WITH THE DOCTORS.

Dr. William Ewart, the well known London physician, says in an article in the St. Louis Star:

Sleep has two offices, both fulfilled in the long sleep of night, which it is our usual endeavor to secure for our patients—namely, that of favoring the slow changes of repair and that of interrupting consciousness by uncooling the chain of neurons or by relaxing protoplasmic tension or tone. This relief of tension is, it would seem, the only office performed by the shorter spells of sleep, and therefore the two forms of sleep suggest two therapeutic objects. The night's sleep which comes without any drugs may need to be fostered, and in improving the quality of spontaneous sleep our help is often of value. It might also need to be prolonged.

The systematic prolongation of sleep for the cure of disease is one of our opportunities here. Little used, prolonged narcosis has also been suggested in excessive wear and tear of the nervous system, and in various nervous affections, including the mental, its renewed trial, combined with suitable methods in feeding, might lead to encouraging results.

Best suited perhaps to our everyday needs is a systematic resort to the shorter sleep. Like the light installments of food which restore the lost function of appetite and digestion, short sleep in the day may be essential to the cure of nocturnal insomnia. Our growing wealth and hypnotics warrants hope that a suitable agent may yet be found which in that direction would minister to the health of the invalid and might command the luxury of sleep at an opportune time for the convenience of the worker.

Massage For Apoplexy. The medical profession recognizes today as it has never done before the remarkable things for paralysis, even for apoplexy, at which doctors once looked on helplessly. Apoplexy is caused by a clot of blood on the brain, and if that clot can be broken up, if an emptying of the arteries is effected, recovery is in sight. Constant massage of the forehead and skull will do it (this has been proved over and over again), while paralyzed limbs, by patient, constant kneading, can have new life rubbed into them.

To Turn Negroes White. Professor Martin Johnston of the University of Kansas school of medicine claims to be able to make the negro white. Briefly set forth, Professor Johnston's method consists in inoculating the negro with the serum of leucitis or albumin, a harmless substance of nature known as albumin. The fact that albumin is the result of a disease is a discovery in itself, the credit of which belongs to the professor.

A Novel Life Raft. The navy department is providing some of the warships with a new and novel life raft. It consists of an elliptical copper tube, somewhat flattened, with airtight compartments strengthened by fins. The tube is incased in cork wound with canvas and made airtight by water tight. Attached to this float is rope netting three feet deep from which is suspended a wooden slatted bottom. The netting is suspended on the inner side of the float from rings which travel on lashings, so that the bottom rests in the proper position, no matter which side of the float falls upon the water when it is thrown overboard.

A Boon For Shipping. A resident of Sweden, Count K. A. Posse, according to a report of Consul Nelson at Bergen, Norway, has invented a boat stopping apparatus which will prevent collisions and facilitate the maneuvering of large vessels. The new apparatus consists of shutters applied on the starboard and port sides, about one-fourth of a boat length from the stern. These can be opened and shut by means of a lever applied on the deck. Experiments show that when the launch was going at full speed it could be stopped in 15 seconds at half a boat length by reversing and extending the shutters.

Water Purified by Ozone. A new method of sterilizing a city's water supply is being successfully operated in Russia. The plan is to sterilize the water by the introduction of ozonized air, and it is contended in its behalf that it destroys all the bacteria in the water and makes it comparatively small cost absolutely safe for drinking purposes.

Quainted. Section Foreman—Do you think you can boss a gang of men? Mr. Bear—I think so. I've had my own way during 30 years of married life.—Ohio State Journal.

No Chance to Talk. Black—Mumsey is not a good conversationalist. White—No; he was the only boy in a family of nine children.—Cleveland Leader.

Miss Bertha Gaskins Chosen Monday Night to Fill the Position.

The school board held a regular meeting Monday night. Following members were present: Fischer, Green, Orth, Barber, Keefe, Werkhiser, Fenstermacher, Black, Harpel, and Byerly.

The salary of the Third Ward principal, which under the change this year was reduced to \$81, on motion of Mr. Green was raised to \$85, the amount of pay received by the principals of the other wards.

Dr. Harpel of the Committee on Teachers and Certificates called attention of the board to the fact that while the borough has a supply teacher it is without a substitute teacher. He therefore moved that Miss Bertha Gaskins be given the position of substitute teacher. Miss Gaskins was accordingly elected unanimously by a ye and nay vote.

On motion the Committee on Text Books was instructed to purchase fifteen copies of Virgil for the High school to replace those worn out.

Patients Play Ball. Base-ball at present is one of the principal amusements among the male patients at the Hospital for the Insane and while the votaries of the national sport in town are applauding the progress of the "Old Timers" the patients and a few others, who dwell as it were in a little world of their own, are none the less absorbed in the issue of their local contests.

