#### RAILWAY RUMBLES.

electric railway in the United King-

It is said that the cheapest railway fares in the world are to be found in Hungary.

Denmark has a government railroad system of 1,167 miles and 525 miles of private railroads. The Servian, Roumanian and Bulga-

rian railroads are owned exclusively by the respective governments. Travelers on Prussian railways whose baggage, through no fault of their own, fails to arrive with them can now

have it sent on request free to their houses. The difficulty of railway construction in some parts of Africa is illustrated by the fact that on the Freetown-Mat-

tru line, in Sierra Leone, eleven steel bridges had to be built in a distance of only thirty kilometers. A representative of the Paris Temps has been examining railway stations in Germany, and he declares that those of Dresden, Cologne, Hanover, Frankfort,

of the French except the Parisian.

Two old hunters were swapping

varns and had got to quall. "Why," said one, "I remember a year the us when quall were so thick that you & Co. could get eight or ten at a shot with

The other one sighed.

"What's the matter?" said the first. "I was thinking of my quail hunts. I had a fine black horse that I rode everywhere, and one day out hunting rein over the end of the limb and took a shot.

"Several birds fell and the rest flew

"Well, sir, there were so many quall on that limb that when they flew off it sprang back into place and hanged my horse!"-Los Angeles Times.

English Quail Stew.

For four plump quails provide four systers, four tablespoonfuls of butter, three large cupfuls of ox tail soup or rich stock, two small glasses of port or madeira, two tablespoonfuls of onion vinegar, the same of India relish and mushroom catchup, celery salt, white pepper and four slices of crisp, brown toast. Leave the quails whole, simply opening down the breast. Put the butter in a frying pan over a hot fire and when brown lay the quails in the pan. Cover and cook ten minutes. Turn and cook ten minutes more. When browned on both sides, add the soup or stock, wine, catchup and relish. When it bolls again, add celery salt and pepper to season and thicken with a tablespoonful of flour wet up in cold water. Stir it gradually until it boils. Turn each quail on its back and insert an oyster. Cook five minutes and serve on slices of toast with the liquid poured over all.

## Spiders Are Industrious.

sidered that an ordinary sized snare may contain as many as 120,000 viscid globules. The spinner is constantly engaged in repairing injuries to the web inflicted by wind, stray leaves or captured insects. Once a day the whole snare is subjected to rigorous examination, and any broken or loosened threads are adjusted .- Cornhill Maga-

Paying a Creditor.

Like many another famous man both before his time and since, Talleyrand exhibited, at least in early life, a great reluctance to settling with his creditors. When he was appointed bishop of Autun by Louis XVI., he considered a ane new coach to be necessary to the proper maintenance of the dignity of that office. Accordingly a coach was ordered and delivered, but not paid for. me time after, as the newly appointed bishop was about to enter his coach. he noticed a strange man standing near who bowed continually until the coach was driven away. This occurred for several days until at length Talleyrand, addressing the stranger, said: "Well, my good man, who are you?"

"I am your coachmaker, my lord," replied the stranger. "Ab," said Talleyrand, "you are my

coachmaker! And what do you want, any coachmaker?" "I want to be paid, my lord."

"Ah, you are my coachmaker, and you want to be paid? You shall be paid, my coachmaker." "But when, my lord?"

"Hum." said Talleyrand, settling himself comfortably among the cushions of his new coach and eying his coachmaker severely, "you are very aquisitive!"

How High Birds Fly.

A Strassburg aeronaut says he has seen an eagle at the height of 3,000 buzzard 900 yards above the sea level. On March 10, 1890, some aeronauts observed a lark flying at a height of 1,000 yards. On July 18, 1899, another balloon met a couple of crows at an altitude of 1.400 yards. These, however, are exceptions. Birds are hardly ever seen above a height of 1,000 yards even above 400 yards they are not fre-

A Relie of Peter the Great.

