Death Again Invades Home.
For the second time in three days death invaded the home of W. R. Sidler, No. 123 Walnut street, and took from the family circle a beloved little one. Anna Mary Sidler, aged thirteen months, was summoned to her eternal rest Saturday morning. She was ill three weeks with inflammation of the bowels. The funeral took place Sunday afternoon, at four o'clock, and she was laid to rest in the Odd Fellows' cemetery by the side of her brother, who died Thursday. The services were conducted by Rev. B. J. Allen, pastor of the South Danville M. E. church.

The Same Old Story.
J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions, and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by Paules & Co., No. 352 Mill street.

From The Texas Oil Fields.
Mr. and Mrs. John C. Pitner, of Beaumont, Texas, are visiting Mrs. Hannah Pitner, mother of Mr. Pitner, at Riverside. Mr. Pitner has been absent from Riverside for fifteen years. He is engaged in the lumber business at Beaumont, the centre of the big Texas oil fields. He says that there are many wells there and that some of them are flowing from 100 to 150 feet high.

PREPARING FOR ENCAMPMENT

The advance detail of Company F, Twelfth Regiment, N. G. P., will leave for the division encampment, at Gettysburg, next Thursday morning on the 9-14 Pennsylvania train and will be joined at Sunbury by the other advance details of the regiment. The Danville boys will be under the command of Corporal George R. Gross and the members of the detail are Jacob Snyder, George Marshall, Abraham Childs, Oscar Burdick, Frank Nevins and Ralph Gaskins.

Shipments of canvas tents were made yesterday to the encampment from the state arsenal, at Harrisburg, and a large force of laborers from the arsenal will be employed in getting the camp in readiness for the troops.

Company D, Eighth regiment, Harrisburg, and the Second City troop, Philadelphia, have been detailed to do provost duty during the arrival of the troops. The detail will be under command of Lieutenant Colonel Hutchison of Harrisburg and will be sent to Gettysburg on July 9, to insure the safety of property against damage by the soldiers.

Summer complaints are unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is kept on hand at the home of every family. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time. —Lansing, Iowa, Journal. For sale by Paules & Co., No. 352 Mill street.

Has Re-Enlisted in the Army.
Samuel R. Waite, Jr., son of Samuel R. Waite, Sr., has re-enlisted in the United States Army and is now stationed at Fort Leavenworth, Kansas, as a member of Company B, First Battalion, United States Engineers. He served three years in the regular army and went through the arduous campaign in the Philippines and was on the march against the boxers in China. He participated in the battle of Tien Tsen and with the troops that relieved the besieged legations at Peking. After his enlistment expired he returned to Philadelphia, where he again entered the army, on May 23, and was assigned to the engineers at Fort Leavenworth. He likes his new duties and location very well but says that he will return to Danville when his three years are up.

The Best Lintment for Strains.
Mr. F. H. Wells, the merchant at Deer Park, West Virginia, says: "I always recommend Chamberlain's Pain Balm as the best lintment for strains. I used it last winter for a severe lameness in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by Paules & Co., No. 352 Mill St.

Hang Out the Bunting Today.
The indications are that Danville is once more in the zone of "a pleasant spell of weather" and it is expected that by this morning the business community will begin to hang its bunting on the outer walls—in other words start the work of decorating. There is not another town in Central Pennsylvania enjoying a greater degree of prosperity at the present time than Danville and it is proper that she should wear her most pleasant aspect on an occasion like the Fourth. It will pay to decorate. It will make Danville talked about and advertise her and the more people hear of this flourishing town the more they wish to see her.

It is fair to assume that Mill street will present such a mass of waving color as to utterly eclipse all former efforts in a decorative way.

"I am using a box of Chamberlain's Stomach & Liver Tablets and find them the best thing for my stomach I ever used," says T. W. Robinson, Justice of the Peace, Loomis, Mich. These tablets not only correct disorders of the stomach but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by Paules & Co., No. 352 Mill street.

Enthusiasm of the young people throughout the state has been aroused, and every society in the state will have its representatives.

In watering the primrose observe this: Water should not be poured upon the crown of the plant nor the soil filled so full that the water flows over into it. This is fatal to the health of the plant.
To destroy aphides or plant lice dip the ends of the twigs into a strong tea made by steeping tobacco stems in hot water or syringe with whale oil soap suds, repeating the operation in six or seven days.

Dark Hair.

Geo. Yellott, Towson, Md.

