MONTOUR AMERIGAN AT THE THEATRE

FRANK C. ANGLE, Proprietor.

Danville, Pa., Dec. 4, 1902

Unlike the majority of sensational nelodramatic productions," The Flaming Arrow" which was presented by the Indian actress Go-Won-Go-Mohawk, and company at the Chestnut street Opera House last night, was enjoyed and liberally applauded by the audience down stairs as well as "the gallery gods." The plot while dealing with soldier life among the uncivilized Indians in the far west, is cleverly woven and the story is told

This was not the case, Snow Ball, Frank Patton as Lieuten continued Justice Grav. the adjournant Brightly, the traitor; Wilbur Colment was taken so as to come to some lins as Senor Pasedo, a treacherous conciliatory agreement, which would Mexican. were very satisfactory in have to be approved by the commis- their respective roles. The bugling of sion. Justice Gray further stated that W. H. Kiley, who played Seargent the commission had decided that no True or the U. S. A., was great. Helparty could withdraw its side of the en Vaugh was seen as Mary Freemont, case without the consent of the other the heroine, and was capital in the side. The commission, he said, desired to have the field of inquiry Black Eagle, the pale faces' true thoroughly covered.

There was a long argument on the admission of the profit and loss accounts. The independent operators said that they would not submit these accounts and Darrow replied that if it was admitted that a man was entitled to fair wages whether the company was making money or not, he would agree that it was of no purpose to have the profit and loss accounts submitted. If, however, said Mr. Darrow, the companies in the proceedings insinuate that they are unable to pay an increased wage, the submission of such accounts would be neces-

sary. - This was the first instance where any of the parties to the issue had balked in the presentation of evidence. John Mitchell, president of the United Mine Workers, was re-called

to the stand as the first witness today. In answer to a question of Mr. Darrow Mr. Mitchell said that from his own calculations he found that if the demands for a twenty per cent. crease in wages were granted, the increase of labor cost on each ton of coal would be about seventeen cents a ton Mr. Mitchell said that since the strike

lot o' kids ervin' over in the foundlin'," is the reply. "Oh," we muse, "a sort of charlty bawl, eh?" And the policeman clubs us.

-Baltimore News.

GROWTH OF DAIRY INTERESTS. The late census bulletin on the coun try's dairy interests is out and show a most wonderful development of this \$500. interest during the past twenty years or since the date of the establishmen of the creamery system. There are now 9,355 butter and cheese factories in operation, Iowa leading, with 824; Wisconsin, 788; New York, 740; Penn sylvania, 619; Minnesota, 546, and Illinois, 465, strictly butter factories or creameries, and New York leading with 1,314 cheese factories. The tota capital employed is \$36,508,015, and the value of the product is \$131,190,-277, a gain of 109 per cent in ten years. But all this represents only a fraction of the benefit which the de velopment of the dairy business has prought to the country, the increased fertility of the farms, the enormous meat interests and the more scien-

tific and improved methods of agriculture which have ever followed in the wake of the dairy interest, repre senting a gain in agricultural wealth which it is impossible to compute The cow has done great things for the country.
