COLDER WEATHER FOLLOWS THAW

The warmer weather of Tuesday with the rain which followed finished up both the sleighing and skating for the time being. The roads at places are bare and it will require another fall of snow to make sleighing even passably good.

The present season has already furnished a great deal of good sleighing and in that respect has proven quite an "old fashioned" winter. During the decade or so past there has been many winters in which the sum total of good sleighing has been far below what we have already enjoyed up to the present date this season.

Although plenty of ice there was not much good skating until a few days past. The best ice was found in the canal, which since the thaw of last week has contained two or three feet of water. Monday and Tuesday many of our young people skated all the way to Cameron, returning either by the same route or by the river, which at many places afforded quite good skating.

The rain of Tuesday night has covered the ice in the canal with several inches of water. This of course has spoiled skating for the present, but all that is needed is another freeze to make the ice better than before.

HEADACHE CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrhs, which are not an inflammation of the mucous lining of the Eustachian Tube.

We will give One Hundred Dollars for any case of deafness caused by catarrh that can be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., 505 Broadway, New York, N. Y.

Keep Up the Agitation. The announcement that the government has admitted communities that the rural free mail delivery system will be discontinued unless the public roads along which carriers are forced to travel are kept in good condition, has given the good road movement new impetus.

The farmer, for whose benefit free rural mail routes have been established, will have an additional incentive to give the question of road making more diligent study and to make a more determined and united demand upon the State Legislature for financial assistance in improving the thoroughfares. The mass meeting in Washington County Wednesday, at which the subject of good roads was discussed and a plan of campaign in behalf of good highways in that county was mapped out, including a proposition to ask assistance from the state in the work, will doubtless be followed by similar gatherings in other parts of the state.

Democratic State Chairman Cressey, himself one of the most ardent advocates of state aid to road building, takes exception to the bill which Senator Sprunt will introduce in the Legislature, on the ground that his bill becomes a law it will impose too great a hardship upon the counties. The main trouble seems to be that a law that would suit one community would be objectionable to other communities because of the differing conditions that exist throughout the State. One county or one township, because of the wealth that abounds therein, might be able to meet the requirements of such a bill as that drafted by Senator Sprunt, while other counties or townships, because of their lack of financial resources, might be overburdened with taxation if forced to meet the extra demands made upon it.—Williamsport Sun.

Unconscious From Croup. During a sudden and terrible attack of croup our little girl was unconscious from strangulation, says A. L. Spafford, postmaster, Chester, Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and shortly the child was resting easy and speedily recovered. It cures Coughs, Colds, LaGrippe, and all Throat and Lung troubles. One Minute Cough Cure Ringers in the throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. Gosh & Co., Pauls & Co.

Funeral of Alam Secler. The remains of the late Alam Secler, whose death occurred Friday, were consigned to the grave in the Episcopal cemetery Tuesday afternoon. The funeral, which took place at the home of the deceased, Kipp's Run, at 1:30 o'clock was very largely attended, among those who gathered around the bier of the aged and well-known citizen being a large number not only from this city, but also from Sunbury, Milton and other towns.

The services were conducted by Rev. R. J. Allen, pastor of St. Peter's M. E. church, Riverdale. The choir of St. Peter's was also present and sang two selections. Following were the pallbearers: J. H. Campbell, John Crossley, James Schaffer, J. D. S. Riondes, James Carr and A. D. Wyand. Among those from this city who attended the funeral were: Mr. and Mrs. Frank Secler, Mr. and Mrs. J. W. McKinney, Miss Ida Secler, Mrs. Frank Spitzer, Mr. and Mrs. Samuel Rehman, Mr. and Mrs. Elmer Newberry, Mrs. Mariah Bondeman, John Everett and Miss Sara Waters.

WITNESSES BEFORE STRIKE COMMISSION

PHILADELPHIA, Jan. 21.—The first witness before the Strike Commission today and incidentally the fourth today to whom the commission has listened to was Gilbert Jones, assistant mine superintendent for the Temple Company. He admitted that he had refused to re-employ a number of men who had gone on strike, but declared that his only reason for so doing was that he had filled their places during the strike with men who had proven efficient and whom he would not discharge. He had also refused to employ sixteen miners who had returned to work with non-union men. Mr. Darrow brought out the fact that these sixteen men were former employees of the Lehigh Valley company and he had been warned against them by the foreman of the Malby colliery. Mr. Darrow contended that this was an example of the much-diseused blacklist, but the witness vigorously denied this.

