DROUGHT COSTLY TO FARMERS

Assistant State Secretary of Agriculture Martin has been receiving reports from all over the State, and is well informed as to existing conditions. When asked by a Harrisburg correspondent concerning the outlook, Mr. Martin said:

"The farmers of Pennsylvania have experienced more unfavorable conditions of weather and temperature this year than in many years past. The usual showers did not fall. The average temperature was so low as to make it extremely hazardous to place seed in the ground lest it fail of germination on account of the cold and dry soil. This condition prevailed over a large portion of Pennsylvania. Monday's was practically the first good rain which had fallen in southeastern Pennsylvania for nearly eight weeks. As a result, the hay crop in this section cannot possibly average 50 per cent of a full crop. Probably one-half the corn yet to be planted, the farmer being compelled to wait for rain on account of the hard and baked condition of the ground."

"How about wheat and grain?" was asked.

"The wheat in this section promises an average crop with shortage in straw. Apples in many places seem to be well set on the trees, and bearing later on favorable conditions promise an average crop. This rain is very favorable to the late strawberries. Prompt action on the part of the farmers in southeastern Pennsylvania, now since the rain has come, to plow and plant fodder corn and millet to take the place of shortage in hay crop, would seem to be a move in the right direction."

"Western Pennsylvania in many sections has been favored with more abundant rains, this portion lying between Lake Erie and the Ohio and Allegheny rivers was favored in the month of April and May with timely rains. The hay, whilst not promising a full crop, will average much better than in the east. Corn is planted and promises well, also potatoes and garden vegetables."

"All things considered the farmers this year, thus far, throughout the State have experienced more than ordinary climatic and weather hindrance, but with abundance of rains the conditions may yet result in abundant crop of corn, potatoes, cereals and fruit."

Law Doesn't Become Effective This Year

School teachers for next season will not come under the new law adopted by the last legislature making the minimum salary of all teachers of the state in districts that receive the state's aid \$15 per month, as the measure will not become effective until June 1, 1904, and by that time the school session for 1903 will be ended.

Many have been under the impression that the bill became effective this year and that teachers who began this fall would receive the benefits of it.

For failure of any district to comply with the provisions of the law and not pay its teachers \$15 per month, the state appropriation will be withdrawn for the period in which a smaller salary is paid.

Representative Snyder, of Schuylkill, was the author of the measure, and worked hard for its passage through both branches of the legislature. Especially did he have to work hard when the bill was on final passage in the Senate.

DANVILLE'S THIRD VICTORY

The Danville Base Ball association on Saturday afternoon scored the third victory of the season. The opposing club was Bloomberg which proved a team worthy of the "Old Timers," steel. The game was intensely interesting.

Danville scored one run in the opening inning. Bloom, however, failed to score until the seventh inning, when they made three runs bringing them too close to the home team for comfort. Danville failed to score in the eighth, but Bloom scored one in their half of the eighth which tied the score. This was a critical point and the crowd labored under considerable suspense.

In the ninth inning Logan opened with a solid single. Davis failed to hit, but Yorkell came up with a single. Ross drove a hot one at Keller, who made a beautiful stop and retired Ross at first. Renner and Ammerman followed with singles and Shannon drove a hot one to third and was retired at first by Taylor, which retired the side with Danville four runs to the good.

Bloom opened the ninth inning with the two first men up making clean singles, when McCloud settled down and prevented them from scoring. The line up was:

Public Has Paid the Cost.

In reviewing its business of the past year Lewis A. Riley, president of the Lehigh Coal & Navigation Co., operating the collieries in the Panther Creek Valley, says that his company had by January 1 of this year nearly recouped its losses caused by the last strike. He also says that the public has paid the cost of the suspension.

After referring to the recoup of the company's strike losses President Riley says:

"As a consequence the added business that is coming to us this year, and that we expect also next year, will leave the company a substantial gain, for the fact of the anthracite strike of 1902. During the progress of the strike we stated that the companies were fighting the battle for the public. The public however, aided with the miners, and have been paying the losses of the strike ever since."

