DIVISION CARRIED UNANIMOUSLY

The question of the division of th diocese of Central Pennsylvania, the most important matter before the Ep iscopal diocesan convention, was speedily disposed of this morning The committee reported in favor of the division suggested by Bishop Talbot, and when the vote was taken, div ision carried unanimously. This means that a new diocese will be formed o the western portion, consisting of Harrisburg and Williamsport. The arch deaconries of Scranton and Read

ing remain in the old diocese. The matter of the division of the diocese had been made a special order at 10:30 o'clock. At that time the report of the committee was read. The

committee unanimously favored the division and suggested in its report that the new diocese should embrace the archdeaconries of Williamsport and Harrisburg, including the follow

ing counties: Potter, Tioga, Clinton. Lycoming, Sullivan, Centre, Union, Northumberland, Montour, Columbia, Blair, Hantingdon, Mifflin, Snyder Juniata Perry, Cumberland, Dauphin Bedford, Fulton, Franklin, Adams

NEW YORK, June 15.-The steamship General Slocum, carrying the unday school excursion of St. Mark's German Lutheran Church, caught fire in the East River off Hell Gate this morning and was burned to the water's dge, about five hundred persons perishing

Persons on tug boats say that several hundred bodies have been washed ashore or towed or carried in boats to the shore of North Brothers' Island. Almost every other woman who was taken away was calling for her children. The disaster was witnessed by thousands of people from both shores of he river, and as rapidly as possible hundreds of small boats and launches set off to render assistance. With the boat burning under his feet the captain stuck to his post in the pilot house, and the engineer remained at his post beow decks until the boat was beached at the lower end of North Brothers' Island off Port Morris.

one of these famous open-air plays, which has heretofore been given in few cities in this section and those of the larger class prin cipally. To those who have never witnessed one of these big Pain shows the experience is as novel as it is enjoyable. They are so unlike anything else in the amusement line, and so vast and expensive in their scope that the spectator involuntarily admires the daring and ingenuity of the men who are responsible for them. They are a kaleidescope of acres of handsomely painted scenery, hundreds of gaily costumed performers, daring chariot racing, acrobats, bewitching dancers, stirring music, gorgeous pageants, glaring lights and generous explosions of powder and a myriad of marvelously beautiful pyrotechnics. The exhibition

is an interesting one, and depicts in a thrilling, interesting manner, one of the most tragic episodes in Roman history; the destruction of ancient Pompeii by the volcano of Vesuvius. This latter feature is depicted in a startling manner, and the spectator trembles for

the safety of the hundreds of actors who are seemingly buried beneath the fiery debris of the fallen city. Following this scene of chaos and destruction comes the real event of the night-s brilliant display of Pain's Manhattan Beach fireworks, and for nearly an hour the huge amphitheatre and the space above it is ablaze with beautiful and novel designs of pyrotechny. The big "Pompeii" amphitheatre has a comfortable seating capacity for fully ten thousand people, and visitors will find every reasonable precaution and con venience provided for their comfort and safety.
