**OLD TIMERS AT SHAMOKIN**

The management of the Shamokin Base Ball Team is negotiating with the Old Timers of this city for two games on July 4th. Shamokin wants a good drawing card for that day and the fact that it is considering the Old Timers indicates the high esteem in which the Danville veterans are held in neighboring towns and can be viewed in no other light than a compliment.

The Old Timers had been selected as an attraction for the opening of the Park at Shamokin on Friday, June 21st. On Saturday, June 25th Watson town was scheduled. It was discovered, however, that there was a conflict of dates and that Watson town had a game at home on that day. In order to straighten out matters the Old Timers yielded the opening date to Watson town and will play at Shamokin on the 25th.

Shamokin and Danville are old time base ball rivals and a real hot game is expected when the two teams cross bats on the 25th. Shamokin seemed to have a shade the best of it with Danville during last season, but whether that team will be able to hold its prestige in face of the fight that the Old Timers will put up is an element of doubt which is going to make the next game real interesting.

A decision has not yet been reached in regard to the games for July 4th, but if the Old Timers journey to Shamokin, as previously on holidays they will no doubt take a big delegation of Danville people along with them.

Tenfel of the Backnell team will captain the Shamokin team. He is one of the best players in this section of the State and possesses the advantage of being a fine fellow socially. He is well known in Danville.

**WILKESBARRE'S RIVAL TO MARCONI**

Wilkesbarre people can boast of having as a resident of the city a greater inventor than Marconi. The man is Rev. Joseph Murgas, pastor of the Slovak Catholic church, of North Wilkesbarre, a graduate of the best universities of Europe, a member of the Society Electro-technique of Vienna, and recognized throughout the world as one of the greatest and most successful students of the mysterious electricity.

Farther Murgas began several years ago to perfect a wireless telegraph system, although he had been studying electricity for many years before. He labored day and night and so hard did he study that at one time he almost lost his health. He met with many reverses like most inventors, but he was persevering and finally he achieved results.

It was three years ago that he first succeeded in getting a system of wireless telegraphy perfected, but it was not until recently that he secured his patents, which now number four. So much different is his system from any other that he had no trouble whatever in getting the patent officials to grant him his rights as a patentee. It is now in every way and all the other wireless telegraph men acknowledge that his system is the latest and most improved of any.

He has constructed a temporary apparatus for making a test of his system and messages were sent from his home to different points. The test proved successful in every way and messages can be sent with more speed and accuracy than by any other system. Persons familiar with other systems have witnessed experiments with the new system which Father Murgas has perfected and all of them have pronounced it the best of any they have ever tested.

Father Murgas has received flattering offers from large companies to sell his patent in order that it may be placed on another system and does not care to sell his rights for a while, at least. He is working hard on his other system and when he has completed it, he will then place the patents on the market. Since he began his experiments Father Murgas has spent several thousand dollars and expects to spend much more before he has achieved the desired results.

**MUST HOLD SPECIAL ELECTION**

Our Borough Fathers have become convinced that it will be necessary to hold a special election before they can proceed with all the municipal improvements contemplated.

This election will probably be held within thirty days. It must be advertised for a period of four weeks.

Our Councilmen declare they entertain no fears as to the result of the election. It is a demonstrated fact, they say, that the Borough can manufacture its own electricity, light its streets more effectively and accomplish a saving thereby and notwithstanding the apparent first cost, they believe the people are with them and that when the proposition is left to a vote the expression will be much the same as when the former election was held.

The proposed election revives interest in the result of the one formerly held for the same purpose. That election was held on Tuesday, April 25th, 1898. The people were in favor of municipal light and they expressed themselves in no uncertain tones. Although a light vote was polled each of the four wards gave a majority in favor of the measure. A total of four hundred and fifty votes were cast in every way and all the other wireless telegraph men acknowledge that his system is the latest and most improved of any.

He has constructed a temporary apparatus for making a test of his system and messages were sent from his home to different points. The test proved successful in every way and messages can be sent with more speed and accuracy than by any other system. Persons familiar with other systems have witnessed experiments with the new system which Father Murgas has perfected and all of them have pronounced it the best of any they have ever tested.

**FERRY'S NEW EQUIPMENT**

The new trolleys along with a new carrier were installed at the ferry Saturday to take the place of the similar appliance which broke down and was temporarily repaired just one week before. The wheels, larger than the old, cover fifty-four inches at every revolution. The wooden frame, which supports them is five feet long and heavy in proportion. Not only do the new trolleys add to the strength and durability of the ferry but they perceptibly accelerate the motion of the boat.

