DANVILLE BOYS HAD CLOSE CALL

A number of Danville citizens figured in a trolley crash near Berwick on Saturday and from the nature of the accident it is surprising that no one was killed or seriously injured.

The party consisted of W. E. Gosh, Simon Hoffman, Archie Hammer, Jesse Shannon and short-stop Lewis of the Danville base ball club, Honorary Thomas Vincent, Edward Frazier, Paul Dubin, Frank School and Frank Edmondson all of whom were on their way to the base ball game at Berwick. The party went to Bloomsburg and took the trolley from there to Berwick. A stop was made at Lime Ridge siding. As there was a delay in the arrival of the Bloomsburg car which usually passes Berwick cars at that point the motorman decided to run to the next siding.

Just above Lime Ridge there is a sharp curve that leads onto a heavy grade, after making the curve the motorman in charge of the Berwick car noticed the Bloomsburg car coming down the hill at a high rate of speed. He applied the brakes and shut off the current but it was too late. The cars came together with a terrific crash, the Bloomsburg car telescoping the Berwick car at least four feet. Both motormen jumped to save their lives and were but little injured. The Berwick passengers including the Danville party were thrown from their seats with great force and badly shaken-up but fortunately no one was seriously injured. Simon Hoffman was slightly bruised and was unable to participate in the game. The Berwick car was a complete wreck.

Free Transportation for Soldiers.

It was announced in the News some time ago that the State of Pennsylvania, by a law passed during the session of the Civil War to certain military fields and places of interest.

The law applies only to the following:

- To all surviving, honorably discharged soldiers of the Seventy-Seventh Regiment, Pennsylvania Volunteer Infantry, to attend the dedication of monument erected on the battlefield of Shiloh.
- To all members of the Survivors' Association of the One Hundred and Ninth, and also of the Seventy-Third Regiments, Pennsylvania Volunteer Infantry, to attend the dedication of monuments erected to these organizations on the battlefields of Wauhatchie and Missionary Ridge.
- To all members of the Survivors' Association of the One Hundred and Ninety, and also of the Seventy-Third Regiments, Pennsylvania Volunteer Infantry, to attend the dedication of monuments erected to these organizations on the battlefields of Wauhatchie and Missionary Ridge.

The commissions appointed to make arrangements for the ceremonies are as follows: Andersonville, (Ga.) prison, November 10; Chattanooga, of the One Hundred and Ninth, and also of the Seventy-Third Regiments, November 11; Shiloh, Seventy-Seventh Pennsylvania Regiment, November 16.

Governor Pennypacker and his staff and other State officers will start on a special car for Andersonville, November 7th or 8th, and the Governor will make a speech at the dedication of each of the monuments.

From the towns where the memorials are being erected come assurances of a most hospitable welcome for the Pennsylvanians.

Many People Attended.

Nearly three hundred Danville people attended the O. U. A. M. picnic at Edgewood Park near Shamokin on Saturday. It was an ideal day and everybody thoroughly enjoyed the outing.

A special train was run over the Catawissa division of the P. & R. railroad and consisted of eighteen coaches. The first section was made up of ten coaches loaded with Bloomsburg people. The second section included Catawissa, Rupert and the Danville excursionists. Those who attended were loud in their praises of the courteous treatment they received at the hands of the lodge committee. The beauties of the Park and the various amusements were much enjoyed throughout the day.

Against Immigration.

The district Northern Columbia County Convention of the P. O. S. of A. in session at Berwick Saturday adopted resolutions which among other things petitioned Congressman Dickerman to support a measure restricting immigration that will be introduced at the next session of Congress.

Mrs. Kulp is Improving.

Mrs. Gilbert Kulp who has been seriously ill with peritonitis at her home in Shamokin, is slowly improving and has about passed the danger point. Mrs. Kulp's many Danville friends will be pleased to hear of the improvement in her condition.

LOST GAME TO ALL CUBANS

"All Cubans" 9, Danville 5. This was the result of yesterday's game. It was a lifeless sort of game. The Danville boys putting up the slowest base ball of the season and making errors that in every instance proved costly.

For the first four innings both pitchers were hit hard and it was easy for either team to make runs. Neither side scored after this and the playing was of a desultory kind that failed to entice the spectators. In the second inning, the "All Cubans" clinched the game by scoring five runs. The side should have been retired before the heavy hitting began and but for the errors in this inning the home team surely would have won.

Captain Hoffman played at the bat in the third inning he cleared the bases with a bunt drive to center. For this inning the Danville boys were unable to score though they had men on bases several times. The "All Cubans" play fairly good ball and may soon to think that the home team, when putting up its average game, can beat them.

Owing to cancellation at Williamsport the "All Cubans" will again play here this afternoon. It may be that Danville can wipe out yesterday's defeat. The detailed score follows:

Two Accidentally Shot.

A bullet lodged between the ribs of a Hungarian and a bullet wound in the arm of another Hungarian is the result of a number of nuisances which a crowd of Hungarians have been committing night.

