A RED HOT CAMPAIGN

Judge Pennypacker Resigns Office to Go on the Stump.

A GREAT BAND OF SPELLBINDERS

Pattison is Dodging the Free Silver Issue, and Refuses to Meet W. J. Bryan—What State Newspapers Say of the Rival Candidates.

(From Our Own Correspondent.) Philadelphia, July 29.—Pennsylvania is to witness the liveliest kind of a campaign this fall. Indeed from indications it will be the liveliest campaign the Commonwealth has ever seen.

Judge Pennypacker has left the bench for the express purpose of participating in the campaign. His resignation is in the hands of the Governor and he will leave the bench on August 1st. He will take the stump about six weeks before the election in November. There will be associated with him the greatest company of spellbinders that ever travelled the state.

It has not been settled definitely as to who will compose the Pennypacker party, but among the names mentioned are those of Senator Penrose, Assistant United States District Attorney Jas. M. Beck, Ex-Postmaster Charles Henry Smith, Ex-Governor Hastings and Beaver, Attorney General John P. Stewart, Adjutant General Thomas J. Eickart, General Jas. Latta, Hampton L. Carson, George S. Graham and possibly United States Senator Chauncey M. Dew.

The Democrats are going to put a band of spellbinders on the road that will represent the best speakers in their party. It naturally follows that Ex-Governor Robert E. Pattison will head the combination. Other members of the party will be Ex-Attorney General W. U. Benson, Congressman J. K. P. Hill, George W. Guthrie, candidate for lieutenant governor; Hon. W. F. Hartry, Hon. George A. Jenks and State Chairman Wm. T. Creasey.

PATTISON RUNS FROM BRYAN. As to the issue that will be discussed it can positively be asserted that the Democratic candidate for governor will not discuss national issues nor Republican prosperity. He is very much afraid of those subjects at the present time. Mr. Pattison is ashamed of Wm. Jennings Bryan whose name he has used for four years ago. A very funny incident attended the appearance of Wm. J. Bryan in Philadelphia last week. Bryan was on his way to Allentown to address a Democratic meeting. When he reached Philadelphia there was not a carriage to be had. Every prominent Democrat in the city had run away.

Robert E. Pattison, Democratic candidate for governor, was the most conspicuous among the missing. He made it convenient to be in New York when Bryan arrived in Philadelphia. Democratic City Chairman Charles E. Donnelly and Commissioner Thos. J. Ryan were also among the absent ones. Judge Gordon couldn't be expected to meet Mr. Bryan because he had opposed him, and so the up-shot was that the late Democratic candidate for the Presidency encountered a "freeze-out." Naturally he was very indignant, and when he spoke to the Lehigh County Democrats that night he declined to mention the name of Ex-Governor Pattison or even invite his hearers to vote the Democratic ticket in Pennsylvania. WHAT THE NEWSPAPERS SAY. The Republican newspapers of the state, both stalwart and independent, have been devoting considerable editorial space to an outline of what candidates Pennypacker and Pattison will discuss. The York Daily Express has heretofore a leading independent Republican newspaper cleverly puts the matter as follows: "Ex-Governor Pattison, it is understood, will not discuss national affairs on the stump in Pennsylvania, but as he is looked to mean the campaign in Illinois in September he will be permitted to shout for tariff reform and the unlimited and independent coinage of silver at the dishonest rate of 16 to 1. Of course he will take a whack at the way the Republicans have acted in the Philippines, but he will be as silent as a clam in Pennsylvania on such subjects.

"On the other hand Judge Pennypacker has loudly declared that he will discuss local issues and national issues, and the Republican nominee, after he reaches the Governor's chair, will manfully carry out his ante-election promises, and impress upon the Senate and House that a proper ballot law and other reforms must be enacted."

