THE Y. M. C. A. GYMNASIUM

All the leading magazines and health journals of the present day contain Seidel. numerous advertisements, of special

courses of physical culture which set forth the fact that persons may obtain by mail a printed course of instructions that will enable them to take proper systematic exercise at home. Other advertisements announce special apparatus, which are designed to do was administered and repeated often. good work. The claim is also made It reduced the swelling and inflammain these magazine announcements that tion, cut the mucus and shortly the persons who follow instructions given | child was resting easy and speedily will, in a short time not only become recovered. It cures Coughs, Colds, strong, but will also be cured of LaGrippe, and all Throat and Lung certain diseases. These courses of troubles. One Minute Cough Cure physical training cost from \$5.00 to lingers in the throat and chest and en-\$20.00, are based on scientific princi- ables the lungs to contribute pure, ples, and will no doubt accomplish all health-giving oxygen to the blood. that is claimed for them, provided Gosh & Co., Paules & Co. those who undertake the course will honestly and persistently carry out the instructions given; but here is where the trouble comes in, for the reason that comparatively few people will conscientiously stick to the exercise and follow it up day in and day out for any length of time; because to go into a room and exercise alone for even a few minutes becomes monotonous to the average man and woman and is neglected and soon given up altogether. Of course, this ought not to be the case with so good a work as the care of the body, but that it is so, canrealistic. not be denied. The fault is not with the system of exercise, (for most of the systems advertised are good), but with the person who undertakes the

course and fails to keep it up. The real purpose of physical exercise is to keep well rather than to be strong, but the truth is that persons who exercise regularly are, as a rule, both well and strong. To obtain the best results and make physical culture a source of pleasure and profit, it has heen demonstrated that class-work is the very best method for stimulating a desire to engage in regular exercise, Item. for by this method of gathering together under the leadership of a competent instructor, the interest is kept up, and contact with others in the

By a system of meas urements taken at the beginning of a course of exercise, persons can tell at the end of a few months just what progress they have been making.

The Y. M. C. A. furnishes a place for the development of physical manhood, that is free from all objection. able features, and with a man employed whose time is devoted exclusively to this special work, there is presented an exceptional opportun ity to all who desire to improve their physical condition. For a membership in the Association, including instruction in the gymnasium classes and privileges of baths, the price is only \$5.00 per year,-surely a' triffing amount for so many privileges.

No one need fear to join the classe and begin exercising at once, on the ground that the work is difficult. for

the fact is the course as prescribed is simple and easy at the start, and there will be no difficult exercises given until the person is fully able to execute them.

All the classes are coming on nice ly, and those taking regular exercise are pleased with the results. The business men's class is especially popular. Persons desiring to connect them serves with the physical department should apply at the Y. M. C. A. building where all information will be cheerfully given.