Sunday evening a number of Hungarians went to the hose house and were determined to enter the place and sleep there. These actions were such that the men in the hose house demanded that they leave. This they refused to do and going out the men ejected them from the premises and were compelled to use a little force. The men started to run and as they did so someone fired several shots from a revolver after them, intending to scare them, but two of the bullets were too true. The noise of the firing created considerable excitement. One of the Hungarians was captured on Front street and was taken to the lock-up. There it was discovered that he had been shot and he was at once taken to the office of Dr. E. L. Davis where the wound was treated.

About this time the interpreter appeared on the scene and with him was another victim and a number of his fellow countrymen, each armed with a club. Dr. Davis was again called to treat the second man's wounds and it was found that the bullet from a .22 calibre revolver had scraped the scapula and glanced between the ribs.

The interpreter says that it was the natural curiosity of the men to see fire engines that caused them to behave as they did but the general opinion is different from this. A thorough investigation of the affair is being made.

DANVILLE TEAM DEFEATED

The Danville base ball club played its first game on foreign grounds for this summer on Saturday and met defeat at the hands of the Berwick team. The score was 11 to 6 and of course there were reasons. A shake-up in a trolley accident was the first jolt experienced and it is said that this caused some nervousness. And then in the 15 hits made by Berwick during the game were most discouraging.

The Berwick base ball nine, has been playing good ball this year and the way they went after Long and his curves was enough to make the "fans" weep. Seven errors on the part of the Danville boys did not help matters much except for the other side. These were a few reasons given for the loss of the game. There are others, but they are lengthy. Well we can't win every game but we would like to. The following score tells the sad tale:

WHEN THE NERVES ARE SHATTERED

When the nerves are shattered one cannot think, work, eat, sleep or accomplish anything.

It's a case of force all the time—a continued effort to keep going—no life—no energy—no ambition—upset at anything—nervous headaches—cringing spells—fits of depression and other despondency. Dr. A. W. Chase's Nerve Pills cure this condition to stay cured by rebuilding the shattered nervous system—normalizing the nerve centers and resupplying what is lacking—the active principle of life—Nerve Force.

Mr. J. M. Kline of Paxson, Pa., says: "Last fall I got a box of Dr. A. W. Chase's Nerve Pills. I had a great deal from shattered nerves and sleeplessness and nothing seemed to do for me. The Pills acted like a charm—soothing and quieting the nerves—giving restful sleep and good general strength. She speaks most highly of them and I have no hesitation in recommending them. I sent a box at dealer's or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase M. D. are on every package."

The Fall of Luzon.

The fall of Luzon is a marvelously attractive feature of Pawnee Bill's Historic Wild West. The almost miraculous heroism of our Yankee soldier boys, as they push on the fluttering folds of Old Glory, is exhibited in a wonderfully realistic manner. Daring adventures, reckless charges, heroic encounters and stubborn defenses meet and charm the eyes. Step by step the conquests follow the flag through countless difficulties until its beautiful folds rise triumphant above Aguinaldo's stronghold. Were this the entire performance, it would be worth the price of admission many times to see it, but it is but one of many features, all meritorious, all prepared with great care and enormous expense. The uplifting nature of the numerous attractions of this mighty show was frequently commented upon during the performance, and all present felt they were made better by being present at what all considered to be the triumph of our times in the shape of a show. Man and money could scarcely do more. Pawnee Bill's Wild West is coming to Danville, Friday, August 7th.

Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. ACTED AS A STATE AGENT

The Wilkesbarre leader of last evening contained the following concerning Fred C. Kirkendall, former treasurer of Luzerne county. Mr. Kirkendall is well known here and frequently visits Danville relatives.

One of the most interesting cases that has come before the courts in this county came up this morning when the referee, ex-Judge Troutman, in the case of the County vs. Fred C. Kirkendall, former treasurer of Luzerne county, awarded the decision to the defendant and thus saved him a sum about \$15,000.

The suit was brought in order to recover this amount which was claimed by the plaintiffs, belonged to the defendant, but to them. It seems that it was a question of fees collected by the former county treasurer while in office and while acting as an agent for the State. The action to recover was brought under the Salary Act of March 3, 1875, which applies to counties of over 150,000 population, and which states in part that "All fees limited and appointed by law to be received by each and every county officer," whether appointed or elected, "shall belong to the county in and for which they are severally elected and appointed."

Mr. Kirkendall contended that as an agent for the state he could lawfully by issue a mercantile and other state licenses and could lawfully collect for himself the fees allowed by the state for the issuance of such licenses. He claimed that the county had no claim whatever to any fees collected by him while lawfully acting as the agent for the state and declared that the fees thus collected were his by right of certain state legislation. The county, however, contended that the fees were collected by him while a county officer and that therefore they were the property of the county for which he had been elected under the act mentioned.

The opinion of the referee was a voluminous document and contained the law and the testimony of the case and besides quoted at length the opinion of the referee. He said in part: "The act of 1875 makes no mention of the county treasurer in the exercise of his functions as a State agent. If the legislature had intended that a county treasurer when acting for the State, to whom he gives a separate bond, should be accountable to the county, some act of Assembly would provide that the county treasurer should make report of his transactions, for instance, to the county controller, whereby that official would be put in possession of data upon which his report could be based and a proper settlement be effected."

