CANNON'S WARNING CR'

The Illinois Congressman's Message to Pennsylvania.

TARIFF MUST NOT BE TOUCHED

Pattison's Election Would Mean Lack of Confidence In President Roosevelt and His Policy-Prosper-Ity and Republican Rule.

(From a Special Correspondent.) Washington, D. C., Aug. 26 .- "You can say to the people of Pennsylvania that if our present prosperity is to continue, then tariff protection as exemplified in the Dingley act must

These significant and impressive words were uttered by the chairman of the house committee on appropriations, Hon. Joseph Cannon, of Illinois. He has been in the city for several days, returning from the naval maneuvers and is on his way home to take part in the Republican campaign in his state.

"In your campaign speeches are you going to promise the people that there will be a revision of the tariff at the next session?" he was asked.

demoralized and industries shut down. For sale by Paules & Co. Manufacturers do not care to make contracts for the future, because they do not know what the tariff rate will be.

"No sir. The tariff will not be revised at the next session of congress or by the succeeding congress, unless there is an unforseen check to our present prosperity. There is nothing sacred about the present tariff schedule, but any tinkering with it at the present time would be demoralizing." The above is a significant utterance.

It comes from one of the best posted and one of the most conservative men in congress. It is a statement particularly interesting to Pennsylvania. which above all states of the union with its great iron and steel industries would be affected by tariff agitation. There are four great manufacturing

states in the union and Pennsylvania is second. They are New York with \$2,175,000,000 of manufactured products: Pennsylvania with \$1,835,000,000; Illinois, \$1,266,000,000, and Massachusetts \$1,035,000,000. The instant the tariff is touched or revision is agitated by its enemies, the Democrats, just that instant do we have an era of Democratic hard times.

Here is an interesting statement of conditions in 1896 when Cleveland left the White House and last year after five years of undisturbed Republican

The deposits in the savings banks of the country, those depositories of the surplus funds of the working man, were \$690,000,000 greater in the single year 1901 than they were in 1896. The individual deposits in the National banks of the country were \$1,298,064,-000 greater in 1901 than in 1896. Thus the deposits in the Savings and National banks in the country in Republican good times exceed those of 1896 at the close of four years of Democratic uncertainty by the enor-

mous sum of \$1,988,000,000. FARMERS GETTING RICH.

Now what has this meant to the farmer? The live-stock on the farms of the country which was reported by the agricultural department in 1896, at \$1, 727,926,084, is reported at \$1,981,054, 115 by the census of 1900, an increase of \$253,128,031. With the increased activity, increased earnings, and increased consumption by a prosperous people the farmer has received greatly increased prices for his production.

The farmer is becoming an exporter. The exportation of agricultural products increased from \$570,000,000 in 1896 to \$944,000,000 in 1901, an increase of \$374,000,000, in the mere surplus remaining after supplying our great and rapidly increasing home market. The farmers of the country received \$350, 000,000 more for their cereals alone in 1900 than they did in 1896.

A statistician in one of the departments here in Washington, said to

me the other day: "The Democratic stump speakers sneeringly claim that the Republicans claim every big crop as a result of protection or Republican legislation, thereby robbing Divine Providence and Heaven of its just dues," but the figures show that it is a fact that during Republican administrations there are larger crops and bester prices than there are in Democratic times." In-

teresting isn't it?

But this is easily explained. The inelligent farmer, in connection with the rest of the country, has no faith in Democratic administration or promises consequently during Democratic administrations less wheat, corn, oats and other crops are planted. This is proven by official figures. The farm value of the corn crops for the four vears of Cleveland's first administration, from 1885 to 1889, aggregated \$2,-569,653,980. In the four years of Harrion's administration which followed the farm value of the corn crop aggre gated \$2,830,938,138, an increase of more than \$250,000,000 during the Cleveland administration. The same condition was repeated in the second Cleveland administration and the following Mc-

Kinley administration. In the Mc Kinley administration years the farm value of corn increased \$250,000,000 over that of the preceding Democratic administration.

WHAT THE ELECTION OF PAT-TISON MEANS.

The farmers of Pennsylvania shared n this prosperity. Do they propos to help elect a Democratic governor this year, and by that action indicate that they have a weakening faith in President Roosevelt and Republican principles? For that is what the election of Pattison would mean! That is the question that heads of departments Its first outcropping was at the meetand the strangers that visit Washington are asking. Almost every day l am asked the question, "What is Pennsylvania going to do?"

