

INSANE PATIENT DEPORTED

Among the undesirable immigrants recently deported from this country was one from the Hospital for the Insane at this place, who sailed for Austria on the steamship Pretoria on Saturday last.

The patient in question was one committed from Clinton county under the name of Sophia Ritz in June last. She was a native of Austria and landed in this country as late as November of last year. She was a public charge in Clinton county and other immigrants who know her in her native land were authority for the statement that she was demented or as they put it "foolish" before she sailed for America.

These facts were laid before the Hospital authorities here by the Poor Overseers of Clinton county when the woman was committed. Acting upon the information Dr. Meredith, Superintendent of the institution, laid the matter before the department of immigration and the outcome of it all was that the service sent an agent here on Friday last prepared to send the patient back to Austria. Fuller information obtained in the investigation showed the woman's name to be Sophia Hyre. With a female attendant to look after her she accompanied the representative of the immigration service to New York on Saturday morning and arrived there just in time to embark on the Pretoria, which was the same vessel which brought her to this country eight months before.

Some startling facts have been developed by an investigation which Commissioner of Immigration Sargeant has set on foot at various ports to discover how many undesirable immigrants manage to get into this country.

At New York alone over six hundred immigrants who landed last year are now in either charitable or penal institutions. The government is doing what it can to remedy the evil with the loose law which is at present in force.

There is scarcely a country in Europe in which the steamship companies have not agents at work trying to induce people to come to this country regardless of their physical, mental or moral qualifications. To counteract these agents our country is operating at the different ports of Europe. In a short time it will be the rule that every person attempting to come to America will have to be examined by United States Marine Hospital Surgeons before they will be allowed to sail from European countries. This has been decided upon as a means of curtailing the influx of demented and sickly people. The other remedy lies in deportation. Last year eight thousand undesirable immigrants were sent back to Europe.

A Detective's Invention. The Philadelphia and Reading Railway detectives, who in their crusade against illegal car riders, have been quite active in this city, will shortly employ a novel device to assist them in handling railway trespassers when caught.

Heretofore the difficulty has lain in taking care of the "birds" when captured, as they were often "one" in number than the one or two officers on the spot could safely handle. To meet the difficulty a strong chain has been provided, to which are attached a number of handcuffs. As the trespassers are caught they are handcuffed in pairs to the chain. About two feet separates each pair and fifteen or more prisoners can be fastened to the chain, which runs between the two lines of prisoners. To escape under this ingenious arrangement all would have to run away at the same time and they would not run far.

The chain has been patented by the inventor, Detective Baumhach, and was first used the other day between Reading and Monocacy when twelve illegal car riders were strong to it after arrest.

One Thousand Miles for Husband. With the completion of one thousand miles which she started at Pottsville Saturday, Miss Anna Breslin, aged twenty-two years, a prosecuting young lady of Frackville, will figure as the bride in a romantic wedding, which will be celebrated at San Juan, Porto Rico.

The man she will accept at the matrimonial altar is Evan John, formerly of Shamokin, now a business man in the Porto Rican city referred to. The couple were playmates together and John left home for the first time when the Spanish American war broke out, serving in the campaign in Porto Rico. Thursday he sent for the bride elect, who left to join him Saturday. They will be wedded as soon as she arrives at San Juan.

DeWitt is the Name. When you go to buy Witch Hazel Salve look for the name DeWITT on every box. The pure, unadulterated Witch Hazel is used in making DeWitt's Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of DeWitt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name of Dr. DeWitt & Co., Chicago. Sold by Paulus & Co., Gosh & Co.

Merchants Will Gather. Delegates to the state convention of retail merchants will meet August 11, 12 and 13 at Hazleton.

Several important questions regarding trade and prices will be given more than the usual consideration. It is probable that the movement against impure food will be taken up and plans arranged to prevent impositions, because retail merchants are not always to blame, because goods are represented to be first class and are found after being purchased to be otherwise.

When you want a physic that is mild and gentle, easy to take and certain to act, always use Chamberlain's Stomach and Liver Tablets. For sale by Paulus & Co., druggists.

