

LOCAL TIME TABLES

Table with columns for destinations (Danville and Bloomsburg, Penna. R. R., D. L. & W. R. R., Phila. & Reading R. R.) and times for various routes.

MAY PIPE BOT-TOM OF CANAL

Engineer G. H. Doughty of the D. L. & W. Railway Company, with an assistant, was in this city yesterday surveying the bottom of the canal for the purpose of determining whether or not it would be feasible to sink a pipe in the abandoned waterway for the purpose of carrying off the water which at present accumulates with every rain and lies until it becomes stagnant.

The engineer's visit was in response to several communications from the Board of Trade of this city, in which the bad state of affairs was shown up and in which it was suggested that the only remedy lay in piping and filling up the canal within the borough limits. Bad as the conditions are down town still a worse state of affairs exist in the Second Ward, where during the summer, especially, the water throws off foul and stagnant odors and becomes a veritable disease breeder.

At the joint meeting were present Messrs. George Leighow of Danville; C. W. Cook, of Valley township, and Henry Cooper, of Derry township, Montour County Commissioners; John H. Beck, of Sunbury, and A. H. Cooper, of Watouon, who represented the Northumberland County Board. Attorneys W. K. West and Charles E. Lark, were also present.

The Northumberland County Commissioners arrived at South Danville on the 10:17 Pennsylvania train and returned on the 4 o'clock P. & R. train. Two sessions took place one in the forenoon and the other in the afternoon. The first session was held after looking over the new bridge in a body and was devoted exclusively to the consideration of right of way for telephone, telegraph and electric light wires.

In the afternoon the matter of a suitable reception to the Governor was taken up in case he should come to Danville on the occasion of the inspection of the bridge. It has been reported he intends to do along with a number of other State officials. The Commissioners, however, were working wholly in the dark, as not only had they no positive assurance that the Governor would be present, but the date of the inspection was also uncertain.

In order that no unnecessary work might be done, on motion it was decided that William Kass West, of this city, and Charles C. Lark, of Shamokin, attorneys for the two boards of Commissioners, were directed to go to Harrisburg and call upon the Governor to ascertain facts as to the inspection—whether or not he will positively be present and what kind of proceedings would likely be in order to mark the acceptance of the bridge.

The Commissioners have a modest program in view, which includes a speech from Attorney Lark in response to Governor Pennypacker should the latter make the address formally handing the bridge over to the County Commissioners. Among others invited to be present would be the Representatives of our own and Northumberland county as well as the State Senators.

Will Meet in Wilkesbarre. The next annual convention of the Pennsylvania Bankers' association will be held in Wilkesbarre in June next. This was decided at a meeting of the officers, held Saturday at Wilkesbarre. There will be two sessions of the convention, June 15 and 16.

Little Girl Will Recover. In an interview with Dr. E. E. Wagner upon his return from Wilkesbarre he stated that pretty little Flora Krickbaum, of Benton, the unfortunate victim of rope poisoning, would very likely recover. She was operated upon for appendicitis caused by the exertion of skipping the rope so many times. The operation was performed at 11 o'clock Monday morning from which she rallied nicely and the physician believes that she will now recover.

Elopers Found. Mrs. Thomas Beck, of Lewisburg, and William Cassatt, a Shamokin umbrella mender, have been located at last. They were seen last week at Liverpool, on the Ohio River, where they were living in a flat boat.

The Sabelle and Welsh Bros. circus, combined, will exhibit in Sunbury, May 15th. Twenty-five cars are required to transport the outfit.

NESCOPECK TO HAZLETON BY TROLLEY

Anthracite coal regions financiers, who several years ago started the movement looking forward to the building of a trolley line from Nescopeck to Hazleton over the ground again Saturday when the route was determined upon and many of the necessary arrangements made so that all the preliminary work may be cleared up in order to secure the erection of the road next year. Such in brief was the information given George Weiler, of Nescopeck, whose land the company will have to run for a distance of two and a half miles.

The line will run along the Hazleton-Nescopeck trolley and the one obstacle which confronted the promoters of the road was cleared up Saturday—that of reaching Nescopeck from Tank. The question was whether the line should be built over the hill or whether a new road should be built down along the tracks of the Pennsylvania Railroad. It was finally determined that the over-the-hill road would be the one, inasmuch as the construction of the line along the tracks of the Pennsylvania Railroad would entail enormous expense, included in which would be the necessity for a large number of bridges.