On last Saturday afternoon two nines picked for the occasion crossed bats on the grounds in front of the Hospital. The spectacle was full of novelty and it must be confessed that the result of the game was of much less interest than the performance of the two sides and the movements of the players. It was pleasing to note how the unfortunate, when excited and moody, entered into the enthusiasm of the game, catching the ball, making their hits and runs with all the vim and enthusiasm of men in mental vigor. Two attendants took part in the game and their presence was all that was required to hold the patients down to the rules.

In addition to the players there were some half a hundred of other patients scattered about on the lawn. One of these, an ex-attorney, kept the score. A dozen or more stood about like statues, deeply absorbed in their own troubles and showing no sign of interest except at intervals when the hurrahs and tumult of the crowd showed that a brilliant play had been scored. Others, base ball enthusiasts, danced about in delight volunteering a good deal of advice, which might have been of some use, but on the whole were less objectionable than the "rooters" that sometimes are in evidence at games where all parties are supposed to be mentally responsible.

This Will Save Your Ice. There are many people who from a false idea of economy fail to get the best results from the use of ice in refrigerators. A common mistake is getting a small piece of ice every day or every other day instead of filling the ice chamber two or three times a week. The small piece of ice cannot reduce the temperature sufficiently, and the result is that each new piece melts rapidly, and the food cannot be kept long. It will be found at the end of the season that the cost of ice and waste of food have been much greater than if the ice chamber had been kept filled.—Pittsburg Dispatch.

The Difference. Pater—You are very forward, sir. In my day the young man waited until he was asked to call. Young Man—Yes, and now he waits until he's asked not to call.—Tit-Bits.

As Usual. "What has society done for us?" "Increased the number of our inferiors."—Brooklyn Life.

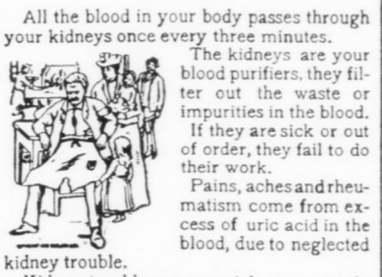

Tastes Differ. Dealer—Here, madam, is a horse I can recommend—sound, kind— Old Lady—Oh, I don't want that sort of a horse. He holds his head high. Dealer—Eh? Old Lady—I like a horse that holds his nose close to the ground, so he can see where he's going.—New York Weekly.

The Buddhist Priesthood. The Buddhist priesthood in Siam is divided into two sects. The one known as the Maha Nekaia (the Large Body) is the older and more conservative order and represents the great mass of the people, while the one known as the Yama Yuta Nekaia (the Body Who Follows Righteousness) is the new and more aristocratic order.

The Real Monarchs. Emperors, kings and even presidents, perhaps, are of less consequence than the great men who are organizing or rather reorganizing the business of the world. Upon their momentous issues depend, for good or for evil they are the master spirits of the time. Emperors and presidents may wear the trappings of authority, but the man in plain clothes occupying a swivel chair in the bank parlor is the man who does things.—St. Louis Post-Dispatch.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers. If they fail to do their duty, the waste or impurities in the blood, if they are sick or out of order, they fail to do their duty. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heartbeats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It is considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

It stands to reason you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the test of the wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

CERTAIN RESULTS. Nothing can be surer, is the testimony of Danville citizens.

The stage of uncertainty is over in Danville. There can now be had plenty of positive proof in the testimony of citizens. Evidence of this nature should be the most decisive doubt in this vicinity. Read the following: Mr. Jos. Hooker of 102 North Spruce Street, says: "I was for a long time afflicted with lameness in my back, and a pain over my kidneys. I had a great deal of nervousness, restlessness, did not sleep well, had bad dreams, and was continually tossing from side to side striving to get a comfortable position. The kidney secretions were not normal. I was tired all the time and often had a dull aching in the back of my neck. I read of your Pills in a paper, and tried them. The description there of symptoms tallied almost exactly with mine and induced me to try the remedy. On using them a short time I was made trouble free and my position. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Don's and take no substitute.

The Pretty Girl. Is fond of pretty jewels. The sensible man looks for the store where he can get the best jewelry for the least money, and always feels that the article is exactly as represented. Our jewelry can always be depended upon. It is a continual pleasure to the wearer. HENRY REMPE

How to Quit Chewing Tobacco. The "substitute cure" is worthy of the attention of sufferers. We have a citizen of Mobile who has tried it. He was an inveterate chewer of tobacco. He stopped chewing and took to chewing Wilkely. And yet's partner he has this bit of wood between his teeth in walking hours at least. He has not tasted tobacco in many years.—Mobile Register.