The Democrats from Pennsylvania who come down to Washington on busi- tion ness boast that they are going to make their fight on state issues. When they are asked why they do not discuss national issues, those who are honest reply that it isn't the year for a discusand free silver, and so there is nothing panies but \$3.20." left to do but take up state issues. As a result when I am asked what Pennsylvania is going to do I invariably re-

'Why elect Pennypacker of course.

DEMOCRATIC SCHEME EXPOSED

Trying to Fool the Farmers By a Mis statement of Facts.

One of the arguments upon which Democratic stump speakers this fall will largely depend to capture un thinking voters has been disclosed Democratic State Chairman Creasy. East Market street. ing of the McKean county Demo-

adopted made the following declara-

state of Pennsylvania shows that the Helen and Walter of Columbia, Pa, farmers and home owners pay \$16.50 in taxes for each \$1,000 in value, while the steam railroads pay but sion of national issues, seeing that their \$2.75, the street railroads but \$4.75, party has not recovered from Bryanism and telegraph and telephone com-

The statement is absolutely false in every particular. It is an attempt of the Democrats to excuse their own wretched short comings on the mat ter of taxation when they were in burg. power. Republicans will not be deceived by this trick and subterfuge when they consider the deception, as exposed by the Philadelphia Press,

which says: "There is no state tax on real es tate, as everybody should know by this time, since it was wiped out almost 40 years ago. There is no state tax on trades and occupations, or on horses and cattle or on household fur niture, all such taxes having been repealed years ago so far as the state is concerned. Wherever taxes of this kind are imposed it is a local matter. The tax on real estate paid by the farmers and home owners is fixed by the local authorities and raised only for local purposes. If it is burden some it is the fault of the county borough or city authorities, for the state has absolutely nothing to do with it. It is not a subject for legis lation at Harrisburg, as the McKean Democrats want to pretend.

"The state gets the bulk of its evenues from tax on corporations in various forms, and though it is complained that the corporations are not taxed enough the state revenues have been so large for many years as to support the policy, long since adopted of returning large amounts to the counties as a means of relieving the local burdens of taxation. This policy has been greatly enlarged in the past dozen years, and with the present overflowing state treasury there is very certain to be a clamor before the next legislature for still more lib property tax, school appropriations the payment of judges' salaries and charities, together with some lesser

"Now let us see what kind of a grievance McKean county has against the state. The auditor general went to the trouble in 1897 to prepare some state by each county and that return ed to each county by the state. These tables show that there was paid into the state treasury by McKean county in that year \$19,358.88. There was returned to the county on account o personal property tax, judge's salary and schools alone \$43,589.93 to say nothing of appropriations to charities. By charging the county with its pro portion of state expenses and hospi tal and charitable appropriations the auditor general makes the benefits re ceived by it amount to \$92,445.14, as against \$19,358.88 received from the to take the direct payments which show that the county received more

than twice what it paid. "The figures for McKean county are not exceptional. They are proportionately the same for all the counties. The money is collected from corporations and paid over to the counties to relieve the local burdens of taxation. If the farmers and home owners in any county are taxed too much let them look into their local administration and seek relief there. The state does not impose a penny of tax on them."

Henry L. Shattuck of Shellsburg Iowa, was cured of a stomach trouble with which he had been afflicted for be the guests of Dr. J. J. Brown. years, by four boxes, of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedie and a number of physicians without relief. For sale by Paules & Co.

Relates to New Pupils.

Some persons, it seems, have mis onstrued the extract of the school law rinted yesterday relating to vaccinaon. Pupils who have been successfully vaccinated and presented a certificate to that effect last year or previously will not need to do so this ear as the very fact of previous atendance at school should put the oupil on record as having complied with the law. The extract printed re- kidney trouble. ates to new pupils, while those who lates to new pupils, while those who may have attended last year without they had heart trouble, because the heart is having been "successfully" vaccinated will in the light of yesterday's article omprehend their full duty in the pre

LIVONA CAMP, PA, APRIL 21, 1 MOVER BROS.

DEAR SIR I think that every man that he eam of horses or any stock, ough nave a bottle of Moyer's White Linin n the stable or his house. I he horse that stepped in a hole with ront foot, coming down the moun with a trail of props, and fell foru and strained his shoulder blade. it swelled so fast that we could ha get the collar off, and in two hours neck was swollen to all the skin w hold. We used your White Linix freely, and in a few days he was to again, and does not show any sign

> Respectfully Yours, J. A. BARTHAST. . . .
