Danville, Pa., April 13, 1905.

Announcement.

I hereby announce myself as a candidate for County Commissioner, subject to the decision of the Republican County Convention.

CHAS. W. COOK, of Valley Township.

MINOR MATTERS

J. V. Gillaspy yesterday in getting ready for street paving tore up the cobbled gutter in front of his hotel at the stration. On the contrary there was a corner of Mill and Front streets. On commendable degree of enthusiasm this cobbled gutter hangs a tale, Mr. Gillaspy being in possession of reliable information which shows that it was the first cobbled gutter laid in Danville. The late Benjamin Rhodes. Esq., whose father owned a property on the present site of the hotel in 1829, is the authority. Mr. Gillaspy, who has owned the property for much over thirty years, puts full confidence in the statement. He says the gutter underwent no changes during his ownership and thinks it may have lain for seventy to seventy-five years. The gutter was no doubt well-enough laid, but the stone selected were of a heavy ungainly sort which would hardly be used for such purpose at the present

P. C. Murray & Sons are scaffolding the front of their store building preparatory to putting on paint. The entire structure, which has become dingy is to be repainted and penciled, after which the awning, a substantial wooden one with iron posts, extending the torn down and removed. It is rumored that several other awnings on Mill street will come down this summer. Murrays expect that the removal of the awning will give them much more light in their store and this is one of National Bank, also heartily favored for the entertainment of the Conclave, the advantages that all could count on the idea. "Riverside and South Dan- and the members of this famous Comin getting rid of the unsightly obstructions in front of their stores.

There are too many defective pavements about town, where loose bricks or what is worse, probably, none at all, add to the discomfort of pedestrians. It is hoped that the Committee on Streets and Bridges of Council will look up the defective sidewalks and that Council will take hold of the matter in a way that will insure speedy repairs.

. . .

Apropos of the unsightly condition of the bottom of the caual the suggestion is again made that the old ditch be planted with sun flowers. By taking it in time, it is said, a good crop of these could be secured the present summer. What would be good for the canal under the circumstances would also be a remedy for the river bank claring themselves in favor of the celewhere conditions are about the same.

RUSSIAN AND JAP

AMSTERDAM, April 12. - The Handelsblad has received a telegram from Batavia, Java, which says that a fight is in progress between Japanese and Russian vessels near the Anambas Is-

Details regarding the reported action are lacking.

There is no confirmation of the re ported fighting. The battle may be an attack by destroyers on stragglers. Five Dutch vessels are reported watching the battle.

The Anambas Islands, where it is reported the battle between the two fleets is in progress, are located in the Southern part of the China Sea about 200 miles northesast of Singapore. A portion at least of the Russian

fleet was reported yesterday as being Manki, one of the Anambas group. Yesterday's reports also told of severof the China Sea. Whether these ves- railroad bridge at Rupert is in alto- stalks are making their appearance in tracts being let to outsiders. sels were merely scouts or a part of the whole fleet is not known.

If Togo's entire fleet has attacked the Russian, probably the greatest naval battle of modern times will be fought at this time. In London there is a belief among many naval experts, however, that the attack may be one by destroyers on stragglers from the Russian fleet. If the attack is general it is believed the battle will be decis-

WASHINGTON, April 12 .- "Wheth er Russia or Japan shall be the victor in the far east war depends in my opinion, upon the result of the battle about to occur between the fleets of be lost in making preparations. Admiral Rodjestvensky and Admiral Togo," said Admiral Dewey, in speak-

ing of the present struggle. "If Togo is beaten," he continued "all the money and the lives that have been spent by his country in Manchuria will go for nothing. The Russians, in command of the sea, would ter could saf ly be left in the hands of cut off communication between Japan and the main land and the Japanese army in Manchuria would be power-

Admiral Dewey has been following the naval campaign with intense interest not only because its scene is that in which he gained his renowned ed in the proposition. victory but of lessons which it is furnishing and which will be of the greatest value in the development of the American fleet. During the war with Spain Admiral Dawey was placed in

much the same position as Togo. "Think what Japan would give for two or three battleships at this critical moment." exclaimed the admiral. "Her national safety would be secure. This is a thing we should take to big celebration that will do the town heart. We have done much in a mil- oredit. itary way to protect ourselves. What we must do now is the complete arming of ourselves upon the sea.'

The crack of the ball on the bat and the sonorous yell of the umpire are already heard in the land.

DEMONSTRATION

That a sentiment exists about town sort to signalize the completion of the river bridge has been pretty evident for some time past. Whether any opposition to a demonstration would be likely to engender was not known. To ascertain whether the sentiment in favor of celebrating the opening of the bridge was anything like unanimous a representative of this paper Friday called upon a large number of representative people for the purpose of obtaining an expression of their individ-

There was not one person who went on record as unfavorable to a demondisplayed, and the question did not not there should be a demonstration as do full honor to the splendid improvement embraced in the river bridge. Our townspeople seem fully alive to the fact that Danville has one of the finest bridges in the State-certainly the finest ever erected by the State. There was scarcely a man approached but had something original to advance | tion. -practical suggestions that would be has been deemed advisable, therefore, to quote a few terse remarks from each of the men interviewed. It was impossible to see all the men sought for in yesterday's tour of the town and it is a matter of regret therefore that a good many names are absent from the list who are among our public

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indiges-tion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D. Kauble, of Nevada, O., says: I had stomach rouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four