The appliance was installed on the high cable Saturday forenoon and required the united efforts of several men. In order to interfere with traffic as little as possible it was placed in position and everything gotten in readiness for connecting it with the boat before the ferry was stopped.

To add still further to the security of things a large portion of the hemp rope which pulls the ferry was substituted with iron pulleys on the boat are very hard on hemp rope especially during wet weather; the one in use was perceptibly worn and it was a question whether it would prove equal to the strain much longer. The cable now covers the windlass, passes through each of the iron pulleys on the flat and extends up toward the trolley cable for about thirty-five feet.

It was the insertion of this cable that added so much to the tediousness and the difficulty of connecting the ferry with the trolley frame. The whole job was very satisfactorily accomplished, however, with the loss of only an hour and a half.

The ferry now is splendidly equipped, perfectly safe in every respect. The carrier is furnished with three automatic rollers, one for each wheel and the other to hold the cable. With the new trolleys in use the ferry Saturday made the trip from shore to shore in less than five minutes' time.

**PURCHASED A NAPHTHA LAUNCH**

George Hullihen, who belongs to the crew at the Water Works, has purchased a naphtha launch of William Rhawn of Catawissa. It is a graceful little craft and a perfect flyer. With Mr. Hullihen's little boat in commission Danville can again boast of four naphtha launches.

The river presents a fine field for boating this summer. At no time has the stream fallen to a point that would make it difficult to navigate the launches. Up to the present there has been no indication of drought and it seems likely that this season may be much like last summer and that the river will not fall much below its present mark.

Mr. Hullihen of course will use his launch in transporting people backwards and forwards over the river, but he expects to find a much wider field for it in taking out pleasure parties. A cruise up or down the river just at this season proves most delightful and no doubt if the rates were fixed reasonable enough long trips of this sort would become very popular. Such is the view that Mr. Hullihen takes and he will bid for that kind of business.

Paules & Co. Gosh & Co. ask the readers of this paper to test the value of Kodol Dyspepsia Cure. Those persons who have used it and who have been cured by it, do not hesitate to recommend it to their friends. Kodol digests what you eat, cures indigestion, dyspepsia and all stomach troubles. Increases strength by enabling the stomach and digestive organs to contribute to the blood all of the nutriment contained in the food. Kodol Dyspepsia Cure is pleasant and palatable.

**THIRTEEN BODIES IN THE RIVER**

The spring harvest of death in the north branch of the Susquehanna river is larger this year than ever before, no less than thirteen bodies being recovered in the last five weeks. Of these four were unidentified, and it has never been learned whether they were drowned accidentally, committed suicide, or were murdered.

The indications are that two of the men were murdered, but, despite the efforts of the police, no clue was ever obtained. Of the remaining nine, seven were believed to be accidental and two suicides; but there was never any means of definitely finding the cause in most of these cases.

The list of unfortunates is as follows:

May 2, Ludwig Assmus, of Wilkesbarre, found at Sunbury; believed to be a suicide.

May 7, Matthias Hellauer, of Wilkesbarre, found near Millville; accidentally drowned.

May 10, unknown man, found near Bloomsburg.

May 18, unknown man found near Millville.

May 19, Patrick Ruane, of Pittston, found near Wyoming, and believed to be a case of accidental drowning.

May 20, J. E. Bolig, of Sunbury, found near Hazleton; fell from bridge.

May 21, Frank Ulewicz, of Edwardsville, found near Nanticoke; accidentally drowned.

May 23, Michael Corcoran, of Scranton, found near Wilkesbarre; believed to be a suicide.

May 24, unknown man found near Nanticoke.

May 30, David Adams, of Pittston, found near Pittston; accidental death.

June 1, Peter Cephas, of Plymouth, found near Plymouth; knocked from bridge by train.

June 6, W. J. Szale, of West Pittston, found near West Pittston, fell from bridge.

**OFFICER KILLED BY LIGHTNING**

Our citizens Tuesday morning were shocked and pained beyond measure to learn of the tragic death of Lieutenant Nathaniel E. Bower, which occurred at Fort Leavenworth, Kan., Monday afternoon.

Lieutenant Bower was struck by lightning. As second Lieutenant of the Engineer Corps he was on the firing line with his men and was watching the targets through field glasses when the lightning struck out of almost a clear sky.