Inevitable. "Why do you wander aimlessly from place to place?" inquired the philanthropist. "Well," answered Meandering Mike, "eight hours' sleep a day is enough for anybody. And yet's partner he has this bit of wood between his teeth in walking hours at least. He has not tasted tobacco in many years.—Mobile Register.

Explained. Customer—Waiter, it is nearly half an hour since I ordered that turtle soup water. And yet's partner he has this bit of wood between his teeth in walking hours at least. He has not tasted tobacco in many years.—Mobile Register.

"My Family Doctor." Blue Island Ill., Jan. 14, 1901. Messrs. ELY BROS.—I have used your Cream Balm in my family for nine years and it has become my family doctor for colds in the head. I used it freely on my children. It is a Godsend to children as they are troubled more or less. Yours respectfully, J. KIMBALL. Judge for yourself. A Scotch Superstition. In parts of Scotland persons suffering from epilepsy are directed to drink warm water from the skull of a person who has committed suicide. If pieces of the skull are powdered and swallowed with the draft, it will be doubly efficacious.

A Germardianer. A caterpillar can eat 600 times its weight of food in a month. During one of Adeline Patti's last tours in the United States, the following preliminary notice was published by a western editor: Vocal, Patti Nicolini, the eminent musician and farrowist, will come to us for positively the last time next year. All those who expect to die before she comes to this city will do well to bear the human nightgown on this trip, for Patti never says goodby twice in the same year, and to die without hearing her strike her high two thousand dollar note is to seek the hereafter in woeful ignorance of the heights to which a woman with good lungs, a castle in Wales and who only uses one kind of soap can soar when she sings.

NATIONAL ENCAMPMENT, UNION VETERAN LEGION, AT GETTYSBURG, PA. Reduced Rates via the Pennsylvania Railroad. On account of the National Encampment, Union Veteran Legion, at Gettysburg, Pa., October 9 to 11, the Pennsylvania Railroad Company will sell excursion tickets at the rate of one fare for a round trip from all points on its line to Gettysburg. Strictly Appropriate. One of the pretty Sunday school teachers has a class of little girls, and it is her custom to tell them each Sunday of some little incident that has happened in the week and request the children to quote a verse of Scripture to illustrate the story. In this way she hopes to impress the usefulness of Biblical knowledge upon the little ones. Last Sunday she told her class of a cruel boy who would catch cats and cut their tails off. "Now, can any little girl tell me of an appropriate verse?" she asked. There was a pause for a few moments, when one little girl arose and in a solemn voice said: "Whosoever shall join together let no man put asunder."—Carthage Press.

A Hard Character. He—I want to be the palmer's last week to have my character tried. She—Yes? What did he say? He—He didn't say anything. He looked at my hand, coughed a bit and then gave me my money back.—New York Times.

Nature "makes all things beautiful in their time." Every one of life's seasons, when life moves on Nature's lines, has its own charm and beauty. Many women dread that period when they must experience change of life. They fear that face and form may suffer by the change, and that they may fall to please those whom they love. The value of Dr. Pierce's Favorite Prescription in this crisis of woman's life lies in the fact that it assists Nature. Its use preserves the balance and buoyancy of the mind and sustains the physical powers. Many women have expressed their gratitude for the help and comfort given by "Favorite Prescription" in this trying period. Its benefits are not passing but permanent and conduce to mental happiness as well as physical strength.

Expensive Canal. To finish the Panama canal a tunnel 4 miles long, 100 feet wide and 100 feet high will be necessary. It will cost \$4,000 a yard, a world's record in expenditure, being four times greater than the Mont Cenis tunnel.

THEY ALL GO TO MILTON. The Milton Fair Leads Them all in Entertaining the People.

Everybody within a radius of fifty miles or more, who can get away, goes to the Milton fair. This is one of the most successful fairs in the state and it has a reputation of always giving its patrons a good entertainment—something new every year in addition to the races, the exhibits and the merry makings—not gamblers—for there are no gamblers there. And then it is the best fair in another respect. The people are a good deal of any county fair and you see them all at Milton fair. Hundreds of people look to this fair as a sort of a short fall outing and they are all going this year because the management told them that this will be a record year and the public knows that the fair managers never lie.

THE WHIRL OF FASHION. The Florentine and wrinkled moustache are leading sleeve models among those which are not made of length. Unlined satin or silk wrap collars come over a silk petticoat of matching color forms a stylish and comfortable costume for the summer. The new French poplins and molairs are so fashionably worn this fall are scarcely to be distinguished from a soft ribbed bengalines and other corded silks of their nature. Fine flax colored linen trimmed with velvet and sailor collars of embroidered batiste composing some of the very smartest summer costumes worn at fashionable summer resorts.

