FUNERAL OF DR. PARRY

Professor Gomer Thomas Saturday afternoon received two newspapers printed at Cardiff, Wales, bearing date of February 27, which contain a full account of the obsequies of the late Dr. Joseph Parry, whose early life was spent among the people of Danville.

The great composer's extraordinary prominence in Europe is attested by the space given to the mere account of his funeral, which runs into several columns and is well illustrated. The prominence given to him is paralleled only by that which we in this country would accord to the demise of a President or a great general.

The funeral took place on Saturday afternoon, February 21, in the midst of a tremendous gale, accompanied by rain. Fully one thousand persons were present. Interment took place at St. Augustine's church yard, Fenarth.

The mourners included Mrs. Joseph Parry (widow), Mr. and Mrs. E. W. Waite, Miss Dillys Parry, Mrs. Haydn Parry, Mrs. Mendelsohn Parry, Alderman William Watkins, of Swansea, father of Mrs. M. Parry and Mr. C. Williams, Tenby, brother of Mrs. M. Parry.

On all hands were observable, obvious signs of sympathy with the family of the departed and long before 3 o'clock, the time at which it had been arranged the funeral should leave the house people began to gather in Victoria Square, wherein the residence of the deceased is situated. It had been decided not to hold a service in the house, where the relatives and immediate friends, who formed a numerous company, had assembled somewhat earlier in the day.

The coffin lay in one of the rooms down stairs, where it was almost enveloped in a profusion of exquisitely beautiful wreaths, all composed of Arum lilies and other choice flowers, of the choicest character. The inscription on the coffin which was of oak with brass fittings, read thus:

Dr. Joseph Parry
Born
21st May, 1841
Died
11th February, 1903.

Unfortunately the weather which had been threatening all the morning, underwent an unpleasant change shortly after mid-day. The wind increased in violence to half a gale and a dark mass of clouds over head began to pour forth blinding rain and sleet. Then as 3 o'clock approached the conditions were as depressing as they well could be under the circumstances, therefore it was not surprising to find the attendance far below anticipation. No doubt had better conditions prevailed the numerical strength of the gathering would have run into several thousands. Still even as it was people assembled from all parts of South Wales to join in the last sad rites of the departed composer.

At 3 o'clock Mr. Tom Stevens, Conductor of the Rhonda Glee Society, assembled the members of the different choirs present in front of the house and led them in the singing of Dr. Parry's immortal hymn tune "Aberystwyth". The soul-stirring refrain was caught up by the whole gathering of mourners and the scene formed an impressive prelude to the still more impressive ceremony to follow. Some time elapsed before the procession was formed and it was twenty minutes after 3 o'clock before the cortege set out on its mournful journey to Christ Church Congregational Chapel.

The Cardiff "Evening Express" says that Dr. Parry's name will endure as the greatest of Welsh musical composers. Apparently in perfect health only a few weeks before his death he was struck down when on the point of achieving still further triumphs and when he was filled with the hope for the prospects of a forthcoming tour through Australia and the United States.

Judge Barch Revists Danville.
Hon. G. W. Barch, of Salt Lake City, Utah, one of the Justices of the Supreme court, who arrived in this city Monday, left on the 12:15 Pennsylvania train yesterday afternoon.

Judge Barch was at one time a resident of this city. He occupied the position of grammar school teacher of the First ward, and was highly regarded as an educator. He was already married although still a young man. While living in Danville he buried a child. Last fall, his wife, who was a native of Columbia county, died in Utah and was brought to Bloomsburg for burial.

Judge Barch left Danville thirty years ago, proceeding to the coal regions where he was engaged in school work for a few years. He then went west where his rapid rise seems something phenomenal and illustrates the possibilities that lie before the American youth. There is probably no other instance on record in which a man in such a few years has advanced from a humble position in the public schools to a seat on the bench of the Supreme court.

Judge Barch is a very distinguished looking gentleman of some fifty-five or sixty years. On Monday he was the guest of F. C. Derr, who was Principal of the High School in this city at the time when Judge Barch was teaching in the grammar school.

BOROUGH'S OWN LIGHT PLANT

It does not seem improbable that a month before the inauguration of the new Council will be a municipal light plant. The matter was brought up on the first night of meeting and although no preliminary steps were taken no opposition whatever, was expressed to the measure.