The next witness called was George L. Houser, auditor of the Temple Coal company, who gave the commission the wage conditions of the miners employed by the company as shown by figures which he declared it had taken him over two months to compile. The total number of company miners was 799, he said. He gave a lengthy detailed statement concerning the arrangements of the various classes. The average wage was \$1.39 2-10. This testimony closed the case of the Temple company.

Good Health and Good Morals. Danville has several things to be thankful for.

The Secretary of the Board of Health states that there is not a case of infectious disease in town.

Good order and due regard for law, which at all times is a natural characteristic of our citizens, was never more manifest than at present. There are only two prisoners in jail and neither of these is a resident of our town. Arrests are few and far between and our justices of the peace find time weighing heavily upon their hands. Our police are always alert and arrests are few because offenders against the law are scarce.

This flattering state of affairs is due to the general intelligence, the upright and law-abiding character of our citizens, which has frequently been remarked upon by those outside of town, but familiar with affairs in our midst. This is especially complimentary to our wage-earners who make up the bulk of our town's population, men who have distinguished themselves, not only for skill and devotion to duty, but also for temperate habits and those many qualities which are bound to command respect.

Little Montour seems to afford an instance where good health and good morals go together.

New Century Comfort. Millions are daily finding a world of comfort in Backlin's Arnica Salve. It kills pain from Burns, Scalds, Cuts, Bruises, contusions, Ulcers, Salt Rheum, Boils and Felons; removes corns and Warts, Best Pile cure on earth. Only 25c at Pauls & Co. drug store.

Laid to Rest. NEW YORK, Jan. 21.—The funeral service over the remains of the late Abram S. Hewitt took place this morning at the Calvary Church. Obsequious honor was paid the Godman by representative citizens of New York and the church was filled with sorrowing friends. Committees and business organizations attended the funeral. The rites were performed by Bishop Henry Codman Potter and Bishop Herbert Lotterbee, assisted by the Rev. Dr. Sims Park. The musical program, selected by Mrs. Hewitt, was conducted by Lacey Baker, the organist of Calvary Church. The vested choir sang the vocal numbers without accompaniment. The only instrumental number, Chopin's funeral march, was played by Mr. Baker.

The pall bearers were: Mayor Low, Andrew Carnegie, Alexander E. Orr, J. P. Morgan, Morris K. Jessup, H. H. Rogers, R. Fulton Cutting, Henry E. Howland, John E. Parsons, Wm. E. Dodge, Charles Stewart Smith, John S. Kennedy and John D. Cantwader. Sixteen pall bearers were selected, but three were compelled to forfeit their places on account of illness. After the church service the remains of the iron master and philanthropist were removed to Greenwood cemetery, where they were interred in the Peter Cooper burial plot.

UNITED STATES SENATOR PENROSE. The Hon. Boies Penrose, on Tuesday elected to the United States Senate for another term, won the honor by close attention to duty and by unwavering loyalty to his constituents, all the people of Pennsylvania. RAILROAD MEN WANT MORE PAY. There are ominous mutterings among the railroaders in, and near Hazleton over the reluctance of the coal roads to grant a general wage increase. The men are very reticent in regard to their intentions, but from the stray remarks let fall, a strike is probable, unless the transportation companies do something to appease the demands of the employees. The railroaders are known to have made a demand for a general advance, but what answer, if any, has been made is not known. A strike has already been inaugurated on the Silver Brook division of the Jersey Central, and because the cause assigned is the discharge of three scale runners. A new superintendent thought their work could be done by the brakemen and conductors and issued orders that the scale runners be dispensed with. The brakemen, however, refused to do the work and a strike resulted. A half dozen collieries will be affected if the matter is not speedily adjusted, and their suspension would materially decrease the output of coal from the Lehigh region. Railroaders from Mauch Chunk, who were asked to handle the trains on the Silverbrook division, have refused to take the strikers' places.

Points to Farmers About DIEHL'S CONDITION POWDER. I fed "Diehl's Condition Powder" to my chickens according to directions and found it the best I ever used. When I began to feed it my chickens were sick with the roup. I have seventy-five chickens now and you never saw a finer lot. They have fine red combs and lay lots of eggs all through this cold weather. I also fed some to my hogs; it kept them healthy and gave them a good appetite, helping them to fatten. I say upon honor that it is the best powder in the market. Yours truly, ISAAC SHIPLEY.