The route as planned is: Leaving Nescopeck the road would run out past the mill crossing the creek on the new bridge to be constructed by the state this summer; thence up Nuss' hollow along the railroad by Shaffer's church, thence up through the gap, up the mountain to the left of the creek and into Tank. Swinging to the left of Nescopeck creek the line would continue until Hazleton-Nescopeck turnpike was struck at Seybertville, continuing into West Hazleton and Hazleton.

There is, it is stated, plenty of money back of the road and its erection is assured. At Nescopeck the road will connect with the Nescopeck terminals of the Columbia & Montour Electric Railroad, which with the completion of the Danville & Sunbury line will give direct connections by trolley all the distance from the New York state lines to Sunbury and with the erection of the line from Sunbury to Shamokin throughout the entire coal region.

Commissioners' Joint Meeting. The County Commissioners of Montour and Northumberland counties held a joint meeting in the Court House yesterday at which was taken important action relating to the formal acceptance of the river bridge when the structure is completed and handed over by the State.

At the joint meeting were present Messrs. George Leighow of Danville; C. W. Cook, of Valley township, and Henry Cooper, of Derry township, Montour County Commissioners; John H. Beck, of Sunbury, and A. H. Cooper, of Watouon, who represented the Northumberland County Board. Attorneys W. K. West and Charles E. Lark, were also present.

The Northumberland County Commissioners arrived at South Danville on the 10:17 Pennsylvania train and returned on the 4 o'clock P. & R. train. Two sessions took place one in the forenoon and the other in the afternoon. The first session was held after looking over the new bridge in a body and was devoted exclusively to the consideration of right of way for telephone, telegraph and electric light wires.

In the afternoon the matter of a suitable reception to the Governor was taken up in case he should come to Danville on the occasion of the inspection of the bridge. It has been reported he intends to do along with a number of other State officials. The Commissioners, however, were working wholly in the dark, as not only had they no positive assurance that the Governor would be present, but the date of the inspection was also uncertain.

In order that no unnecessary work might be done, on motion it was decided that William Kass West, of this city, and Charles C. Lark, of Shamokin, attorneys for the two boards of Commissioners, were directed to go to Harrisburg and call upon the Governor to ascertain facts as to the inspection—whether or not he will positively be present and what kind of proceedings would likely be in order to mark the acceptance of the bridge.

JURORS CHOSEN FOR MAY COURT

The Jury Commissioners completed their labors on Saturday forenoon. Following is a list of jurors chosen for the May term:

- GRAND JURORS. Anthony township—Norman Bittler, Danville, First Ward—Daniel Eberly, Benjamin Grubb, Robert A. Jams and Sharp Deitz. Danville, Second Ward—William Camp. Danville, Third Ward—Edward Coleman, James Wilson, Theodore Hoffman, Sr. Danville, Fourth Ward—Eugene Doran, John Fox, James B. James. Derry township—M. L. Sheep. Liberty township—Samuel Wagner, Charles H. Diehl. Limestone township—J. W. Deen, G. O. Wagner. Maloning township—John S. Krumm John Cashner. Valley township—John A. Merrell, Joseph Churm, Henry Yorks. Washington township—McClellan Diehl. West Hemlock township—William N. Stettler.

TRAVELER JURORS. Anthony township—John Weller, Sr., W. C. Houghton, John Craig, William Ellis, Jr., Isaac L. Acor. Cooper township—Aaron Mauer. Danville, First Ward—Richard Egert, James Shultz, Charles Mills, Andrew C. Roat, Joseph R. Patton. Danville, Second Ward—Jacob Boyer, Jacob Deitz, William H. Morrison. Danville, Third Ward—Charles B. Chalter, Harry Salmon, Theodore Doster, Morris Lane, George Tilson, Horace Bennett. Danville, Fourth Ward—Frank Yeager. Derry township—William McQuain, James E. Pollock. Liberty township—Stewart Curry. Limestone township—Charles Wagner. Mayberry township—Z. O. Voight, J. M. Vought. Valley township—H. A. Sidler, Olinth Rhoads, Charles Ploch. Washington township—Lloyd Oromis, Thomas F. Kerwell, Daniel Wagner. West Hemlock township—John B. Sees, T. J. Betz, Francis Shultz.

