PLEDGE TO PRESIDENT

Republican Voters Will Fulfill Senator Penrose's Prediction.

TO BEAT MCKINLEY MAJORITY

Pennsylvania Will Be the Banner State at the Coming Inauguration.

(Special Correspondence.) Philadelphia, Oct. 18.

With but three weeks left for campaigning, the voters of Pennsylvania have but little time to prepare for the election, which takes place on Tuesday, November 8.

While much work has been done by the members of the Republican committee throughout the state, Chairman Penrose is urging all who take an active interest in the party organization to leave nothing undone to get every Republican to the polls that can be possibly got to vote.

On a visit to the White House a few days ago Senator Penrose told President Roosevelt that the Democrats will give him a greater majority than has ever been given to a presidential candidate, and the president expressed himself as greatly pleased with this report. In order to make good his prediction, Senator Penrose has appealed to the rank and file of the organization in every county to take the McKinley vote as their guide and seek to exceed it in every voting precinct.

Already plans are being made by young Republicans to participate at President Roosevelt's inauguration, and it is the wish of all who hope to be present that Pennsylvania shall be able to carry on their banners the announcement that the Keystone State gave Roosevelt the largest Republican majority in her history.

Not only is it desired that Roosevelt's majority shall be the greatest on record, but the aim of the party leaders is to have Pennsylvania continue to have the largest Republican delegation in congress. This cannot be done without the hearty co-operation of the Republican voters generally. Following next November's election there is to be a great future for the active Republicans of Pennsylvania, and all who wish to share in the glory of the triumph and to be a part of the great victorious hosts who will celebrate the election of Roosevelt on November 8 should begin now to enroll themselves for the struggle at the polls and to earn the honor of having contributed to the grand result.

Colonel Wesley R. Andrews, secretary of the Republican state committee, is authority for the statement that never before in his many years of connection with the organization have there been so many young men taking a hand in the campaign work.

Every Republican should inform himself regarding the duties of the campaign, so that he can intelligently discuss them with the doubtful voters or Democratic neighbors. Editor E. B. McKee, of the Reporter-Journal and Bradford Republican, in reviewing the situation a few days ago said:

"Thus far there is no indication that the Democratic party has made any progress towards diminishing the Republican majority. Every day at the last presidential election, the divisions in the Democratic party which have been fatal to its success continue. One Democratic leader wants a tariff for revenue only, another dreads any proposal to disturb existing industrial conditions; one wishes to make an immediate promise of independence to the Philippines; another is equally certain that any proposal to haul down the flag will be unpopular; one lays stress on the demand of the platform for increasing the power of the Interstate Commerce Commission; another on Judge Parker's affirmation that new legislation is necessary.

"One year the party is for free silver; another year silence. One year free trade; another year protection with tariff revision trimmings. It has no definite principle, no defined policy, simply a consuming hunger for the spoils of office and a chronic habit of concerning what others do. No one knows what they will do if they regain power, and it is this doubt that makes business interests timid and the people afraid to entrust them with the control of the government."

The Bryan speeches are not helping Parker. One of Tom Watson's supporters said:

"It is singular how Bryan has lost the respect of his once ardent followers. His support of Parker has influenced a single man in the east who was his supporter in his two campaigns. Bryan's followers have lost faith in him, because they now question his sincerity. I do not think that Parker has a ghost of a chance."

ANNUAL REUNION OF SABRE REGIMENT

The 27th annual reunion of the 7th Regiment, Pennsylvania Volunteer Cavalry, often called "the Sabre Regiment of the West," which is to be held at Milton next Monday and Tuesday, promises to be an interesting and enjoyable event.

Ex-Sheriff Michael Beckbill, Hiram Wertman and Thomas Sandors of this city were members of company D in this regiment, and served throughout the war. Many former residents of Danville were also in the regiment several of the companies having been recruited from the northern part of Montour and Northumberland counties.

Major General James H. Wilson, commander of the Cavalry Corps of the army of the Cumberland and General Joseph Wheeler who commanded the Confederate Cavalry, have both promised to be present. On Monday evening a camp fire will be held, and on Tuesday will occur the business meeting and election of officers for the ensuing year together with a banquet.

An effort will be made by the Danville delegation to have the next reunion in this city. This regiment held its reunion here in 1891. Special rates have been arranged on the railroads running into Milton.

