STATE HOSPITAL FOR THE INSANE

The official report of the Danville insane asylum for the year has just been issued. It is an illustrated volume of eighty-four pages. It goes extensively into the history of the institution and shows that at the end of last year there were 536 males and 489 females under treatment, a total of 1,025.

In the report of the Board of Trustees to the Committee on Lunacy of the State, we note the following:—

The operation of our Hospital during the year just ended has been along a line similar to that of previous years, with the addition of such exigencies naturally arising in its course. There were present during the season just ended 536 men and 489 women, total 1,025; there were admitted during the period 208 men and 180 women, total 388; there were discharged 151 men and 134 women, total 285, an increase for the biennial period of 57 men and 46 women, total 103.

Of those discharged, 97 were restored, 23 improved, 28 unimproved, 103 died, and one not insane.

The total expenditures for the year ending September 30, 1901, were \$196,775.00, and the daily average number of patients was 933.34. This shows the cost of each patient per year to be \$193.85, or a weekly cost of \$3.71. The expenditure for maintenance during the year ending September 30, 1902, shows a total of \$209,875.43; given a daily average of 1018.83 patients, makes the yearly per capita cost \$205.99, or a rate of \$3.96 per week. The latter year's expenditures include \$906.22 collected from delinquent "Poor Districts," which represents bills of several years standing and should have been included in their appropriate years had the money been received. Deducting this amount as not properly applying to the maintenance of the biennial period, reduces the total expenditure to \$201,575.43, a yearly rate of \$198.05, or a cost of \$3.80 per week. The maintenance covers wages, all supplies, fuel, clothing, ordinary repairs, insurance, telephone rental, etc.

Your attention is called to the increased cost per patient, particularly for the past year. This is due to the advance in price of all commodities, and especially that of meat, butter, eggs and coal. These few items enter very largely into the year's supplies and a small increase in the price makes a notable excess in cost of maintenance.

FREE INFORMATION.

Investigation Will Fully Corroborate This in Danville.

We have all our peculiar ways of doing a good or a bad turn to our neighbors, so that there is nothing odd about the manner employed by the gentleman who furnishes the information given below. His name may be ascertained if necessary and minor particulars can be gleaned by calling on Mr. G. S. Hunt, the druggist. Read this:

"I want to pay Doan's Kidney Pills a compliment, Mr. Peter F. Eyerly, formerly of this city, now in the regular army Co. K, 10th U. S. Inf., while at home noticed Doan's Kidney Pills advertised in the "Gem". The claims made for the remedy seemed to fit his case—a lame back. He bought several boxes and the treatment stopped that particular attack. To show Mr. Eyerly's faith in the preparation, let me tell you that when in Matanzas, Cuba, he sent all the way to Danville for two boxes.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

River Coal Still in Use.

A large invoice of coal consisting of ten car loads has just been stored away at the Water Works.

The immense pile contains some two hundred and fifty tons and fills nearly all the available space in the large middle division where the boilers were formerly located.

During the miners' strike last year the Water Commissioners learned that river coal could be used advantageously. Although prices now have become normal it is found that money can still be saved by the use of the river article. Therefore of the ten car loads laid in at the Water Works seven are of river coal, the remaining three being P. & R. rice coal.

The two hundred and fifty tons or so on hand at this season will not last so long as the same quantity in winter and will probably be used up by the end of July. During the summer a great deal more water is required than in winter to supply the demands made by street sprinkling, watering lawns, gardens, etc., and the pumps are pushed much harder with the result that nearly one-fourth more coal is burned.

Stricken With Diphtheria.

The household of Frank Ryan, who lives on the farm of J. R. Sharpless, Rush township, is grievously afflicted. Three children—two sisters, aged seven, and a little boy of four years—are down with diphtheria in a most malignant form.

Dr. M. M. Smith of South Danville and Dr. P. O. Newkirk of this city are the attending physicians. On Friday last there were slight hopes that any of the children would recover. On that day and on the next anti-toxin was administered. The powerful remedy in each case seems to have been potent in counteracting the poisonous effects of the diphtheria germs. By Monday a gradual improvement was discernible, which was still more marked by yesterday. As last accounts there were good grounds for believing that each of the children would recover.