READ ALL THIS. It is worth considerable to any citizen of Danville to know how to be cured of painful, annoying and itching piles. Know then that Doan's Ointment is a positive remedy for all itching of the skin, for piles, eczema, etc. One application relieves and soothes. Read this testimony of its merit: D. O. Williams, slater, of 294 Lower Market St., says: "I used Doan's Ointment some years ago and found it a most excellent remedy for the purpose for which it is intended. It is the only remedy I ever found which gave me permanent relief from itching piles, from which I had suffered for a long time. Anyone who has ever had piles knows what suffering I endured before I used Doan's Ointment. The burning and itching was almost intolerable night and day, and although I tried dozens of ointments, salves and suppositories I got no relief. I heard so much about Doan's Ointment that I procured a box. The first application gave me almost instant relief and in a short time I was cured. That was eight years ago and I have had no return of the excruciating affliction since. I recommend Doan's Kidney Pills highly." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Report on Bridge Approach. During an interview with P. G. Baylor, Supervisor of Gearhart Township, for the upper end, yesterday, it was learned that as things now stand Northumberland County will build the expensive retaining walls at the approach to the river bridge on the South Danville side, although it will be left for Gearhart township to do the filling up, which will be a big proposition in itself.

Mr. Baylor said that the report made by the viewers was in favor of the county building the two high retaining walls. The township, he said, it was understood, did not object to the filling up, provided they were relieved of the more expensive part of the work involved in the retaining walls. Mr. Baylor says that the report of the County Commissioners were empowered to proceed forthwith with the construction of the retaining walls. It was a matter of much surprise to him that the work was not begun several days ago.

He had a talk with the Commissioners of Northumberland County on the occasion of their visit to this city yesterday and reverting to the subject was informed that there was no likelihood of the work going on until the May term of Court, when the matter would be brought before the Grand Jury. The people of South Danville are much chagrined over the delay, as they are very anxious that the approach should be completed by the time the bridge is constructed or as soon afterward as is possible. Until the finishing touches are put on the approach travel over the bridge will be attended with considerable difficulty.

A Beautiful Memorial. A most beautiful piece of cemetery work in the form of a granite cross, five feet, five inches high, is near its completion at T. L. Evans' Son's monumental works of this city. It is a memorial to be placed over the grave of Frank S. Etheridge in Charles Evans' cemetery at Reading. It is constructed of the darkest and most sombre of granite that nature can produce. In design it is classic, in its outline emblematic of Frank's life and character. It will mark his resting place—simplicity, and true to his fellow men, beloved by all who knew him. Frank was formerly roller at the Reading Iron Works in this city and died in September of 1904. The beautiful memorial is the production of Frank's constant companion in life, Mr. Reinhalter and represents the finest and most polished workmanship in the city.

The man who impatiently awaits for "real summer" weather will be the first to complain of the heat.

City Planting a Forest. Los Angeles, Cal., has 3,000 acres of brush and land called Griffith park, which it intends to convert into a commercial forest. This will be done as the first instance of a city in the United States creating a forest. The practice is quite common in Europe, where the forest parks have not only contributed to the pleasure of the people, but have been more than self-supporting through their timber output.

Under its co-operative effort, the Bureau of Forestry had last summer at Los Angeles four of its experts making a comprehensive planting plan for the forest. The plan was completed at the end of September. What adds to the interest in the above proposition is the fact that Mr. Griffith, who presented the above-mentioned park to Los Angeles, was a "hambly boy and lived here for many years.

The man who impatiently awaits for "real summer" weather will be the first to complain of the heat.

DELIVERING POLES FOR RURAL PHONES

An act recently approved by Governor Samuel W. Pennypacker, prohibiting the sale or use of certain fireworks, firecrackers, explosive canes and ammunition, and providing penalties for the violation of the same, is the cause of quite a little comment among many of the wholesale and retail dealers in fireworks. The dealers feel that this new law will make material inroads upon their business on the Fourth of July, but all are ready to comply with it.