Burr Stock Company.

Of all the plays from the pen of that greatest of American playwrights, Hal Reid, "Knobs of Tennessee," is without a doubt one of the very best. The scene of the play is laid in the mountains of Tennessee, where moonshining, whiskey, even to the present day, is an occupation followed by the sturdy mountaineers, whose land is too barren to raise much else than corn, and from which corn whiskey is evidently the most profitable product, though rather hazardous, who are continually hunted by the revenue officers. The play is brim full of bright, sparkling comedy, pathos and stirring heart interest.

The Burr Stock company, who will produce this beautiful play at the Opera House next Monday night carries a carload of scenery and effects. Their production is as complete as the original company presented, and a fine entertainment is assured those who attend the Opera House Monday night.

Fashionable Wedding at Berwick.

The wedding of Miss Mae L. Eaton daughter of Mr. and Mrs. Huber Eaton of Berwick and Clarence Gearhart Crispin son of the late Benjamin Crispin of Berwick, was solemnized last evening at 6 o'clock in the Methodist Church of Berwick. The ceremony was performed by Rev. R. H. Gilbert. A reception followed at the home of the bride's parents.

A great number of distinguished guests were present and it was one of the most splendid weddings which has ever been solemnized in this part of the State. After the reception the bride and groom left on a special car to spend their honeymoon touring the northern states.

A Former Resident Weds in Philadelphia

On Tuesday evening at the residence of Mr. and Mrs. John Watts, 510 Carpenter street, Pelham, Germantown, their daughter, Miss Elizabeth May Watts, became the bride of William Grant Swartz, of Norfolk, Va., a former Danville man.

Miss Irene Watts, a sister of the bride, was maid of honor. The best man was George E. Swartz, of Chicago, a brother of the bridegroom, and the ceremony was performed by Rev. Dr. Charles E. Burns, of the First Presbyterian church, of Bristol, Pa., a cousin of the bride, and Rev. P. D. Bennett, of the Summit Presbyterian church, Pelham. A reception was held from 8 to 10 o'clock. After a tour of Canada, Mr. and Mrs. Swartz will take up their residence at 104 Olney Road, Norfolk, Va., where they will be at home after December 1st.

Death of Mrs. W. V. Kerr.

Mrs. Alice Smith Kerr, wife of William Morris Kerr, of Pottsgrove, died at her home in that place Tuesday in the fifty-third year of her age. Mrs. Kerr has been an invalid for the past five years, having suffered two paralytic strokes previous to the one that resulted in her death. She is survived by her husband and two sons, Joseph and John. She was a member of the Moresburg Presbyterian church. Her funeral will take place this afternoon. Services at the house at 130. Internment will be made in the Milton cemetery.

THE Y. M. C. A. ANNIVERSARY

(Continued from First Page.)

In many ways to make the work more attractive.

We are especially indebted to the members of the Ladies' Auxiliary, who have always willingly assisted us in our efforts to carry on a strong, aggressive work for young men. Their practical help, rendered during the past year, in raising funds to make needed improvements, and for their interest and sympathy in the general work, is acknowledged by the entire membership of the Association. Their many helpful and self-sacrificing acts for the good of young men will surely be rewarded.

In closing, it is our wish that we shall have the continued sympathy, influence, prayers and financial support of the people. Our cause is worthy. The work is urgently needed, and let us go on in the strength of the Lord, looking unto Him for every blessing.

The Ladies' Auxiliary report was as follows: The Ladies' Auxiliary of the Y. M. C. A. with a membership of sixty-five have endeavored to be of help to the General Secretary and the Board of Directors during the past year, having given three hundred dollars for repairs, etc. Money was also expended for the Christmas treat to the Thomas Beaver Boys' Bible Class, for their picnic and a course luncheon to members.

The money made was from membership fees and from the proceeds of a supper and strawberry luncheon. Entertainments were provided once a month for the Boys' Bible Class with a different committee of ladies in charge of each entertainment. Any person who will take the time to attend one of these meetings will see how carefully these boys are trained at their meetings. The order is all that can be desired, and the appreciation of the boys is noted. A special entertainment is given them at Christmas and a picnic in June.

The Auxiliary assisted at the Members Reception, serving a course luncheon. We desire to thank the public for all assistance rendered during the year, and at the same time, solicit your patronage and support in any project undertaken during the present year. For we must work.

