Y. M. O. A. Notes.

At the mining camp of the Cananes Consolidated Copper Co., La Cananea, Sonora, Mexico, which has been in operation about four years, baving \$3,730 employees, 40 per cent of whor are Americans, and which is one of the largest Copper producing points in the southwest, the help of the International Committee of the Young Men's Christian Assocation has been Tiley, cf., ss. requested in forming an Association. A brick building, costing over \$10,-000, has been erected and contains baths, reading rooms, and a library of 2,000 volumes, audience room, etc., which will be set apart by the com pany for the use for an Association. which will be organized as soon as a properly qualified and trained Association secretary can be secured. The company had stipulated that any work done should not be under the supervision of any religious organization; but out by Long 5; by Moran 1; by Skoski on studying the success of the Railroad Associations, which are conducted at 200 points, and learning of its success there, as well as among similar classes of men, they readily agreed to the organization of an industrial and 35 minute. department for the benefit of the Am ericans employed by the company, and appropriated \$125 (gold) cash, per menth, in addition to supplies towards running expenses. This is the first mining camp in the southwest to endorse the Association plan, and if the Association is organized here, it is quite likely that similar Associations will also be formed at four other points in the immediate vicinity, where some ten thousand men are em-

The president of this company, few years ago, a poor prospector, but now a multi-millionaire, says that when he came West some years ago, from New York, the only thing he brought with him that was ever of any value to him, was a membership ticket in the Young Men's Christian Association. This is one of many points in the west which has appealed to the Young Men's Christian Associa tions for assistance in undertaking for the betterment of the social con ditions of their employees. At Doug las, Alaska, where the Association ha had a building erected for it by the mining company, which was opened last Christmas, every man who is an employe has a membership ticket and pays \$1.00 a month for it. "The only trouble with this Young Men's Christian Association': the president of the company said, "is that the men ar saving the money that they used to spend in the gambling and drinking houses of the town, and are able to re turn to their homes when the moo strikes them." It is changing the character of the place. In six month the total attendance of miners an their families at the building has been 58,485 and 9,398 baths have been given. The weekly entertainments have attracted 6,630 and the athleti events 3,040.

> His Life Saved by Chamberlain's Colic, Cholera and Diarrhosa Remedy.

"B. L. Byer, a well known cooper of this town, says he believes Chamberlain's Colic. Cholera and Diarrhoea Leighow, Mr. and Mrs. J. Miller, Mr. Remedy saved his life last summer. He had been sick for a month with what the doctors call bilious dysentery, and could get nothing to do him any good until he tried this remedy. It gave him immediate relief, "says B. T. Little merchant, Hancock, Md. For sale by

Paules & Co. druggists. To Light Cars by Electricity. Electric lights are to be substituted or gas illumination in all passenger coaches on the Pennsylvania railroad. With a view to making this change the company is now conducting a series of experiment; to overcome some of the obstacles which long delayed the installation of electric lights over its entire system. Two coaches equipped with light power are in constant use on express trains running between Pittsburg, Philadelphia and Jersey City. On each of these cars are carried expert electricians who are making a close study of the entire working machinery of the light plant, which gains its power from a genera-

Electric light for luxurious Pullman and private cars has long been possible father, together with much picturesque and in use, but to keep in operation a system on thousands of day coaches is

Pennsylvania officials are reluctant Company and other electric lighting companies to provide an equipment tensive a system.

That confidence is shown in the re alts already obtained is indicated by the Issue of a general order to elec tricians in every terminal construction vard to familiarize themselves with system for passenger coaches. Every passenger coach now being built in the shops of the company in Philadel burg is wired for electric lights in addition to the illuminating gas in-

stallation. It is understood that the Pennsylvania officials are not satisfied with the electric system which it is now utilizing experimentally. This consists of a consolidated axle light sys tem. The generator, located on the truck, is driven by a belt from a wheel attached to the axle, whence the power is transmitted through a vehicle. Landing him there the lady regulator, located in the interior of the car, and to a storage battery hung in a box from the car.

The system the company is aiming at is a modification in the battery construction. Instead of the light power being generated from a truck of each car it is desired to have the supply motor made a part of the locomotive, from which the batteries could also be charged while the train is in motion, obviating any delay and resulting in the saving in the cost of installation

Distress After Eating Cured.

Judge W. T. Holland, of Greensburg, La., who is well and favorably known, says: "Two years ago I suffered greatly from indigestion. After eating, great distress would invariably result, lasting for an hour or so and my nights were restless. I concluded to try Kodol Dyspepsia Cure and it cured me entirely. Now my sleep is refreshing and digestion perfect." Sold by Paules & Co., J. D. Gosh & Co.

Farmer Used Gun to Good Effect. At the point of a gun farmer Lawson Lee, who lives near Numidia, captured Roy Bublish and John Bub lish, father and son, in the act of stealing apples in his orchard, Saturday, and now the two offenders are domiciled in the Columbia County jail awaiting trial at the September term of Court.

The farmers thereabouts have been

heavy losers this summer from the depredations of the foreigners who comover from Mount Carmel to prey upon them. Accordingly when his hired man brought word to farmer Lee Sat urday that his orchard was being pill aged he armed himself and started after the men. Stealthily making hi way through a corn field that hid hin from the thieves he got almost upon them before he was discovered. At first they paid but little attention to him, picking apples from the trees and placing them in sacks while in his presence. In a manner that could not be misunderstood he commanded then to quit and to walk before him or he would shoot. They obeyed and with the barrel of the gun looming up ominously behind they made their way to the barn yard of the Lee home, where the hired man stood guard while Lee hitched up a team.

With the two prisoners seated in the back seat, with Lee driving and the hired man facing the prisoners with revolver held under their nose, the made their way into Numidia. Her the populace lined up to witness the failing cure for Indigestion and Dystun. Before Justice Isaiah Howe pepsia and all complaints affecting they were taken, and with their bravery wilted beyond recovery they begach or digestive tract. When you take ged pitconsly to be allowed to go to Kodol Dyspepsia Cure everything you Mt. Carmel to obtain funds where eat tastes good, and every bit of the with to settle the case, but settle nutriment that your food contains is farmer Lee would not and to jail they