Coal Prospects Good for Next Year.

Coal operators and coal men generally are very jubilant over the prospect of the coal trade for the next year or two. According to the reports the companies had all they could do to supply the demands during April with the mines working full tilt. The later orders are coming in so briskly as to give reason to believe that it will require full time at the mines to meet the demand until fall, and even then that complaints will be heard of a scarcity of coal in a good many sections.

OWNERS OF AUTOS MUST HAVE A CARE

Owners of Automobiles in this state will be supposed to conform with the new automobile ordinance which went into effect last week.

The act provides, first of all, that no automobile shall be operated or driven in Pennsylvania without registration at the office of the Prothonotary of one of the counties of the State. The registration fee is fixed at \$2, and the certificates issued must be posted in a conspicuous place on the back of the vehicle. In cities and boroughs a speed not greater than eight miles an hour may be maintained, and in all other sections or places not greater than twenty miles an hour. At sharp curves, sharp declines, upon the approach of any person or team, and at the intersection of cross-roads, outside cities or boroughs, a speed not greater than ten miles an hour must be had.

In addition, it is provided that the owner of an automobile must pay an annual tax to a city or county treasurer of \$3 except in cases where the city or county has already imposed a tax. Besides the registry number of the State, the license number must be shown at the back of the vehicle. Two white lights, showing one hundred feet away, must be in use on an automobile moving about for one hour after sunset to one hour before sunrise, and one of these lights must show red in the rear. A brake or brakes must be on every automobile, as well as a noise-producing signal, which shall be sounded at every crossing.

An automobile must come to a stop when the chauffeur is signalled by the driver of any horse or other animal, and must remain at a standstill until the animal or animals have passed. A fine not exceeding \$100 may be imposed for a violation of any of the terms of the act, or imprisonment for a term not exceeding thirty days, may be imposed. This act does not apply to any race-course or private road, nor to any passenger railway or steam railroads confined to tracks, nor to steam or other street rollers, nor to any motor vehicles which any manufacturer or vendor of automobiles may have in stock for sale, and not for his private use or for hire.

AN OLD-FASHIONED FOURTH OF JULY

Every community in this broad land ought to celebrate the Fourth of July with old-fashioned fervor. We are getting away from the grand ideals which influenced the fathers of the Republic to the Declaration of Independence. We are forgetting that "all men are created equal, that they are endowed by their creator with certain unalienable rights," and that "among these are life, liberty and the pursuit of happiness." We are overlooking the fact that governments derive all "their just powers from the consent of the governed," and we appear to have lost sight of the sublime truth on July 4, 1776, that "whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it."

An old-fashioned celebration of the Fourth of July in all portions of the country might have the effect of calling to the minds of the citizens of today the facts that on that day in the eventful year 1776, the courageous and high-minded men of the American colonies declared themselves absolute of allegiance to the King of Great Britain, their rightful sovereign, because "repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these States." For the reason, moreover, that "he has made justice dependent on his will alone; he has erected a multitude of new offices; he has kept amongst us in times of peace, standing armies; he has affected to render the military independent of and superior to the civil power and he has combined with others to subject us to a jurisdiction foreign to our constitution."

Thomas Jefferson, John Hancock and their patriotic associates on that memorable day gave other reasons for declaring the colonies of America free and independent of the sovereignty of the British King. "He gave his assent to laws," they declared, "for quartering large bodies of armed troops among us; for protecting them by a mock trial, for punishment for any murders they should commit on the inhabitants of these states; for cutting off our trade with all parts of the world; for imposing taxes on us without our consent; for depriving us in many cases of the benefits of trial by jury and for taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our government." Finally they indicted him "for suspending our own Legislature and declaring themselves invested with power to legislate for us in all cases whatsoever."

Our illustrious forefathers gave still other reasons for casting off allegiance and taking up arms against their sovereign under the law. "He has abdicated our government here," they added, "by declaring us out of his protection and waging war against us; he has plundered our seas, ravaged our coasts, burnt our towns and destroyed the lives of our people; he has excited domestic insurrection amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions." In conclusion those men of magnificent courage and lofty principles declared that a people whose character is thus marked by every act which may define tyranny is unfit to be the ruler of a free people.

