FRANK C. ANGLE, Proprietor. Danville, Pa., June 9, 1904.

REPUBLICAN STATE TICKET

For Supreme Court Justice, JOHN P. ELKIN, of Indiana county.

#### LEADERS TALKED THE CASE OVER

HARRISBURG, Pa., June 8.-The question as to whether the senatorial vacancy created by the death of Senator Quay shall be filled by appoint ment or by an extra session of the legislature is still undetermined.

The whole subject was gone over between Governor Pennypacker, Insurance Commissioner Durham and Senator Penrose at a conference last night at the executive mansion. The governor's visitors said this morning be fore returning to Philadelphia that ne conclusion was reached and no formal action would be taken for several

While in Harrisburg Messrs. Penros and Durham also conferred with other state officials and members of the Re publican state committee and county party leaders in this locality. The opinion prevails here that the Governor will not call an extra session of the Legislature if he is convinced the vacancy can be filled by appointment.

The party leaders do not want an extra session if it can be avoided and hope the governor can see his way clear to make an appointment. It is believed here that there would have been no doubt of the election of George T. Oliver, of Pittsburg, if he had consented to accept and that the Senator will come from Allegheny county.

#### SHOT HIS WIFE THEN HIMSELF

Great excitement was caused at Shamokin, Tuesday evening when Harry T. Wolf shot his wife on the street at that place and then turning the revolver on himself sent a bullet into his heart dying almost instantly. Mrs. Wolf was shot in the side and was taken to the Mary M. Packer hospital at Sunbury. It is believed that she will recover.

Wolf's father is a shoe merchant at Lewisburg and although claiming that place as his home he has only been there at intervals during the past ten years. Mrs. Wolf's parents reside in Dauphin county. Shortly after Wolf and his wife were married they could not agree and as a result there was trouble between them almost constantly. Last December while visiting at Shamokin, Mrs. Wolf had her husband arrested charging him with assault and battery and when she appeared at the Justice's office she presented a sorry appearance her face being badly braised where her husband had struck her. When brought before the Justice for a hearing Wolf was sentenced to serve thirty days in the Northumberland county prison. Following this trouble and when Wolf was brought to Sunbury to serve his sentence Mrs. Wolf decided that she could not live with him any longer and she accordcured employment. After serving his sentence, when released Wolf learned where his wife had gone and he followed her. When he met her at Altoona he created such a scene that the police were summoned but through the pleadings of his wife he was not

placed under arrest. About two weeks ago Mrs. Wolf again left him and came to Shamokin to visit her sister-in-law, Mrs. Lewis Camphell and later Wolf followed her. More trouble occurred between them and Wolf had his wife arrested last Thursday, charging her with assault and battery. The hearing was fixed for Tuesday evening and then Wolf went back to Altoona. He returned to Shamokin. Tuesday and was present at the hearing before Justice of the Peace Lloyd. After hearing Lloyd dismissed the case against Mrs. Wolf and then she wanted to arrest her husband charging him with desertion, non support and assault and battery. The Justice prevailed upon her not to do so, as did also her siser-in-law. Mrs. Campbell who was with her at the time. Wolf became angry at the decision of the Justice Lloyd and when he left the office he exclaimed with an oath "I'll have justice through some one and she will never come down these steps alive again." Mrs. Wolf and Mrs. Campbell left the office together and met Wolf who was waiting for them a short distance away. As soon as she came up with him and before any words passed between the two Wolf drew a thirty-eight calibre revolver from his pocket and pointing it directly at his wife shot her in the left side near the back. Justice Lloyd hearing the shot fired rushed to the scene of the shooting. Before the Justice could reach him Wolf turned the revolver upon himself and fired, the bullet penetrating the lower portion of his heart causing almost instant death. Mrs. Wolf after being shot fell into the arms of her sister-in-law and was taken to Shissler's drug store where a physician was summoned Realizing that her condition was serions arrangements were made and Mr Wolf was taken to the hospital at Sunbury on the 9:14 Reading passenger train. Wolf's body was taken to an undertakers establishment to be prepared for burial and was taken to

Small Boy Breaks His Arm.

home of his parents.