In this act only certain high explosives are attacked. It will be unlawful to sell fireworks and firecrackers containing picric acid, picrates; all explosive canes using chlorate of potash or other high explosive ammunition; all explosive canes using blank cartridges; all blank cartridge pistols, and all tablets composed of chlorate of potash or other high explosive compounds.

One portion of the law seems a trifle inconsistent, according to the dealers, from the fact that picric acid is used in enormous quantities in all the shops. This acid is used largely in the production of fireworks that make a whistling noise, such as whistling bombs. The acid was considered dangerous by those instrumental in passing the law, for the reason that if the acid gets into a wound or even the slightest abrasion of the skin and the wound is not immediately given proper medical attention it will cause tetanus, or blood poisoning and in some cases it is known to have caused lockjaw after only three days of inattention. As there are numbers of people injured on the Fourth of July, one can readily see wherein lies the danger.

There is one factory in Petersburg, Va., that relies almost entirely on this acid in the production of its manufactures. The concern has been doing an enormous business in the State of Pennsylvania, but with the passage of this new law the concern will either be compelled to sell its product in some other State or go out of business, as it made a specialty of whistling rockets and canes, and fireworks making a whirling, screaming and whistling noise. There is plenty of disappointment among the patriotic enthusiasts who get up in the small hours of the morning of the Fourth and celebrate until the last gun is fired. They will have to confine themselves for awhile to the use of display works, and the firing of cannon and firecrackers. But new inventions and clever ideas will take the place of the old and in future years the pistol will be a curiosity and will be looked upon the same as the high bicycle is now.

A Guaranteed Cure For Piles. Itching, Blind, Bleeding or protruding Piles. Druggists refund money if PAZO OINTMENT fails to cure any case, no matter of how long standing, 6 to 14 days. First application gives ease and rest. 50c. If your druggist hasn't it send 50c in stamps and it will be forwarded post-paid by Paris Medicine Co., St. Louis, Mo.

Trout Season Opens Saturday. Trout fishermen are getting ready their tackle for the opening of the season on Saturday and men have been springing out the streams for a week or more. It is said that the weather has made fish lively and that the indications are good in various small streams near this city.

In the central section of the State, Centre, Clearfield and Clinton counties, are much sought by trout fishermen. Wonderful luck usually attend the angler in Centre county, where fish are sometimes caught even in the heart of Bellefonte, the county seat. There is good fishing at Paddy Mountain, Oak Hall, Coburn, Centre Hall, or any of the stations along Logan's creek. Buffalo Run, parallel by railroad line from Bellefonte, is even better, while Laurel Run, Moshannon, Black Bear, and Six Mile creeks are usually teeming with fish. In fact, one finds splendid trout streams in every direction.

Among Clinton county's famous streams are Sinnamahoning creek, the best fishing part of which, however, is in Cameron county; Kettle, Drury Run, Paddy's Run and Young Woman's creek all within a few miles of each other, east and west of Renovo, on the Pennsylvania Railroad. For two years the Pennsylvania Railroad has been restocking Clinton's streams. Last season 100,000 young fish were turned loose in them, and as many more will be placed there this year. Fishing along most of these streams is considered almost ideal. They are wide, with scarcely any brush upon the banks. Furthermore, wading is easy. Scarcely any one goes bait fishing in these waters, where it is a delight to cast the seductive fly. It is estimated that at least 500,000 young fish have been deposited annually in the waters of Centre, Clinton and Clearfield counties during the past six years. Each county has at least two associations for the protection of fish and these have been very active.

Birthdays. A surprise party was given at the home of Mr. and Mrs. John F. Montague, Saturday evening in honor of their daughter, Yinnie's birthday. Refreshments were served and a most enjoyable evening was spent. Those present were: Mr. and Mrs. William Hendricks and children, Albert and Mabel, Mr. and Mrs. James Hendricks, Misses Alda Gough, Hattie Hartman, Mary McKenna, Anna Coleman, Lizzie Hartman, Margaret Willett, Olive Smith, Cora Col. Montague, Charles Williams, Roy Montague, Grant Swayze, Frank Swayze, Harry Carolsky, Paul Reich, Russell Gibbons, Charles Slesler, John Evans, Arthur Weaver, George Green, Frank Willett, G. O. Riedel, Harry W. Ruman, Harry Montague and Ivin Lloyd of Wauwama.