MT. CARMEL TEAM DEFEATED

The Danville club showed the effects of continuous playing by defeating the strong Mt. Carmel nine by a score of 10 to 3 on Saturday afternoon. The visitors were clearly outplayed at every point. McCloud was usual pitched good ball. He was steady and never lost his head at critical stages. The Mt. Carmel team had three men on bases several times but he usually prevented them from scoring.

Five runs in the first inning clinched the game for Danville, the Mt. Carmel nine at no stage of the game being able to bunt enough hits to overcome the lead. Hoffman was taken ill in the fourth inning and was compelled to retire. Bachman covering first base for the rest of the game.

Umpire Jones became incensed at some remarks from persons in the grand stand in the ninth inning and refused to finish the game. It was an unfortunate occurrence as the criticism was entirely uncalled for. Mr. Jones is a good umpire and has always given conscientious decisions. He has erred no doubt but considering the position, the inability of any one man to do at all times so every play, he is way above the average. George Yerrick finished the game.

The appearance of Jack Stivotts, the former well known National League player called for much enthusiasm. He still plays a good game and covered first base for Mt. Carmel very efficiently. The detailed score follows:

DANVILLE.					
	R.	H.	O.	A. E.	
Gosh, If	3	3	1	0	0
Lewis, rf	2	1	2	0	0
Ross, 2b	2	2	1	1	1
Yerrick, 2b	0	0	1	3	0
Bachman, 1b	0	0	0	0	0
Hoffman, 1b	1	1	4	0	0
Shannon, cf	1	1	2	0	0
Logan, ss	0	0	0	5	1
Hammer, c	2	2	0	0	0
McCloud, p	0	0	1	0	0
	10	10	27	10	2

MT. CARMEL A. A.					
	R.	H.	O.	A. E.	
Haney, 2b	1	3	1	2	2
Lewis, cf	0	0	1	0	0
George, 3b	2	3	1	1	1
DeVere, if	0	2	0	0	0
Stivotts, 1b	1	1	4	0	0

Danville 5 1 0 0 3 1 0 0—10
Mt. Carmel A. A. 0 0 1 0 0 0 2 0—3
Runs earned—Danville 3; Mt. Carmel 1. Two base hits—Haney, Hammer. Sacrifice hits—Danville 2; Mt. Carmel 1. Left on bases—Mt. Carmel 17; Danville 8. Struck out by McCloud 7; by Kilheffer 6. Stolen bases—Danville 4. Double plays—Haney to Stivotts. First base on called balls of McCloud 2. Hit by pitched ball Yerrick, Shannon. Umpire—Jones. Time of game 1 hour and 35 minutes. Passed ball Hammer.

Teachers in the Philippines. The statement is made that in some countries in Pennsylvania, the school directors have been unable so far to secure teachers for the public schools, to open in the Fall next, and it looks as if either the township and boroughs could have to increase the insignificant salary of \$35 per month, or else the schools remain closed. It is a commentary on the Keystone State that we pay only \$35 per month for eight or nine months tuition and that the government offers an entrance salary of from \$900 to \$1,200 per annum to teachers in the Philippines. The statement is made that Governor Taft is prepared to give employment to practically all the men and women who pass the examination for the position of teacher in the Philippines. So far the commission has been unable to furnish all the teachers called for. It is widely advertising the desirable features of life in the Philippines and placing special emphasis on the advantages held out to teachers. The examinations are graded so as to accommodate persons with a very limited knowledge as well as those who are qualified to teach in the higher subjects of education. The following statistics may prove interesting: At the present time there are about 850 American teachers in the Philippine service. The entrance salary will range from \$900 to \$1,200 per annum, and promotions will be made as fast as vacancies occur. It is pointed out to candidates that China and Japan are near at hand and are favorite places to visit during vacations. "The climate is good, and nearly all of the employes are in excellent health," says the circular. Appointees will be required to pay their expenses from their places of residence to Manila, but if necessary the government will advance a certain amount of money. At the end of two years' service the expenses of getting to Manila are to be refunded. The cost of living is represented to be \$20 a month and less, while accommodations can be secured at better hotels for \$40 and \$50 per month. At present free medical attendance is furnished to school teachers. White drill suits of the kind universally worn in Manila can be purchased at \$3 a suit. Without doubt, there is a big chance for success to young men of intelligence who will go to the Philippines either as teachers or to engage in other labor. It is a new soil and new conditions, and the uprooting of the old will surely give gain to the pioneer workers.

