The process The British have studied prize ring is the ordinary one of distillation. The oil extracted gives an agreeable flavor to candles. Toilet soaps are subject to rules when it is a raid of

made strongly impregnated with essential oil of pine needles.

Something About Boils.

Contrary to the common belief, boils are not indicative of blood disease. They are really indications of local soning by pus bearing germs, and the boil is an abscess. Every pus prick, every scratch, every abrasion, every cut with a razor or pocketknife, every splinter that enters the skin may cause a boil. Nor need the wound of Balaklava. It was magnificent, but be a serious one. It may be so minute as to be invisible to the unaided eye. was sublime, that stolid British way of

Women With Whist Faces.

getting "killed most beautifully." The Boer will ride like the wind to We have all sorts of faces, all varieties of countenances, that get their his kopje or river bed, then dismount, ilde his pony and fight, but the mountrecognized expressions from close aped Briton rode like the six hundred inplication to some variety of straining to the mouth of hell, sitting erect, and employment. Now we have the "whist face" to add to the list, says the Philadelphia Press.

It is showing itself among the woen and comes from the whist club trained cavalryman of America has habit, which is rapidly growing, showhis horse when caught in the open uning its strength not only at night, but Ing its strength not only at night, but in the afternoons and even in the mornings, associated with tea and waage. He is a machine and does as he fers, chocolates and bonbons. One expression of the whist face, is told.

Defects of the British army system though, it is said, and is told with an effort, is age. The women may shudder at the thought, but the fact reat the front. The officer is only a play mains.
