Danville, Pa., Dec. II, 1902

SCRANTON, Dec. 10-The commis sion having to do with the anthracite coal strike heard testimony this morning relative to the attendance of the children of miners in the public schools

of this city and county. George W. Phillips, superintendent of schools in Scranton, the next witness, presented figures showing that in schools in mining neighborhoods more children attended night school than they did during the day. In one or two schools in the mining neighborhood not a miner's child attended day sessions, he said. Mr. Phillips said that almost without exception, miners' children left school before reaching their 12th year. Night schools were attended almost exclusively by miners' children, Phillips said.

The following questions were answ-

A Headache Remedy That Cures.

After years of careful study and experiments we have found a remedy that will cure headache in nearly every case with the first dose. It is a Tablet: put up in handsome boxes of fifteen tablet. for ten cents. One tablet is a dose. They contain nothing harmful and nobad after-effects can come from their use. They are endorsed by some of the leading physicians.

Mr. S. C. Keller, of Bloomsburg. says: "I have tried nearly all headache remedies on the market and think there is none equal to yours. I would not be without them for ten times their cost ... ' Ask your dealer for a sample. ...