Mr. Dougherty, who was among those who formerly most strenuously opposed municipal light, defined his position. In his former attitude, he said, he was entirely sincere and what he did he believed at the time was for the good of the borough. He is open to conviction, he declared and all that is needed is to convince him that it will be to the borough's interest to have its own light plant, when he will be found among the most ardent supporters of the measure.

The President of Council suggested a number of improvements for the coming year, which embraced the removal of the canal bridges and street paving on a limited scale. Sewerage was not included.

There proved to be, however, one or more members present in favor of sewerage and these took exception to the idea of paving the streets before inaugurating a system of sewerage, which, they claim, is an improvement that will have to come in the very near future.

Mr. Gossett was the first to express himself on the subject declaring that to lay a pavement and then to tear it up in a short time to install sewerage would be in his opinion like putting the cart before the horse.

It is very evident that the new Council is in a mood to carefully weigh matters and if it succeeds in steering clear of a deadlock some legislation may result which will greatly benefit the borough.

Another Bad Wreck.
The third wreck on the Lewistown division of the Pennsylvania railroad since Sunday morning happened at Beaver Springs Tuesday morning at 7:30 o'clock and was the most destructive of the three.

A westbound freight train took the siding at Beaver Springs to let an east bound train pass on the main track. Before the eastbound train passed another freight from Lewistown, drawn by two engines, came along and crashed into the train on the siding. The caboose was thrown on top of the engine and took fire. Fifteen minutes after the collision it was discovered that brakeman W. W. Wheelan, of Lewistown, was imprisoned in the burning caboose. The members of the train crew set to work to release their fellow-workman, and after working for nearly a half hour with an axe succeeded in getting him out, but not until he had sustained serious injuries.

He was removed to the hotel nearby where he was attended by a physician from Beavertown. His left foot was so badly burned that it may be necessary to amputate it. He also sustained a scalp wound of five inches and other injuries. Both of his shoes were burned off.

The caboose was completely destroyed and the first engine was stripped of all parts. The boiler being the only part left intact. The second engine was also badly damaged. Nine cars were piled up in a heap and badly broken up.

The wreck crews from Sunbury and Lewistown were called out and were at work all day. A track was built around the wreckage. Traffic was delayed several hours.

Another Scarcity of Cars.
The Reading Railway Co., is experiencing a great scarcity of gondola cars. When the per diem system went into effect some months ago, the company had so many of this class, that it did not know what to do with them. They had all been returned by the connecting lines, and were stored on the different sidings. Today they are so scarce, that the officials are unable to fill the orders as promptly as they would like. During last week the demand from the Iron Works at Reading and the furnaces was so great that it was impossible to supply the cars.

More Riots.
Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by riot collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and efficient medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by Paules & Co. Druggists.

The Moser Estate.
Execution for \$21,900 has been issued at Reading at the instance of the Lehigh Coal & Navigation Company against 335 persons throughout this region, all Bernard Moser "heirs" who lost their case after many years of litigation for coal lands worth \$15,000,000 around Tamaqua. More than half are women. Sheriffs and deputies will at once begin work, and the costs will amount to much more than the execution. Some "heirs" have no property and the remainder must pay all.

Tragedy Averted.
"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length he tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound, and well. Everybody ought to know it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Paules & Co. Druggists. Price 50c and \$1.00. Trial bottles free.

Charles C. Long, of this city, has sold his fine farm situated near Bloomsburg to George H. Welliver. Consideration \$5,500.

What's In a Name?
Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching, and protruding Piles, eczema, cuts, burns, bruises and all skin diseases. DeWitt's salve has no equal. This has given rise to numerous worthless counterfeits. As for DeWitt's—the genuine—Gosh & Co. Paules & Co.

A Birthday Party.
A birthday surprise party was tendered William Patterson at his home near Oak Grove on Saturday. Excellent music was furnished during the day. Mr. Patterson was the recipient of many presents. Those present were: Mr. and Mrs. Benj. Stamer, Mr. and Mrs. J. F. Patterson and daughter, Mr. and Mrs. Jesse Unstead, Mr. and Mrs. P. C. Foust and daughter Elsie, Mr. and Mrs. Jos. Hilbert and son William, Mr. and Mrs. William Stamer, Mr. and Mrs. William Leidy, Mr. and Mrs. George Reichard and son Luther, Mr. and Mrs. Norman Taylor, Mr. and Mrs. Daniel Hine, Mr. William Taylor, Misses Minnie Acor, Willis Panemaker and Anna Acor.

