### TICKET SCALPER PLEADED GUILTY

The first case of a man being arraigned in the criminal courts of this coun ty for ticket scalping was called be fore Judge Edwards this morning. The defendant was Adolph Blau, who is the manager of the Commercial Loan company, doing business at No. 305 Lackawanna avenue. The complainant was M. L. Smith, the district passeng er agent of the Lackawanna railroad.

Blau pleaded guilty upon the advice of his counsel and was let off with an extremely tenient sentence. It was \$25

Cases in this state for ticket scalping have been rare, although there has been a law against it on the statute books of Pennsylvania since the year 1863. It was only recently that the supreme court of Pennsylvania decided that that law is a good one and that it is a crime to scalp tickets in Pennsyl

The D. L. & W. company sometime ago had reason to complain of ticket scalping in this city and started out to find where the trouble came from. They soon found that the tickets were being scalped by Blau. Mr. Smith re monstrated with him and told him not to sell the tickets of the Lackawanna and also called his attention to the law

of this state regarding it. Blau did stop for a time and then when the New York state court decided against the railroad companies in the famous case at Buffalo he thought that it gave him license to sell and started up the scalping business again. Mr. Smith told him again and also called his attention to the fact that the law in New York state was not the same as the law in Pennsylvania, and that the law in this state was straight out and out against the practice. Blau wouldn't believe it, and kept on sell ing until he was arrested.

There is a big difference between the case that was in New York state courts and the one in the county court here this morning. The suit was brought there by the companies against the scalpers to restrain them from selling. The suit there was in equity not in the criminal court. The peculiar part of the suit there was that it was decided against the company on ground that they did not come int court with clean hands and when man comes into the equity court for redress of grievances he must come there without spot or blemish. Thus it appears that while the New York courts decided against the companie they did not decide that ticket scalp-

ing in New York was legal. In passing sentence on Blau thi morning Judge Kelly told him that it was on account of all the facts in the case that he was so lenient. That he felt that Blau had made a mistake in his understanding of the New York law and did not understand the difference between that and the law in this state. Judge Kelly stated that the law in Pennsylvania is clear and distinct, and that it positively makes ticket scalping a crime. It is a serious crime, too. The penalty is fine and imprisonment in the penitentiary.

The court impressed the fact upon Blau that while he was lenient thi time it was not to be understood that he would be so lenient with him or anyone else if they should be brought before him again on the same crime While the D. L. & W. company agreed to have judicial clemency extended to Blau, Mr. Smith stated that it was an example to any one else that would be found scalping their tickets. They will prosecute to the full extent | teresting program has been arranged. of the law in cases that may arise hereafter.

Major Warren appeared for the company, and Messrs. Joseph O'Brien, Geo. S. Horn, Frank Donnelly and ject of Debate: "Resolved, That moral-John F. Murphy for Blau. - Scranton Truth, April 12th.

## FOR ARBOR DAY

The second and last Spring Arbor Day or this year occurs tomorrow, April 18 and the following suggestions have been made for the observance of the day in the schools:

There should be some appropriate usic and where possible, some display of plants and flowers. Poems and prose selections bearing directly or inecited.

Arbor Day furnishes an excellent oportunity for teachers to call the attenion of their pupils to such out-door ooks as the following: The works of Forrey, the works of Henry David government was the most critical in Thorean, the works of Hamilton W. its history. Gibson, the works of Richard Jefferies, 'Gilbert White's History of Selborne." etc. Teachers themselves should have presented by J. S. Shultz, J. W. Trees are among the most familiar bject in nature and among the most asily studied; yet how few people know ne from another or have an intelligent nderstanding of their life history.

Any thing that brings trees more closey to our attention, and that makes us realize their great importance is of distinct value as an educational agent. 'Cleanliness is next to godline

Dirt and depravity go hand in hand. This is just as true of the inside of the body as the outside. Constipation clogs the body and clouds the mind. Constipation means that corruption is breeding in the body, poisoning the blood with its foul emanation, befogging the brain with its tainted exhalations. Constipa tion is the beginning of more disease than, perhaps, any other single disorder The consequences of constipation are gion. Headache, pain in the side, short-ness of breath, undue fullness after eating, coldness of the extremities, nervous ness, indecision, lassitude, dizziness sallowness, flatulence and a scor other ailments are directly caused by constipation.