The Death Penalty. A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It's the best Salve on earth and will prevent fatality, when Burns, Sores, Ulcers and Piles threaten. Only 25c, at Paulus & Co's Drug Store.

COAL FROM JERSEYTOWN

John Mowrer, No. 623 East Market street, who recently made a visit to Jerseytown brought along home with him a specimen of the coal which has been found in that locality. The specimen was obtained about two and a half miles beyond the town, where the company recently organized at that place have been prospecting.

A single glance at the specimen would seem to settle the question whether or not there is coal at Jerseytown. It was obtained about two feet below the surface in a ravine, and while slate undoubtedly predominates there is still a fair percentage of coal along with sulphur in the specimen. The new company is hopeful of finding a much better product at a greater depth. The indications of coal are certainly such as to justify extensive prospecting. The specimen in Mr. Mowrer's possession resembles the coal found at Kipp's Run, which a few years ago created considerable interest, but was not made the subject of much investigation. A soft slate-like substance so rich in coal that it will easily burn crops out on the surface at one point there. It was while digging a well that the specimen like that found at Jerseytown was obtained. Many persons are inclined to believe that a vein of coal might be laid bare in the vicinity of Kipp's Run.

No Life, No Energy, No Ambition.

These are common expressions nowadays and the first point that points with unfailing accuracy to a nervous system robbed of its vitality by over-exertion, overstrain or excess of some kind. That anyone should allow this condition to go on to complete mental, physical or sexual ruin as it surely must if neglected, is a positive crime when the cure is at hand in Dr. W. Chase's Nerve Pills—a medicine designed expressly for this condition—a medicine that cures to stay cured by restoring the very essential life—Nerve Force.

Grant Aven of 413 Church St., Danville, Pa. says: "I have suffered a great deal from rheumatic neuralgia affecting my whole nervous system and seeing Dr. W. Chase's Nerve Pills recommended I got a box at Gosh's Drug Store and tried them. They proved a splendid remedy giving me prompt relief in every way. I rest well again and no longer suffer from those continuous headaches—I feel strong and bright and have no ambition than before. I can't speak too highly of them." 50c a box at dealers or Dr. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase M. D. are on every package.

Scarcity of Local Fruit.

Outside of small fruits, such as strawberries, huckleberries and blackberries, fruit will be rather scarce in this section, and in fact all the northeastern belt of the United States. The late frosts and cold, wet June, and terrific storms all contributed to the death of peaches, pears, plums and apples. It promises to be a bad fall summer, as Georgia and other Southern States suffered from much the same causes as the Northern States. The late peaches from Maryland, Delaware and New Jersey, and the Fall crop from Michigan may give better returns, but they, too, have seriously suffered. There will be about half a crop of apples from New York, Michigan and Missouri, while grapes promise well. The East will have to depend for the most of the fruit it eats and eats from the Pacific coast states and pay high prices than other years. A San Francisco dispatch says: A hundred carloads of fruit a day, or 2,000,000 pounds, are now going East from Sacramento. Up to last Monday the number of cars sent East to all points beyond Ogden was 1,717. They contained 11,285,000 pounds of fruit. Both the railroad officials and the orchardists say that the prospects are favorable for the shipment East this season of 17,000,000 pounds of all sorts of grown fruits. This is equivalent to 8,000 carloads.

The orange crop promises well, and bananas are cheap and plentiful, so that with these and grapes, and possibly apples, many people will have to arrange without peaches, pears and the more luscious fruits which in other years are usually cheap and abundant.

