Everything is Scarce.

The weather this summer has been vegetables that are usually so plentiful without legal power. in this section is a very scant one. Housewives, who in winter depend much on the rows and rows of canned fruit laid away during the summer and fall months, are wondering what they are going to do this winter for the scarcity of all sorts of fruit renpresaged the scarcity of all other fruits, and now with the days of the peach and the pear we find the local curbstone market with a very thin sprinkling of them and the prices comes from Florida or California.

An Automatic Hose Couple.

Leopold Dreifuss has perfected an invention which promises to be a very good thing. This is an automatic hose coupling to be used alike for connecting two sections of hose or for making connection between the hose and the plug.

Mr. Dreifuss worked about a year on the invention and has it well protected by patent. Curry & Vannan have just completed a fine working model of brass, for the inventor, which was given a fair test at the works yesterday with very satisfactory results The connection was made in the fraction of a second, the coupling proving perfectly water tight.

The coupling, which in a general way may be said to be a double sleeve. one fitting into the other and secured by a spring is exceedingly simple in construction and would seem not likely to get out of order. It can not help but prove a great time saver in connecting hose during a fire, an occasion when time proves very valuable.

Special Books at Library. The Thomas Beaver Free Library has received from the United States Government a few special consular reways and Commerce,""Foreign Markets for American Coal," "American Lumber in Foreign Markets," "American Flour," "Trusts and Trade Combinations in Europe," "European Emigration," "Canals and Irrigation," "Drug Trade in Foreign Markets." Also have been received State reports on "International Affairs, 'Public Schools, &c.

Entertained. Mr. and Mrs. John G. Waite, Ferry street, entertained on Saturday afternoon in honor of the seventh birthday of their daughter Alice. Those present were : Margaret Deen, Mary Miles. Fiorence Mapstone, Phoebe Curry, Dorothy Welliver, Gussie and Julia Co., J. D. Gosh & Co. Gaskins, Florence and Lydia Vincent. Frances Harpel, Mildred Sidler, Mildred Albeck, Isabel Boyer, Katharine Bedea, Margaret Foust, Eleanor machine, modern in all its features Deutsch, Lucy Detweiler, Pauline and just turned out at the factory at Ton-Leah Waite

smallpox. As soon as the physician's statement became public the entire town was thrown into a state of consternation because two sisters of the victim had been attending the public schools during the illness of their brother, before it was known that he was suffer-

ing from the dread disease. The health authorities took the matter in hand immediately and after quarantining the Lewis home ordered the schools closed and requested that all children become vaccinated who have not previously done so within the required limit of time.

Physicians of the town were instructed to keep a close watch as it is expected that more cases of the disease will develop.

Distress After Eating Oured. Judge W. T. Holland, of Greensburg, La., who is well and favorably known. says: "Two years ago I suffered greatly from indigestion. After eating, great distress would invariably result, asting for an hour or so and my rights were restless. I concluded to try Kodol Dyspepsia Cure and it cured ne entirely. Now my sleep is refreshing and digestion perfect." Sold by Paules & Co., J. D. Gosh & Co.

Foot Ball at Williamsport October.

A great foot ball event will be witssed in Williamsport on Saturday, ctober 3, 1903, when Backnell and he Carlisle Indians will line up for mother battle on the Athletic Park grounds. Assurances have been given that this will be one of the liveliest games ever played between any other team and the Indians. Both teams will be at their best and those who witness the struggle between them will be well entertained. The usual excursion rates of one fare for round trip have been granted on the various railroads for a distance of one hundred miles. All aboard for Williamsport October 3.

Bucknell Has 700 Students. Bucknell University opened with an attendance of upward of 700 students, 420 of whom are in college. The freshman class numbers 125 During the year many improvements n the college property were made and owing to the increased attendance six new instructors were added to the faculty.

Y. M. O. A. Notes. At a conference of the International Committee of the Y. M. C. A., held at Princeton, New Jersey, among other things the following reports

were given : The two colored secretaries reported 110 Associations and increased co-

operation from southern men. The Railroad Department secretar tes reported 68,000 men in 198 Associations, a gain of 36 Associations in two years and an increase in membership of fifty per cent. Four years ago there were no railroad Associations in Texas, while now there are ten with expensive buildings and 5,000 members. Several Associations for railroad men will be organized in Mexico. Street railway companies are asking aid in organizing them at several points. Col. John J. McCook. who presided at this session, said that he considered it was one of the greatest privileges of his life to come in contact with the railroad Association

The Field Department, which organized all the State and provincial committees, has co-operated with these committees in raising money for buildings, and notably advanced the local and industrial Associations, and is now seeking to secure additional secretaries.

There are now 717 college Associations, equalling in number the city Associations. These have enlisted 1,000 new men for foreign missionaries in the past year. They will conduct this year fifty-four Bible study conferences in twenty-seven States.

The Association's work for soldiers sailors, boys, Indians and young men n small towns showed steady gains The Educational Department showed an increase in ten years in tuition fees of four hundred per cent. and the number of recitation hours have been doubled. There are 3,000 students. Perhaps the greatest advance is shown in the religious services and Bible clauses, one of the secretaries having addressed 63,900 men, of whom 3,858 expressed their purpose to beome Christians.

A Purgative Pleasure.

> What Firemen Will Eat at Allentown. The committee in charge of the enertainment of the visiting firemen on the fair grounds at Allentown during the state convention in October estimates that it will cost several thous and dollars to feed the vast army which will assemble there.

An idea of the magnitude of the task which the committee has undertaken may be formed from the following: It is estimated that 5,000 loaves of bread will be consumed, while 2,000 pounds of boiled ham will be converted into sandwiches. A ton of corned beef may aid in appeasing the lusty appetites of the fire fighters, and 1,000 pounds of frankfurters will vanish in record counterfeit, but the truth of this state- time. Five hundred pounds of small ment is never more forcibly realized pretzels and 25 barrels of crackers have

The committee has already contracted for 12,000 eggs and the hens in Lestitutes that are on the market. W. from now until convention time to supply the demand. And it is also estimated that it will require 12,000 pounds of butter and 100 por coffee will be readily consumed. One thousand pounds of Swiss cheese will

make appetizing sandwiches. This monster informal lancheon will be served in ordinary picniplates, of which it will take 10,000. while 2,000 tin cups are deemed sufficient to hold the beverages.

What is Life. In the last analysis nobody know but we do know that it is under strilaw. Abuse that law even slightly, pain results. Irregular living means lerangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly re-adjusts this I's gentle, ye horough.