Frightful Suffering Relieved. Suffering frightfully from the violent pains of undigested food, C. G. Grayson, of Lila, Miss., took Dr. King's New Life Pills, "with the result," he writes: "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at Paules & Co.'s drug store. Guaranteed.

Exchange Officers Installed. The officers of the Exchange and Derry Lodges, I. O. O. F., were installed at Exchange Saturday evening by the district deputy grand master, Dr. Jno. Sweeney. Dr. Sweeney was accompanied on the trip by John Fost, Robert R. Richardson and D. O. Williams.

CERTAIN FIREWORKS ARE FORBIDDEN

A number of poles have already been delivered on the ground in the vicinity of Strawberry Ridge while an order for five hundred more has been placed by the People's Telephone Construction Company which is now ready to proceed with the construction of the two lines under contemplation. The Company is also arranging for the purchase of several thousand pounds of wire and other needed material.

The work of building will be given out by contract. Everything now is in readiness and all that are needed are the bidders. The lines assured are as follows: One from Washingtonville to Exchange by way of Strawberry Ridge, with two central offices, one at Exchange and the other at Washingtonville. Another line will extend from Jerseytown to Exchange by way of White Hall. Success is assured by the large number of subscribers that have already been secured, while the sale of stock still goes on merrily.

Daring an interview yesterday Mr. Pettijohn said that the sentiment is rapidly growing and that the outlook is most encouraging, indicating not only that they will be able to complete the several lines throughout the northern and central part of the county originally contemplated, but also to extend the system to Danville and even eastward and southward beyond here into adjoining counties. The People's Telephone Construction Company has received requests to bring its system to Milton, to Hughesville and to Millville. It is also assured of the hearty co-operation of the United Telephone and Telegraph Company and an agreement has been entered into between the two Companies by which the rural system is to have the use of the poles of the United Telephone and Telegraph Company between Washingtonville and Danville, all that is required being that the new Company furnish its own wire.

The objections to a rural line at first encountered have been nearly overcome by the promoters. Some persons thought that it might lead to the displacement of rural free delivery, while others foresaw in the wires a source of danger during the prevalence of thunder showers. A little reading up has convinced most people that in either case fears are unfounded. In regard to the latter every electric railway and every telephone system in operation stands as an object lesson to show how seldom if ever accidents occur either from the electricity in use or from the lightning when thunder storms occur.

A Night Attack. Last night the little daughter of Mrs. Brown, as she sweetly and peacefully slept in her little bed near the window, was attacked by a death-dealing demon known as Group Whooping Cough, and but for the timely use of Kennedy's Laxative Honey and Tar, which she always keeps handy, the life of the little one might not have been saved. Kennedy's Laxative Honey and Tar is different from all of the old-time cough syrups and is best for children because it acts on the bowels, is harmless, safe and certain. Contains no opiates. Sold by Paules & Co.

Surprise Party at Maudsdale. A surprise party was tendered Mrs. Willis H. H. at her home in Maudsdale, Saturday, in honor of her birthday. Those present were: Mr. and Mrs. Robert Farnsworth and children, Laura and Robert Jr., Mesdames Levi Fenstermacher, T. J. Lokenbill, Edward Frazer and son Luke, F. P. Appleman, J. A. Merrell and son Edwin, Gilbert Koop, E. E. Ronn, A. Snyder and sons Curry and Dennis, A. A. Beyer, L. V. Beyer, Jesse Conaway, T. H. Bennett and son Harvey, C. K. Kint and son Clifton, W. S. Lawrence, W. N. Ope and daughter Clara, James Robinson and daughter Penna and Frank Sandel of Berwick; Misses Mazie Fenstermacher, Christiana Frazer, Lettie Merrell, Mary Merrell, Maggie Thomas, Ada Aude, Mary Beyer, Rachael Fenstermacher, Jennie Kindt, Laura Fenstermacher and Ida Moser, of Limestoneville.

The Right Name is DeWitt. DeWitt's Witch Hazel Salve cures, soothes and heals cuts, burns, boils, bruises, piles and all skin diseases. K. E. Zickelose, Adolph, W. Va., says: "My little daughter had white swelling so bad that piece after piece of bone worked out of her leg. DeWitt's Witch Hazel Salve cured her." It is the most wonderful healing salve in the world. Beware of counterfeits. Sold by Paules & Co.

