GRAND ARMY
COMMITTEE

Commander William M. Heddens, of Goodrich Post, No. 22, G. A. R., has appointed S. H. Morrall, Samuel Morten, Richard W. Egert, Levi Seeholz and John Everett members of the general committee to arrange for the annual encampment of the post. Commander Heddens is the chairman, Levi Seeholz secretary and Richard W. Egert treasurer of the committee.

The encampment will begin on Saturday, at DeWitt's Park, and will last until the following Saturday, August 16. The tents will be put up on Friday. In addition to the big mess tent of Goodrich Post there will be smaller ones, which will be rented for the week. The meetings and other events on the program will be held on the pavilion.

The general committee, assisted by the comrades of the post, are actively at work preparing for this outing, which will be one of the best ever given by the local Grand Army men. An encampment was held last summer at DeWitt's Park, but there was considerable rain which made it unpleasant for the campers and prevented much of the program from being carried out. This year the veterans are hoping for clear weather and they intend making this encampment a big success.

There will be jolly camp fires round which the boys in blue will tell of the stirring day when they went to war. They will sleep again under the canvas and will live for a week the life of a soldier. Large crowds are expected to be present every day of the encampment.

Fire less slight at big Mill. The sixteen-inch mill of the Reading Iron-Works, which so nearly fell a prey to fire, Thursday night, Friday morning along with the other departments of the plant was able to resume work nearly as though nothing out of the ordinary had occurred. Considering the grave aspect presented when the fire was at its height the damage when dawn appeared was found to be very slight, being limited to a burning away of the gables and a small portion of the roof and ventillators of the two buildings that make up the 16-inch mill. None of the machinery or any part of the equipment was injured.

Superintendent David Thomas yesterday stated that it is the consensus of opinion among those employed in the mill that the fire originated from a flash from the rolls, the burning particles alighting overhead at the valley or low portion of the roof between the two divisions of the mill. It is believed that the fire gained some headway before discovered, burning through the boards and spreading out over the roof on the outside. From the point where the fire was viewed when discovered it had the appearance of being between No. 7 and No. 8 heating furnaces, which gave rise to the theory that it was caused by an overheated stoker.

The works are well equipped with fire fighting appliances. There are four fire plugs in the mill in addition to two on the outside. Superintendents Thomas and Williams both commended the employees for their prompt and efficient work in combating the flames. Attaching the hose to the plugs was only the work of a minute or so and the fire was assailed from four different points. The several streams in the mill were kept into constant play until the fire was gotten under control. The efforts of the city firemen, which were attended with such good results, also come in for their share of praise.

The loss is estimated at about \$1200. The works are insured. As to the repairs, therefore, rendered necessary by the fire nothing can be determined until the insurance companies take action.

Pleasant Evening Party.

Miss Ray Drefuss, Mill street, gave a party Tuesday night in honor of her guest, Miss Bessie Drefuss, of Philadelphia. The lawn was decorated with Japanese lanterns, and the guests spent an enjoyable evening. An elegant supper was served. Those in the party were: Misses Eveline Rosenthal, and May Fischman, of Baltimore; Misses Mary Wetzel, Martha Christian, Mahel Gearhart, Myrtle Stidler, Gertrude Myers, Sara Christian and Edith Kramer, of this city; Messrs. Albert Cohen, Emanuel Cohen and Max Cohen, of New York; Senator Cohen, George Alexander, Joseph Giddings, Bloomsburg; George Clark, Alfred Seeman, William Hunt, Albert Drefuss, Arthur Heddens, Harry Walker, Bert McClure, Rev. Adolph Mayer and Mrs. Eli Rosenthal, of this city.

Unanimously Chosen Manager.

William H. DeLong, of Blue Springs Farm, has been unanimously chosen manager of the Washingtonville base ball club. All communications relative to dates and other matters pertaining to the club should be addressed to him at Washingtonville.