We would especially be delighted to receive a number of accessions to our membership. The fee is only \$1.00 a year. Every woman in the town who feels an interest in the work for young men and boys should be identified with this organization.

In the Methodist church appropriate addresses were made by the Revs. S. E. Evans and G. E. Lambert and in the Presbyterian by the Revs. J. E. Hutchison and E. B. Dann. The remarks were timely and tributes were given the Y. M. C. A. as a great power for good in the lives of the young men.

Coming Attraction.

Recent reports of "The Missouri Girl" through the dramatic papers show that the company is meeting with the same dramatic and financial success as in the past years. The cast is said to be far better than ever before, and the company playing to "standing room only" in nine-tenths of the theatres in which they appear. This company, in its entirety, will be seen here at an early date.

STRONG ARGUMENT

(Continued from First Page.)

Mr. Scarlet began to argue the decisions quoted by Mr. Hineley and showed that grade crossings are not strictly prohibited and each crossing case must be considered on its own merits. Engineering skill makes it possible to construct anything. The law of 1871, when electric cars were never dreamed of, is not wholly applicable to 1904 and the conditions arising from modern progress. The safety of the public is the supreme law, and even if it is practical and yet is dangerous to operate an overhead crossing such a crossing should not be built. The interests of the citizens of any place are protected by the municipal legislators and in this case Council says the safety of the public demands a grade crossing. The granting of a charter to a railroad does not interfere with the right of the Borough to control its own streets and as in Danville trains may run no faster than eight miles an hour these facts enter into the case. All those interests are affected must be made a party to the hill and in this case the Borough of Danville should have been made a party to it. Mr. Scarlet continued to say, after which he spoke of poles and wires of telegraph companies as being real estate, according to a Supreme Court decision. The Borough Council may control them only so far as caring for public safety. Mr. Scarlet offered numerous decisions to prove his several contentions. He maintained that an injunction can not be granted if it interferes with public work. "Are these streets to be torn up continually simply to allow the D. L. & W. to run 14 trains in 24 hours through the city?" he asked. The question of the danger of an overhead crossing he said has not heretofore been raised, but it will be here and will have to be met in final hearing. In concluding he positively asserted that since it has been proven that an overhead crossing will multiply the danger to life and limb a grade crossing at Mill street is an absolute necessity.

Ex-Senator Herring followed Mr. Scarlet. His argument dealt mainly with a review of the testimony adduced at the hearing. The trolley motor man, locomotive engineer and gate watchman all would have to be careless on one time to have an accident occur with a safety device for grade crossings and even in such an impossible case the train would pass while the trolley ran on one side of the track or if the trolley car got on the crossing, as the train approached the train would be derailed 400 feet away from the crossing. He referred to the fact that it had been shown that on an overhead crossing many accidents may occur over which the operators can have no control.

Following Mr. Herring Judge Willard occupied the balance of the afternoon. His argument was very exhaustive, lasting an hour and a half, and was taken up entirely with quoting decisions and opinions. He said there are only two propositions in the case: That it is reasonable and practicable to construct an overhead crossing and there is nothing to do but to continue the junction of the D. L. & W. against the trolley company and to dissolve the other.

Beware of Outlets for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous-surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to be good you can possibly derive from them. Hall's Catarrh Cure, manufactured by E. C. DeWitt, Chicago, Ill., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made a Toledo, Ohio, by E. C. DeWitt & Co. Testimonials free. Rev. Evans Will Preach Tonight.

The revival meeting in progress at Trinity M. E. church is very interesting. It usually takes two or three weeks to get the church members warmed up, but already, in the middle of the first week, the people are showing considerable enthusiasm. Rev. S. B. Evans, pastor of St. Paul's church, will preach in Trinity church tonight at 7:30 o'clock. All are cordially invited.

A Game Youth.

It could be expected of an American youth that if he plays football against his parents' wish, and gets hurt, he will suffer silently. Such was the case with Fred, the 8-year-old son of Frank Sprout, of Watsonown, who when he found himself incapable of raising his arm to convey food to his mouth at supper, quietly remarked that he was not hungry and slid away from the table. The father followed and found the boy crying. Investigation proved that he had broken his arm in two places, between the elbow and wrist, while playing football during the afternoon.