Every one of these acts of tyranny have been and are still being perpetrated in the Philippines in the name of the American government and under the shadow of the American flag. Isn't it time, therefore, that something should be done to bring about a more intelligent understanding of the fundamental principles of our government? The reading of the Declaration of Independence has been forbidden in the Philippines for the reason, as has been stated, that its language incites insurrection and encourages rebellion. Then it should be more generally read, and studied, and followed here to the end that its precepts may be again made the guide of our government. For that reason everybody should join in the movement for an old-fashioned Fourth.

STOCKHOLDERS MEETING

The Philadelphia newspapers yesterday contained an account of the meeting of the stockholders of the Danville Bessemer Company which was held at Camden, Tuesday. As our citizens are much interested in the proceedings of the company, whose plant in this city has been idle for some months, we print the report of the meeting as it appeared in several of the papers.

The following is from the "Philadelphia Inquirer":

The annual meeting of the Danville Bessemer Company was held in Camden yesterday, but it was adjourned without any report being submitted. It seems that there is a trust which seeks to control the making of shovels, and it is said that the trust has given the Danville Bessemer Company the option of selling out to it or being forced out of business. This is the very gentle way that combinations of capital, which from upon combinations of labor, have of gaining a point. The adjournment was made so as not to force the Danville Bessemer Company to show its hand through figures in an annual report while the "negotiations" are pending. The meeting will convene at the call of the president, John J. MacDonald.

The "Press" has the following:

Danville Bessemer stockholders held a session of five minutes yesterday, during which time they resolved to adjourn to some future date. President John J. MacDonald announced that negotiations are pending which will be of great advantage to the owners of stock, but what they are he did not say. Until the new Board of Directors shall be chosen the following will continue to serve: L. S. Filbert, Franklin M. Harris, Joseph W. Yocum, Dwight Ashley, H. W. Day and John J. MacDonald. The stock represented amounts to over 175,000 shares out of a 200,000 standing.

The "North American" says:

Stockholders of the Danville Bessemer Company met in Camden yesterday and adjourned subject to the call of the president. A vote of confidence in the president and directors was passed. John J. MacDonald, president of the company, stated that a proposition was under consideration of which it would not be judicious to speak at present. The company's plant is shut down because of a cut in prices by the "Shovel Trust." It was rumored that overtures had been made by the "trust" for the property.

TRACKMEN FIGHTING FIRE

The section hands on the Pennsylvania railroad during the last two weeks have been kept much busier fighting fire than in repairing tracks.

The crew under David Nuss, South Danville, up to yesterday morning along with section hands of the lower part of the division were busy fighting mountain fire at Wolvorton. During several days last week the South Danville crew was pressed into service at South Valley, where both McCleary Mountain on the east and Nesquehony Mountain on the West of the valley were on fire at the same time.

The Pennsylvania company is very quick to extinguish fires along its line whether it endangers any railroad property or not. The company does not stop to inquire whether or not the fire originated from any of its engines but immediately summons its section hands, often bringing them from a considerable distance as at Wolvorton and South Valley, masses them together like so many soldiers and sends them out against the fire. Mr. Nuss said there were sixty the other day engaged on one spot.

The battle is often an unequal and long drawn one, and the fire for days may have the best of the men. The latter, however, like soldiers in action are not permitted to relax but are kept on the mountain night and day face to face with the fire. Not that the workmen become victims to any especial hardship, however, for the railroad company looks very closely after their comfort, regularly sending installments of food to the mountains along with whatever else the men may require. It is a question whether the men, most of whom were raised among the mountains and are accustomed to fighting fire, do not rather enjoy the experience than otherwise. That any one should allow this condition to go on to completion, physical or sexual ruin as it surely must if neglected, is a positive crime when the cure is at hand in Dr. A. W. Chase's Nerve Pills—a medicine designed expressly for this condition—a medicine that cures to stay cured by restoring the very essential life—Nerve Force.