Lewisburg Wednesday morning to the

Francis Hartman, Jr., of Welsh Hill yesterday afternoon sustained a very had fracture of his right arm. The little fellow was playing about the yard with another boy while his father was occupied with sodding the lawn.

He had been carrying sod for his father but stopped for a moment and began to tossle with his companion. While playing he was thrown violently, striking the ground with his elbow in such a way as to cause a T-shaped fracture of the humerus involving the elbow joint

Dr. Paules was called, who set the broken bone.

## LEARN THE LAW BEFORE YOU FISH

On Wednesday next-Jule 15-th bass fishing season will open. This eason formerly opened on May 30, but under the new law it was made two weeks later. Fishermen and prospec tive fishermen, should familiarize themselves with the provisions of th new game law. The fact that the sun fish family, under the new statute, are protected, was first remembered when, the other day, two Lewisburg gentle men were arrested and fined for tak ing "sunnies" before the season open ed-June 15. There is no specified prohibited size relative to sunfish, but

they are protected as to season. No rock bass under five inches i length must be taken, the law requiring that all under this size to b thrown back immediately. The rock bass to the uninitiated does not look unlike a sunfish in shape; they school much as do "sunnies," in eddies and about rock bottomed pools, so that the river angler needs look sharp else he keeps the prohibited five-inch rock bass for the somewhat scorned "sun-

Black bass to be keepable, must meaure seven inches. The indications are that bass fishing will be good this seaon, especially in the large creeks, into which the ravenous carp have not swarmed. As a whole trout fishing has been unfavorable this season, and the local angler is expecting to make up for lost time when it comes to bass

Twenty-Ninth Triennial Conclave Knights Templar.

The Knights Templar who will attend the Triennial Conclave in San Francisco next September, and all those who will accompany them on that pilgrimage, may look for the most cordial reception and the most lavish entertainment ever offered by any community to a gathering of this kind. The Californians-all the Californians-have been studying, planning and preparing for the coming event for the past three years, and their plans are of such stupendous and gigantic nature, as to eclipse any entertainment ever attempted by a fraternity, or even a whole community. San Francisco is peculiarly adapted for a great demonstration, parade, drill, or any out-of-door exercises or gatherings, because the weather may be relied upon for fully eight months in the year. Even on the way and before reaching San Francisco, the pilgrims will be met at the depots where the trains stop, and given an ovation. Committees will meet each incoming train on approaching the city by the Golden Gate, and accompany the travelers to their destination. The escort on arrival at the depot, by mount ed and unmounted details of Sir Knights in uniform, with unfurled banners and bands of music, will be quite a feature. The city will be ablaze with lights that will make night brighter than midday. The decorations will surpass those of any city on the continent in attractive ness. The Grand Commandery of Cali fornia will entertain at the Palace Hotel, and California Commandery No. 1, together with other Comman-

in the Mechanics' Pavilion, a structure that will accommodate 15,000 people. An exhibit of California's wealth, from valley and hills, mines and orchards, vineyards, forest and field, will be installed beneath the same roof. The entertainment will include the Bay of San Francisco, to all the points of interest, and outside the heads as far as the Farallone Islands, steaming around the Seal Rocks, the harbor fortifications, United States Arsenal, Naval Training School, the great shipbuilding plants and famous iron works; trolley rides to Golden Gate Park, with its hundreds of acres in flowers at all seasons, its great conservatory, aviary, zoo, lake and the museum containing the rarest treasures on the American continent; the Sutro Baths, the largest under a glass roof anywhere; the Cliff House, built the open beach of the Pacific Ocean. All these are free to all visitors. Chi Empire, right in the heart of an American city: the offices pressrooms and editorial department of the only Chinese newspaper published outside of China: nightly performances of a troop of Celestial actors and a Chinese orchestra, and one thousand and one other novel sights, startling to the visitor, but common to California. The famed natural wonders of California, surpassing in grandeur the great sights of the rest of the globe, can be reached within one day's journot entirely free, the expense is with in the means of almost everybody who comes to California. Living is cheap er in California than anywhere else on earth, and it is much better for the