The Lieutenant was holding the rifle under his right arm. The bolt of lightning ran down the rifle barrel entering the right side of the chest and passing out of the soles of the officer's shoes, a wide red scar showing the path of the current. Lieutenant Hannum, who was with the unfortunate officer sustained a slight shock.

Lieutenant Bower is a son of Mr. and Mrs. Ephraim Bower of Moersburg, this county, where the unfortunate young officer was born and spent his boyhood. He graduated from the Danville High school in 1896. From his earliest childhood he was distinguished by the most studious and exemplary habits. At the local high school he graduated at the head of his class and carried off a prize.

He taught school one year, after which he won an appointment to West Point in a competitive examination, which took in applicants from every part of the Congressional District. He graduated from West Point in 1901 carrying off the honors of his class. Since then he has been stationed in the West.

Less than two years ago he perfected a very useful invention in the form of an arm rest for an army saddle, which is designed to assist an officer in making a sketch of contour while on horseback. The invention is protected by patent and has been adopted by the government. The young officer based great expectations upon this invention, which was already beginning to yield a revenue.

Lieutenant Bower visited his parents here only a few months ago and while in Danville was interviewed by a representative of the Morning News. He was then very hopeful as to the future and gave a fine account of what was being done by the government in different parts of the West to advance the interest of the army, all of which was printed in these columns at the time.

Lieutenant Bower was 25 years of age. In addition to his father and mother, he is survived by the following brothers and sisters: Rev. Samuel E. Bower, a Presbyterian minister; George, a telegraph operator employed at Moersburg and Thomas and Ernest, who live at home; Annie, (Mrs. William S. Morrison) of this city; Jennie, wife of Dr. Beach, Montoursville; Mary, a nurse at the Hospital for the Insane; Bessie, a school teacher of Liberty township; and Alice, who lives at the parental home. The deceased officer is a first cousin of Prothonotary Thomas G. Vincent.

A touching circumstance related in connection with the sad taking off of the young officer is that he was soon to be married and that the young lady—Miss Nickerson of San Francisco—was at the military post at the time of his death, visiting her sister, Mrs. Captain DeHayne.

**YES OR NO?**

Danville People Are Respectfully Asked to Answer These Questions.

Is there anything in the evidence of one's senses?

Is there anything in the testimony of one's friends?

Can you believe what is placed upon statements from people we know?

Are the opinions of local citizens of any greater moment than those of utter strangers?

Would you sooner believe people living in some far away place than citizens of your own city?

Do you think men for home proof can easily be investigated?

Mrs. H. Millard, of 122 East Front street, says: "I was detected for Bright's disease, but could not get permanent relief. Owing to rheumatism I was not able to walk without a cane, and, in addition to this, I was very much bothered with pain across my loins and an embarrassing weakness of the kidneys. I took almost everything I could hear about without obtaining success. Dean's Kidney Pills did me more good than any other remedy I ever used. They positively relieved the aching in my back and the annoyance from the kidney secretions. They gave me relief not afforded by any other medicine."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

**A Strong Digestion**

Is assured by perfect digestion. Indigestion swells the stomach and puts it up against the heart. This causes shortness of breath, palpitation of the heart and general weakness. Kodol Dyspepsia Cure cures indigestion, relieves the stomach, takes the strain off the heart and restores it to a full performance of its functions naturally. Kodol increases the strength by enabling the stomach and digestive organs to digest, assimilate and appropriate to the blood and tissues all of the food nutriment. Tones the stomach and digestive organs. Sold by Paules & Co., J. D. Gosh & Co.

**Desires to Buy Mulberry Leaves.**

To F. Q. Hartman probably belongs the credit of raising the first crop of raw silk in the shape of cocoons ever produced in Danville. At the present time three thousand silk worms in process of development form an interesting adjunct to his silk mill on Water street. The worms are approaching the most interesting stage of their existence when they will begin the spinning of silk in the construction of their cocoons before changing into a pupa. They are at present very busy little fellows and they present a sight, especially at feeding time, which is well worth seeing.

At the close of the season last year Mr. Hartman secured from the moths about four thousand eggs. These were kept in cold storage until spring when hatching took place. The raising of raw silk, however, is not carried on by Mr. Hartman for the sake of financial gain and is not to be viewed from a commercial standpoint. He has embarked in the venture purely in the interest of science and is conducting his experiments as an object lesson. No one is more interested than Mr. Hartman's little son, who feeds the silk worms, and thus receives his first training in the silk business.