Grant Allen of No. 413 Church street, Danville, Pa., says: "I have suffered a great deal from rheumatic neuralgia affecting my whole nervous system and seeing Dr. A. W. Chase's Nerve Pills recommended I got a box at Gosh's Drug Store and tried them. They proved a splendid remedy giving me prompt relief in every way. I rest well again and no longer suffer from those continuous headaches—I feel strong and bright and have more life and ambition than before. I cannot speak too highly of them." 50 cents a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase M. D. are on every package.

NO LIFE, NO ENERGY, NO AMBITION.

These are common expressions nowadays and the finger points that point with unflattering accuracy to a nervous system robbed of its vitality by over-exhaustion, overstrain or excess of some kind. That any one should allow this condition to go on to completion, physical or sexual ruin as it surely must if neglected, is a positive crime when the cure is at hand in Dr. A. W. Chase's Nerve Pills—a medicine designed expressly for this condition—a medicine that cures to stay cured by restoring the very essential life—Nerve Force.

WANTS TO CARRY IT HIMSELF.

A neighboring county editor, who evidently has troubles of his own, is having heart to heart talks with delinquent subscribers. The following is the latest: Good morning; have you paid your subscription this year? Perhaps you owe for the last year or several years. Now you understand, we don't need money; we have millions to get. But it is really an imposition to let people go on carrying our money around when we are strong and healthy and so abundantly able to bear the burden ourselves. For this reason we ask anybody who has any of our money in his possession to leave it at this office or send it by mail, freight, express, or any other way, just so it gets here. Silver and gold are heavy, and it would be a matter of life long regret if anybody should get bow-legged carrying it around for us.

Let me say I have used Ely's Cream Balm for catarrh and can thoroughly recommend it for what it claims. Very truly, (Rev.) H. W. Hathaway, Elizabeth, N. Y.

I tried Ely's Cream Balm and to all appearances an erudite of catarrh. The terrible headaches which I long suffered are gone.—W. J. Hitchcock, late Major U. S. Vol. and A. A. Gen., Buffalo, N. Y.

The Balm does not irritate or cause sneezing. Sold by Druggists at 50 cts. or mailed by Ely Brothers 56 Warren St., New York.

MAY FORM A LEAGUE.

Base ball enthusiasts in this and several neighboring towns have the formation of a league in mind and the matter may soon take definite shape. If the managers of teams at Danville, Shamokin, Sunbury, Selingsgrove, Lewisburg, Milton, Montgomery, Ashland, Mt. Carmel and Watsonville should form a league they could promise those who love the game some interesting base ball during the coming season. The formation of a league would serve two purposes. It would ensure plenty of games to the public and the desire to win the honors would inspire each manager to get the best available material in his team. There is a great public interest in the national game, and where good teams are playing against each other the contest will always attract a good crowd. Base ball in this part of the state has everything to gain and nothing to lose by the organization of a league.—Milton Standard.

WEDDING ETIQUETTE.

If you are going to be one of the many June brides or a bridal attendant, and are somewhat in doubt about any of the fine points of wedding etiquette, you will be able to enlighten yourself by referring to the chapters on the Observances of Society in the June Delinquent. It is a concise, yet complete, exposition of the requirements of good form in this regard. The duties of all who are concerned are explained, and the information is reliable.

REEROOFING THE BRIDGE

There is a tie among the County Commissioners of Montour and Northumberland counties concerning some of the details of re-roofing the river bridge, which threatens to hold up matters for awhile, even if it does not become necessary to relet the work.

The contract as awarded is in the hands of Trumbower & Werkheiser. Since the letting some facts relative to the work over-looked before have been discovered, which make it necessary to modify the terms somewhat. There was an error in the measurement of the roof while the sheeting is found in much worse condition than was supposed. The sheeting itself is furnished by the two counties, but the contractors are obliged to put it on. It was with reference to the sheeting that the hitch occurred.

At the last joint meeting when but two of the Northumberland county commissioners were present they seemed to acquiesce with the Montour county board in the modification of terms and the matter was thought to be settled.

