. The daubers, who put in backgrounds, don't earn more than \$10 or \$15 a

The men who paint the designs in various inaccessible and conspicuous places have with them small copies of the designs to be reproduced. Long experience makes them expert in accurately tracing the design upon the chosen surface. Although the familiar advertisements scattered over the city seem exactly alike and one face seems the exact counterpart of another, yet closer inspection will show various points of difference. In the case of a very familiar picture which is displayed from one end of the United States to the other, when it was first brought out one man was hired for the sole purpose of painting that one design, and to do this he traveled from Maine to California.

"Not the least of our difficulties," said the advertising man, "is finding places to put our signs. We hire men who do nothing else but go about and obtain permission from owners to put up billboards on their premises, use a vacant wall or decorate a fence or a roof. It needs great tact to do this. When there are objections, they must be overcome, and after this is Jone the owner often gets the idea that his available space is worth thousands of dollars to us and to him. The experiences of advertising men among farmers and tramps would make a mighty interesting book." 'Why do you say tramps?"

"Oh, the tramps are our worst ene-They build fires behind our The comme ee on Education will ar- to foot made his week's salary look them down out of sheer wantonness." When asked about the price a blank brick wall in a conspicuous part of New York would bring to its owner if "white brother" fashio 'to the corridor.
"We eat here again." But it will not advertising man laughed and said he advertising man laughed and said he could not tell that, but he did not mind saying that he was now paying \$6,000 a year rent for a wall in the middle of the shopping district. "This is not an unusual sum to pay," he added, "for

such prominent positions."

Advertising firms are liberal sub scribers to all art magazines, particularly to those French art periodicals of Portugal. To the poor and ailing of which display the newest drawings of her capital she is more than an angel the still popular poster. The ideas of of mercy, for this extremely modern the foreign artists are taken freely and vertising the latest song or a new cigar unceremonious y.

Not all the large reproductions of figures and faces on our streets and along them are machine made. By a process akin to that of making lithographs machines have been invented to lay the colors automatically. The finished product, quite devoid of personality, presents accurately a copy of the working design.-New York Post.

WILL HELP THE COUNTRY SCHOOL In very many sections of the country the problem of maintaining the local district school has become a seriou problem, this for want of children to made some time ago in these notes to the effect that the most practical solu tion of the hired man trouble on th farm was to employ married men, give ing them a home in which to live, garden, chickens and pasture for such a plan will do much to also solve the school problem, such men presuma bly being generally young men and al sending back Miss Hamilton-Highlow's dren to send to the country schools. not wanting to run off every night of two to see his girl, but staying right at home to look after his family, at home Sunday evening and not running off to leave the old man all the cows to milk: the farmer's wife, rid of the work of earing for and feeding the help in the bridegroom, a strapping young fellow, house, the wife of the hired man at asked: hand to help in the home if needed oc casionally, a crop of nice little folks being raised to patronize the district school. The more this scheme is looke: into the better thing it is found to be.

The biggest things in the way of guns ever built will be exhibited at the Pan-American Exposition.

New Gym For Princeton. At a recent meeting of the committee in charge of securing funds for the, erection of a new gymnasium at Princeton ways and means of obtaining the required amount, \$200,000, were discussed, and the announcement of se reral handsome sums of money was made. Professor William Libbey, secretary of the committee, said he was very confident the entire \$200,000, and possibly \$250,000, for the new structure will be at the disposal of the committee within the next two years. He also remarked that it would be one of the finest gymnasiums in the eastern states. As soon as the subscriptions will warrant it work on the building will be began. It will be erected on the south campus and will adjoin the Brokaw building. The plans are new

in the hands of the committee. LOOK BEFORE YOU BUY. It is well not to buy a farm, especially in an unknown country, until two or three things have been investigatedone, the character of the soil, which should be dug into a depth of not less than three feet to see what the subsoil is like as well as the surface soil; an other, examine some reliable record of the rainfall of the locality for a series of years, if such record can be found; another, investigate the question of hot winds, whether they ever blight the crops. Then there are the water supply and its quality. All land agents are liars with a tenderfoot in tow and with land to seil. Believe none of them. Find out if grass will grow and Philadelphia. " 11 4 4 50 8 40 11 45 8 10 11 40 11 20 4 4 25 8 30 11 25 how well, and note the growth of trees which have been planted, for both grass and trees will tell a true story as to rainfall and soil fertility.

The thriving American city which has already built a library building entitled to a few regrets when it thinks of all those millions waiting to be givan away.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is imediate and a cure follows. It is not drying-does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail. ELY BROTHERS, 56 Warren Street, New York.