As is well known silk worms feed on mulberry leaves and it is in the matter of food for the insects that Mr. Hartman finds himself in an unfortunate predicament. He planted a number of mulberry trees along the river bank a year or so ago, which he relied upon to furnish food for his silk worms. Unfortunately when the ice goro broke last winter a number of the trees were destroyed, so that now he finds himself short of mulberry leaves.

Mr. Hartman desires to purchase leaves of the mulberry tree and he will be very glad to hear from any one who might have leaves to sell. He is anxious that no time be lost and asks that such persons communicate with him at once.

**For a Hundred Years.**

For a hundred years or more Witch Hazel has been recognized as a superior remedy, but it remained for E. C. DeWitt & Co., of Chicago, to discover how to combine the virtues of Witch Hazel with other antiseptics, in the form of a salve. DeWitt's Witch Hazel Salve is the best salve in the world for sores, cuts, burns, bruises and piles. The high standing of this salve has given rise to counterfeits, and the public is advised to look for the name "DeWitt" on the package, and take no other. Sold by Paules & Co., J. D. Gosh & Co.

**Prohibition Alliance Officials.**

The Danville Prohibition Alliance at a meeting on the 10th inst. completed organization for the current half-year. The following are the officials: President, G. J. Cunningham; Vice President, O. R. Schilling; Secretary, J. M. Kelsch; Treasurer, W. H. Manger; Marshal, R. W. Egger and Chairman, Charles Richard. Committee on Program, the president, vice president and secretary. Committee on Membership, R. W. Egger, E. L. Rank, C. Uttermiller, A. G. Pover. Social Committee, Rev. E. B. Dunn, W. H. Manger, O. R. Schilling. Committee on Finance, E. P. Johnson, T. C. Curry, James R. Huntington.

**Driven to Desperation.**

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in Burns, Cuts, Wounds, Ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c at Paules & Co's Drug Store.

**Remodeling Dwelling.**

The dwelling at the corner of Ferry and Center streets, owned by Mrs. Sarah Crutshank, is being remodelled. The house is being raised in addition to which a two story addition is being built. The excavation for the new part is completed.

**Desecration of the Sabbath.**

The riot and conflagration in St. Louis Sunday, because a bull fight was not permitted is a logical outcome of the Sunday amusement sentiment, observes the Williamsport Evening News. If Sunday baseball is permitted the next step will be Sunday horse races and Sunday bull fights, the full continental Sabbath of Sunday political meetings, Sunday elections and a general go-as-you-please on Sunday for everything. The best part of this country, including all the great and prosperous eastern, western and northern states, were built upon the Puritan Sunday for a corner stone. For many reasons besides religious considerations it will be better to remain upon it. Nine people of every ten need and desire one day of seven as a day of rest and quiet. It is manifestly unnecessary to appropriate Sunday for a day of sports and for the transaction of private or public business. The desire of three-fourths or nine-tenths of the people for a quiet Sunday should be respected.

**Eighteen Months More.**

The three young desperados of Mt. Carmel, who, in spite of their youthfulness, have run the gamut of crime, were arraigned before Judge Auten, at Sunbury, Monday, for attempting to break jail. The boys, Harry Williams, Mike Trevitts, and Frank Shumanski, it will be remembered, some weeks ago, pleaded guilty to six or seven robberies, also to having planned to murder cashier Baestros of one of the Mt. Carmel banks, and rob the institution. Judge Auten, on two accounts, sentenced each to four years at hard labor in the county jail. Soon after starting their terms, they attempted to escape. Monday morning Judge Auten tucked 18 months to each sentence for the offense.

**Funeral of Mrs. Seehler.**

Mrs. Harriet R. Seehler, widow of Abraham Seehler, who died Thursday afternoon, was consigned to the grave in Episcopal cemetery, Saturday afternoon. The services were conducted by Rev. E. J. Haughton, rector of Christ Episcopal church. The pall bearers were: George Reitsnyder, Stephen Johnson, Edward Corman and George Hullihen. Roy Seehler of Philadelphia, Mrs. Hall of Bloomsburg, and John Kinman and two sons of Hazleton were among those from out of town who attended the funeral.

**An Alarm Clock for 25c.**

If you want to get up early and I see good all day take a Little Early Riser or two at bed time. These famous little pills relax the nerves, give quiet rest and refreshing sleep, with a breakfast time, W. H. Howell, Houston, Tex., says "Early Risers are the best pill made for constipation, sick headache, biliousness, etc." Sold by Paules & Co., J. D. Gosh & Co.

