> How Evans Got His Nickname. Admiral Robley D. Evans acquired his nickname of "Fighting Bob" from some gallant service in the navy. A naval officer, who was a cadet at Annapolis when Evans became a cadet, tells this story of how he was christened, relates a New York Tribune contributor: Along in 1859 and 1860 there was a saloon keeper named Robert D. Evans, who continually got drunk. Every time this happened, and it was several times a week, five or six policemen had to be called to carry the drunken chap to jail, and he was dubbed "Fighting Bob." So the minute a cadet appeared bearing the name of R. D. Evans the nickname was applied to him also. Brother offlcers of the now rear admiral say that be got the luckiest nickname on record.

This spider is shaped like a crab, minus the claws, and is of a bright yellow color, with brown spots; the biggest could be accommodated upon a silver dime. Its favorite abode is among the leaves of the banana shrub, commonly, but erroneously, called tree. There it spins with extreme rapidity, its web, which is prodigiously large, considering the size of its architect, and proceeds to devour the flies that are unlucky enough to get entangled glutton, that is not satisfied with less than a dozen a day-that is to say, it consumes a good deal more than its own bulk. Its progeny is numerous and appears at first like more black specks, smaller than the smallest pin's

The sky may be blue and cloudless when suddenly the am commences taking in its sails, or, rather, gathering in its net, with neatness and dispatch, into its diminutive body entirely out of sight. A few minutes completes the job, and the spider takes up its position on the under surface of one of the great leaves to be lulled by the gentle swaying and sheltered while the storm rages. It is for this that the am has prepared, and never is it mistaken. When the web is taken in, rain will

certainly fall within an hour. The moment the am is touched it feigns death and lets itself drop, showing no sign of life until again placed upon a leaf or on the ground. Many a one has lain in the palm of the writer's hand inert, all its legs drawn close to its body, while it was examined at leisure, even being picked up in the fingers without its manifesting any

Thunder.

Winter thunder is considered throughout Europe to be of very ill omen, but April thunder is considered to be very beneficial. In Devonshire and other cider counties of England there is a saying that "when it thunders in April you must clean up the barrels"-in readiness, that is, for a plentiful crop

The French consider April thunder to be indicative of a good yield from their vineyards and cornfields.