One Minute Cough Cure contains not a atom of any harmful drug, and it has been curing Coughs, Colds, Croup and Whooping Cough so long that it has proven itself to be a tried and true friend to the many who use it. Sold by Paules & Co.

A Daredevil Ride. Often ends in a sad accident. To heal accidental injuries, use Booklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Booklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at Paules & Co., druggists.

Bear to Address Miners. It is stated that President Bear, of the Reading Companies, will close the winter series of lectures to mine workers at Shamokin by delivering the final one himself. It has not yet been given out as to the date, but it will likely be in the near future.

Forget About Your Stomach. If your digestion is bad the vital organs of your body are not fed and nourished as they should be. Kodol Dyspepsia Cure digests what you eat, cures indigestion and all stomach troubles. You forget you have a stomach from the very day you begin taking it. This is because it gets a rest—recuperates and gradually grows so strong and healthy that it troubles you no more. Sold by Paules & Co.

HOUSE LIFTED FROM FOUNDATION

April 10th is a pretty early date for a heavy thunder shower, but we had one Monday of the regulation mid-summer sort. For awhile it was so dark that lights had to be lighted in dwellings, while the wind blew with almost cyclonic fury and the rain came down in torrents; the lightning was blinding and the thunder at times was quite loud.

The shower covered a wide area and much damage is reported. At Stillwater, Columbia county, the barn of Dr. Stoker was struck by lightning and burned to the ground. Two fine horses and three head of cattle were burned with the barn, along with mowing machine, hay rake, cultivator and a large quantity of hay and grain. One horse and 12 head of cattle were saved. The barn was a large one, 70x50 feet. There was a small insurance.

The barn on the farm of G. M. Shoop, situated about three miles from Washingtonville was partly roofed by the storm. Many fine trees as well as fences were blown down at different points. At Briarocreek a number of telegraph poles were leveled to the ground, and the service interrupted for several hours.

At Washingtonville a portion of W. J. Messersmith's furniture warehouse was unroofed. At the Fourth Ward school building, this city, the large flag pole was blown down. A very remarkable phenomenon in connection with the storm was witnessed in Danville, which was nothing less than a gigantic waterspout, that formed on the river just above the bridge and at nearly express train speed were sweeping up the stream. It seemed to be a column of water nearly forty feet high and as it whirled along in rapid rotation the water at its base was violently agitated and heaped up with a leaping or boiling motion.

At the foot of Iron street Benjamin Sommons is building a new house, a two and a half story frame structure some 25x40 feet. The sides are already planked and the rafters in position. Reaching a point opposite Iron street the cyclone left the river and making a bee line for Mr. Sommons' new dwelling lifted it bodily from the ground raising it several feet and then set it down again on the same foundation. It was a most fantastic trick for the elements to play, but the oldest part of it is that none of the timbers of the house are broken, although the whole building is badly jammed. It is a question whether the house can not be fixed up at little expense so that building can resume.

The cyclone passed on and after appearing a tree a short distance above it rooting a tree a short distance above it went out on the river where it gradually lost its force.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had Kidney Trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." Paules & Co., druggists, guarantee them at 50c.

No Smoking in Waiting Room. Persons addicted to smoking will have to eschew the weed while about the waiting rooms or the platforms of the P. & R. depts, hereafter. Stationmaster P. H. Fost has received an order from headquarters requesting that the "no smoking" notices hereafter be strictly enforced. Many of these notices, it seems, of late years have not been strictly observed. Even in the waiting rooms, when no ladies were about, it seems, by common consent the habit of smoking is indulged. All this will be different hereafter. Cigar and pipe will be uncompromisingly banished. Ladies or no ladies, hereafter the least suggestion of smoke whether it be of the odor or the smoke itself will not be tolerated about the waiting rooms.

The Philadelphia and Reading Railway Company is also waging a relentless war on cigarettes. A decree has been issued by the company that is far reaching and bars the "coffin sales" on all sides. Hereafter the sale of cigarettes is prohibited either on its trains or at the stations. It goes further and prohibits the use of the cigarettes either on trains, in the stations or upon the station platforms. An order has been issued to the Union News Company prohibiting the sale of cigarettes on any railroad property. The war on cigarette funds will, it is said, be waged over the entire system.