Gold's Are Dangerous.
How often you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such a common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency towards pneumonia. It always cures and is pleasant to take. Sold by Paules & Co. Druggists.

Painting Completed.
The painting and penciling of the brick work on the interior of the Water Works is now about completed. Seth Lormer and William Hillihen were the artists, who found the job a very big one. The work has been well done.

FRUIT CROP ENDANGERED

Farmers and gardeners have good reason to feel apprehensive of a failure of fruit the coming summer. The present mild and delightful weather, which is more characteristic of the forepart of April, than of March, is pushing the buds along very rapidly. It is too early for such weather to stay with us. Grim winter has only gone around the corner and he may be relied upon to come sneaking back one of these days. We may have a bout with another blizzard, at all events there will be plenty of freezing weather, which will wipe the buds and tender cherries, apples, peaches, etc.

The present kind of weather is agreeable enough to humanity after a long siege of winter, but it would be much better for us all if the quota of freezing weather, which March is pretty sure to bring, had fallen on the first half of the month and the mild weather on the last half. Under the circumstances it is much to be desired that colder weather may ensue in order to hold back the buds. It can not come too soon.

One of our well known fruit growers, who had a fine load of apples in our curb-stone market on Saturday, was especially solicitous for the welfare of the fruit crop. In his opinion a great deal of damage was wrought by the heavy storm of rain and sleet a couple of weeks ago, which encased every branch and twig of the trees in a tight sheath of ice, which clung to the limbs for a couple of days. In the experience of the farmer quoted such storms of sleet are always sufficient to endanger the fruit crop, whether the buds are very far advanced or not.

Two Arbor Days.
Governor Pennypacker has in his proclamation designating April 3 and 17 as the two days to be observed as Arbor Days. The earlier day may be unsuitable owing to a possibly late spring, and in such event the other day named can be observed. That is sensible and practical. Arbor Day has not heretofore been observed in Central Pennsylvania on an extensive scale as could be desired. In this section, many thousands of trees ought to be planted every year along the bare streets and the desolate looking surroundings of the houses. For some reason the Arbor day idea has never properly taken hold of the people in this country, although here, and there through the special efforts of school teachers, the day has been observed with an approach to interest if not enthusiasm.

It is evident that unless an effort is made to awaken interest in Arbor day it will not be more generally observed in the future than it has been in the past. The Governor, in his proclamation sets forth the importance of the work done by the Forestry Reservation Commission, and while the observance of Arbor day is not exactly in the same line as forestry restoration, the object is to promote and encourage tree planting wherever there is a barren spot that should be covered by fruit or ornamental trees. Local societies should be formed to promote and arouse interest in the observance of Arbor day.

Temperance Advance.
It is creditable to the late congress that a measure was passed forbidding the sale of intoxicating liquors in the Capitol building. While the cause of temperance may not have made such great advances as its advocates would wish, yet there has been a remarkable change in some respects since the early days of the republic, even since "war" times. It was quite common at one time in our history, to see decanters of liquor on the sideboards or shelves in private houses, and guests were cordially invited to partake, and it was not considered improper to take a "horn" or "boot" by even dorgymen. An intoxicated or hilarious congressman in "war times," or even later, was not considered ungentlemanly or undignified, but today liquor is forbidden in the Capitol, and a drunken senator or congressman is no longer respected, and is very apt to lose a reelection and cast with his constituents. Temperance has made two good advances at least. In the abolition of the army canteen and the Capitol bar, places liquor ought never to have been introduced.

Leads in New Safety Devices.
It is interesting to the local traveling public to learn that the Lackawanna railroad is not only abreast of the times but leads in new safety devices. The Lackawanna management has decided to equip its entire rolling stock with new high speed power brakes. It is claimed that the new brake will stop a train in a third less time than the appliance now in general use on most railroads. Thus far eight coaches have been equipped with the brake, and eight locomotives which have been recently ordered will be equipped with the same brake. The change on the rest of the equipment will be made as rapidly as possible.

