GERMAN MESSAGE MAKES SENSATION

ST. PETERSBURG, July 13.-Emperor William's message of good wishes to the Wiborg regiment is attracting more attention here than at other capitals. The Novoe Vremya

"Europe is indeed, hungry for a sensation. The message was to a regiment of which Emperor William is honorary member and they find therein possibility of a breach of neutralado about nothing.

SQUADRON AIDING IN THE DEFENSE

ST. PETERSBURG, July 13.-12:32 p. m.-The Admiralty believes that Rear Admiral Withoft's squadron is rendering effective aid in the defence of Port Arthur and by impeding the construction of batteries near the eastern approaches of the fortress, by going out and shelling the Japanese works under construction for this pur-

The expedition of Saturday is believed to have been of this nature. The bringing up of siege guns to an effective range can thus be materially retarded. This probably is the reason the squadron has not yet left Port Arthur and it is not likely to do so until the fall of the fortress becomes inevitable.

The admiralty considers that the naval situation has greatly improved and sees evidence of the Japanese fleets showing signs of exhaustion. The officials here think that Admiral Togo, with the knowledge that he will have to fight without the co-operation of the army in storming Port Arthur, has become extremely cautious about risking his ships, and that at present he will only undertake operations of secondary importance, like a pursuit of the Vladivostok squadron and cooperation with land forces at New Chwang.

A special despatch from Ta-Tche Kiao says the Japanese lost heavily while crossing the river at Kai-Chou According to a special telegram from Liao Yang the Russian scouts have discovered further Japanese detachments in the valley of the Tai-Tse river, on the road to Muken. The con respondent thinks the Japanese in that vicinity intend to direct the operations of the Chinese bandits, who are con centrating in the surrounding valley for the purpose of raiding the railroad and blowing up bridges.

Armor of Old Japan.

An armor of Old Japan displayed in the window of Lunger's shoe store, Mill street, attracts a good deal of attention. The armor, which shows the mode of dress used by soldiers in the fourteenth, fifteenth and sixteenth centuries, is said to be historically correct, in all its details.

A special election of the qualified voters of Benton Borough was held Tuesday for the purpose of considering the water question. By a vote of 104 to 36 it was decided to have the borough erect its own water plant.

BIG MEAT FAMINE THREATENS COUNTRY OWING TO STRIKE

CHICAGO, July 13. - With no sign of weakening on either side, the only ray of hope in the butchers' strike today was the possibility that arbitration may intervene to prevent a labor war fraught with soffering and privation to the strikers and heavy loss to the

Nor is the effect of the strike con fined to the employes and packers in the nine cities where the fight will be centered. The consuming public will bear a large share of the burden in higher prices for meats. Reports already have come from various cities that prices of the product have been raised. This advance, too, was said to be but a forerunner of others if the conflict continued long.

In addition to the 50,000 employes already on strike, upwards of 30,000 more are involved indirectly and most of them probably will be made idle before tonight. In addition to the slaughtering departments of all the plants being tied up, the strike affects branch industries in which such articles as butterine, soap, buttons and combs are manufactured.

The canning departments where beans, soups, and all kinds of meat are put up are also hard hit, the union employes having gone out in a body. Forty thousand persons, approxi-

mately, find employment in the big packing houses in Chicago, and this number already has been reduced one half. The effect of the strike upon the nechanical and other departments it is declared, will increase this army of unemployed in Chicago before the end of the week to nearly 35,000.

Arbitration is looked upon as the only means to avert a prolonged strike. We arrived at Kansas June 16th and are visiting at the Honers' homes. Andrew Honer moved to Danville in 1853 and lived on a farm east of Danville until 1885. There, five sons were born, Henry, Lewis, Frank, George

and William. Mr. Honer and sons own 580 acres of land all adjoining. One is struck with the evidence of thrift and prosperity. Not only are the fields well tilled but the bedges and orchards are kent trimmed, the buildings painted and in repair and the tools housed when not in use. We are very much pleased with Kansas.

The farmers are now harvesting and making hay. The Honer boys have just finished shelling and shipping their corn. Altogether they had 7,000 bushels. They have just finished ploughing their corn for the last time. WILCIAM WERTMAN.

A eeting of a number of the council and other citizens has been held and the propostion defined.

It is to raise \$500 to \$800 by public subscription in Nescopeck and an amount in Berwick and construct a cable foot way from pier to pier. Upon the pier that is partly carried away a firm trestle would be erected. The bridge would be six feet in width and would cost about \$1,500.
