Public health in this city has improved considerably during the last two or three weeks. There are still a around and attend to his business. ew cases of pneumonia and typhoid fever, but the most of these are convalescent, while grippe, which a month ago, seemed to claim a victim in nearv every household, has abated wonderfully. There is not a case of infecious disease in Danville.

The improved conditions are no loubt to some extent due to the colder and more healthful weather which came along about the middle of the mouth. It is impossible to foresee what is in store for us between the present and April 1st, but it is hoped hat we will have very little of the disease-breeding weather that marked the latter part of January.

Our physicians, who a short time ago were busy night and day, are now enjoying a breathing spell.

Entertained. Friday evening. The following were ed man and his family, who are made down in weight.