At a joint meeting held in the Court House yesterday all three of the Northumberland county board—Beck, Cooner and Raudenbush—were present. They declined to sign the contract and have views altogether different from the Montour County board. The votes taken resulted in a tie and there the matter rests.

The situation is especially trying to the contractors, Trumbower & Werkheiser, who have already ordered the shingles for the bridge.

THE GRAVE OF MARY TWIGGS

V. A. Lotier and Oscar Kean while strolling through Mayberry township the other day made a discovery which brings a very grim episode of local history to mind.

For nearly fifty years one of the most unanny spots in that township is an out-of-the-way corner which contains the grave of madame, Mary Twiggs, who was hanged at Danville for poisoning her husband, Edward Twiggs. The grave, which was marked by a head and foot stone and enclosed by a heavy stone wall was generally given a wide berth and visited only now and then with curiosity.

Our two townsmen came across the grave in their stroll and were amazed at the spectacle which presented itself. The solid stone wall and the head and foot stones were overthrown, while where the grave was in a cavity of considerable depth. The general appearance is such as to indicate that at some time the spot might have been visited by ghouls, who exhumed and carried off the bones. Whether or not such an event ever occurred is at this day not a matter of sufficient importance to merit an investigation. Edward Twiggs, the grave, which was marked by a head and foot stone and enclosed by a heavy stone wall was generally given a wide berth and visited only now and then with curiosity.

Our two townsmen came across the grave in their stroll and were amazed at the spectacle which presented itself. The solid stone wall and the head and foot stones were overthrown, while where the grave was in a cavity of considerable depth. The general appearance is such as to indicate that at some time the spot might have been visited by ghouls, who exhumed and carried off the bones. Whether or not such an event ever occurred is at this day not a matter of sufficient importance to merit an investigation.

Edward Twiggs, who was executed in 1858, was the second and last person hanged in Montour county, the first execution being that of William J. Clark, an accomplice of Mrs. Twiggs, who was convicted of poisoning his wife.

A Little Early River.

now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early River are the famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by Gosh & Co., Paules & Co.

MUST LOSE WORK AFTER PAY DAY.

Hereafter the coal companies will suspend indefinitely all men who fail to report for work after pay days, unless they can furnish satisfactory excuse for their absence. It is alleged that such inconveniences has resulted from the bibulous habits of some miners and laborers immediately following the semi-monthly distribution of wages.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all throat and lung troubles. Thousands can testify to that. Mrs. C. B. VanMetre of Shepherdstown, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by Paules & Co., Druggists 342 Mill street. Trial bottles free. Reg. size 50c. \$1.00.

SURPRISE PARTY.

A surprise party was tendered Charles Mullen at his home on Spruce street, Monday evening. The following were present: Mr. and Mrs. Blechler, Mr. and Mrs. Fern, Mr. Ribbel, Mrs. C. Tooley, Mrs. J. Ryan, Miss McCue, Isabel and Kathryn Ribbel, Kathryn Rogers, Bernadette Driscoll, Elmina Perry, Malinda Perry, Mary Bailey, Josephine Dugan, Ellie and Kathryn Mallon, Margaret Krimes, Viola Fern, William Shroy, Frank Perry, Frank Grimes, John Woods, Frank McCue, Frank McCaffery, John Dagan, John McCaffery, Thomas Dailey, Roy Fern, Jesse Milroy, Mr. W. Umstead, Albert Gill.

Mr. Joseph Pontville of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble without relief, was advised by his druggist, Mr. Alex. Richard to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is well man today. It troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets a trial, and you are certain to be more than pleased with the results. For sale at 25 cents per box by Paules & Co., Druggists 342 Mill street.

GREATLY ALARMED.

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he has to say of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by Paules & Co., Druggists, 342 Mill street.

REGARDING FARMERS' LICENSES.

The text of the new law regarding farmers' licenses is as follows:

An Act to permit farmers to sell their own products without a license fee, in or about the streets of any borough or city of this Commonwealth.