SWIMMING WITHIN
THE BOROUGHSPRINGFIELD
WAS VICTORIOUS

The local police have their hands pretty full enforcing the provisions of Section 1st of the borough ordinance under "Nuisances", which declares that "it shall not be lawful for any person or persons to bathe in the Susquehanna river, Pennsylvania canal, Mahoning creek or any other stream or public place within the limits of the Borough of Danville."

Both teams changed pitchers in the sixth inning, Remmer taking the place of Donnelly, and Guinn succeeding Skoskie. While running to first base Skoskie collided with the baseman and was hurt in the side, necessitating his retirement from the game. Springfield had eight hits, while the home team got six, but there was only one bopper, which was hit out by Welter. The following is the score in detail:

A Famous Old Spring.

The famous old spring in the Third Ward a few hundred yards east of the D. L. & W. station has become a very popular resort during the last few days of warm weather. The refreshing shade and the abundant flow of crystal water that wells up out of the earth both contribute to make the spot cool and inviting and there is not an hour of the more heated portion of the day that little groups may not be seen reclining in the grass. They may be workmen from the nearby mill or they may be men from the furthest part of town who have braved the sun in order to enjoy a drink from the old spring. There are not many hobos, whether umbrella menders or those who make no effort to disguise their character but who seem to know of the spring, and there they may be seen sleeping or smoking by the hour.

The spring is one of the largest in this section, the flow, it is estimated, approximating four hundred gallons per minute. The water is cold and presumably pure. Scores of families are supplied from the spring, the water enabling whole households to get along without ice during the hottest weather. In this way the old spring contributes immensely to the welfare of the people.

The spring was famous in the early days of Danville and it is one of the landmarks around which the memory of the oldest settler entwines with the most affectionate interest. It is unfortunate that we well organized and well sustained effort has ever been made to protect the spring from the ravages of time. It is true that those who use the water make occasional contributions toward repairs. Last spring a hundred feet or more of terra cotta pipe was laid in the drain, but the spring is too much exposed and it is impossible at times to keep the water clean. The walls also should be kept in a little better repair and an additional cleaning out of the bottom now and then would improve matters.

Saturday's Market.

The market Saturday was very large, occupying all the allotted space. Prices remained about the same as when last reported with the exception of sweet corn which fell from 15 cents per dozen to 10 cents per dozen.

There were two large wagon loads in market and the rival vendors took to cutting prices. As a result many persons indulged in sweet corn who otherwise might have been prompted to wait until a week later.

A Romance of the Rail.

The course of true love runs smoothly on the "Road of Antirachite" the Lackawanna Railroad, and is set forth in a booklet entitled "A Romance of the Rail". It includes the entire set of cards which the road has been putting out this season, telling a story that belies the old saying about the course of love. A wedding feast is served in the dining car before the lovers leave the train. The booklet will be sent free to anyone who will send two cents in stamp to T. W. Lee, General Passenger Agent, No. 26 Exchange Place, New York City.

To Doubt This.

Is to Disbelieve the Evidence of your own Senses.

It's Danville proof for Danville people.

It's local endorsement for local readers.

It will stand the most rapid investigation.

Mr. Jos. Hooker, baker of 102 North Spruce Street, says I was for a long time afflicted with lameness in my back, and a pain over my kidneys. I had a great deal of nervousness, restlessness, did not sleep well, had bad dreams, and was continually tossing from side to side striving to get a comfortable position. The kidney secretions were not normal. I was tired all the time and often had a dull aching in the back of my neck, read accounts of Dr. Don's Kidney Pills curing people. The description of their symptoms tallied all the best and induced me to try the remedy. On using them a short time the whole trouble disappeared.

Look Pleasant, Please.

Photographer C. C. Harlan, of Eaton, O., can do now, though for years he couldn't, because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him. Dr. Wm. E. Bitters, which worked wonders for him that he declares are a godsend to sufferers from dyspepsia and stomach troubles. Unrivaled for diseases of the Stomach, Liver and Kidneys, they build up and give new life to the whole system.

Try them. Only 50¢. Guaranteed by Pauls & Co., druggists.