The cottage where Peter the Great dwelt when he was learning the trade of shipbuilding in Zaarndam, Holland, still exists, though somewhat dilapidated. It contains the rude furniture which the great Peter used-a bederected by Alexander of Russia in 1814.

All who use Atomizers in treating nasal catarrh will get the best results from Ely's Liquid Cream Balm. Price, in-cluding spraying tube, 75 cts. Sold by druggists or mailed by Ely Bros., 56

Warren St , N. Y. New Orleans; Sept. 1, 1901. Messrs. ELY BROS.:—I sold two bottles of your Liquid Cream Balm to a cutosmer, Wm. Lamberton, 1415 Delachaise St., New Orleans, he has used the two bottles, giving him wonderful and most satisfactory results.

GEO. W. McDUFF, Pharmacist.

MRS. M. C. LIGHTNER At Detroit. Mich-Daughter of the Late

Peter Baldy, Sr. Late Saturday evening, November 9th. in Detroit, Mich., occurred the death of Mrs. Martha H. Lightner, widow of the late Rev. Milton Clarkson Lightner, former rector of Christ Episcopal church, this city. The funeral took place Tues-All communications sent to the AMERI- day afternoon from Grace Episcopal

She was a daughter of the late Peter Baldy, Sr., and a sister to the late Edward H. Baldy. She is survived by five sons and one daughter, all of Detroit, Ireland claims the honor of the first two brothers, Peter Baldy, Jr., of St. Paul, Minn., Rev. Hurley Baldy, of Philadelphia, and two sisters. Mrs. Charles Matthews, of Plainfield, N. J., and Mrs. W. I. Greenough, of Philadelphia. Rev. M. C. Lightner was rector of Christ church from 1842 until 1848. He was an earnest worker and succeeded in building up a large congregation. In loving memory of Rev. Mr. Lightner, Christ church was several years ago presented with an elaborate pair of altar candlesticks.

Jumped on a Ten Penny Nail. The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with ab-Bremen, etc., are far superior to any heals such injuries without maturation the usual treatment. For sale by Paules

Abrams Repents His Act. Miss Emma Maxwell, who was cruelly her wedding at Shamokin, Friday received a letter from the latter postwas given and the police suspect it is a ruse to throw the officers off the track. -Mt. Carmel News.

"Last winter an infant child of mine commodious office. had croup in a violent form." says Elder John W. Rogers, a Christian Evangelist. Filley. Mo. "I gave her a few doses of Chamberlain's Cough remedy and in short time all danger was past and the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by Paules & Co.

NATURE'S MISTAKES.

SOME THAT MEN CONSIDER TO BE OF REMARKABLE VALUE.

Paradoxical as It May Appear, the Perfection of a Preclous Stone Is Largely Due to Some Imperfection

perfection of a gem is largely due to some imperfection in its make. Some little mistake made in the laboratory of bathers." nature produces a defective stone which is perfection itself from the lap- poor?" idary's point of view. Ninety-nine out of every hundred emeralds dug from the mine are almost white and of little value, but the hundredth one is of a rich velvety green and, if without oth er flaws than its color, sells for \$300 a feet. earat or 240 times as much as its colorless brother. The reason of the rich color which gives the emerald its value s that nature, in making the stone, put in too much oxide of chromium, just as the cook sometimes gets too much saleratus in the biscuits. The standard of perfection in the laboratory of nature is the colorless emerald, and her deep green ones are some of her failures: failures which, nevertheless, delight mankind, however much they may dis gust nature. You could buy a ton of revealed to us the fact that the woman oxide of chromium for the price which half a grain of it gives to a cheap and August or September is displaying common crystal.

