WILL USE SPECIAL BALLOT BOXES

The special election at which our cilizens are asked to vote upon the question of increasing the Borough's light will take place on next Tuesday, Hill on Saturday afternoon.

There are several questions connected with the special election which are three o'clock. The water near Blue have the conduct of it on their hands bathing site along the river. As the but by the electors in general and peo- boat was being rowed across the river termine, it seems, is how far the general election laws apply to a special

election of this sort. Few are found to question whether the regular voting booths may be used. But there is much doubt whether the regular ballot boxes, containing Dentistry in all its branches Charges at the special election next Tuesday; to say he did not lose consciousness Moderate and a work thurranteed also whether the places at which and with the blood streaming from a liquor is sold may remain open.

elections shall be held at the place, quired many stitches to close it. time and under the same regulations as provided by law for the holding of municipal elections. It provides that tickets properly and legally labeled 'shall be deposited in a box provided for that purpose as is provided by law ed the report of Inspector P. H. Repp in regard to other tickets received at

said elections. The above removes the last doubt as John McCloud, the star pitcher of other point relating to ballot boxes to the safe side they have decided to use special ballot boxes and have already ordered the same to be made.

W. Kase West, Attorney for the County Commissioners, yesterday rendered an opinion stating that the regspecial election, such as held on next nections are clear. Tuesday. As to the other question involved whether or not the bars must close during the election there seems to be but little difference of opinion, as the law seems very plain. The section relating to liquor reads as follows

or hereafter may be required to be held.

Putting on the Finishing Touches.

The Standard Construction Company yesterday began the final cleaning up of the trolley track, which places it in are ready for running.

The earth, which was piled up over the track after the rails were laid, has pecome beaten down as solid as any other part of the street. This earth is now being carefully dug up down to a as at present they are covered by the level with the top of the rails and carted over to Reifsnyder's cinder tip, where it is dumped near the canal. The special poles are being planted

all along Bloom street and the cleaning up above described follows as the finishing touch of the road. The street as far as the work has progressed presents a very tidy and presentable appearance the only blemish lying in the fact that the trolley track, which conforms with the established grade, lies several inches below the general level of the street, which was macadamized to conform with former surveys. In time it is understood that the street is to be regraded to conform with the stablished grade but how soon Council intends to enter upon the work is not known. In its present state it may prove difficult to drain the street properly and damage is feared from wash-

New Steps at St. Joseph'e Church.

Among the improvements at St. Jos. eph's Catholic Church is the rebuilding of the stone steps at the three entrances at the front of the church. At each door there is a flight of some four steps built of large dressed stone, which have been there ever since the church was built. Under the action of the elements the stone has begun to disintegrate and are no longer sightly nor safe.

The steps are being entirely rebuilt, dressed blue stone taking the place of work.

The new steps are an essential im provement and along with the handsome new tower overhead will add Old Fan, the oldest horse in Central very much to the appearance of the

Rebuilding The Smoke Stake.

The sixty-foot smoke stack belonging to the Danville Milling Company's plant, North Mill street, is being rebuilt, the work having been under way for a week past. The stack, which is of brick, under the lapse of long years had become very insecure. The east iron frame on the top was eaten through by the rust, while the brickwork showed a big fissure which extended from the top downward several feet.

It was necessary to scaffold the big stack from bottom to top. The rebuild ing of the brickwork was completed vesterday and everything was in readiness for placing the new cast iron July is now on the last lap, but frame in position on top. Beyond this Labor Day. Blue rock targets will be August will probably break the heat nothing more remains to be done than thrown for a cent a piece. It All Depends on the Election.

The railing is being placed in position on the coping along side of the to the appearance and conveys a good idea of how nicely the whole improvement will show up when the culvert is cleaned up and paved and the side-

walks lowered. Persons generally have become very weary of the unsightly appearance sidewalks at each end of the culvert and they can not understand why there should be so much delay in having them lowered to conform with the es-

tablished grade. It was learned yesterday that delay in the matter is necessary. In case Mill street is to be paved the curbing will have to be set to correspond, while should the result of the special election be unfavorable and street paving have to be abandoned the curbing will differ little, if any, from that employed at present. Obviously, therefore, t would be inexpedient to lower the idewalks until after the special election when it will be known just how the curbing is to be set.

Not Quite Ready to Begin Work. A large number of men in quest of employment early yesterday morning repaired to the Borough line to see what the prospects were for getting work on the new road to be built to Mausdale under the Act of April 15

The contractors, however, were not on the ground and the men after wait-

ing awhile returned to Danville. W. U. Oakes, representative of the Maryland Construction Company, who is stopping at Hotel Oilver, in an interview last evening stated that som preliminary work remains to be accomplished and he was not certain that the actual work of construction will begin this week. He was certain that nothing will be done today.

Mr. Oakes will remain on the ground and will employ teams and men, put ting them to work as fast as they enter the company's service. Few men have been employed.

Central Pennsylvania. The Value of a Y. M. C. A. Ticket.

A membership ticket in the Young Men's Christian Association is of more value than most young men imagine and it would be a wise thing for some of the men of Danville to consider the atter of membership, especially if the fullness of pleasure. This force hey expect to visit other towns or rities. The plan, adopted by the As sociations throughout the country, to acknowledge unexpired membership tickets of other organizations of same kind, is of the greatest benefit to young men when away from home. A prac tical illustration of this comes to the local Association through Mr. Sidney Cannard, who recently visited the World's Fair, at St. Louis. He states that his ticket was accepted for full privileges at Buffalo, Chicago and St. Lonis and that every courtesy was shown him, not only in the use of privileges at the various Association Buildings, such as swimming pool baths, reading room, etc., but also in the matter of finding comfortable

boarding places, restaurants and places of interest. One of the Danville Y. M. C. A. members, who was in good standing at nome, could not use the privileges during a visit to St. Louis, because he did not take his Y. M. C. A. ticket with nim. It is a wise thing for members to keep these tickets in their pocket as they are of value to the possessor in many ways, especially when away

In Honor of a Son.

has the form of poverty, wealth, sickapplause. "Death is usually regarded as man's

istic character. At the close of Mr. Cannon's address the President advanced to the veranda under a great festoon of American flags, delivered his address in response to the notification. As he faced the assemblage he was warmly applauded

or conferred upon me by the representatives of the Republican party assembled in convention, and I accept the nomination for the Presidency with solemn realization of the obligations I assume. I heartily approve the declaration of principles which the Republican National convention has adopted, and at some future day I shall communicate to you, Mr. Chairman, more at length and in detail a formal

more. Let us be prepared to meet her my purpose to carry out his principles made. If next November my countrythe convention you represent I shall, under Providence, continue to work with an eve single to the welfare of Weitzel Downs, Miss Maud Gregg and all our people.

A party is of worth only in so far as t promotes the national interest, and every official, high or low, can serve his party best by rendering to the people the best service of which he is capable. Effective government comes only as the result of the loyal co-operation of many different persons. The members of a legislative majority, the officers in the various departments of the administration, and legislative and executive branches as towards each other, must work together with subordination of self to the common end of successful government. We who have been entrusted with power as the river, and the shallow current public servants during the past seven years of administration and legislation now come before the people content to be judged by our record of achievement. In the years that have gone by we have made the deed square with the word: and if we are continued in power we, shall unswervingly follow out the great lines of public policy