**Wait for This Girl.**

A philosopher remarked: "Once I was young, but now I am old, and I never have seen a girl who would be worth a one-eyed button to her husband. It is the law of God. It is not exactly in the Bible, but it is written largely and lawfully of the lives of many night huns. If one of you chaps ever run across a girl with her face full of roses, who says to you when you come to the door: 'I cannot go for thirty minutes, for the dishes are not washed, you just wait for that girl. Sit right down on the door step and wait for her, because some other fellow will come along and carry her off, and then you lose an angel.'"

**Startling Evidence.**

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as an example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by Paules & Co., Druggists. Trial bottles free, regular sizes 50c, and \$1.00.

**Argument Court on Saturday.**

A session of Argument Court was held on Saturday last. President Judge R. R. Little and Associates Thompson and Blee were on the bench.

A petition relating to the estate of Phoebe Hilkert asking for a rule on heirs was granted as prayed for.

John Krainak, a native of Austria, who desired the rights and privileges of citizenship, took the oath of naturalization.

In the case of Eugene O'Hara and Mary L. O'Hara, an action to dissolve marriage, divorce was refused.

Court adjourned to meet on Monday the 27th inst.

**Value of Real and Personal Estate.**

In view of the public improvements contemplated the following figures will be of interest showing the borrowing capacity of the borough. The value of the real and personal estate subject to county and borough tax is as follows:

First Ward, \$57,877; Second Ward, \$28,340; Third Ward, \$32,340; Fourth Ward, \$29,115; total, \$147,672.

**First Steel Car Ever Built.**

An epoch in the history of steel car construction was marked last week when there was completed at the Berwick plant of the American Car and Foundry Company, the first steel car ever constructed. Although a number of plants have attempted to build an all steel passenger car heretofore, it was the Berwick plant that first successfully accomplished its construction.

It was Friday night that the sample car of the 300 car order for the Interborough Company of New York City was shipped from the Berwick plant.

The construction of this car has been watched with the greatest interest, not only by the local officials, but by the general manufacturing world as well. The new car is a model of beauty of design and is perfect in every detail. It is built entirely of steel, with the exception of an aluminum finish and has bamboo seats. The car is not quite so long as an ordinary passenger car, and the seats run along the sides. It is painted in several shades of red and weighs 55,000 pounds.

**Dr. King's New Life Pills.**

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by Paules & Co., Druggists.

**For a Hundred Years.**

The car is not quite so long as an ordinary passenger car, and the seats run along the sides. It is painted in several shades of red and weighs 55,000 pounds.

**Dr. King's New Life Pills.**

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by Paules & Co., Druggists.

**For a Hundred Years.**

For a hundred years or more Witch Hazel has been recognized as a superior remedy, but it remained for E. C. DeWitt & Co., of Chicago, to discover how to combine the virtues of Witch Hazel with other antiseptics, in the form of a salve. DeWitt's Witch Hazel Salve is the best salve in the world for sores, cuts, burns, bruises and piles. The high standing of this salve has given rise to counterfeits, and the public is advised to look for the name "DeWitt" on the package, and take no other. Sold by Paules & Co., J. D. Gosh & Co.

**Prohibition Alliance Officials.**

The Danville Prohibition Alliance at a meeting on the 10th inst. completed organization for the current half-year. The following are the officials: President, G. J. Cunningham; Vice President, O. R. Schilling; Secretary, J. M. Kelsch; Treasurer, W. H. Manger; Marshal, R. W. Egger and Chairman, Charles Richard. Committee on Program, the president, vice president and secretary. Committee on Membership, R. W. Egger, E. L. Rank, C. Uttermiller, A. G. Pover. Social Committee, Rev. E. B. Dunn, W. H. Manger, O. R. Schilling. Committee on Finance, E. P. Johnson, T. C. Curry, James R. Huntington.

**Startling Evidence.**

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as an example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by Paules & Co., Druggists. Trial bottles free, regular sizes 50c, and \$1.00.

**THE MORNING NEWS**

No. 11 E. Mahoning St. DANVILLE, PA.

**Ayer's Hair Vigor**

To be sure, you are growing old. But why let everybody see it, in your gray hair? Keep your hair dark and rich and postpone age. If you will only use Ayer's Hair Vigor, your gray hair will soon have all the deep, rich color of youth. Sold for 60 years.

I am now over 60 years old, and I have a thick, glossy head of long hair which is a wonder to every one who sees it. And but a gray hair on it, all due to Ayer's Hair Vigor.

Mrs. H. B. BUNTS, Florida, Minn.

For sale by J. D. GOSH & CO., DANVILLE, PA.