Large white ermine or Neapolitan straw hats trimmed with a single very broad turfy white ostrich plume, a shell of white tulle and a large paste buckle being much worn. Fini finished mohair has formed a very favorite material for summer traveling costumes, and for the fall, in black, blue, gray and brown, will be brought out a very handsome merized mohair. The quality of such lustrous quality as to surpass brilliant and very rich, resembling some of the finest silks.—New York Post.

Wagner and the Payer. Wilhelm Wagner, conductor of the Royal Opera in Dresden, the orchestra of that institution, though one of the best in Germany, was far from being as good as it is now, and Wagner had a good deal of trouble in making it follow his intentions. Some years ago Wagner, when he was in exile in Zurich, he undertook to train the local orchestra. After a few attempts he exclaimed, "Gentlemen, you have just given me a great pleasure; you have played exactly as badly as the Dresden orchestra."

The English players laughed, and the idea that Wagner might play better than the royal musicians in Dresden so fired their zeal that they actually succeeded in doing it.

Polished Furniture. When a polished table is stained by a hot dish, one restoring process is to rub first wood alcohol and then linseed or olive oil. This treatment is excellent for keeping any polished furniture in order and is one of the few things for which alcohol may be used. The latter is cheaper than the pure and for certain domestic uses is quite as good.

A Special Occasion. First Tramp—You order see Bill go in over de fence will de bull after him. Second Tramp—Must have been with him at it. First Tramp—Say! It wuz de only time I ever seen him when he didn't look tired.—Lucky.

A Ghostly Satellite. Under certain conditions there may be seen in the night sky, exactly opposite to the place where the sun may then be, a faint light, round in outline, to which the name "gegenschlein" has been given. It has always been a mystery to astronomers, but Professor Pickering suggested that it may be a secondary or meteoric satellite of the earth. He thinks it may be composed of a cloud of meteors 1,000,000 miles from the earth and revolving around it in a period of just one solar year, so that the sun and the ghostly satellite are always on opposite sides of the earth.

Sunny Slope, Cal., enjoys the distinction of being the largest vineyard in the world. It is situated amid the most beautiful scenery of that favored land, two miles from San Gabriel. Of a total of 1,900 acres 735 are devoted to grapevine, the remainder being distributed among orange trees, of which there are 12,000; lemon and olive trees.

The Stoves. Stoves made of tiling are in general use in Austria. They are said to be superior to iron stoves on account of their great economy of fuel possible by their use.

WATCH DOGS. Ever on the Alert—Alive to Every Form of Oppression—Kept on Edge—Burdened Beyond Endurance—Nerves Give Out. The machinery of a mill that grinds day and night has to shut down now and then for repairs. It is the same way with your nerves. Overwork, close attention, our ways of living, the amount of nerve waste that sets up symptoms of various kinds. It may be failing strength, weakness, languor, headache, nervousness, etc. Why? Because your nerve force is lacking and the means of restoring rests with Dr. A. W. Chase's Nerve Pills. A great many people in Danville would like this. Among them are Mrs. Jacob Mills of Cor. Front & Church Sts., Danville, Pa., who says: "Last fall I was feeling very poorly and nervous. I had frequent spells of nervous headache and a good deal of trouble with my stomach. Seeing Dr. A. W. Chase's Nerve Pills recommended I got a box at Gosh's Drug Store and used them with good result. I regained so much better and felt stronger and brighter. They certainly did me good and I can highly recommend them." Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase. M. D. are on every package.

Poison? Don't forget that it's "Ayer's Sarsaparilla" that will make you strong and hopeful. Don't waste your time and money by trying some other kind. Use the old, tested, tried, and true Ayer's Sarsaparilla.

Simple and Effective, but Costly. "When I came to town, I noticed a little, round swelling on my wrist," said a visitor from the country. "It bothered me, and one day when I saw a sign, 'Dr. John Doe, I thought I'd go and have it looked at. Well, I was shown into a room, and in a minute a pleasant looking man came in. 'Dr. Doe?' I says and held up my wrist. 'Ah, a creeping snow,' says he, as if he'd been waiting years for a chance to study a case like mine. The swelling didn't go away, but kept my wrist out with the hand hanging limp while he took down a book from the shelves and looked up my trouble under S or W and then prescribe something. Instead he told me to crack the swelling, and add to said section the following words: 'Laws regulating and requiring the registration of electors shall not apply to cities A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, provided that such laws be uniform before the general assembly.' The said section shall read as follows: 'Section 1. The following laws shall be uniform before the general assembly: A. True copy of the Joint Resolution. W. W. GIBBS, Secretary of the Commonwealth.
