REVIEW OF

The gymnasium classes at the Y. M. C. A. have been discontinued for the summer months. The results gained by the season's work cannot be estimated; but these are some of the good things enjoyed by the members of the various classes, since taking systematic exercise: Better health, better nerves, better all-roound bysilungs, and greater chest development which is of most inestimable value. The best evidence of all -round work is the tact, that quite a number of our prominent business men have availed themselves of the opportunities afforded them for physical development and have been very much benefitted by the instruction they have received in the Gymnasium the past season. The members of all the classes are very enthusiastic and anxious for the return season, which will, from all indications, prove the greatest season for Gymnasium work and physical March-"Jolly Students." development Danville has ever seen. The business men's class has formed a base ball team, and derives much benefit and pleasure by playing the popular national game. A Junior Y. M.O. A. base ball team is a possibility for next summer, as the boys have been practicing faithfully and do well in the various positions on the team.
