

**PRESS CENSORSHIP
NOW BE ABOLISHED**

ST. PETERSBURG, Feb. 8.—The official announcement was made today of the appointment of M. Kubeka, director of the Imperial Library as President of a conciliatory commission for the reason of the laws governing the censorship and the press. The committee included three Senators, the assistant Minister of instruction, six representatives of the Academy of Science and four editors.

The appointment of this commission is an act which has immense possibilities in the way of Russian progress. One of the greatest enemies to the advancement of the lower classes has been their inability to obtain through their own medium of information the press news of what was being done in the higher classes of the empire. There has been an iron-bound censorship on all news printed in Russian papers and this censorship has precluded the publication of anything which would be for the marked benefit of the working and middle classes.

Now and then an editor, more daring than his fellows, would publish an item giving an insight into official mismanagement. Such an editor however generally proved the last of that paper. The sincerity of the government in this new step appears to be confirmed by the personnel of the commission which will consider the improvements noted. With four editors on the commission there is every likelihood that the Russian press of the future will be an entirely different institution than that of the past.

Then, too, this step seems to presage the adoption of other and perhaps more important reforms by the government.

Y. N. C. A. NOTES.

From Mr. Cleveland's address at the P. R. Y. M. C. A.:

"This occasion is full of inspiration for those who delight in the success and growth of a good cause. The contemplation of the moral, intellectual and educational results which the Young Men's Christian Association of Philadelphia has wrought within its life of fifty years is a cure for pessimism and serves to restate our belief that the value our people place upon the things to be desired is not altogether measured by immediate returns in money or selfish indulgence. As we view the unprecedented American rush for wealth and trade advantages, we are apt to give entrance to the fear that patriotism and good citizenship are less behind in the race. We do not see us through the dust and turmoil that the instrumentalities of civil righteousness are still holding their own. We hear the din and shouting of money-getting and we are not always certain that in the midst of it all the steady voice of conscience is pleading for better things. It is well, therefore, that occasions like this in which we today take part should be appointed, to the end that we may more fully learn that moral achievements should be added to phenomenal success in taking an inventory of our country's valuable possessions."

Will Try Again.

HARRISBURG, Feb. 8.—An effort to secure the passage by the legislature today of a resolution requesting the board of pardons to commute the death sentence of Mrs. Kate Edwards to imprisonment for life was defeated in the house on a technicality, and will be offered again. It recites that the fact has been ascertained that she is an epileptic and therefore irresponsible; that her husband had threatened her life and she was impelled by nervous apprehension to take his life, and finally that it is the sense of the legislature that capital punishment of a woman has a generally demoralizing effect upon the community and should be avoided.

Sleighing Party.

A sleighing party was pleasantly entertained at the home of Mr. and Mrs. J. A. Cromie, near Ottawa, on Thursday evening. Refreshments were served and an excellent time enjoyed by all. Those present were: Mr. and Mrs. Peter Rishel and son George, Mr. and Mrs. D. A. Cox, Mr. and Mrs. Jacob Holden, Mr. and Mrs. Levi Fenstermacher and daughter Anna, Mr. and Mrs. W. O. Krumm and daughter, Mr. and Mrs. W. C. McVicker, Mr. and Mrs. J. A. Litcher, Mr. and Mrs. William Dieffenbacher, Schuyler Irwin, John Hartman, Robert Carey, and Miss Lizzie Rishel.

Tour Party's Mishap.

While the State Sabbath School Association Tour Party were on their way to Masada, to hold services in St. John's Reformed church, Saturday evening, a runner on their sleigh broke. Not being able to repair the broken part, the company was obliged to walk from Hunter's Park, where the accident happened, to Masada.

Poison in Food.

Perhaps you do not realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of undigested food—or money back. 25c at Paules & Co's drug store. Try them.

Sleighing parties are on the go—and as the come, too, apparently.

**EPISCOPAL BISHOP—
ELECT ACCEPTS**

Word received in Danville yesterday from the committee appointed to notify the Rev. James Henry Darlington, D. D., of Brooklyn, of his election to the Bishopric of the new Episcopal diocese of Harrisburg, states that the Rev. Darlington accepts.