Foot Ball at Milton.

CONDITIONS GOOD IN RURAL DISTRICTS

A news representative traveling in the rural districts of this section brings in an interesting account of the conditions of affairs of the farmers of Montour county, who mainly have had a prosperous summer and who now have an encouraging outlook.

Corn throughout the county is nearly all out and in shock and now is being husked. Possibly this is the last year in which the old-fashioned, tedious hand method of husking will prevail. A corn husking machine exhibited at the Bloomsburg fair last week was purchased by J. A. Merrell, J. P. Snyder and B. Hendrickson, all of Valley township. The machine will husk 1000 bushels of corn a day as well as cutting the fodder. This extremely rapid work will bear no comparison with the slow and laborious hand system. The weather is still a little warm for husking.

The farmers are well pleased with the good crops they have had this season. Some of the corn has been small but nearly everywhere on this side of the river it has been of good quality. In some cases the second planting has resulted poorly. Wheat is now in the ground and doing nicely. The crop gives promise of being all right unless a blight like that of last winter should afflict it.

The apple crop is of unprecedented size. Cider, apple butter and dried apples are being prepared in unheard-of quantities, the farmers desiring to use as many as possible of the apples, which are of exceptionally fine quality in every variety. Many farmers have had losses through potatoes rotting, but not severe ones. This fine weather is very favorable for the work incident to the ending of the season. The prices received for crops of all kinds have been good and the farmers on the whole are greatly encouraged.

Freeze-Up Would Cut Off Communication

A question of vital interest to the people of both Danville and South Danville is the time of the completion of the river bridge. The citizens generally are hoping for the structure to be in use by the first of the year, if not before and merchants and business men are greatly concerned in the matter.

December freeze-ups are frequent. Should one occur this year communication with South Danville would be entirely cut off, which would mean more than just the great inconvenience it would inflict on the individual citizens. Business interests would suffer greatly in consequence. Many Danville merchants and small manufacturers now ship over the Pennsylvania railroad, but unless the bridge is ready to be crossed over by the beginning of winter there is a grave possibility that they will be wholly cut off from the Pennsylvania system. From every standpoint the seriousness of the situation is apparent. It is believed, however, that the bridge people will rise to the occasion and put forth every effort to finish the work at an early date.

A "Sovereign" That Costs only One Dollar

Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., is a "Sovereign" medicine for nervousness, rheumatism, kidney and liver complaints, and all the ills peculiar to women. It drives the poison from the blood, and restores the patient to the bloom of health. You will never regret the exchange of one dollar for a bottle.

New, Sharp and Distinct.

The Edwin J. Hawley Company entertained a large assembly Wednesday evening with what can be declared to have been the best moving picture exhibition ever given in this city. The views shown were all new, sharp and distinct, and devoid of the annoying flicker heretofore seen. A return date will be eagerly looked forward to. Hadley's moving pictures show is the best—it beats all others.—Warren, Pa., Mirror.

DISCREDIT STORY OF DISASTER TO SLAVONIA

LONDON, Oct. 19.—At the office here of the Comrad Steamship company rumor published that the steamer Slavonia had sunk in a storm off the Spanish coast is entirely discredited. The Slavonia, it is pointed out, passed Gibraltar on October 11, and the officials cannot see how she could be anywhere in the neighborhood of the Spanish coast. The vessel is due at New York on October 22. Here is a dispatch, which was from Vienna, and sent out during the early hours of today:

"A Vienna dispatch to the London Standard this morning gives a rumor current in that city to the effect that a Comrad steamship from Flume, with 2,300 immigrants on board, has sunk off the Spanish coast. A fierce storm was raging at the time. The Standard has no confirmation of the report, but gives it for what it is worth. Flume is in the Adriatic Sea and is Hungary's only port. It is almost opposite Venice."

Jury List.

A suit that will enlist much public interest and involving important litigation will be tried at Danville next month, for which a special term of Court, to convene November 14th, has been ordered. Mrs. Sarah Cromley of Limestone township, is trying to recover damages from the Pennsylvania railroad for the loss of her husband and son, who were killed on a crossing at Watsonown some years ago, when the team they drove also was killed and their rig demolished by being run down by a train.

It will be remembered that at first the case was non-suited here. Then it was carried to the Supreme court and by that body was referred back here for trial.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine smells the fish or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.