The referee then says on the conclusions of law:

First—That the defendant in collecting the fees provided by law for issuing mercantile licenses, etc., during the year ending January 5, 1901, acted as an agent for the State, and not as a county officer.

Second—That such license fees, etc., collected by him as a matter of law are not the property of the County of Luzerne (plaintiff), but are the property of the defendant.

Third—That as a matter of law, judgment should be for the defendant.

In his judgment, therefore, Judge Troutman says:

"Whereupon the referee reports judgment in favor of the defendant, F. C. Kirkendall, late treasurer of Luzerne county, and against the County of Luzerne, as plaintiff."

Catarth of the Stomach.

When the stomach is overloaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. This is called Catarth of the Stomach.

For years I suffered with Catarth of the Stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure.

LITTLE GIRL'S ESCAPE

A fatal accident was narrowly averted on the P. & R. switch, leading from the main track at North Mill street, to the Reading Iron Works, early Sunday evening.

Agnes Dowd, aged 5 years, who resides on Center street, with several companions was playing on the track. There is a heavy grade on the railroad at this point and at the top of the grade stood a freight car loaded with ore. A number of boys were on the car and in some manner they opened the brake. The car started down the incline, gaining a great momentum every second. It came rushing toward the children at a frightful rate of speed, and they all cleared the track with the exception of little Agnes. William Moyer, who resides on Chambers street happened along at this moment and in an instant took the dangerous situation. He jumped to the middle of the track and quickly pulled the little girl out of harm's way. The car just grazed the child's dress and arm and a second's delay would have meant sure death. It was a heroic rescue and Mr. Moyer received the plaudits of those who witnessed the thrilling affair.

The car was stopped after it reached the trestle.

Will Talk on Various Topics.

The topics for discussion at the annual meeting of the State Firemen's Association to be held in Allentown October 6 and 7 have been prepared. They include:

First—What methods are best for carrying fire loss to prolong the life of same; on a reel or on a wagonboy?

Second—Public Safety. The duty of the councils to provide suitable apparatus for the protection of the citizens.

Third—The danger of life attending firemen when at work fighting fire by electric light and trolley wires. What is the remedy and how can it be enforced?

Fourth—Should not councils in all cities and boroughs pass ordinances giving the firemen the right of way on all public highways in proceeding to or answering an alarm of fire?

Fifth—What advantage is to be derived by the firemen of Pennsylvania by the payment to the city and borough treasurers of the one per centum fee on all business done by fire insurance companies doing business in the State? If any, is it to the benefit of the firemen or of the insured?

The topics are open for discussion to all delegates and members.

Night Was Her Terror.

Those Who Get Vacations.

The only railroad employees who are granted regular vacations by the Pennsylvania railroad are the office and station forces and passenger conductors. These are granted ten days in which to rest and recuperate every summer. The passenger brakemen, freight conductors and brakemen, engineers and firemen are granted no vacations, however, as the heaviest traffic occurs during the summer season and the railroad cannot afford to do without the services of its employees.

The Philadelphia & Reading likewise grants a vacation of one week to its passenger conductors and station employees.

For a lazy liver try Chamberlain's Stomach and Liver Tablets. They invigorate the liver, and the digestion regulate the bowels and prevent fatal outbreaks. For sale by Paules & Co.

MAY GO FREE

The Shamokin News says "Arrangements are now being made to settle the suits instituted by bondsmen etc., against Calvin VanGilder, the absconding treasurer of Zerbe township's school district, and his friends expect his release from the county jail daily.

It will be remembered that VanGilder skipped out of Trevorton about two months ago, leaving behind a wife and family and debts amounting to about \$200. Some of the money he loaned to the school district, and another portion to the Old Fellows Lodge. The bondsmen swore out warrants for VanGilder's arrest and through the clever work of Special Officer R. F. Schwartz the fugitive was captured in Canada.

The prisoner was brought back and remanded to jail. It now develops that the man was "more sinned against than sinning" as he claimed that he had all the money owed him by Trevorton people for store goods, etc., he could pay off his debts. Several citizens of the village who sympathized with VanGilder have set about to effect a settlement and the same is now under way. The prosecutors realize if the accused is convicted and sent to jail it will not help them out of their financial predicament.

VanGilder formerly resided in Danville and is well known here.

Very Remarkable Cure of Diarrhoea.

About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally he moved to Europe county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by Paules & Co. Druggists.

Get After This.

Now here's a chance to get a new industry for Danville. The company that was organized at Birmingham, N. Y., in 1901, for the manufacture of the "New Slip Horse Shoe," is seeking a location for the manufacture of its own product. While representatives of the company have been at Sayre, they have as yet not decided to locate there. They want no concessions or monetary consideration, but simply want a suitable location without paying an exorbitant price. The company was capitalized at \$125,000 of which \$67,000 was paid in. In case you are interested in this offer of Trade into this concern, come to this city.

Get after it, gentlemen.

A Surgical Operation.

It is always dangerous to not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one of them: I suffered from bleeding and protruding piles for twenty years. Was treated by different specialists and used many
