Knights of Golden Eagles Anniversary.

The Susquehanna District Associa tion, Knights of the Golden Eagle, will celebrate their sixteenth anniversary in Lewisburg, on Labor Day, Monday, September 5th. It will be a gala day for Lewisburg, as fully five thousand visitors will be there, not including the several lodges comprising the district in which is Lock Haven, Williamsport, Jersey Shore, Milton, Watsontown, Bloomsburg, Catawissa, Danville, Mifflinburg, Millheim, Bellefonte, Spring Mills, Shamokin, Sunbury, and others. Each lodge will bring from twenty-five to one hundred and fifty members to participate in the parade, which will be held in the afternoon. Eight or ten bands will be in line, and in fact it will be the largest demonstration Lewisburg has had since the centennial in 1885. The officers of the district, Joseph P. Miller, president; W. W. Musser, secretary, of Lewisburg, and I. D. Gresh, Milton, treasurer, together with the local committees, have been working hard to make the celebration a grand success. Several of the grand officers will be in attendance.

Get Vaccinated or No Work.

Notices have been posted about Mahanoy City by the Philadelphia & Reading Coal and Iron Company notifying all their employes that all must comply with the orders of the State Board of Health and be vaccinated before the 25th of August or they will not be permitted to work at any of the collieries. This is a very commendable action on the part of the company and will be the means of really helping to stamp out the smallpox in that vicinity.

Ferryman Jones last evening stated that a conservative estimate would place the average number of vehicles which cross the river by ferry daily at three hundred. No one will imagine that the single ferryman on duty at one time in handling this enormous aggregate of people and teams has any thing like a sincoure of it. There are innumerable and cream.

details to look after. The ferry boat nust be kept from grounding at the were purchased by the sworn special landings, the teams must be disposed agents are as follows: Bradford, about the boat in such a way that the Panxsutawney, Rochester, Monongaferry may be loaded to the best advanhela, Titusville, Parnassus, Kittanning, tage, while when the water is low it DuBois, Beaver, Arnold, Meadville, requires constant exertion to keep the Warren, Monessen, Donora, Ridgway and New Kensington.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or despondency invariably precede suicide and something has been found that will prevent that con-

tonic and nervine will strengthen the

nerves and build up the system. It's