A MEASURE OF MERIT.

Danville Citizens Should Weigh Well This Evidence. Proof of merit lies in the evidence. Convicting evidence in Danville. Is not the testimony of strangers. But the endorsement of Danville people.

That's the kind of proof given here. The statement of a Danville citizen, Levi Allinger of 102 North Spruce St. says: "I had much business in my back right over my hips and an ever-lasting aching over the kidneys. It hung right to me, and stopping or lifting anything caused sharp pains to pass through me. I had pain between my shoulders and running down my spine, which afflicted me for my work. I could not sleep well nights, and was tired all the time, especially first thing in the morning. I read about Doan's Kidney Pills curing others of this trouble and I got them and after taking them I felt all right. They are the only thing which ever did me permanent good."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

Bible Class Discontinued.

The Bible Class, under auspices of Y. M. C. A. which held its meetings on Monday evening of each week, will be discontinued till September. The date of opening will be announced later.

10 Day Extensions to Atlantic City via Reading Railway.

Thursday, August 13th and 27th special excursion tickets will be sold to Atlantic City, Cape May, Ocean City or Sea Isle City. These tickets will be good for return within ten (10) days. Stop-off allowed at Philadelphia returning.

THE REGIMENTAL RIFLE MATCHES

The annual regimental rifle matches of the Twelfth Regiment will be held on the Sandary rifle range Wednesday, Thursday and Friday, August 19, 20 and 21. Orders to this effect were issued by Colonel Clement Tuesday. Company representation will be restricted to teams of three men.

All the regimental matches the various trophies which are the property of the regiment are contested for and possession of these prizes for the ensuing year is determined.

These matches have also another purpose that of developing shots for the regimental team and determining who shall represent the regiment at the annual State matches.

The state matches this year will begin on Monday, August 24th and the men who are selected to represent the regiment will leave on the 23rd for Mt. Gretna. It is probable that the men selected will spend the 22nd after the regimental matches, close in team practice and go the next day to the State range.

The Regimental team last year was not a success. It came in tenth in a field of twelve. This year better things are hoped for. There will be at least one and probably more than one chance in the make up of the team. Sergeant Swartz, for many years a standby on the team is no longer a member of the regiment and one or two others must show improvement if they would be selected on the team this year.

Save the Children.

Ninety-nine of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 705 Central St., Nashville, Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers." Kodol digests what you eat and makes the stomach sweet. Sold by Paulus & Co., Gosh & Co.

The Daylight Burglar.

It is during the hot months, when the doors are left open for the purpose of admitting the breeze, or when the house is closed and deserted while the family goes to the seashore or the mountains, that the daylight burglar gets in his work. Instances of his depredations have not been reported in Danville, this summer, but in some of our neighboring towns he is busy at work, and he is likely to visit this place at almost any time. He is an ingenious criminal and takes many different means to effect his purpose. Sometimes he goes disguised as a book agent, or a peddler, and very often when he finds a door open and the bell is unanswered he walks in and helps himself to whatever he can find, trusting to his character as a traveling man of business to effect his escape and escape if he is interrupted. Sometimes he watches his opportunity and breaks in at the rear windows of deserted houses and takes his time about his work of burglarizing.

It is, of course, loose articles of wearing apparel or here a brace that are chiefly in danger from the burglar and either enters hastily and unannounced, or rings the bell to assure himself that no one is in the front part of the house. Unoccupied houses are frequently robbed of silver and whatever may attract the thief's cupidity. It doesn't by any means follow that that all book agents and peddlers are thieves, or that there is wide-spread danger from the daylight burglar at all times. But it is well enough not to go away and leave the door open even on a hot day, and the practice of shutting up the house entirely and leaving it without someone to look after it, is a risky one at all times. Danville probably suffers as little in this respect as any city of its size in the land, but even here it is well to be on your guard against the light-fingered gentlemen who live on other people's industry.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A no down system, or despondency invariably precedes suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by Paulus & Co., Druggists.

A Great School With Free Tuition.