The following are the members of the committee who on Tuesday notified Dr. Darlington: Rev. Walter R. Breed, D. D., rector of St. James, of Lancaster; Rev. Charles R. Morrison, rector of St. Matthew's, of Sunbury; A. P. Perley, Christ Church, Williamsport, and George S. Constock, St. Luke's, Mechanicsburg. The committee notified the bishop-elect at Christ Church rectory, Brooklyn.

Dr. Darlington's home newspapers speak of his election in flattering terms. The Brooklyn Eagle printed the following the day after his election:

"In the choice of Dr. James H. Darlington as bishop of the Harrisburg diocese, the clergy of that district have shown wisdom. Dr. Darlington is the rector of Christ Church in this city, a large and influential parish, and his clerical experience covers 33 years. During that time he has become thoroughly conversant with church matters, but he has also proved himself an alert and public spirited citizen; he has been chaplain of a local regiment, trustee of a college, a member of conservative, yet progressive societies and bodies, and has kept himself informed upon great questions. He is a man of agreeable personality, and his career in the pulpit has been marked by scholarship and dignity. He will be no mere figure-head as bishop, but will prove that the honor which has come to him is well deserved and has been properly awarded."

The Brooklyn Times uttered the following on the same day:

"It is yet uncertain whether or not the Bishop-elect will accept the honor that has been conferred upon him. Such acceptance will involve more than ordinary sacrifice on the part of Dr. Darlington. Many and close ties bind him to Brooklyn, which has been his home during the greater part of his career, and strong pressure will be brought to bear upon him to induce him to remain with his own people. But Dr. Darlington is peculiarly qualified in many respects for the work of a bishop. He is more practical in his methods than is common in his profession; he is, above all things, sane and reasonable, and has the tact and diplomatic skill which the bishop is in need of who would avoid friction with the clergy of his diocese."

"There was much regret among those of the clergy on Long Island who knew his qualifications when his home diocese failed to name him as the successor of the late Bishop Littlejohn, although, if he should accept the honor conferred upon him yesterday by the Harrisburg Diocesan Convention Long Island's loss will be Pennsylvania's gain. The members of Christ Church and the community in which he has long been an active worker in every movement for moral, social and religious betterment, will deplore his departure, but there are none who will say that the Harrisburg diocese has not made a wise choice."

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing the work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

New Electric Bell at Y. N. C. A.

In order to maintain perfect order in the game room at the Y. N. C. A., an electric bell has been installed, which is used to remind those engaged in playing the games (when they become too boisterous) that quiet must be restored. If at the first ring of the bell the unnecessary noise is not stopped, a second ring stops the games. It is found necessary for some such arrangement, not only to secure proper conduct, but to protect boys and young men who desire to enjoy the games in a more quiet manner. No discrimination will be made, and those who fail to keep the rules must suffer the consequences of their behavior. The bell was presented by Mr. Wain Shop and the wiring and work was done by Will G. Brown, who also furnished the memorial gifts to the services gratis. The Association appreciates this kind news and returns thanks to both gentlemen.

The Pneumonia Season.

Coughs and Colds in children as well as adults are frequently dangerous at this season of the year, and a little precaution now may save much trouble, worry and expense. Kennedy's Laxative Honey and Tar, a combined cough and cold cure—a new scientific discovery in medicine—is a certain cure for Coughs, Colds, Croup, Whooping Cough, etc. The coughs and colds are cleared out of the system by gently moving the bowels, and at the same time the throat, chest, lungs and bronchial tubes are so strengthened that there is little probability of danger. Kennedy's Laxative Honey and Tar is pleasant to take. Contains no opiates. Sold by Paules & Co.

Trouble Ahead.

Some time ago the Snyder school house built a one story school house and later the lodge of Odd Fellows of that place built the second story frame school house. Recently the School Board purchased the Odd Fellows' portion for \$1750 and now the taxpayers are up in arms. The Odd Fellows intend erecting a handsome new building for their lodge room.

**BUCKNELL STUDENTS
FOUND GUILTY**

The only case that attracted more than passing attention at the February term of Criminal Court at Sunbury, was the Milton assault and battery case in which the two Bucknell students, Royer and Smiley, were the defendants. The two students told their story of the occurrence and denied being guilty as charged by the company's employees who were on the street car at the time. They produced a number of character witnesses and the case was bitterly fought on both sides. The hearing of the testimony was completed shortly after 4 o'clock and a short time after Judge Savidge charged the jury a verdict was agreed upon, finding Royer and Smiley guilty of assault. Wednesday morning Judge Savidge gave both students a reprimand and set aside the verdict against Smiley, suspended sentence on Royer but directed the latter to pay the cost of prosecution within twenty days time.