ufacturing diamonds, the results are restaurant may have been nineteen difequally remarkable. Her standard for ferent kinds of a fool upon every other a diamond is a pure white stone, but proposition in life, but he knew what sometimes a foreign substance gets into the crucible, and the result is a red or mal needs grass or its equivalent in blue diamond. A fine white brilliant of summer. With their oil the salads supblue stone of that size would be cheap in hot weather. All the civilized races a steam engine and a mammoth boiler at \$3,500. A red diamond is of even of the world are salad eaters, but Amerin the basement. Whenever I enter greater value, a red stone of fifteen leans eat less than do any other people. grains having been sold for \$5,000. Yet It is not a sign of mental decay or morthe little particle of foreign material aldegeneracy for a man to eat salad; it which nature carelessly let fall into the is gastronomic sense. mixture when she was making that stone down in the heart of some primemay tumble over a trestle somewhere val volcano is of less value than a grain of common salt and only got there by mistake.

Nature manufactures in her laborato ry a material called spinel. You can buy a block of spinel as large as you er; may I not suddenly find myself in can carry for a few dollars. Sometimes in making spinel small quantities of chromic acid get into the material and street, may not a brick or a loosened color it a deep red. The pieces so colored nature rejects as spoiled in the making and throws them in the dust bin, from which men dig them out and call them rubies. A ruby of thirty-two carats recently sold for \$52,000. Yet the material of the cheap spinel and the valuable ruby are practically the same, save for that small fraction of chromic acid which got into the ruby

by mistake. When nature starts out to manufacture opals, she endeavors to make them without any cracks in them. In this perfection in the Mexican opals, which have few cracks in them and therefore little luster. The flery glow of the oriental opal and the play of light in the depths of that exquisite stone are due entirely to the numberless cracks which seam the surface of the gem. It must give nature a poor opinion of mankind when she sees him selling the Mexican opals, which are nearly perfect for 12 cents a carat and paying \$25 a carat for her failures, the cracked fire opal of the east.

Not only in gems, but in many other things, does nature make mistakes and failures, the results of which are high-On one occasion Manager McKee ly valued by man. The chank shell, a was watching a performance from a shell much like the conch shell of these shores, is one of the commonest shells on the beaches of India, and millions During the first act an usher came of them are gathered and burned for o him with the information that a the lime that is in them. Yet in a temgentleman was waiting at the door to ple near Kandy, Ceylon, are two chank see him on most important business. shells which hold the place of honor in "Tell him I can't come out-I'm very a shrine covered with gold, and no amount of money could buy them from The usher returned in a moment to their guardian priests. Their value say that the man insisted on seeing consists in the fact that nature was not quite herself the morning she fabricated these shells and gave a right handed twist to them instead of a left handmessage that he was an author and ed one, such as has been given to all had a play that he wished McKee to other chank shells, so far as man

Work For It. Nothing that is of real worth can be chieved without courageous working. Man owes his growth chiefly to that active striving of the will, that encounter with difficulty, which we call effort; and it is astonishing to find how often results apparently impracticable are thus made possible

Clean as a Whistle.

The origin of the saying "as clean as a whistle" is ascribed to the "whistle tankard" of olden times, in which the whistle came into play when the tankard was emptied or "cleared out" to announce to the waiter that more liquor was required.

Under the mogul emperors extensive systems of roads were constructed in India connecting all leading points in the peninsula. His Ability. "And how is my old school friend Bimson getting on?" said the man who

had returned to his native city after a long absence. "Oh, he's doing first rate." "But he was such a bright boy we always expected he would display espe-

cial ability.' "Well, I don't know that he hasn't displayed especial ability." "I never hear him mentioned in connection with any of your elections." "No; that's just the point. He has shown ability to go ahead quietly and

build up a business. He doesn't have to run for office."—Washington Star.

She-You don't love me as much as you did or you would have stayed lon-

ger last night. He-But you insisted on my going. "And if you had loved me you would not have gone."-Detroit Free Press.

Exception. "Hit's gwine to rain." announced Aunt Chloe. "I kin feel it in my bones." "People kin feel eve'yt'ing in dey bones," said Uncle Eph'm, with crushing sarcasm, "'ceptin de marrer wot