Rev. John Reid, Jr. of Great Falls, Mont. recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Pres. Church Helena, Mont.

After using Ely's Cream Balm six weeks I believed my self cured of catarrh. Joseph Stewart, Grand Ave., Buffalo, N. Y.

The Balm does not irritate or cause sneezing. Sold by druggist at 50 cts or mailed by Ely Brothers 50 Warren St., New York.

Surprise Party!
Peter A. Winters was tendered a surprise party on Saturday evening at his home on Pine street in honor of his thirty-eighth birthday. Those present were: Mr. and Mrs. William Forney, Mr. and Mrs. Jacob Winters, Mr. and Mrs. Charles Winters, Mr. and Mrs. Grant Gulick, Mr. and Mrs. Jacob Elliott, Miss Elsie Elliott, Miss Christie Forney, Miss Minerva Winters, John Elliott, Jacob Elliott, Joseph Oeschger, Daniel Ross, Mrs. Sarah Winters and Mr. and Mrs. Arthur Winters of Sunbury. Refreshments were served during the evening.

It Saved His Leg.
P. A. Danforth of LaGrange, suffered for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25 cts. Sold by Paules & Co. Druggists.

COMMUNICATION FROM CITIZEN

Editor Montour American—
For the past two or three weeks there has been what seems to be a considerable amount of unnecessary alarm among a certain class of people residing in Riverside and vicinity over what one would term a mania of "maddogism" in consequence of which there has been a war of extermination declared against this poor, faithful and much abused friend and companion of man, and, already, quite a number of these household pets, who are dear to their owners and the family to which they belong, have offered up their lives, a sacrifice to the diabolical machinations of some people who are more fitted by their natures to live in a community inhabited by savages or demons where the sensibilities and obligations of mankind are unknown and brute instinct alone prevails, than among people possessed of the charity and refinement which civilization affords. It is known to the writer that in several—and it can justly be presumed in all—instances where dogs have been killed in said community, under the impression that they were suffering from rabies, that they were, in fact, the victims of poison, which had been placed in a convenient place for them, by some person or persons either too poisonous to keep a dog of their own or too low, mean, base and despicable for a dog to follow. Last Sunday morning a valuable dog belonging to a resident of Riverside returned home after an absence of only a short time acting very strange and unusual, and to all appearances, suffering from what the "Wiseacres" have heretofore called hydrophobia. He was taken into his master's house and while in the paroxysm of death, was saved only by a timely emetic, which disclosed a piece of meat, about as large as a man's hand, containing more than an ounce of Paris green. This is only an instance of the many we have observed, and if the law abiding citizens and respectable people of our community were to be put at rest on the question of "maddogism" will join in an effort to discover the miserable miscreant who is not only making his neighbors dogs mad by enticing them to his bait of poisoned meat but rendering himself amenable to a law, whose penalty though severe for the offense, is hardly adequate short of death itself.

"CITIZEN."
FIRM FOUNDATION.
Nothing can undermine it in Danville.
People are sometimes slow to recognize true merit, and they cannot be blamed for so many have been hurried in the past. The experience of hundreds of Danville residents, expressed publicly through newspapers and other sources, places Doan's Kidney Pills on a firm foundation here.

Mr. Josiah Williams, barber, of 39 Ash street, says:—"I did not have to use a whole box of Doan's Kidney Pills before they cured my lack of depressing aching and removed the lameness which had made every move painful. The lameness centered right over my kidneys, and stooping or lifting sent a sharp twinge through me, when on my feet a dull gnawing pain took all the sin out of me, and gave some to Mr. C. H. Stoes, of 217 E. Mahoning street, as I had no further use for them, and he was as well pleased as I with the results obtained."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Beware of the name—Doan's—and take no substitute.

Leads in New Safety Devices.
It is interesting to the local traveling public to learn that the Lackawanna railroad is not only abreast of the times but leads in new safety devices. The Lackawanna management has decided to equip its entire rolling stock with new high speed power brakes. It is claimed that the new brake will stop a train in a third less time than the appliance now in general use on most railroads. Thus far eight coaches have been equipped with the brake, and eight locomotives which have been recently ordered will be equipped with the same brake. The change on the rest of the equipment will be made
