Less liquor was sold in Luzerne ounty last Sunday than on any previous Sunday for the last five years according to a statement made by the representatives of the Anti-Saloon League.

The dryness of the county was due to the action of the Luzerne county court in refusing licenses to places where liquor was to be had on Sun days and its implied warning that icenses will be revoked immediately in cases where it is shown that the law is being violated.

The Anti-Saloon League is jubilant over its victory, but not too sanguine of the continuance of the tightness in

the Sanday saloon business. Detectives have been engaged and they will circulate in every part of the county for the purpose of securing evidence. The plan of campaign this year is to make arrests immedi ately after evidence is secured and ask the court for the revocation of the licenses of the offending dealers.
