THE ELECTRIC RAILWAY

The American in its several articles on the proposed electric railway between this city and Bloomsburg expressed the utmost confidence in the success of the enterprise and even remarked upon the probability of things taking a tangible form yet the present fall. It is true the right of way remained to be obtained from several private owners who did not show a disposition to yield readily. But so industriously and with such excellent results have W. F. Pascoe, President, and W. A. Heller, Secretary and Treasurer, of the Danville and Bloomsburg Electric Railway, been working to overcome existing opposition that the right of way cases to be a factor and affairs relating to the proposed line have reached such a stage that but little more remains to be done than to actually begin the work of construction.

President W. F. Pascoe is authority for the statement that C. M. Brady, of Easton, the Company's engineer, will be on the ground next week. A contract for motors, generators, switch board, lightning arrestors, etc., has been practically closed with the Westinghouse Manufacturing Company of Pittsburgh. Much of this material may be delivered at Danville yet this fall, although it is not likely that the actual work of constructing the line will begin before next spring.

The power house, Mr. Pascoe says, will be built at Grovania, a point midway between the eastern and western terminals. If material can be procured when wanted work on this building will no doubt begin within the next two months.

The right of way being in such shape that it can easily be handled, the company has turned its attention to financing the road. The success attending their very earliest efforts in this direction has been of the most encouraging sort and no difficulty whatever is anticipated in securing all the funds needed to build and equip the road.

Mr. Pascoe says that the company at present is not figuring on any further extension of the line than is embraced by the present charter. He admits that a link connecting Danville with Sunbury, Shamokin or Milton is needed to complete the trolley chain of the north branch, but this is a proposition, he says, which will be considered in the future.

Evening Party. A party was tendered Miss Helen Beyers last night at her home on North Mill street. The affair was in honor of Miss Beyers' birthday anniversary. During the evening games were played and a fine supper was served. Dancing by Joseph Ryan, Carl Schott and Helen Beyers was much enjoyed by the guests. Miss Beyers received a number of handsome presents. Those present were Misses Clara and Mary Buchalter, Helen Welsh, Hazel Butler, Irene Oehler, Catherine Hill, Elizabeth Trainer, Margaret Yerrick, Elsie Switzer, Mary Griffin, Margaret Gartland, Ida Angle, Leah Hill, G. Shartzler, Catharine Dehl, Mary Rooney, Gordie Morrison, Elizabeth Law, Phyllis Byers, Marion Leister, Margaret Leister, Marie Ryan, Mary Dehl, Sadie Switzer, Clara Fisher, George Buchalter, Joe Ryan, George Yerrick, Carl Schott, Francis Griffin, John Welsh, Willie Welsh, Andrew Murray, Paul Murray, Bernard Gartland, Edward Welsh, Roy Beyers, John Beyers, Raymond Morrison, Charles Fisher, Thomas O'Connor, John Brady, Thomas McCaffrey, Jos. Murray.

Hallow'en Party. Mr. Frank DeLong has just completed a handsome club house on the Blue Springs farm near Washington. It is a model building and will be known as the "Blue Springs Farm Club." Mr. DeLong opened the house with a Hallow'en Party on Saturday evening. Dinner was served at six o'clock and was followed by an impromptu dance. Among those present were, Mr. and Mrs. H. F. Curtis, of Boston, Mass., Mr. H. G. Marvin of Lake Sunapee, New Hampshire, Miss Richardson, Mrs. Charles DeLong, son and daughter, Mr. Samuel Yorks and Miss Mary Yorks of Philadelphia, Mr. and Mrs. F. C. Angold and Mr. and Mrs. C. P. Hancock of this city.

Venn Brings Suit. State Pure Food Agent John H. Venn, Shamokin, Friday brought prosecution before Justice Reed against a saloon-keeper of Mt. Carmel, charged with having sold carbolic brandy adulterated with coal tar and salicylic acid. The sample purchased was so found by the State Chemist. The charge was made Friday afternoon, but the case was continued, the defendant having retained Attorney Shipman to look after his interests. It is the first prosecution brought in Northumberland county following the collection of samples recently made by Venn.