"We have been able to recover ourselves so early because of the 50 cent advance in coal, in which we followed the Reading, and which is now a permanent with us. No anthracite road, of course, can be expected to go back to old prices after the report of the Anthracite Commission."

"While the company makes it a practice to keep its figures for the annual report, the fact that we have already earned sufficient to pay both dividends for the present fiscal year indicates the satisfactory business that we are doing."

Can't Fry Into Wife's Letters.

The gratification of receiving and opening his wife's letters against his protest, will no longer be afforded. This is the command which has gone out from the Post Office Department. As a result of repeated requests by postmasters throughout the country for a ruling in the matter, this action has been taken.

The ruling is as follows: "A husband has no right to receive the mail addressed to his wife against her wishes."

As to mail addressed to the children, the father has the prior right to receive it unless there be some particular circumstances in the case which the department might take into consideration on a statement of the facts being presented."

DEATH OF JOSEPH HUNTER

Another one of our old citizens, who has rounded out four score years of usefulness, has been called to the world beyond.

The last to obey the summons was Joseph Hunter, whose illness was noted in these columns. He began to decline several months ago, but it was not until about the first of May that he was obliged to take his bed. The end came Sunday morning at 2:30 o'clock.

Joseph Hunter was born in Montour county (then Columbia) November 15, 1825, being the fourth in a family of ten children. When the deceased was six years of age his parents removed to Milton. Here he received his education and served an apprenticeship at shoemaking. In 1841 he came to Danville and engaged in the manufacture of boots and shoes until 1851, when he accepted the position as collector of toll at the river bridge, a post he occupied until the bridge was made free nearly fifty years later.

The deceased was twice married, his first wife being Malotaba A. Campbell. The children of this marriage who survive are Henrietta M., of this city; Joseph C., of Philadelphia, and James K., of Montana. Mrs. Hunter died in 1859 and in 1861 the deceased married Miss Elizabeth H., daughter of John W. Miles, who survives her husband.

Mr. Hunter served six terms as Chief Burgess of Danville, being first elected in 1878. He was a member of the First Baptist church of this city, joining it in 1845. He belonged both to Danville Lodge, No. 224, F. & A. M., and to Danville Lodge, 780, I. O. O. F.

FIRM FOUNDATION.

Nothing Can Undermine it in Danville.

People are sometimes slow to recognize true merit, and they cannot be blamed, for so many have been hounded in the past. The experience of hundreds of Danville residents, expressed publicly through newspapers and other sources, places Doan's Kidney Pills on a firm foundation here.

Mr. Josiah Williams, barber, of 39 Ash street, says: "I did not have to use a whole box of Doan's Kidney Pills before they cured my back of depressing aching, and removed the lameness which made every move painful. The lameness centered right over my kidneys, and stopping or lifting sent a sharp twinge through me. When on my feet a dull gnawing pain took all the vim out of me. I gave some to Mr. H. C. Stoes of 217 E. Mahoning street, as I had no further use for them, and was as well pleased as I with the results obtained." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., Sole agents for the United States. Remember the name Doan's—and take no other.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years," she writes, "I endured insupportable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered."

Case Lases Suit.

The suit of the late Simon P. Kase against the Pennsylvania Railroad, which has been pending in the Philadelphia Courts since 1899, was disposed of in an opinion handed down, last week by Judge Beidler in Common Pleas Court No. 1 in favor of the defendant corporation. Kase began equity proceedings in 1899 to recover losses of the Danville, Hazleton & Wilkesbarre Railroad Company, valued at \$219,000, pledged by him to the Pennsylvania Railroad in 1871 as security for an indebtedness. Subsequently the Pennsylvania Railroad leased the Danville Road and Kase sought to recover the value of his securities under the provision of the lease, which required that the Pennsylvania Railroad should pay the coupons on the bonds of the leased line. A settlement was subsequently effected between Kase and the Pennsylvania Railroad, but it alleged that the company still retained a large balance of his bond.