A Tried and True Friend. One Minute Cough Cure contains not a atom of any harmful drug, and it has been curing Coughs, Colds, Croup and Whooping Cough so long that it has proven itself to be a tried and true friend to the many who use it. Sold by Paules & Co.

Maudsdale Man in Bad Upset. Nicholas Overreider, who is employed at Wise's Hotel, Maudsdale, was painfully, and possibly seriously, injured yesterday afternoon, by being thrown beneath a heavy cattle wagon, that upset on the gravel bank near the entrance to the old fair grounds. Mr. Overreider was in this city yesterday, and upon starting home was able to catch a ride with a farmer, who was taking a large cattle wagon in the direction of Maudsdale. Near the gravel bank school house the horse took fright at a traction engine, a horse becoming unmanageable, dashed up the steep bank that bordered the road at this point. The wagon was upset, and Mr. Overreider was thrown from his seat and fell beneath the heavy vehicle, where he lay pinned to the earth until assistance could arrive. Mr. Overreider was taken to his home in Maudsdale and Dr. Shultz was summoned from this city. He found the injured man suffering greatly from the shock of the accident, and badly bruised especially about the right hip. It is possible that internal injuries may develop.

ASSESSORS BEGIN WORK TODAY

The Assessors throughout the county will begin their work today. On Saturday the County Commissioners were busy giving out the books, which with but one or two exceptions were called for by the officials.

The Assessors' returns will be made early in May. For the townships and Washingtonville Borough the appeal will be held on May 10; for Danville the date of appeal is fixed for May 15th. Under the provisions of the school law at present the assessor is obliged to carefully obtain a list of all the children in the ward or township between the ages of six and sixteen years. It is very essential that no omissions occur in the list of children between the above ages, as it is upon these, the number of teachers employed and the number of taxables in a district that the State appropriation is based on equal proportions. That errors do creep in is evident enough, as it frequently occurs that more pupils turn up on the school register than have been returned by the assessor as between the school ages. Since such errors are costly to the district the necessity of exercising care in this relation is obvious.

There is another column in the assessors' book which proves invaluable to the teachers and that is the one in which is recorded the date of the pupils' birth. When this column is properly filled out the teacher can at a glance tell whether or not a boy or girl has arrived at an age which would permit him or her to leave school, while as it too often the case when there has been neglect and the date of birth has not been recorded, the teacher may be imposed upon by pupils who wish to leave school before their time and choose to misrepresent their age in order to gain the teachers acquiescence.

Last Hope Vanished. When leading physicians said that W. M. Smithard, of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for Consumption, Coughs and Colds, kept him out of his grave. He says: "Great specific completely cured me, and saved my life. Since then, I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for Coughs, Sore Throats or Colds; sure preventive of Pneumonia. Guaranteed, 50c and \$1.00 bottles at Paules & Co's drug store. Trial bottle free.

Meningitis Still Spreading. Although no cases of cerebro-spinal meningitis have yet developed in Danville since the outbreaks reported in many other places the doctors of this city are watching the spread of the disease. They are also studying up the peculiarities of the disease in order to successfully combat it if there should be an epidemic here. None of them anticipate such a condition, however. Spinal meningitis or spotted fever has made its appearance in Wilkesbarre and the first victim is a young man named Lee Deming. Shepton, a little town near Hazleton, is in the throes of spinal meningitis. The first death has occurred and another victim is in an extremely critical condition. The sanitary condition of the town to all reports is awful and owing to a strike among the laborers on the roads there is no likelihood of their being put in better condition at present.

From the appearance of certain spots on the skin during the course of the disease it has been called spotted fever. This name was given to an epidemic which prevailed in New England in 1807. The disease usually begins with a chill, followed by great vertigo, violent headache, obstinate vomiting, and muscular stiffness, which soon passes into tetanus. The face is pale, the pupils of the eyes dilated, and the skin exceedingly sensitive. The head is strongly drawn back, even at the end of the first day. A peculiar eruption usually appears on the skin, composed of distinctly dark red or purple spots, somewhat larger than a pin's head. They are not raised above the surface, and do not disappear from pressure; sometimes they do not become visible after death.