No matter what position you want filled, a News want ad will bring you young men for the place.

FIRST ACCIDENT OF THE SEASON

In the game of football played with Bloomsburg at DeWitt's Park on Saturday the Danville High School team won its first victory of the season. The game although attended with an accident, and marked with other delays was nevertheless closely contested and snappy.

Both teams seemed pretty well balanced. Neither side scored in the first half. Dougherty was substituted for Nickles, who had his leg broken. In the second half Rosenthal and McClure entered the game, the former going to quarter back and the latter to right half back.

After seven minutes' play Rosenthal got the ball and carried it over the line for a touchdown, after which Dougherty kicked the goal. The game ended with the score of 6 to 0.

The line up: Danville. Positions. Bloomsburg. Peters, right end. Oberender Walker, right tackle. Frymire Slattery, right guard. Kline E. Edmondson, left end. Buck (Dougherty) Johnson, left tackle. DeMarco Hartman, left guard. Edwards Raver, center. Little McClure, quarterback. Allen (Rosenthal) E. Edmondson, left half back. McKelvey Nickle, right half back. Foster Miller, full back. Girton Touchdowns—Rosenthal. Goals—Dougherty. Referee—J. C. Carey. Linesmen—Jacobs, Campbell. Score—Danville 6; Bloomsburg 0.

Y. M. C. A. Week of Prayer. The Young Men's Christian Association Week of Prayer the world over, from the 8th to the 14th, has been maintained for forty years as a season of prayer for young men. On next Sunday many pastors of leading churches throughout the world will hold services for young men. The International Committee has issued the following statement showing the progress of the Association in the past year, which suggests causes for profound thanksgiving. There has been a growth of 161 Associations making the total now 1736. The total membership of 350,455 shows a gain of 27,000. Over one hundred more secretaries are employed. The reports of religious services show an increase in attendance at meetings and Bible classes. There are 1,500 more students in evening classes than in any previous year of 20,000. The physical work also shows a large increase. Notwithstanding this growth, leaders in the movement are constantly urging its extension, stating that it should at least be possible to double the number of organizations if the means and the men be forthcoming.

Thirty-six new buildings have been added to the 463 previously erected making a net gain in property of \$2,600,000. The total property value is \$24,016,415. The Associations spent last year \$5,583,000 for current expenses an increase of \$400,000, and the State and Provincial Committees, \$179,000, an increase of \$27,000. The International Committee spent on the home field \$6000 less than the previous year, or \$150,574. For the work in the foreign field \$81,625 was raised, an increase of \$26,000. The Association has made large progress in the development of organizations in the industrial field among lumbermen and miners. These organizations are not only supported liberally by the companies but are managed by the men themselves, so that they are in no wise missions to them. The Railroad Department has made a gain of 50 per cent. in two years, and erected 43 buildings in that time. The Student Department organized 60 new branches making 625, and has 40,000 members, with 16,000 of them in Bible classes. The Army and Navy Department extends its work to military and naval stations abroad. It has 150 traveling libraries in use, while more than 4,000,000 pieces of stationery were used during the past year. The soldiers and sailors have used 75 tons of reading matter, most of this going to the Philippines, Porto Rico, China and Alaska. New buildings have been erected at Fortress Monroe and Fort Hancock that were given by individuals, costing about \$50,000 each. Over 1,000 men have joined the Naval Temperance League. The 103 Colored Associations now have 7,000 members, and have gained \$25,000 in property. The first colored Railroad Association has just been organized at Bluefield, West Virginia. In five years the membership of Boy's Departments has nearly tripled. The 576 Departments have 45,000 members. Special attention is being given to working boys.

Reading Retrenchment. The retrenchments to be made by the Philadelphia and Reading Railroad company began at Tamaqua Saturday by the suspension of about thirty Italian laborers who were engaged in the work of improvements in the yards there. The weeding out process will be observed all the way through to Newberry, and it is hinted that the improvement work now going on in the vicinity of Montoursville will be held up and the men suspended.