We have just received the recent catalogue of the Literary Institute and State Normal School of Bloomsburg, Pa. We note that this school, so long prominent because of its excellence, catalogue 770 different students last year, and graduated the largest class in the State.

The Hotel plan of conducting its dining-room service, the passenger elevator to all floors, and the excellent courses maintained place this school in the front rank.

The courses preparing for teaching (in which tuition is free) for College, law or physical training are attractive.

The catalogue itself is a work of art and can be profitably read by those selecting a school, even if they do not select this one. The Fall term will open Monday, September 17th. Write the principal (J. P. Welsh, A. M. Ph. D.) for copy of catalogue.

The coming Eagles Mere excursion which the Philadelphia & Reading R. R. Company will conduct to Eagles Mere and which will leave Danville on Monday, August 19th, is the history of the many delighted ones which District Passenger Agent Mauger has had under his charge. The railroad company are making every preparation to make the picnic a success and there is no doubt but that the crowd will exceed that of former years. For a one day excursion there is none so popular as Eagles Mere.

A MONSTER PUMPKIN

Robert Farley, Cherry street, is making an interesting experiment in the culture of pumpkins. He planted some seed in a box early in March. The box was kept in the house where the seed soon sprouted and a few weeks later had grown to a good size when one of the stalks was transplanted in a hot house. When the usual time arrived for planting Mr. Farley's pumpkin had matured into a nice vine which trailed out of the hot bed and deposited a pumpkin on the top of the frame and there it is at present allowed to grow into a monster specimen, while other vines of the same kind are little more than beginning to bear.

Mr. Farley measured the pumpkin yesterday and found that it is just four feet and two inches in circumference. It is still green and tender and bids fair to continue to grow during the next month or six weeks. The usual time allotted to pumpkins, its dimensions in all probability will be something remarkable by the time it is done growing and to provide for emergencies Mr. Farley has begun to underpin the hot house frame on which the big thing rests. The pumpkin is not of the large variety and Mr. Farley attributes its size only to the early date on which it was planted.

Potent Pill Pleasure.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot of Albany, Ga., says: "During a bilious attack I took one. While it was it did me more good than calomel, blue-mass or any other pills I ever took and at the same time it effected me pleasantly. Little Early Risers are certainly an ideal pill." Sold by Paulus & Co., Gosh & Co.

Equalled Seldom, Surpassed Never.

Every section of the United States can claim some special exhibition of Nature's wonders, as the Yosemite Valley and "Big Trees" of California, the Yellowstone Park, the Florida Loxandria of Florida, the Adirondacks, White Mountains, etc., etc., but Niagara Falls is fully equal to its superior in all others of Nature's scenic beauties and in addition is easier of access and at cheaper rates from the Middle States than any other.

"ALL CUBANS"

Danville 0 0 0 0 0 0 0 0—0
All Cubans 0 0 0 0 2 0 0 x—2
Struck out by Long, 4; by Padron 9.
First base on called balls of Padron 3. Stolen bases—Gosh, Munoz. Base on bad delivery, Bachman. Time of game 1 hour and 15 minutes. Umpire, Jones.

End of Bitter Fight.

Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of DuPont, Ga. "and gave me up. Every body thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. It benefited me in a few days. Now I've entirely regained my health." It conquers all Coughs, Colds, and Throat and Lung troubles. Guaranteed by Paulus & Co's Drug Store. Price 50c, and \$1.00. Trial bottles free.

Bridges Roof is Complete.

Trumbower & Werkheiser Friday completed their big contract of re-roofing the river bridge. The big structure now is much improved in appearance and with a few minor repairs will serve the two countries for many years to come. The work of re-roofing was under way since June 22 and with the exception of rainy days no time was lost. Although not a single accident occurred the work was of a rather perilous nature and carpenters were not anxious for a job on the roof. The number of men employed ranged from two to ten. Of these Gabriel Flick of Riverdale, was employed every day that it was possible to work. Daniel Moll, also of Riverdale, put in pretty full time losing about a week. Roofing generally is not the most desirable work that carpenters have to do and the two above named men had a long experience at the tiresome task than falls to the lot of most carpenters.

