## SPECIAL MEETING OF COUNCIL

Pursuant to adjournment Friday night the borough council reconvened Monday eye for the purpose of transacting some business which had been carried over, the most important of which was acting upon the report of the Fire Committee to whom had been delegated the inspection of samples and the selection of new hose.

Mr. Gibson, chairman of the Fire Committee, presented a report. After giving due consideration to the relative quality, prices, pressure, guarantees, &c., he said, the committee had decided in favor of Fire King Hose, manufactured by Wise & Bailey of Philadelphia.

When it came to acting upon the committee's report the question arose whether to accept it would not be equivalent to adopting the Fire King Hose. President Vastine, who was sustained by Mr. Kemmer, took the view that such would be the case. Mr. Davis took the opposite view, as did also Mr. Patton, although the latter insisted that the recommendation of the Fire Committee through courtesy should be adopted. Here Mr. Kimmer took the matter up and said "to turn the committee down" after the time and labor it had bestowed upon the subject in hand was a serious reflection upon its judgment and for his part if subjected to such an insult he felt that there would be little more for him to do in council. Mr. Dougherty expressed himself in the same vein. Mr. Gibson as chairman assured Council that for himself he had acted conscientiously. Mr. Patton moved that the report of the Fire Committee be accepted. The president making the explanation emphatic that to accept the committee's report would be to adopt the Fire King hose put the question. The result was in doubt when the yea and nay vote was called with the follow-

g to carry and Fire King Hose being out of the question, George Sechler moved that Eureka hase he selected He made this motion, he explained on behalf of our fire department, who, he said, are nearly a unit in favor of Eureka hose.

Mr. Davis spoke strongly in favor of Eureka bose. As a fireman he had assisted in handling if for seventeen years. It is one brand that could be relied upon to stand the test.

The motion carried without any opposition, several members declining to vote.

The Eureka Hose is guaranteed for five years and costs 90 cents per foot. The Fire King carries a guarantee of four years and costs 87 cents per foot. The quantity of Eureka hose purchas ed last night was 1000 feet. In making navment under the terms one-half will be paid January 1st and the balance on April 1st.

The Eureka Hose Company is represented in this city by the Welliver Hardware Company.