The members of the State Board of Health advise strict quarantine in cases of cerebro-spinal meningitis. Precautions, such as isolation and fumigation, will be taken in cases of this disease in the future and when the malady has a fatal termination, private interment will be observed. Although grown up persons are liable to the disease, it is more common among children, who are very susceptible to attack.

To Cure a Cold in One Day. Take LAXATIVE BROMO QUININE TABLETS. All druggists refund money if it fails to cure. E. W. Grove's signa ture is on each box. 25c.

New Iron Fence. Councilman John R. Hughes has added a handsome iron fence to the improvements at his cozy home on Bloom street. The fence is quite in keeping with the flag stone pavement and ornamental porch recently installed.

BURGLARS ROUTED BY CONSTABLE

An evident attempt at burglary was cleverly frustrated by Constable Bruce McCracken at South Danville Saturday night.

Five men whose appearance was by no means prepossessing were observed loafing about South Danville Saturday and for several days previously. During Saturday a couple of the merchants became convinced that the men were crooks and called the attention of Constable McCracken to their presence asking that he keep an eye on their movements if possible.

About 2 o'clock Saturday night the Constable, who is a night operator at the Pennsylvania station, stepped out on the platform when he was informed by a man who came over from Danville that some men were acting suspiciously in the vicinity of the sheds at the approach of the bridge where the contractors keep their tools.

The fact seems to be that the men were trying to burglarize the tool house and had placed one of their number up on the railroad as a sentry. The Constable stealthily proceeded to the spot and the first thing that he knew he was between the man on guard and the others at work at the tool house. Mr. McCracken taking in the situation, in quick succession fired several shots over the would-be burglars' heads who instantly took to their heels and ran in the direction of the bridge. The Constable called to the men to stop and fired several other shots after them, but did not hit them. The last seen of them they were scampering over the bridge toward Danville.

An investigation showed that they had broken open a large chest and abstracted a valuable brass injector and brass lubricator. On the bridge was found a large child evidently dropped by the men, which had been used in forcing the chest open. Near the chest were found the brass injector and lubricator lying on the ground. There is little doubt but that the men, had they not been frightened off, would have had several burglaries to their credit in South Danville before morning.

Won a Name of Fame. DeWitt's Little Early Risers, the famous little pills, have been made famous by their certain yet harmless and gentle action upon the bowels and liver. They have no equal for biliousness, constipation, etc. They do not weaken the stomach, gripe, or make you feel sick. Once used always preferred. They strengthen. Sold by Paules & Co.

Death of Peter Bright. Peter Bright, one of Sunbury's best known citizens, died about one o'clock Saturday afternoon. About two weeks ago Mr. Bright suffered a stroke of paralysis and although everything known to medical skill was done to relieve his condition he gradually grew worse until death ensued at the time above stated. For many years Mr. Bright was one of Sunbury's most prominent merchants, conducting a shoe store located on Market street, and always took an active interest in the progress and welfare of Sunbury. Several years ago he retired from business. He was a descendant of one of Sunbury's most prominent families. He is survived by his wife, one son, B. F. Bright, Jr., assistant train master on the Sunbury division, two daughters, Mrs. George Neff, of Sunbury, and the second daughter, formerly Mrs. Yeager, now a resident of Wilkesbarre.

TO ACCOMMODATE those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.

Will Soon Operate. It is expected that in a few days the Pennsylvania Paper Mill at Catawissa will begin operations. The starting of the plant has been somewhat delayed by the fact that several of the important parts of the plant's machinery were in wrecks, necessitating their return to the manufacturers to be duplicated. The first part of the plant to begin operations will be the liquor making department.

Ayer's Sarsaparilla. When the nerves are weak everything goes wrong. You are tired all the time, easily discouraged, nervous, and irritable. Your cheeks are pale and your blood is thin. Your doctor says you are threatened with a nervous breakdown. He orders this grand old family medicine. For more than 30 years I have used Ayer's Sarsaparilla in my family. It is a great tonic for all ailments, and a wonderful medicine for impure blood. Dr. J. C. Ayer, Lowell, Mass. 25c a bottle. All druggists. J. C. Ayer & Co., Lowell, Mass.