October Raspberries. A large cluster of ripe raspberries was left at this office a day or so ago by Mrs. Jacob Blohn, Valley township. The berries, notwithstanding that they have grown some three months after the close of the regular season are of full size, luscious and fragrant in odor.

The present season during the last few weeks has also produced several fine specimens of strawberries in this locality.

It seems quite odd that these berries should grow so readily out of season and one is apt to wonder what measure of success would attend the experiment if an effort were made to grow strawberries and raspberries in October.

President Roosevelt having issued his Thanksgiving Day proclamation the turkey will now proceed to roost high.

LETTER FROM JOHN L. EVANS

Architect J. H. Brugler has received a very interesting letter from our townsman, John L. Evans, who is sojourning at Albuquerque, New Mexico, for the benefit of his health.

Our readers will be glad to know that Mr. Evans has been benefited by the change and feels much encouraged by the outlook. His letter in part reads as follows: "I am located about three miles from Albuquerque on a ranch called the 'Naco Ranch.' We have quite a cluster of adobe houses built from a great quantity of all its apart. This is a great country; you can get of any value is sun and air.

I think I am doing remarkably well, as according to the natives, if a patient changes for the better within two or three months he is doing well. My condition has changed considerably. Among the patients here are some from Reading and Allentown. This is a hard country to live in, as during the day there is a July sun, while the nights are at least 50 degrees cooler than during the day. The idea is to sit in the hot sun all day and go to bed in the cold with every thing open to admit the air. It requires great care to avoid taking cold.

You can buy horses here for \$10 to \$25. I do not know much about horses, but I had one of our Danville horses here we would go into the horse business. I think we would get rich in thirty days.

Yours respectfully, JOHN L. EVANS.

Struck by a Bridge. Samuel A. Miller, employed as a brakeman on the Shamokin division of the Pennsylvania railroad, was fatally injured in the discharge of his duties near Shamokin Sunday afternoon about 4.35 o'clock.

Miller's crew was returning from a trip to Mt. Carmel and the accident occurred at Fulton, a small station several miles on the other side of Shamokin. A branch road of the Reading crosses the Pennsylvania at that point. After the hoisting ropes near the approach of the bridge had been passed Miller climbed to the top of a horse car and was struck in the back of the head by the bridge as he was in the act of standing up after twisting a brake. He was knocked to the roof of the next car, but Flagman Amerman, who saw the accident too late to prevent it, hurried to his assistance and kept him from rolling off. The injured man was hurried to Shamokin, but died upon the arrival there.

The remains were taken to Sunbury where they were prepared for burial. The young man was aged 23 years. He had been railroaded since December, 1900, and was a faithful employee. He was a member of Railroad Trainmen and the Fraternal Order of Eagles.

At the outbreak of the Spanish-American War he answered the call for volunteers and enlisted in Troop M, Second United States Cavalry and served three years in Cuba with much credit and distinction to himself and his country. Possessing qualities that enabled him to win and retain many friends, his sudden and unexpected death is naturally the cause of much sorrow.

A Good Name. From personal experience I testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease. W. T. Easton, Boerne, Tex. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effective. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by Gosh & Co., Paulus & Co.

Spent Pleasant Evening. A number of young people from this city drove to Pottersgrove on Saturday evening where they were entertained at the home of George Springer. Dancing was enjoyed during the evening. Those present were: Misses Mervie Ritter, Florence Ammerman, Florence Lynn, Clara Fisher, Edna Lewis, Edna Reed, Jennie Dyer, Ella Miller, Bessie Brooks, Irene Tovey, Fred Held, Chester Mowrey, Thomas Daily, Richard Mullen, Edward Scott, Frank McCue, Raymond Quirk of Bloomsburg, Clyde Walker, Jessie Higgins and Charles Bowers of Milton.

Not a Sick Day Since. "I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since." Neighbors of mine have been cured of Rheumatism, Neuralgia Liver and Kidney troubles and General Debility." This is what B. F. Bass, of Fremont, N. C. writes. Only 50c. at Paulus & Co., druggists.

The greatest foot ball event of the season will be the game between State College and the Dickinson College at Williamsport, November 14. Assurances have been given to the Williamsport Merchants' Association, who are interested in having the game a success, that it will positively be played to a finish. The State College boys are well known to be strong players, and the merits of the Dickinson team are well established. The game is to be held at 2.30 p. m. Excursion rates of one fare for round trip will be granted on the several roads, within a radius of 100 miles. Williamsport will be the center of attraction on November 14.

Failures during the month of October, according to the report of R. G. Dun & Co., were the heaviest for the month of October since 1893. Commercial failures during the past month numbered 1,096 and amounted to \$18,387,567, and 21 banking suspensions represented liabilities of \$13,094,625.

TO REMOVE CANAL BRIDGES

The Borough Council has not as yet found a contractor to remove the canal bridges in the Borough and to replace them with stone culverts. Council at its last meeting decided that the bridges must come down yet the present fall.

D. A. Montgomery, chairman of the Committee on Streets and Bridges, yesterday stated that the Committee is very anxious to act upon the order of Council, but that it is deterred by inability to find a contractor. The work, involved, especially as relates to the construction of the culverts will be of a very difficult nature and should be placed in the hands of a person experienced in that line of work. The brisk times of the past summer have put so many building operations on foot that it has proven difficult to find a contractor ready to bid on such work.

Mr. Montgomery stated that there is no doubt but that the bridges will be removed this fall. Should none of our local builders be willing to undertake the contract the Committee will advertise outside of town for bids. A meeting of the Streets and Bridges Committee was called for last night that action might be taken in order to get the work under way.

A MEASURE OF MERIT

Danville Citizens Should Weigh Well this Evidence.

Proof of merit lies in the evidence. Convincing evidence in Danville. Is not the testimony of strangers. But the endorsement of Danville people. That's the kind of proof given here. The statement of a Danville citizen. Levi Allegor of 102 North Spruce St. says: "I had much lameness in my back right over my hips and an everlasting aching over the kidneys. It hung right to me, and stooping or lifting anything caused sharp pains to pass through me. I had pain between my shoulders and running down my spine, which unlit me for my work. I could not sleep well nights, and was tired all the time, especially first thing in the morning. I read about Doan's Kidney Pills curing others of this trouble and I got them and after taking them I felt all right. They are the only thing which ever did me a permanent good."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

Funeral of Wesley Pegg. Wesley N. Pegg, whose death occurred on Friday, was consigned to the grave in Mt. Vernon cemetery Monday at noon. The interment was private.

The funeral services were conducted at the family residence, by Rev. R. J. Allen. Several selections of music were rendered by the choir of St. Peter's M. E. church. The pall bearers were: Joseph Campbell, B. F. Landman, Peter Burger, and C. H. Ammerman.

Among those who attended the funeral were the following from a distance: William Pegg of Hazleton; Milton Pegg of Conyngham; Mr. and Mrs. William Pegg and little daughter, of Rock Glen; Mr. and Mrs. J. J. Longenberger and Mr. and Mrs. Haupt of Crossy; Joseph and Addison Cherry of Union Corner; Alvin Whitlock, Mrs. William Nace, Mrs. Charles Heninger, Mrs. Samuel Ruthroff, Mrs. Oliver Roun, and Mrs. Garrett Moore of Sunbury.

Cured of Piles After 40 Years. Mr. C. Henry, of Geneva, O., had the piles for 40 years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. Sold by Gosh & Co., Paulus & Co.

FOOT BALL, NOV. 14. Another Big Day in Williamsport.

A great foot ball event will be witnessed in Williamsport on Saturday, November 14, 1903, when State College and Dickinson College will line up for another battle on the Summary Field. Assurances have been given that this will be one of the liveliest games ever played between any other team and the State College. Both teams will be at their best and those who witness the struggle between them will be well entertained. The usual excursion rates of one fare for round trip have been granted on the various railroads for a distance of one hundred miles. All aboard for Williamsport November 14.

Panama Declares its Independence. PANAMA, Nov. 4.—The independence of the isthmus was proclaimed at 6 o'clock last evening. A large and enthusiastic crowd of all political parties assembled and marched to the headquarters of the government troops, where Generals Tovar and Amaya, who arrived in the morning, were imprisoned in the name of the republic of Panama. Enthusiasm was immense and at least 3,000 men in the gathering were armed. The battalion of Colombian troops at Panama favors the movement. It is thought to meet with the approval of at least two of the government transports now here.

Washington, Nov. 4.—The following cablegram was received at the state department at 10 o'clock last night from the United States consul at Panama: "An uprising took place at Panama tonight. Independence was proclaimed. The Colombian army and navy officers were made prisoners. A government was to be organized, consisting of three consuls and a cabinet. It was rumored at Panama that a similar uprising was to take place at Colon."

NEW LAW HARD ON DEALERS

Tobacco dealers in this county who have not heeded the warnings given by the Internal Revenue Collector in the last month may look for trouble after today, if they sell chewing tobacco in the manner in which it has been offered for several years.

Under a special order issued by the Internal Revenue Department plug tobacco must be sold from the original box in which it has been packed. The customer who seeks to purchase a five cent cut of plug may not walk into a store and find the small section of plug already cut and enclosed in a paper bag. The dealer is supposed to keep the butt containing from twenty to thirty pounds of plug within reach, and he must cut the pieces for the customer from one of the long plugs. To meet the demands of his trade the small dealer will be compelled to carry in stock \$200 or \$300 worth of plug tobacco. Heretofore he has been able to buy a single plug of each kind.

Lunatic Fought Hard. While attempting to bring Charles Rote to the Danville hospital for the insane, Overseers of the Poor of Madison township, Columbia county, Charles Kramer and David Shultz, were forced to put hand-cuffs on him and then only succeeded in subduing him after he had struck Kramer three times, the last blow almost rendering him unconscious. Rote, who is about 35 years of age, has for years been wandering both in his mind and his habits, and during the last few weeks he has been growing worse. A peculiarity of his was that no matter where he worked for the day—and no one could induce him to work longer than that length of time—he would always walk to the barn of Philip Young, where he would sleep, the fact that he was six or seven miles away from the barn making no difference. If this person for whom he was working would prevail upon him to sleep there that night he would invariably get up during the night and make his way back to the Young farm.

A Scientific Discovery. Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juice of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by Gosh & Co., Paulus & Co.

At the Y. M. C. A. Gymnasium. The schedule at the Y. M. C. A. gymnasium so far as it relates to the evening classes has undergone some change. A ladies' class has been started, which promises to yield very beneficial results. If gymnastics are valuable to men they are equally so to the female sex. Among the benefits to be obtained in addition to an improvement in general health, is better physique and more graceful and easy carriage.

The world is full of the pale victims of deformity and disease. Gymnastics properly applied is recognized as a remedy which will correct and prevent the most of these evil conditions. The classes are growing; the men's class especially bids fair to become very popular.

Hereafter the evening classes which previously met at 8:15 will receive instruction on Mondays and Thursdays. The new class to be formed of men will meet on Tuesdays and Fridays at 8:15.

A Runaway Bicycle. Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for Burns, Scalds, Skin Eruptions and Piles. 25c. at Paulus & Co.'s Drug Store.

State Camp Site. The commission appointed to select a camp site for the National Guard of this State for the purchase of which the last Legislature appropriated funds, and which is composed of Adjutant General, State Treasurer, Auditor General, Major General commanding the Division, and three Brigadier Generals, visited Gettysburg on Wednesday and viewed several tracts of land that have been offered to the State for purchase. The piece of ground visited is not as conveniently located as that occupied at the encampment two years ago. It lies back in the neighborhood of the scene of the first day's fight, beyond the ground occupied by the cavalry camp two years ago. The commission has several other properties to view before any decision is made.

Doesn't Respect Old Age. It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect Pill. 25c. at Paulus & Co.'s Drug Store.

Progressive Luncheon. Misses Hazel Hartman, Helen Ireland, Elsie Sainsbury, Frances Wiltner and Josephine Chantart gave a progressive luncheon Saturday night. The first course was served at the home of Miss Hartman, while the supper wound up at the Chantart home. The decorations, which were appropriate to Hallow'en, consisted of Autumn leaves, pumpkins, etc., and were very effective. The invited guests were George Maters, Howard Luther, George Clark, Jay Brader and Arthur Heddens.

Look out for "Northern Lights" and meteoric showers, as astronomers tell us we are likely to have fine exhibitions most any evening within the next ten days.

FIRST REUNION OF THE TWELFTH

Thursday was the fifth anniversary of the muster out of the Twelfth regiment Pennsylvania Volunteer infantry from the service of the United States and it was the occasion of the first reunion of the regiment in Williamsport and the forming of a permanent organization.

At 2 o'clock in the afternoon the members began assembling at Reno Post Hall and for an hour renewed old acquaintances and friendships. There were present delegations from Lock Haven, Milton, Lewisburg, Danville, Sunbury, Williamsport, and many other points within the territory of the regiment. When 3 o'clock arrived over one hundred of the members of the regiment had assembled and Major William C. King took the chair and called the meeting to order. Bert G. Cornwall of Sunbury was elected temporary secretary.

Major King then introduced Mayor Laetlin who welcomed the organization to the city in a most interesting and eloquent address.

Colonel James B. Coryell who commanded the regiment was then introduced and responded to the address of welcome.

In his remarks he thanked the Mayor for his kind words of welcome and expressed his satisfaction at the large number of those who had assembled to make the first reunion of the regiment a success. He spoke of the organization of the Twelfth Regiment, N. G. P., in 1874 under Colonel Alfred H. Stead and briefly sketched in history and its services to the state during the riots of 1877, the riots at Homestead and the riots at Hazleton.

He spoke of the prompt and full response of the companies in 1898 when ordered to Mt. Gretna preparatory to muster into the United States service. He dwelt upon the large percentage of the membership of the regiment which volunteered for service in the war with Spain and paid a deserved tribute to those who volunteered and were not accepted by the United States authorities and those whose homes they were such that it was impossible for them to accompany their comrades when they passed from the control of the state.

Following the address of welcome and response it was decided to form a permanent organization under the name of "The Twelfth Regiment Pennsylvania Volunteers Association of Spanish American War," and a constitution was submitted and accepted.

A permanent organization was formed by the election of the following: President, Colonel James B. Coryell of Philadelphia; Vice Presidents, Major William H. Straub, of Milton, and Major Charles P. Gearhart of Danville; Secretary, Sergeant M. H. Taggart, Sunbury; Treasurer, Lieutenant O. E. Niehols, of Williamsport.

The delegation from Company C, Milton, presented an invitation to the regiment to hold its next reunion at Milton. It was accepted by an unanimous vote and October 29, 1904 was the date fixed.

The members of the regiment to the number of about two hundred assembled at Reno Post Hall at 7:30 in the evening, and headed by the Repax Twelfth regiment band paraded through some of the principal streets of the city making a very creditable display.

At the conclusion of the parade the members returned to the hall, where Colonel Coryell called them to order and organized a camp fire.

During the session of the camp fire brief speeches were made by Colonel Clement, Major King, Major Straub, Major Gearhart, Adjutant Straub, Captain Follmer, Captain Taylor, Captain Cannon, Captain Updegraff, Captain Heddocker, Quartermaster Nichols and Lieutenant Paul.

Ignorance is the Mother of Mistakes, blunders and blunders—the most expensive thing in this foolish world. There are millions of poor persons who might have been rich but for their blunders, and hundreds in their graves who might have been alive had they used Dr. David Kennedy's new medicine, Cal-cura Solvent, when they were first taken sick. Write to the Cal-cura Company, Rondout, N. Y., for a book and free sample bottle.

Blinded by a Grain of Shot. Charles Marr of West Berwick, son of Jacob Marr, Valley township, was the victim of one of the first gunning accidents hereabouts. He will go through life blind in one eye as the result.

The accident occurred on the Marr farm near Kasoville. Charles Marr and Frank Meiss, the latter also of West Berwick, were hunting together. They were making their way through some deep brush where game seemed to be plentiful. Not seeing Marr Meiss shot at some birds, one of the shot lodging in Marr's right eye ball and another in his right cheek.

The victim of the accident was driven to Bloomsburg, where the injuries were treated by Dr. J. J. Brown, the eye specialist. The sight of the eye was found to be totally destroyed.

Disastrous Wrecks. Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs, and Colds, even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. "This great remedy is guaranteed for all Throat and Lung diseases by Paulus & Co., Druggists. Price 50c. and \$1.00. Trial bottles free."

Dowie's crowd has left New York and returned to Zion City. Ten to be the result of his invasion of Manhattan will be shown to be that New Yorkers have more deeply moved the Zionists than the Zionists have moved New Yorkers.

DAY OF THANKS AND REJOICING

The President has issued his annual Thanksgiving proclamation in the following terms:

By the President of the United States of America. The season is at hand when, according to the custom of our people, it falls upon the President to appoint a day of praise and thanksgiving to God.

During the last year, the Lord has dealt bountifully with us, giving us peace at home and abroad and the chance for our citizens to work for their welfare unhindered by war, famine, or plague. It behooves us not only to rejoice greatly because of what has been given us, but to accept it with a solemn sense of responsibility, realizing that under Heaven it rests with us, ourselves, to show that we are worthy to use aright what has thus been entrusted to our care.

In no other place and at no other time has the experiment of government of the people, for the people, been tried on so vast a scale as here in our own country in the opening years of the twentieth century. Failure would not only be a dreadful thing for us, but a dreadful thing for all mankind, because it would mean loss of hope for all who believe in the power and the righteousness of liberty.

Therefore, in thanking God for the mercies extended to us in the past we beseech Him that He may not withhold them in the future, and that our hearts may be roused to war steadfastly for good and against all the forces of evil, public and private. We pray for strength and light, so that in the coming years we may with cleanliness, fearlessness and wisdom, do our allotted work on earth in such manner as to show that we are not altogether unworthy of the blessings we have received.

Now, therefore, I, Theodore Roosevelt, President of the United States, do hereby designate as a day of general thanksgiving, Thursday, the twenty-sixth of the coming November, and do recommend that throughout the land people cease from their wonted occupations, and in their several homes and places of worship render thanks unto Almighty God for His manifold mercies.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the City of Washington, this thirty-first day of October, in the year of Our Lord, one thousand, nine hundred and three, and of the independence of the United States the one hundred and twenty-eighth.

THEODORE ROOSEVELT. By the President. John Hay, Secretary of State.

A Remarkable Case. One of the most remarkable cures of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Palmer, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Gosh & Co., Paulus & Co.

After Two Thieves. Pinkerton detectives are scouring this vicinity of the country for two thieves they have followed as far east as Pittsburg and whom it is believed are crossing the State in order to reach New York and escape from the country with their plunder. The latter consists of a refined gold bar 12x13x, which is worth just \$25,000. The officers of the law in all the cities and towns in the country are also trying to locate the thieves and they are spurred on by a reward of \$5,000, which has been offered by the Pacific Express Company.

The bar was stolen from the express car at the Union depot in Detroit, and was being shipped to the National City Bank, at New York, by the Consolidated Mercantile Gold Mining Company, of Mercer, Utah. All bankers and jewelers have been notified to be on the lookout for portions of the gold, which is of a very fine grade.

**Dark Hair**

"I have used Ayer's Hair Vigor for a great many years, and although I am past eight years of age, yet I have not a gray hair in my head."  
Geo. Yellott, Towson, Md.

We mean all that rich, dark color your hair used to have. If it's gray now, no matter; for Ayer's Hair Vigor always restores color to gray hair. Sometimes it makes the hair grow very heavy and long; and it stops falling of the hair, too.
