A Word of Warning.

There are an exceptionally large number of thieves and pickpockets on the move this fall, and in view of the large crowds that will congregate here next week attending the Fair it is reasonable to presume that characters of this sort will gravitate to this section. If you live in the country, keep some one with a trusty revolver on the premises while the rest are away. Do not come to the Fair with a large sum of money, or many valuables about your person. You may get pinched.—Bloomsburg Daily.
