#### REPUBLICAN STATE CONVENTION.

To the Republican electors of Penn sylvania I am directed by the Republican State Committee to announce that the Republicans of Pennsylvania, by their duly chosen repsentatives, will meet in convention at the Opera House, in the city of Harrisburg, on Wednes day, August 21, at 10.30 a. m., for the purpose of nominating candidates for the following offices:

#### Flag Day In the Schools.

Colonel Allan C. Bakewell, the flag commissioner of Lafayette post, G. A. R. of New York, who distributed several hundred United States flags to the schools of Porto Rico immediately after the occupation of the island, has since been an active worker in the inculcation of patriotism in the schools throughout the country. Holding rank as aid-de-camp of the commander in chief of the Grand Army of the Republic, he is able to use the influence of the vast organization in this commend able work. Recently he sent to the aids of the several states and through them to the local aids of the counties a circular letter appealing for the general observance of June 14 as Flag day in the public schools. In the circular to be distributed by the Grand Army officers he suggests the following programme of exercises:

2. Salute to the flag.
3. National hymns.
4. Addresses by soldiers and citizens.
5. Flag drills.
6. Quotations from eloquent orations and poems on the flag.

7. Ringing of bells. This simple programme will serve admirably where the school officers have not had the time or forethought to prepare a more elaborate one. It is surprising how much life and enthusiasm may be aroused in an assemblage by the ceremony of saluting the flag and in the flag drill where scores and hundreds of children take part. School trustees and teachers can make the first Flag day of the twentieth century a notable one by the adoption of the suggestions circulated by Colonel Bakewell through the posts of the Grand

country and cannot be drawn too close to it in veneration of its history and the sacrifices that have made it respected the world over. Lessons in patriotism should early be taught the rising generation, and the fitting observance of Flag day is one of the most effective means of inculcating these high lessons, the learning of which conduces to the highest citizen-

In a sermon preached at Asbury Park, N. J., Rev. Dwight E. Marvin D. D., spoke somewhat candidly of the relations of the church and the press "Churches do not advertise as they should," said Dr. Marvin. "Twenty five years ago a simple announcement in the local paper was considered sufficient by most business men. Today the successful merchant feels it incum bent to take more space and advertise more carefully and attractively, yet the church has not changed, but still retains the custom of former years and contents itself with brief statements of services in the column of church notices found in the Saturday paper. The newspaper is the church's handmaid to assist in advancing the divine kingdom, but it has no right to ask for all kinds of complimentary notices and reviews of insignificant meetings and entertainments as puffs. This, too, is degrading. I have come in business contact with a large number of publishers in my life, and I have generally found them businesslike, courteous and willing to act generously toward the churches that have shown themselves willing to advertise to any great extent or speak good words for the daily paper. It should be thoroughly understood that the publisher of a daily paper is under no obligation to advertise the church without pay or spread its fame and receive therefor only criticism. As a vender of news and an educator of the people he is under obligation to tell the news, speak the truth and teach morality, but that does not put him under bonds to print Northumberland boys put up a good Hall's Catagrh Cure is taken internally, and paragraphs lauding the minor activities of the church."

F. E. McArran In A Collision. F. E. McArran, agent for the Prudential Insurance Co. had an exciting experience Friday. He was coming in from Mausdale and accepted an invitation to ride along with Barton Hendrickson, of Valley township, who was driving into town. In descending the hill on North Mill street their buggy was run into by a team driven by Liveryman Erwin Hunter, which had gotten beyond the driver's control. Mr. Hendrickson's buggy was upset and Mr. Mc-Arran was thrown out head first, landing under the feet of one of Mr. Hunter's horses, which fell on top of him. Realizing his danger Mr. McArran seized the horse by the reins so that when the animal sprang to his feet the man was lifted from the ground; otherwise he might have been badly trampled by the runaway horse. Fortunately no one was hurt, although Mr. Hendrickson's buggy was totally wrecked.

## THE COOKBOOK

A rich color may often be given to a

soup by long boiling instead of employing browned flour or burned sugar. To ascertain if fish is cooked sufficiently test it with the prongs of a fork. If the fish separates cleanly from the bone, it is cooked and should be taken up at once or it will break and be spoiled.

Baked bananas are wholesome and nutritious. Make a thin sirup of lemon juice and powdered sugar with boiling water. After peeling the bananas lay them in a porcelain lined pan and pour the sirup over them. Then bake about 20 minutes.

A delicious flavor may be given t coffee by rubbing the lump of sugar which sweetens it over orange or lemo rind. People who like the slice of lemon in their tea will appreciate a slice of lime instead, which will give a deliciously piquant flavor.
