PRISON STRIPES.

#### One Theory of the Origin of This Badge of Disgrace.

"Did you ever stop to think about the origin of the stripes we use in our prisons?" said a man with an eye for the curious. "If you have not, it will not take you long to figure the thing out if you happen to know anything about the Bible.

"For instance, in the laws and ordisances of Deuteronomy we find the body was in a rocking chair. The bodfollowing, which will give us the clew to the origin of the stripes as a badge of infamy: 'If there be a controversy between men and they come unto judgment that the judges may judge them, then they shall justify the righteous and condemn the wicked. And it shall be if the wicked man be worthy to be beaten that the judge shall cause him to lie down and to be beaten before his face, according to his fault, by a certain number. Forty stripes he may had been domestic trouble in the famgive him and not e eed; less if he ilv. should exceed and beat him above

these with many stripes; then thy brother should seem vile unto thee." "Now instead of inflicting these phys-

teal stripes we put striped clothes on the mea who offend the law or who may come unto judgment that the Judges may judge them, as it is put in the text. Of course you could go much further back in history if you cared to trace the origin of marks of infamy, but you would find that physical mutihatton of some sort in a majority of instances afforded the means."-New Orbans Times-Democrat.

CARE OF A RAZOR.

Rame Things That the Man Wha Shaves Himself Should Knew. "The average man who shaves himself doesn't know how to take care of his rance despite all the advice that has been given to him in the public prints from time to time," says an expert barber. "He will get a good razor and use it

tay after day, then wonder why at the and of a short time it loses its edge, of a tourist agent. Three days will be in the proper presentation of the play, the scaffold with a steady but rather eres though he strops it most carefully. A razor needs brief intervals of rest or it will grow dull, no matter what efforts are made to keep it sharp. If you have a good razor and it appears to be losing its edge just try a rest for it instead of having it sharp-ened up again. The chances are that when you put it into use again at the expiration of three or four days it will prove as sharp as if it had been care-fully hened.

"A man who shaves himself ought to have at least two razors and use these alternate mornings; then, if his rasors are all right, he will have but litthe trouble with them. It is also posthe to strop a razor too much. It should not be stropped for more than balf a minute before shaving, and care should be taken never to bear heavily on the strop while doing this. Let the ragor rest lightly on the leather, and the best results will be gained. After finishing a shave, strop the razor once more for a few seconds, and this will insure a much better condition for it."

### Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of Indigestion inflames the peated attacks of indigestion influences in mucous membranes lining the stomach and exposes the nerves of the stomach, thus caus-ing the glands to secrete mucin instead of the juices of natural digestion. This is called Catarrh of the Stomach.