PLENTY OF COAL
WAS VICTORIOUS

The Springfield base ball club, from Shamokin, won the game Saturday afternoon with the "Old Timers", at DeWitt's Park. There were few features to make the contest interesting and the visitors made their victory sure by batting out four runs in the fifth inning. Danville took a spurt in the sixth, scoring both its runs.

Both teams changed pitchers in the sixth inning, Remmer taking the place of Donnelly, and Guinn succeeding Skoskie. While running to first base Skoskie collided with the baseman and was hurt in the side, necessitating his retirement from the game.

The Springfield had eight hits, while the home team got six, but there was only one bopper, which was hit out by Welter. The following is the score in detail:

A Famous Old Spring.

The famous old fishing spring which touchingly sets forth that "the biggest fish I ever caught is the fish that got away". By the same token did the biggest turtle Richard Morrall ever captured escape from his custody while being brought to Danville. Said turtle was to be converted into real turtle soup by Colonel Johnny Moyer of the St. Elmo Hotel.

Colonel Moyer, who is the genial landlord of the Iola Hotel, Iola, came to Danville Sunday and drew up at the St. Elmo. Said he to Col. Moyer: "Johnny, I have a fine present for you right in my carriage. It is a big snapper and he weighs thirteen pounds". And Col. Moyer, in anticipation, summoned his whole household to see the wonderful turtle. But when the door sack in which it had been placed was pulled from the carriage a big hole told the story of escape.

When Colonel Jack McCall, of the Hotel Oliver, heard of the presentation that was not he consulted Col. Moyer by stating that Col. Moyer never had a turtle, but had seen one in five years and could not know one if he fell over it. However, Col. Moyer had the testimony of people to whom he showed the turtle while on his way here from Iola that he did have it and that it did weigh thirteen pounds. Col. McCall says the thirteen is what quenched the affair. Col. Moyer and Col. Moyer are now asking them to settle this question: "Where is the turtle?"

Many Guests at Party.

A surprise party was given Saturday evening at the home of Mr. and Mrs. Charles W. Cook, near Kaseville, in honor of the eighteenth birthday of their daughter, Irene. An elegant collation was served and Miss Cook was the recipient of many handsome presents. There were fifty guests present, among them being the following: Mr. and Mrs. Harry Marshall, Frank Blodin, Miss Irene Cook, of Danville; Miss Agnes Mettler, of Riverside; Miss Elizabeth Maust, of Swensoda; Misses Florence Wilson, Rachel Churm, Elizabeth Flick, Mamie Hughes, Minnie Roberts, Nora Lee, Carrie Blum, Elizabeth Bowers, Blanche Wilson, Pearl Constantine, Rebecca Hawkins, Grace Diehl, Mame Marr, Margaret Getling, Winifred Flick, Sadie Marr, Bessie Wilson, Margaret Cook, Minnie Cook, Gertrude Blue, May Phillips, Elizabeth Phillips, Misses George Harp, Frank Kase, Hurley Lee, William Roberts, William Stetler, Samuel Wintersteen, Frank Wilson, Raymond Purcell, Charles Miller, Ira Churm and Harry Marr, of Frosty Valley.

August Making Warm Start.

August is starting rather warmly and will no doubt hold to its record as the hottest month. Yesterday the thermometer registered 81 degrees at noon and the same at six o'clock. Then a brisk shower dispelled the heat and sent the mercury down to 76 degrees.

HERES A GOOD THING.

Something you can Readily Believe as Danville Evidence.

Grant Atten of No. 413 Church street, Danville, Pa., says—"I have suffered a great deal from rheumatic neuralgia affecting my whole nervous system and seeing Dr. A. W. Chase's Nerve Pills recommended. I got a box at Gosh's Drug Store and tried them. They provided a splendid remedy giving me prompt relief in every way. I rested better and do not suffer from those continuous headaches and feel stronger and better and have more vitality than before. I cannot speak highly of them."

Dr. A. W. Chase's Nerve