HOW to Treat The Servant

"I DON'T know why it is," sighed old Mrs. Fogeyte, "but I never can keep a girl any length of time. I pay them good enough wages, too; better than most women I know."
"Oh, they're a mean, low down, impudent lot, that's what they are!" cried her friend, young Mrs. Highstepper. "They're the curse of the modern home. For my part, I'll be glad when they invent automatic service or other inventive housekeeping or some one of those newfangled ideas."
"I don't quite agree with you," interrupted Mrs. Goodhousekeeper gently. "Put yourself in the maid's place," she went on.
"Dear me, how could I?" shivered young Mrs. Highstepper, indignantly. "A low, ignorant, uneducated thing."
"And whose fault is that, pray?" retorted Mrs. Goodhousekeeper sharply.

It was Lady Mary Wortley Montagu who first introduced inoculation for smallpox in England. While residing in Belgrade in 1717 she saw the Turks practice "engrafting," as they called it, to produce a mild form of smallpox and stay its ravages. She examined the process and, being convinced of its efficacy, applied it to her three-year-old son. On her return to England she introduced it in London. At that time it was complained that one person in every seven died of the smallpox. Yet she was opposed by the entire medical faculty. By order of government an experiment was made upon five persons then under sentence of death, and it proved perfectly successful.
But instead of Lady Mary being acknowledged as a public benefactor she was persecuted with the most relentless hostility. The faculty rose to a man against her. Even the clergy deserted on the awful implety of seeking to take events out of the hands of Providence. The common people were urged to boot her as an unnatural mother who had risked the lives of her own children. However, the Princess of Wales, afterward Queen Caroline, stood her friend, and truth and reason finally prevailed. It was about the year 1752 that Lady Montagu was honored by a monument erected to commemorate England's gratitude to her for introducing inoculation.
Dr. Edward Jenner substituted cowpoc inoculation in 1790. He lived to be rewarded by parliament by a grant of £20,000 and later by a second grant of £20,000, and in 1858 a statue was erected to him in London. Only a mere credit was vouchsafed to Lady Mary Wortley Montagu, who bore all the persecution without any of the pecuniary reward she was entitled to and by no means a fair share of the glory.

Over-Work Weakens Your Kidneys. Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Fains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits.

A GOOD THING GIVE IT A PUSH.

LIVONIA CAMP, PA. APRIL 21, 1902.
MOYER BROS.
DEAR SIR—
I think that every man that has a team of horses or any stock, ought to have a bottle of Moyer's White Liniment in the stable or his house. I had a horse that stepped in a hole with his front foot, coming down the main stair with a trail of props, and fell forward and strained his shoulder blade. That it swelled so fast that we could hardly get the collar off, and in two hours his neck was swollen to all the skin would hold. We used your White Liniment freely, and in a few days he was to work again, and does not show any signs of lameness. It worked like magic.

Respectfully Yours,
J. A. BARTHAST.

AN UNPROFITABLE JOB.

It was a case of a jealous, suspicious husband with a pretty wife. He had some suspicions which could only be cleared up by having his wife continually watched, and for this purpose it was requisite to have a lady who would go to her as a companion while he was abroad and report to him every little thing she said or did during his absence.
"Good pay," the detective said quietly when I announced my decision of altering my mind and not undertaking it. "You will make \$200 in a fortnight, have no expenses and nothing to do but be with the lady and go with her everywhere—theaters and concerts, balls, all sorts of things. More over," he went on quietly, "I don't think you will object when you have seen the lady. I have no opinion in the matter at all, but she seems a quiet, sweet little woman, and you may be the means of clearing up this suspicion about her and restoring her happiness. Wait until you have seen her."

I did, and my heart went out to her at once. I felt that by clearing up these suspicions I should be doing one of the best things I had ever done in my life, and I agreed to go to her on the following Monday.
"I don't mind so much when my husband goes away," she said, with a little smile, "because I know it is necessary for his health, but I do feel a little lonely sometimes, of course, and he is always so thoughtful about me every way. I often wondered what that brother would have thought had he known his sister was being continually watched by a lady detective.

I imagined how he would have loathed and hated the sight of me and how he would have resented my presence there. As it was, he was particularly nice to me and invariably sat near me and chatted pleasantly, on one occasion even going so far as to say how he looked forward to seeing me and how pleased he was his sister had some nice girl to be with her. But when one day he brought me some flowers, with a few whispered words, I felt as if the blossoms themselves would sting me. The room swam in a mist before me,