The number of shingles—red cedar—required for the new roof were three hundred and eighty thousand.

Not Over Wise.

There is an old allegorical picture of a girl seated at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by Paulus & Co.

Electric Railways.

A recent report by the United States government shows a wonderful growth of electric railways in this country. The increase in twelve years has been 177.94 per cent. In 1886 there were 8,128 miles of single track in the various systems. Now the total is 22,577 miles. There is \$2,208,060,000 capital represented in electric railways. In 1902 they carried 4,809,554,438 persons. Originally electric roads built up cities. They brought suburbs near to centers. They solved the problem of home owning for people of moderate means. They made it possible for a man to live where there was room to breathe, have a lawn and a garden, enjoy the comforts of country life, and still reach his work for five cents. The benefit they conferred on humanity cannot be measured in money. They cannot be too many of them. Town and city all over the land are, or will be, in touch. The vast to a metropolitan will no longer be an event in the country village. There will be a car every hour, the fare will be moderate and the journey pleasant. The suburban electric railway will remove much of the monotony from rural life.

INTERESTING GAME OF BALL

The last game of the series between the Danville and "All Cubans" teams took place at DeWitt's Park before a fair-sized audience Friday. It was a splendid contest, both sides playing snappy ball. Though Danville has lost this series our boys need not feel ashamed of their work, especially in the last two games.

Both pitchers were at their best. But four hits were made off Long and he issued no free passes to first. Padron, the opposing pitcher struck out nine men and but two hits were made off his delivery. He gave three men bases on balls but always managed to hold them there. The only opportunity for Danville to score was in the ninth inning. Three men were on bases and but one man out. It looked promising but as no hits were forthcoming the game ended in a shut out for the home team.

No runs were made until the sixth inning when Munoz made a hit. He at once stole second and in the effort to beat him off, Bachman threw over second base, Munoz taking third on a stretch hit, stole second and came home with Munoz on an overthrow to third base. This ended the scoring. But for the one bad play the game would have gone beyond the limit. The loss of Thursday's and Friday's games throws no discredit on the Danville aggregation of players. The detailed score is as follows:

DANVILLE.					
	R.	H.	O.	A. E.	
Gosh, If	0	0	1	0	0

Ed All Will Start.

The puddle mill at the Structural Tubing Works, operated by Howe & Samuel, which has been idle for several weeks past, will resume operation on Monday morning next.

Eat All You Want

Persons troubled with indigestion or Dyspepsia can eat all they want if they will take Kodol Dyspepsia Cure. This remedy prepares the stomach for the reception, retention, digestion and assimilation of all of the wholesome food that may be eaten, and enables the digestive organs to transform the same into the kind of blood that gives health and strength. Sold by Paulus & Co., Gosh & Co.

Birthday Surprise Party.

Mrs. Eliza Lyon, Ferry street, was tendered a delightful surprise party on Saturday evening, in honor of her birthday. The following persons were present: Mrs. David Stillhart, Mrs. Jack Marks, Mrs. Margaret Ammon, Mrs. Jacob Stillhart, Mrs. Thomas Rogers, Mrs. Rebecca Hess, Mrs. John McCoy, Mrs. Jacob Fischer, Mrs. Samuel Mills, Mrs. Elizabeth Murrill, Mrs. Anna Hoffman, Mrs. James Stewart, Mrs. Emma McHenry, Mrs. Anna Butterwick, Mrs. Lew Woods, Mrs. Elmer Peters, Mrs. Simon Hoffman, Mrs. William J. Rogers, Mrs. John L. Evans, Mrs. Gomer Thomas, Misses Mamie Hoffman, Ella, Cal and Annie Lyon, Bessie Hess, Mary Mills, the latter of New York; Simon Hoffman, Samuel Mills, and Mabel Jack, Leon of Bellefonte. Mrs. Lyon was the recipient of several handsome presents. Refreshments were served during the evening.

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux (dysentery) says Mr. T. A. Pomer, a well