PATTISON IN ILLINOIS. The Franklin "Repository" of Chambersburg, in pretty much the same strain has this to say: "Mr. Pattison is looked by the Democratic State Committee of Illinois to

open the campaign in that state early in September, and as Pattison is precluded from discussing national politics in Pennsylvania, this will afford him an opportunity of telling the democracy of Illinois that when Cleveland and Hill, and Whitney and General Palmer balked, he stood resolutely for the Kansas City platform—tariff reform and the unlimited and independent coinage of silver at the dishonest rate of 16 to 1.

"In the meantime while Pattison is strolling how he may make a canvass for Governor and avoid touching upon any issue of vital importance to the nation, Judge Pennypacker is preparing to resign his judicial office in order that he may take the stump in advocacy of all that the Republican party in its National and State platform stands for.

"Judge Pennypacker will not falter on any of the leading issues of the day, and especially will he stand up for his party in its acquisition of the territory of Alaska, Hawaii, Porto Rico and the Philippines. He knows that under the aegis of the American flag the ignorant, pitiable, half-civilized creatures of the Philippines will be raised to a high level of citizenship.

A character of side-light was thrown upon Judge Pennypacker when a Philadelphia reporter called on him in connection with the announcement of his retirement from the bench, and requested an interview. The Judge declined to be interviewed saying: "I do not deem it consistent with my judicial position to be interviewed for publication, particularly on political subjects. Of course I am a candidate for office, but I am still on the bench, and this fact precludes any discussion of political or judicial matters. After the first of August I will be a private citizen, in the same that I will be no longer in office, and then I will be in a position to discuss any proper subject."

Insurance Commissioner Durham, Republican leader of Philadelphia, said: "Republican campaign speakers this fall have plenty of matter ready to hand. That Democratic re-union at Nantasket Beach furnishes material, to my mind, for a dozen speeches. If the Democratic leaders can ruin our present prosperity by their political advantage they would do it in a moment. Take Senator Canack's utterances as a sample. He openly threatened revolution against present industrial conditions. That is Democratic policy. Mr. Pattison himself was a vigorous advocate of the ruinous policy of 16 to 1. The people of Pennsylvania do not wish to be divided into two parties. Pennsylvania Republicans are standing together this year as they have not done for years, simply because they know that any other policy would encourage the Democrats, and Democratic success means industrial revolution and a hold up on our national prosperity."

A SENATOR FROM PENNSYLVANIA

His Works Harder Than Any Average Business Man in the State. The bulk of Pennsylvania's business in Washington rests on the broad shoulders of Senator Robert Penrose. The junior Senator has always borne this burden. It is an heritage of the office. Quay did it when Cameron was the senior Senator, and Penrose does it now that Quay is his senior. Here are a few statistics and facts about the junior Senator's daily work when he is in session.

His daily mail averages between 400 and 500 letters. It embraces everything from the prayer of a broken-hearted mother whose soldier son has been court martined and for whom she is begging a pardon down to a request of a farmer for an agricultural bulletin on the destruction of plant lice. Every mail is a mixture of tear-stained epistles, begging, threatening, demanding and commending letters.

Every letter is answered within twenty-four hours of its receipt. People imagine that Senator Penrose's private secretary attends to all the business of his office, while the Senator does nothing but make speeches and sit in the cloak rooms. That is a dream of the caldron. Penrose attends to correspondence, file and tabulate it, so that any letter received within five years can be produced in five minutes, requires the services of an assistant to the secretary and four stenographers.

The rooms of the Committee on Immigration is Senator Penrose's office. Here he receives hundreds of callers every day. Secretary Andrews is in charge and here letters and telegrams are dictated. The actual work room is over in the Malby building, where all day the "big" call books are going incessantly on. There are the documents, maps, plans, seeds, and other impediments of senatorial life are folded, wrapped and expressed.

Four persons are engaged in this. In addition, two men are constantly employed in visiting the departments most catching information in which constituents are interested. In all a staff of eight persons is required to attend to his purely clerical and departmental work.