GOING FOR GOOD.

No Need to Fear a Return.

The train returns to the aching back when you think you are well rid of it. No need to fear such a return if Doan's Kidney Pills are used. They back up the kidneys and weak backs strong and keep them so. The testimony of Danville people is the best claim a fact. You can readily verify such proof as the following:

Thomas Lewis, retired, of 615 Mill St., says: "I can only reiterate my former statement made in 1899 about Doan's Kidney Pills. They cured me eight years ago and the cure then made has been lasting and I have had no return of my old trouble. Before using them I was greatly troubled with backache. I used everything recommended but got no relief. The lameness over the kidneys and the terrible aching continued in spite of everything that I did and there seemed to be no relief for me. I learned about Doan's Kidney Pills and read the statements made by people who had used them and concluded to try them. They not only removed the lameness and backache but they benefited my health in general. They also relieved the headaches to which I had been subject for a considerable length of time. I can recommend Doan's Kidney Pills as a reliable backache and kidney cure."

More Coming Says Hartz.

Elias Hartz, the Reading bone setter, several weeks ago predicted the recent blizzard. Thursday he said: "I warned people early in the fall to fill their coal bins, and many heeded my warning. I told them we would have a blizzard in January. Do not be alarmed when I tell you that there is another one on the way, and I expect it about the middle of February. It will be more severe than the recent one in every respect."

In the last four weeks in the part of Philadelphia where the filters are used the reduction in typhoid fever cases is shown to be 100 per cent. for three weeks and 74 per cent. for one week, as compared with the rest of the city. In other words, the filtered water districts had one case of typhoid in between 82 and 99 cases elsewhere.

**NO TRACE FOUND
OF DAMARA BOAT**

HALIFAX, Feb. 8.—The boat containing Captain Gorst, four passengers and ten members of the crew of the Furness line steamer Damara which put off after the vessel had struck on the rocks at Musquodubuit, thirty miles to the eastward of this place yesterday had not yet been heard from. The other boat in charge of First Officer H. J. Nuttall and containing eighteen men reached Point Pleasant yesterday after an experience with cold wind and sea which will not soon be forgotten.

The agents in this city of the Furness line notwithstanding the absence of news from Captain Gorst, hold out hope for the safety of the commander and those with him. They say there is a possibility of them having reached some place along the coast and may have to travel a considerable distance to a telegraph office. The agents think the Damara has foundered. She carried 34 persons in all.

**WEIGHING OF MAILS
WILL SOON START**

Preparations are being made by the employees of the railway mail service for weighing the mails, an event which occurs every four years. This is a task which is put upon the railway postal and transfer clerks for the purpose of determining on what basis the contract with the railways for the carrying mails shall be made by the government.

Every contract made with a railroad for carrying mails is for a period of four years. When the time comes for the renewal of contracts the officials in the post office department require a knowledge of just how much mail is being handled by the railroads at all of the principal points, and to obtain this information the mail is weighed for a period of forty days. Every sack of mail that is put on a train or taken off, must be weighed, and a record kept of it.

The labor of the transfer and postal clerks is just doubled by the weighing of the mail, and to help out the appointment of extra clerks is authorized by the Postmaster General.

At present preparations are being made to weigh the mails in the second division of the railway mail service, which includes New York, Pennsylvania, New Jersey, Delaware, the peninsula of Virginia, and Maryland and Porto Rico.

They are still discovering the wives of Johann Hook, the latest count being 29, with a possibility that several may have escaped before they were enumerated.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that a case of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Dr. D. K. Noble, of Nevada, O., says: "Had stomach trouble for several years. I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months. It cured me. I feel like a new man."

**Women as Well as Men
Are Made Miserable by
Kidney Trouble.**

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness, and causes a general debility which may disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If this child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with weakness, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and such need the same great relief. The mild and immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar bottles. You may have the sample bottle by mail free, also pamphlet telling Home of Swamp-Root all about it, including many of the thousands of testimonials received from sufferers cured.
