AN EXCISE COMMISSION BOARD

An excise bill was presented in the House at Harrisburg Friday by Representative Malcolm McConnell, of Lawrence county.

The bill provides for the turning over of the business of granting licenses and transferring them from the courts of quarter sessions to excise boards to be elected in each county of the State.

The bill provides that after the first Monday in January, 1904, an excise commission of three members shall be constituted in each county of the State who shall be county officers commissioned by the Governor. They shall be elected at the general election of 1903 and every third year thereafter. Electors may vote for only two commissioners, which is designed to give the minority party representation on the commission, and all vacancies will be filled by appointment of the Governor, of an elector of the proper county, who shall have voted for the commissioner whose place is to be filled, and who shall serve until the next general election.

The commissioners are required to give bond in the sum of \$1,000 for the faithful discharge of their duty. The clerk to the county court is named as the clerk to the commission.

All of the powers relating to the licensing of persons to sell liquors now vested in the court of quarter sessions shall reside in the commission, except that after a license has been duly issued the power of revocation of the license shall remain in the court of quarter sessions.

The compensation of the members of the commission shall be an annual salary of \$4 for each thousand and a part of a thousand of the population of the county as shown by the last census, and ten cents a mile for each mile traveled in going to and from the meetings of the commission, and shall be paid from the county funds quarterly.

From the moneys received for licenses issued the County Treasurer shall retain an amount sufficient to reimburse the county for the salaries and expenses of the commission.

Appeals from the decisions of the commission shall be taken to the Supreme or the Superior Courts.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years Dr. King's New Discovery pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, induced that incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only medicinal cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. The effect of one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

Higher Pay for Judges. Our representative R. S. Ammerman in the House of Representatives, Tuesday, made a vigorous speech protesting against the proposed increase of Judges' salaries, which was very widely quoted in the newspapers of the state yesterday.

The judicial salary increase bill, which adds \$207,000 to the salaries of the Judges of the various courts of the Commonwealth, passed the House by a vote of 123 to 51. The measure, which was introduced by Representative Moore of Philadelphia, was vigorously opposed at every stage of its transit; its final passage was accomplished only after a two-hours' debate.

Representative R. S. Ammerman of this county opened the attack with an exhaustive legal argument to show that the bill conflicts with the constitution in that it was designed to increase the salaries of judges now in commission, who had been elected at a lower rate of pay than is describe in the bill and also because in cutting off the \$10 per day for Judges' doing extra service outside their own districts it undertook to require service without compensation.

Mr. Ammerman also contended that if the State has any surplus funds to expend it should devote them to alleviating the sufferings of its insane wards. There are 10,000 epileptics in the State, he declared, who are not cared for and 5000 inmates of insane hospitals are without beds.

Mr. Moore in defense of the bill said that Philadelphia Judges receive \$7000, while Judges in New York get \$14,000 and Judges in Chicago, \$12,000. Mr. Mayne of Lehigh, was against the bill because it does nothing to restrain "tramp" Judges who go about in other districts holding court.

The measure provides for an increase of \$1,000 to the salary of the judgeship in this district.

A Surprise Party. A surprise party was tendered Helen Mills at her home, Riverside on Friday evening. The present were: Irene Farley, Mabel Keim, Mabel Campbell, Berta Ammerman, Nora Unger, Bessie Unger, Gussie Unger, Evelyn Mills, James Mills, Margaret Mills, Fred Mills, Walter Mills, Jane Mills, Kate Fowler, Martha Fowler, Nellie Keim and Mrs. Anna J. Mills. Refreshments were served.

AMUSEMENTS.

"THE FATAL WEDDING."

One of the best comedy dramas of the season, will be shown in all its glory at the Opera House on Saturday evening. The play has just finished a successful run in New York City, where the press were unanimous in its praise. It is entirely different from the usual run of plays of this character, inasmuch as it is full of heart interest and contains a plot that holds the interest of the audience from start to finish. It is a great home play and contains a strong lesson. The scenic effects are positively elaborate, nothing like it having ever been surpassed in a production of this kind. The scene showing the great Palisades of the Hudson at night, exposing a counterfeit's den, is one of the most realistic scenes ever presented. The cast contains a number of popular favorites. One of the most important characters in the play is an eight year old child actress, Jessie, who is truly a marvel. "The Fatal Wedding" is a play that should be witnessed by every lover of a moral lesson as it is far above anything ever shown heretofore.

Miss Parker takes great pleasure in announcing, as a strong addition to her company, Lillian Pierce, Boston's finest reader. Miss Pierce has been an instantaneous "hit" with the public ever since making her debut. We believe we are not exaggerating the truth when we present her as the most accomplished lady reader in this country. So much faith have we in her ability that we have already signed a contract with her for the season of 1903-04, when we shall place her at the head of a company bearing her own name.

To appear with May Parker's concert company, Opera House, Friday evening, March 6th, under auspices of Y. M. C. A. Star Course of entertainments.

Tendency of the Times. The tendency of medical science is towards preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medicine have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by Paules & Co. Druggists.

Better Than Gold. "I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicine I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for a tonic and invigorator for weak run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Paules & Co. Druggist.

Improvements. The Reading railroad is now spending thousands of dollars improving their road between Williamsport and West Milton. One cut through the mountain at Allenwood has already cost \$50,000, and the large force that is working at that point will be kept busy for another twelve months, at least, before the work is completed. When the plans now preparing and approved are carried out, the Reading will have a well ballasted double-tracked road over this entire division, and all the troublesome curves will have been either eliminated, or reduced to a degree that will give the heaviest trains little trouble.