In its demurrer the company set forth that Kase, in not bringing suit until 27 years after the transactions, had been guilty of "laches," which contention Judge Beidler affirms in his opinion.

Some months ago a similar suit against the Baldwin Locomotive Works was also decided against Kase's estate. The Supreme Court holding that whatever claim he had was barred by the statute of limitations.—Sundbury Daily.

Improvements at P. & R. Station.

Improvements are on foot at the station of the P. & R. railway, which when completed will give the spot quite a different appearance. The large platform with its high steps has been removed and the space filled up and graded with gravel suitable for the purpose which has been shipped there by the railroad.

The material used in filling up is subjected to a heavy pressure under an iron roller and in time will become nearly as hard as rock.

RAILROAD COMPANY WILL ASSIST

The stretch of road used in reaching the Pennsylvania station and freight house, South Danville, connecting with the main street just north of the railroad crossing which has never been in anything like proper repair, considering the amount of travel passing over it is about to be fixed up in a way that will make it one of the best drives in Danville or vicinity.

The street in question along with the roadway between the railroad crossing and the river bridge has always proven a tough proposition for the Supervisors of Gearhart township.

No matter how much work was put upon these two thoroughfares owing to the heavy hauling, they were always badly cut up in wet weather, while in dry weather the mud gave way to dust several inches deep, which was taken up by the wind and driven in every direction.

The Pennsylvania railroad company has now come to the assistance of the township and will contribute to such repairs as will stand the test of time and travel. The township is asked to give the road a good coat of cinder or of some other hard material as a basis for a good coat of limestone screenings which the railroad company will supply. The Pennsylvania people have backed up their proposition with four car loads of limestone spalls, which have arrived at the station.

The township, it is said, has not as yet decided whether to use cinder for the bottom layer or shelly rock from Blue Hill or Kilmegrove. Work will begin on the repairs in a short time.

The limestone covering furnished by the railroad company is the only suitable material for a road of that kind. The ashes or fine cinder used as a covering on the road, recently repaired between the bridge and the crossing in South Danville is a demonstrated failure. The ashes or cinder in a short time worked into a fine dust, which left the large clumps of cinder underneath and makes the drive about as rough as it can be found.

COMMITTEES APPOINTED

The Democratic County Convention which assembled in this city Monday was a veritable "love feast." The degree of harmony prevailing reflected all the more credit upon the convention in view of the hot contest waged for some of the nominations, notably those for Sheriff and Register and Recorder. The affairs were well managed throughout and the proceedings were reeled off with despatch.

The convention was called to order at 10 o'clock by County Chairman Simon Hoffman. George W. Miles was elected President, and W. E. Boyer and Herbert Drouffuss were chosen as Secretaries.

Delegates presented their credentials as follows:

Cooper—Edward Dell and William Welliver.

Derry—Charles Miller and William Schooley.

Danville—First Ward, William Keener and George W. Miles; Second Ward, Hugh Parsel and Abram Burger; Third Ward, H. L. Drouffuss and Michael Ryan; Fourth Ward, Matthew Ryan and A. L. Brandt.

Thomas Van Sant, F. P. Appelman, Ralph Cotner, C. W. Derr and Joseph Acor were appointed a Committee on Contests, Substitutes and Resolutions. At 11:35 o'clock the Convention adjourned until 1:30 p. m. At the latter hour it reconvened and proceeded with the nominations:

The names of W. L. Sidler and Walter O. Green were placed in nomination for Register and Recorder.

Mr. Green withdrew his name, requesting that Mr. Sidler's nomination be made unanimous. He thanked the convention for the flattering vote bestowed upon him and said he felt that in running for the nomination he had conclusively demonstrated the fact that a considerable number of the Democratic voters of Montour County are opposed to the Third Term. Principle and stand for rotation in office.

On motion W. L. Sidler was declared the nominee for Register and Recorder by acclamation.

For Sheriff, the names of George Maier and Andrew Russell were placed in nomination. The roll of delegates was called when it was found that the vote stood as follows:
