Contending that the Act of 1903 re school directors into associations is unconstitutional, Controller George McLean of Luzerne county has refuspense connected with last week's convention of School Directors at Wilkesbarre. In all likelihood the question of the law's constitutionality will be threshed out in court, as it affects every county in the State. Luzerne's controller is the first to move in the matter and the outcome will be watched with interest throughout the common

Mr. McLean declares that the law is defective principally in that the counties have not been informed in the tirle of an additional obligation being imposed upon them. This, the control ler holds is enough to reject the law as unconstitutional. According to the act each director was to receive \$1 for attending the convention and together with the incidental expenses, the drain the loss sustained by the families who passed. on the county would be quite large. Following are three sections of the act passed to establish these associa-

tions: "That it shall be the duty of each and all of them greatly damaged. county superintendent of schools to call together, during the school year nineteen hundred and three, and an for the consideration and discussion ministration. These annual meetings the annual county teachers institute.

Here is the section, which provides for the expense but which in the opin ion of the controller, fails to inform counties of the additional obligation

"To defray the necessary expense of these meetings, the county treasurer of each county shall pay to the treasurer of the Directors association from the county funds, one dollar fo each director attending the aunual meeting but in no case shall the sun paid exceed one hundred dollars for each meeting.