Sec. 1. Be it enacted, &c., that shall be the passage of this Act it shall be unlawful for any borough or city of this Commonwealth to levy or collect any money or tax, as a license fee, from any farmer who sells his own products in or about the streets of any borough or city of this Commonwealth.

Sec. 2. Any and all acts inconsistent herewith are hereby repealed.

Approved: The 22nd day of April, A. D. 1902.

Samm'd W. Pennypacker.

MAY CANCEL DATE.

On account of the existence of small pox at Shamondah, the Barnum & Bailey circus may not exhibit there during the latter part of the month. If show people are scared at anything it is the red flag denoting smallpox.

THE WASTE OF THE BODY.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wormed tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the whole some food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by Gosh & Co., Paules & Co.

NEW DOG LAW.

Copies of the new dog law are being distributed throughout the state. The wording of the law is the same as the old law which makes it a misdemeanor to poison any domestic animal. For the benefit of those interested the following is the full text of the new act, which was adopted on April 21:

"Every person who shall wilfully and maliciously kill, maim or otherwise injure any horse, cattle, dog or other domestic animals of another person, or shall maliciously administer poison to any such beasts or expose any poisonous substance, with the intent that the same should be taken or swallowed by them, shall be guilty of a misdemeanor and being thereof convicted, shall be sentenced to pay a fine not exceeding \$500, and to undergo an imprisonment by separate or solitary confinement at labor not exceeding three years, or both, at the discretion of the court. Provided, that the provisions of this act shall not apply to the killing of any animal taken or found in the act of actually destroying any other animal."

Made Young Again.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens' again!" writes D. H. Turner of Dampscroft, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c. at Paules & Co.'s drug store.

WATCH INSPECTION.

The D. L. & W. company has changed the place of inspecting the watches of the employees on the Bloomsburg division from Kingston to Bloomsburg. Jewelers Rows, of the latter town, has now charge of the watch inspection.

FRIGHT WRECK.

A brakeman was slightly injured and twenty-one cars thrown over a steep embankment in a fright wreck that occurred on the Philadelphia & Reading Railroad near Shuman's tunnel at eleven o'clock Monday night. The train was what is known as No. 82, running between Tamapa and Newberry Junction, and parted and ran together after leaving the tunnel, thus causing the accident. The Catawissa wreck crew was called and cleaned up the wreck.

A STARTLING TEST.

To save a life, Dr. T. G. Merritt, of Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acetate stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c. at Paules & Co.'s drug store.

RURAL DELIVERY.

People living in the outlying country districts between Kingstons and Sunbury will learn with pleasure and deep satisfaction that beginning July first they will have the advantage of Rural Free delivery of mail.

QUICK ARREST.

J. A. Gullidge of Verona, Ala., was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It cures such aches and kills pain. 25c. at Paules & Co., Druggists.

HIGH PRICES EFFECTS BUILDING.

On account of the high prices of labor and materials, building operations in most towns in this part of the state are not so brisk as the increased cost of the employees on the Bloomsburg building at 27 per cent. Rough lumber is now selling at \$22 per 1,000 feet, while it was as low as \$13 five years ago.

DO YOU WANT ANY PRINTING DONE? ...

We want to do all kinds of Printing

JOB WORK!

It's Neat. It will Please. It's Reasonable.

A well printed tasty, Bill or Letter Head, Poster Ticket, Circular Program, Statement or Card is an advertisement for your business, a satisfaction to you.

New Type, New Presses, Best Paper, Skilled Work, Promptness.

All you can ask.

Lost Hair

"My hair came out by the handful, and the gray hairs began to creep in. I tried Ayer's Hair Vigor, and it stopped the hair from coming out and restored the color."—Mrs. M. D. Gray, No. Salem, Mass.

There's a pleasure in offering such a preparation as Ayer's Hair Vigor. It gives to all who use it such satisfaction. The hair becomes thicker, longer, softer, and more glossy. And you feel so secure in using such an old and reliable preparation.

25c. a bottle. 47c. a dozen.

If your dealer does not sell it, send to the only place where it will be prepared for you. J. C. Ayer & Co., Lowell, Mass.

THE MORNING NEWS

No. 11 E. Main Street. DANVILLE, PA.