A Surprise Party. A surprise party was tendered Helen Mills at her home, Riverside on Friday evening. MINORS KILLED IN STRIKE RIOT

CHARLESTON, W. Va., Feb. 25.—At Stanfords City, a small mining town in Raleigh county, about daylight this morning, a fight occurred between rioting miners and a joint posse of State and United States officers in which several rioters were killed and two fatally injured, and one of the posse killed and one slightly wounded. On Saturday Deputy U. S. Marshal D. W. Cunningham went to Stanfords City to arrest a lot of miners for contempt of disobeying the blanket injunction issued last summer by Federal Judge Keller. He was surrounded by a hundred or more armed men who gave him five minutes to leave the place. The same day the sheriff of Raleigh county was driven off the ground by the rioters. On Sunday United States Marshal John K. Thompson and S. C. Burdette, attorney for the miners, went to the scene and found everything quiet, the miners having withdrawn from that neighborhood, crossing the New river and gone into camp. Emboldened by their success in driving the officers away the miners returned yesterday to Stanfords and a state riot was inaugurated.

Railroad bridges leading from the Piney Branch of the Chesapeake and Ohio up to the mine opening were destroyed and the destruction of property was threatened. The guards kept by the coal companies to care for their property were defied and one of them disarmed and marched about through the neighborhood in front of a hundred and fifty rioters, all armed with Winchester rifles. Meantime, Deputy Cunningham and the sheriff here had not been idle. Cunningham came to this city and got orders to serve the process he had undertaken to serve at all hazards and to take with him enough men to do it. He got together about 25 picked men and went back yesterday to the scene of the trouble. There he was joined by the sheriff with a strong posse and the coal operators also furnished such trusty men as they had at hand, so all told the deputy marshal and sheriff found themselves in command of about 150 armed men at dark last night.

This morning at an early hour they proceeded to the place where the rioters were camped, and surrounded them. The summons to surrender was answered by a shot and in a moment the fight became general. The rioters were well armed, but were taken by surprise and unable to reply with effect to the deadly fire of the officers. When the fight was over, several of the miners lay dead and two were writhing in mortal agony. One of the posse, a negro, was killed. Howard C. Smith, who accompanied the posse, was shot through the legs. The telephone wires are bad on account of the snow and the names of the dead cannot be learned.

One hundred and twenty-five rioters were arrested and are being tried by United States Judge Beckley.

Escaped an Awful Fate. Mr. H. Haggins of Melbourne, Fla., writes: "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and we owe it to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Paules & Co. Druggists. Price 50c. & \$1.00. Trial bottles free.

New Postage Stamp. The new eight-cent postage stamps were placed on sale at the local post office yesterday. They contain a portrait of Martha Washington and present quite an artistic appearance.

The new special delivery stamps are also out. These differ very little from the old except that they contain instead of a messenger boy riding a bicycle, a picture of a carrier mounted on a bicycle.

Changes in designs seem to be necessary in order to afford variety for the public and to keep abreast with the progress of the times.

Nearly Forgets His Life. A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Ormer, Franklin Grove Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for Burns, Bruises, Skin Eruptions and Piles. 25c at Paules & Co's Drug Store.

Blessed With Twins. Ralph C. Foulk, the Mill street grocer, is doubly blessed. He is the happy father of a little son and daughter, which were born on Monday.

NEGLECT AND STARVATION

An infant and a mother, dead from neglect, exposure and starvation is the story, sad beyond all expression, that came to light within the last few days in the outskirts of West Berwick. The picture that was drawn in that miserable hovel in which they lived is one that hardly seems possible, yet because of the neglect or pride of the husband—name it what you will—his wife was allowed to die.

The dead woman is Mrs. David Herring, and she together with her husband and two children, lived on Sterling avenue below the Fair Grounds, in West Berwick. Their home can be seen from the D. L. & W. R. R. tracks, and lacks every comfort that a home should have. Several months ago the Herrings moved from near Mainville, and the husband was employed as a stocker on the No. 6 shears in the rolling mill. Ever since he moved to Berwick his wife has been sick, and he has been kept at home, unable to work, waiting upon her. Thus it was that the family purse became exhausted, and yet a word did the authorities hear of their situation. The neighbors, it is understood, seldom visited them and as their home was out of the ordinary course of travel, it was thus possible for their condition to pass unnoticed.

For weeks Mrs. Herring had been suffering from hemorrhages, and two weeks ago, while in a very weak condition, gave birth to a child. The family was without coal and had scarcely anything in the house to eat. During that terribly cold weather, when the thermometer was far below zero, she was compelled to lay there with nothing to eat, and with no fire in the house. Several days after the child was born, it died, and her husband, leaving her alone, carried it to Mainville and buried it himself. Although she was starving, and though she was freezing to death, her husband told no one. When neighbors accidentally dropped in Saturday, they found an indescribable sight. The few potatoes which they had been frozen on the stove. In her room they found Mrs. Herring, lying where she had been for a week, without any attendance, change of clothing and with practically nothing in the house to eat. They immediately furnished coal and provision and notified the West Berwick overseer of the poor, Chester Marr and W. C. Bond. An order of relief was sworn out before Justice of the Peace Kitchen by George Laub, Sunday. A collection was taken among the workmen in the bar mill of the rolling mill of the American Car & Foundry Company and this was turned over to the family.

Medical assistance was summoned, but she was beyond all help and died Monday afternoon at three o'clock. The authorities made an effort to remove her to the hospital, and drove down with a cab, but found her in a dying condition and it was not thought advisable to have her removed.

She was thirty-three years of age and is survived by a husband and two young sons, aged nine and eleven years. The body will be buried at Mainville.