Senator Penrose has the reputation in Washington of being the hardest working member of the United States Senate. His duties are executive rather than legislative, as these facts demonstrate. Pennsylvania is larger than New England with its 12 Senators, and the records of the Senate post office shows that the mail of Pennsylvania Senators is the largest that goes through the office with the single exception of Senator Hanna's, and he is chairman of the Republican National Committee.

Senator Penrose has distributed more public documents than all the New England Senators combined. Last year he had demands for 59,999 packages or seeds. Each Senator is allotted 14,999 packages. By begging from Senators whose constituents were careless, Mr. Penrose secured the whole amount demanded.

At the last session Senator Penrose introduced and had passed more bills than any two Senators. Pennsylvania had more claims against the government than all the rest of the United States put together. They were border rail claims, claims of the state against the National Government, of shipbuilders, armor plate makers, and the thousand and one individual claims for losses sustained. All told over 600 bills of every kind were introduced by the junior senator. Since he went into office he has handled over 30,000 pension claims of every name. The School Board Anxious. The School board is beginning to be very anxious on the score of a coal supply for the coming winter. The time has arrived for awarding contracts to the local dealers. The prospects of a settlement in the miners' strike, however, are so poor that it is not thought worth while to invite bids.

The opening of the schools is only a trifle over a month distant. There is only a limited supply of coal in any of the buildings, and what the board deems it that the supply may give out before the strike is settled, in which event it might be obliged to close the schools.

The Same Old Story. J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies. Mr. Kelly is a well known citizen of Henderson, N. C. For sale by Paules & Co., No. 352 Mill street.

RAISING CALVES.

A Man Who Claims Success Has a Monthly Schedule. In successfully growing calves I prefer an April calf of good beef stock, says a correspondent in Indiana Farmer. The mother should be well taken care of, fed on plenty of clover hay, ground corn and oats, mixed half and half. Let the calf have all the finest milk that it wants; then take it away from the cow and put it in a stable handy and where the cow can see it, if it is bad weather. If the weather is nice, put the cow on a good pasture of rye with the calf just over the fence on a straw shed or stack where it can get the benefit of the sun. The calf should be turned to the cow morning, noon and night for the first two weeks; then the calf will eat it if it is not something green. There should be a small lot of rye fenced off for the calf, and that, with plenty of milk morning and night, will be all that is required for the next two weeks. Then the calf will be one month old. The 1st of May there should be a patch of oats ready for the calf, with a box matted up under a shed where the calf can go out of bad weather and eat a quart of ground corn and oats, equal parts, morning and night for the next month. Feed just after turning the cow out. During the next month June, the calf should be treated the same as the second, except a little more ground feed, say one-half pint more. The fourth month it should have a patch of peas to run in, and the feed should be cut and mixed with the peas. At the end of August he will be six months old and should be ready for the market at the top price for calves. I should have said at the end of two weeks the calf should be trimmed and dehorned if a horned calf, and during all this time the calf should have fresh water where it can go and drink at will.

Important Little Things. Horses are high this year, and every farmer should keep only just the number necessary for his work, says American Agriculturist. He should get it can out of them by giving good grooming and feed, starting in work gradually, providing well fitting collars and keeping them clean. These may appear little things, but are just what often determine the success or failure of a season's work.

Over-Work Weakens Your Kidneys. Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers; they filter out the impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It is used to be considered that only urinary troubles were to be traced to kidney trouble, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is so realized, it stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent bottles. A GOOD THING GIVE IT A PUSH.

LYONS CAMP, PA., APRIL 21, 1902. MOYER BROS. DEAR SIR— I think that every man that has a team of horses or any stock, ought to have a bottle of Moyer's White Liniment in the stable or his house. I had a horse that stepped in a hole with his front foot, coming down the mountain with a trail of props, and fell forward and strained his shoulder blade. That is exactly the fact that you could hardly get the collar off, and in two hours his neck was swollen to all the skin would hold. We used your White Liniment freely, and in a few days he was to work again, and does not show any signs of lameness. It worked like magic. Respectfully Yours, J. A. BARTHAST.
