Carrie Nation is going to visit Williamsport. Such was the abrupt announcement that the eccentric woman made yesterday in a letter to a friend in the lumber city. "I will be there on Friday, November 7th, and will make an address in Association Hall in the evening," she writes. ONTOUR AMERICAN THE CORPORATIONS PAY THE TAXES

Under Republican Rule the Burden Is Placed On Them.

CITIZENS PAY NO STATE TAX

Republicans Have Paid Off Over \$40, 000,000 of State Debt Left By the Democrats, and Now Pennsylvania Is Free From Debt-Some Figures

For Democratic Shouters to Study. Every home owner in Pennsylvania has a vital interest in the approach ing election. It is not only a question of Democrat or Republican, of Pattison or Pennypacker, but it is a matter of dollars and cents to every owner of a foot of land in the commonwealth. It was the Democratic party that plunged the state into a debt of \$40,-000,000 that has required forty years of Republican rule to lift. Republi-

cans should not forget this. And yet in spite of this fact the Re publican system of state finances has been the subject of the most persistent attacks from its enemies. Democratic leaders when they assail the Re publican financial system in Pennsyl vania know that they are deliberately misrepresenting the facts. Unfortunately the public at large does not seem to have a very clear idea of the method by which state taxes are assessed

nd collected. Under the wise and beneficent legislation of the Republican party in the past thirty-five years, the burdens of state taxation have been lifted from the shoulders of the individual and placed upon the corporations of the state.

CITIZENS PAY NO STATE TAX. An impression prevails among the people that they are taxed for all the appropriations made to the public schools, charitable institutions, the judiciary, legislative expenses, the new capitol, etc., etc. As a matter of fact, our citizens pay no state tax except a liquor license tax, and one mill on the dollar where they own personal securi-The Republicans of Mon- ties, such as bonds, mortgages, etc., the tax on the same being four mills, three of which are returned to the respective placed before the people. In direct contrast to this has been the attitude of the Democratic party and its legislation. MISLEADING TAX RECEIPTS. The manner in which the various wealth have their bills and receipts printed is largely responsible for the misapprehension that exists in the minds of the people upon this question of state taxation. In almost every instance instead of having a separate item for state taxes to be used where the person has money at interest subject to taxation, and not otherwise. almost all bills that are sent out by the tax collectors have one item entitled State and County Tax." Opposite this head is placed the amount of the county tax, and the person receiving the bill is naturally under the impression that the amount charged represents a combination of state and county taxes, and if questioned upon this point the answer is always the production of a tax receipt showing the payment of ies, and all laboring men are sure he a certain sum of money under the head will legislate in there intrests.
